Speckle Park Sale

APRIL 5, 2022  
VIRDEN, MB  
HEARTLAND LIVESTOCK  
1:00 PM

# From the desk at T Bar...

Welcome to the second Annual Prairie Gateway Speckle Park Sale, on April 5, 2022, at Heartland Livestock, Virden, Manitoba. Prairie Gateway is the largest source of Speckle Park genetics in the Eastern Prairies and the source of high-quality breeding opportunities for cattlemen in Canada and worldwide.

The offering comes to you complete... yearling bulls ready for service, yearling females for replacement pastures, semen packages for your 2022 breeding needs and futuristic embryos. The diversity of the genetics and the low-birth-weight factor gives breeders and commercial producers alike a wide selection of breeding options.

The Wilcox family feature an exciting line up of progeny by Wolf Lake Fred 43F and included in this sire group, a son on the Reserve Champion Female at the 2021 Brandon Ag Ex.; Calico Creek offer the progeny of Silver Tip Great Leader and the feature ET bull "Jim Beam." Graham Creek Ranch offers the first sons by River Hill Gustov, complete with a bull development program. Sauter's offer progeny by Eye Opener and Grayson and Skyline Farms offer the first sons of Andchris George, while Rocky Rhodes Ranch offer their first consignment to this event.

In this rapidly growing breed, full of exciting opportunities, Prairie Gateway must be on your seed stock selection calendar. Plan to stop by any of these progressive outfits prior the sale and preview their offerings. The cattle will be available for viewing at Heartland the day prior.

Plan to be with us on April 5th at Virden for Prairie Gateway, whether it be in person, online or on the phone. We have graded the offering, so feel free to give any of the T Bar C team a call and we will be pleased to assist you in a professional and confidential manner with your selections.

## Terms & Conditions

**TERMS:** The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

**CERTIFICATE OF REGISTRATIONS:** Each purebred animal will carry papers issued by the Canadian Speckle Park Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

**PEDIGREE ESTIMATES:** Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

**HEALTH:** All animals in the sale have met all necessary health requirements.

**GUARANTEE:** All sellers and buyers of Speckle Park cattle in this sale are expected to be knowledgeable of and to abide by the Guidelines for Seller and Buyer Expectations and the By-laws of the Canadian Speckle Park Association. These documents are available from the Association's office.

**PREGNANCY INFORMATION:** All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

**LIABILITIES:** All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

**DELIVERY:** Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold. Buyers are responsible for all costs involved with shipping of semen and embryos.

**PHONE, MAIL, WIRE BIDS:** Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

**INSURANCE:** We strongly recommend that insurance is purchased for full value.

**ERRORS:** All announcements at sale time, written or oral, supersede any written material in the catalogue.

**IN-HERD SEMEN:** Consigners reserves the right to draw any semen on any of their sale offerings for in-herd use only. This will be at our expense and drawn in the off season.

Welcome to the second annual Prairie Gateway Speckle Park Bull and Female Sale. We are very excited to be working with this great group of consigners again. We would like to first thank last year's bidders and buyers; your support means a lot! We are extremely proud and excited about our offering this year. Our bulls and heifers can be viewed on farm before the sale and videos will be available online again this year at [cattlevids.ca](http://cattlevids.ca).

With our upmost thanks,

**The Wilcox Family**

**BW: 70 lbs. Jan. 15 WT: 1250 lbs.**

Hugo is an off-age bull that we feel is special. He was orphaned at a young age but has really succeeded. Hugo has that herd bull look to him. He's smooth shoulder with lots of depth of body and thickness. He would work well on both heifers and cows. His dam was a well-built female that left behind some good producing females. His sire is a Butane son out of the 01A cow that we have at our place now. She is a beautiful made female with an excellent udder.

