EXPORT:

We will attend to and assist with all necessary health testing, vet examinations, paper work and obtaining state permits associated to export animals. A \$300 (CDN) charge per animal will be paid by the purchaser at the time of settlement for their purchase. Delivery assistance provided to get your bull(s) to your ranch.

DELIVERY OPTIONS:

Purchaser's unable to take their bull home on sale day may leave the bulls at the respective consignors farms until required. Bulls will be looked after free of charge until April 15th, after which there will be a \$2/day charge. Delivery will begin shortly following the sale at the buyer's and seller's convenience. FREE Delivery within 100 miles; please make delivery arrangements with your bull's consignor(s). All bulls returning home must be insured. Insurance will be available on sale day. \$100/bull rebate on bulls taken home sale day.

FERTILITY:

All bulls will be scrotal measured and semen tested prior to sale day. All animals will carry the standard breeding guarantees, as specified by the Canadian Simmental Association. At no time shall the seller's liability exceed the purchase price of the animal.

afternoon
until the start
of the sale

From The Desk At T Bar...

Welcome to the 16th Annual "Proudly Western" Simmental Bull Sale, on March 19, 2022, at the Whitewood Auction Mart, Whitewood, Saskatchewan. This group of prominent breeders proudly present a powerful lineup of fifty-seven yearling and two-year-old Red, Black and Sim/Angus herd bull prospects for your evaluation. Over the past years "Proudly Western" has proven the strength and quality of their programs supplying herd bulls for purebred breeders, farmers, and ranchers alike.

The folks from Scissors Creek feature three red flush brothers out of the great 609U donor and Captain Scream... great sires in the making... complete from all angles. But let's not overlook the offering of sons by Black Wheatland Bull 8146F... as uniform and complete in body type and quality. As you view the Scissors bulls take note of the calving ease and performance that these bulls offer.

Evan from Sunrise each year offers a feature bull or two. Check their three prospects... all are out of prime donor females that have proven highly successful in producing herd bulls.

Terry and Loretta from Flying TL offer a powerful lineup of coming two-year-olds. These April and May born bulls supply the factors and traits which make the Simmental breed sought-after. The two's will cover more cows, bigger cows, and more ground. Their performance numbers are right, almost all homo polled, and they come to you with optimal birth weights.

The Triangle 33 offering is red and good. Sons of the predictable breeding Advance bull... these bulls are deep bodied, rugged, with plenty of hair, testicle, and homo polled. Do not overlook the powerful Frank sons in the offering.

"Proudly Western" needs to be circled on your calendar. What a great group of bulls from end to end. The past track record of these breeders ensures that you will acquire solid genetics combined with great customer service. Feel free to stop by any of these herds and preview the bulls in their natural environment or give these leading breeders a call to discuss their offering.

Plan to be with us for "Proudly Western" on March 19th whether it be with us in person, online or on the phone. We have graded the entire offering so feel free to give any of the T Bar C Team a call and we will be pleased to assist you in a professional and confidential manner with your selections.

Scissors Creek Cattle Co.

Well what a year 2021 was....covid, drought and now a winter with more snow and wind then we have seen in many years! The snow is making for a lot of extra work right now but it is also giving us some optimism that 2022 will be better for moisture and feed supplies. With the extra expensive feed costs this year we are sure appreciative of our easy doing cowherd! Like everyone else we have had to adjust our feeding program and this year have added a lot more straw to their TMR and the cows are still in great shape.