John is a feature bull with some added performance, a mid March calf that stands with the older bulls in the pen. He's a smooth made bull that moves out well. John is a long-bodied bull with a thick top. This group of Wolf Lake Fred calves have developed nicely. John's dam has a good track record, she's the dam to Belmoral 6F bull that we have offspring of in this sale. We sold a heifer in the homecoming sale to MPF Speckle Park.

# Calico Creek Speckle Parks

Welcome to the second annual Prairie Gateway sale! Thank you goes out to all those that supported us at last years sale, viewers, bidders, and buyers for making it a huge success. Thank you also to all the consignors for bringing a great offering to the sale this year, with such a vast variety of genetics on offer we will have something for everyone. With the dry summer, harsh winter and numerous other challenges thrown at us cattle producers this last year, we have had to adapt, as have our cattle. The adaptability and hardiness the breed offers is truly amazing, that combined with the quality of meat that is second to non is what is launching the Speckle breed into the mainstream. If you haven't already got into the breed the time is now!

Thank you,  
**Landon**

# Graham Creek Ranch

Greetings from the Graham Creek Ranch

Welcome to the Prairie Gateway! With utmost sincerity we would like to thank all of the great people that bid on and purchased with confidence in our first ever Prairie Gateway Speckle Park Sale last spring. We are truly honoured to have the support from those that have an eye for good cattle and can see the benefits of Speckle Park. Our bulls have been developing nicely and we are equally as happy with our heifers that will be on offer. Our main objective in our program is to influence good performance, maintain the important maternal traits while keeping them correct. Right, wrong or otherwise these calves see absolutely no creep ration while with their mothers so I think you can appreciate them for what they are. As I sit here and think about the past year I am in disbelief of how fast it has flown by. What a year it has been and I am proud of our culture and the tough, resilient folks that represent it. May our pastures be green and our water supplies be brimming over in the months ahead. This year's sale is stacked with quality and I would like to congratulate our partner's and guest consignor's on the extraordinary offering of top quality genetics that have been put together. We came through a tough year and it was a good reminder of how important the efficiency of the cow herd really is. If your pasture's had Speckle Park or Speckle cross in them you will understand fully the importance. Cheers to the good times ahead and if we can answer any questions on the offering please do not hesitate to call or stop by.

This bull has no need for a pedigree introduction and is a combination that McAleer's put together using Cause N Effect 309C with Spots 'N Sprouts 14X. The stamp Cause N Effect is putting on the breed is becoming more and more prevalent as time goes by. This Justice bull is an absolute powerhouse packed with performance and eye appeal. Very good scrotal development and his added length is balanced nicely with his wide top and extra depth. The kids took his full sister to town last fall and she won her class at Brandon's Ag Ex. We are retaining the right to draw semen on this bull for our use at the buyer's convenience.

Excellent fertility and great disposition come to mind right off the hip with this Jagger 12J bull calf. We think very highly of his dam and we have flushed her twice now for these reasons. A half-brother sold to Taylor Ranching at Gainsborough last year. The bottom end on these bulls is laced with the maternal characteristics to create top heifers for the replacement pen. We paired 77F with our River Hill Gustov 963G sire to maintain those characteristics and add some more style and performance. We did just that.

BW: 84 lbs. 216 DW: 630 lbs.

Here's a bull off of a standout angus cow from SF Angus. Smooth made cow with a ton of femininity. 254J will cover a lot of females when he matures with his natural athleticism, add some colour to some calves and keep some black. His sire, Graham Creek Francis 61F is used predominantly on commercial black cows for his ability to create the best commercial heifers and cover a big number of cows.

# Second Chance Speckle Park

Life rarely goes as planned, but as cattlemen and women we persevere, we plan, we dream and we look forward to the new calf crop and what it means for our programs. With new breeders both in Canada and the United States we here in this little corner of the world are in a great position to move this exciting breed ahead. Quality animals, both male and female will always be in demand. We are thankful to the vision and support of the organizers of this sale and look forward to being a part of it for years to come.

# Skye Line Farms

We are very excited to be a part of the Prairie Gateway Speckle Park Sale 2022 and would like to thank all our fellow consignors, organisers and T bar C for inviting us to be part of this great sale!

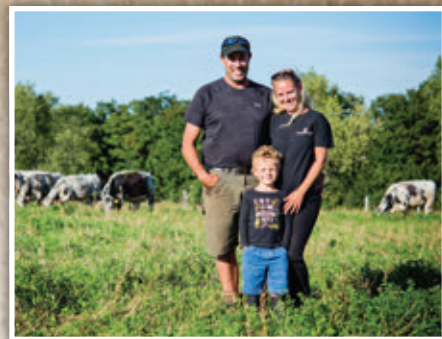

We would like to take the opportunity to thank all the Speckle Park breeders that have helped us along the way to make our dream of raising Speckle Park cattle become a reality.

We run a traditional family farm with around 50 head of Speckle Park cattle. In our breeding program we aim to build a herd with high milking ability, good udders, thick bodied, deep framed and prolific cattle. We have been impressed with the characteristics of this breed with easy calving, great forage conversion and excellent temperament for easy keeping.

Our aim is to provide consistently good quality cattle from great genetics and proven bloodlines with a blueprint to play some part towards the progressive development of this unique breed.

The consignments offered today are from some amazing lines, balancing old with new genetics, and following the milky, great structured cow families, crossed with the very best sire lines.

Please do not hesitate to contact us with any queries and look forward to a great sale!

 55J is a feminine female that has a great temperament, is well balanced, and has good thickness and depth. She really is just a well-rounded female. 55J's dam had the high selling bull last year purchased by Benjamins Farms Ltd Ontario. She is the nicest phenotypical cow in our herd.

This heifer's dam, Brownie, is one of my never miss cows, regardless of the bull I use on her. This is the third year straight that she has produced my lead off sale heifer, with last years daughter topping the sale and going to work in the Skyline herd in Ontario. JuJube is a brood cow in the making.

44J is another feminine heifer that is built right. We saw her Dam River Hill 60A Eye Appeal 44E as a calf at Agribition and really liked her. When we saw the opportunity to purchase embryos off 44E we took it. So this one bites a little offering her up for sale. Proof that we are bringing two of our best. This is an opportunity to take a tremendous purebred female home.

Steam Roller is a performance orientated bull that has good length, depth and thickness of body. We purchased him as the lead off and high selling bull in last year's Leading-Edge Bull Sale. His dam is a donor at INC Cattle Company, and she is a heavy milking female that has an exceptional udder. Steamroller was slapped Reserve Grand Champion bull at Manitoba Ag Ex this past fall. His first calf crop is hitting the ground as I write this. Its early to tell but there are some promising looking calves. Check out our Facebook page for offspring pictures before the sale.

**Semen is qualified for Canada USA and Australia.**

**Stored at Bow Valley Genetics.**

**This is the only semen available for 2022 breeding season.**

"Zip" as he is affectionately known, is a direct son of CAJA ZEPPELIN, and out of the CODIAK PUTNAM daughter White Acres Katie. He is Royally bred and has a pedigree that consistently breeds quality offspring. His dam sold at the Mt Eccles dispersal sale (November 2019, Australia) for \$22,000 and his full sister sold at the same sale for \$18,000. Zip is smooth made, sound footed and has great structure. He has an outstanding temperament as well. Zip is Myostatin Free, Homozygous Polled and Homozygous Black. He is safe to use on heifers. Zips calves are exceeding our expectations.

# Prairie Bell Speckle Park

Established in 2010 with the gift of a speckle park heifer to their grandson Cagen, Prairie Bell Speckle Park was formed. Mom, Kat, and Cagen work alongside Grandma Darla (Second Chance Speckle Park) to bring a quality and consistent herd of speckle park cattle to the Prairies. A passion for family and farming keeps us pushing forward and we are excited to be part of the Prairie Gateway sale again this year.
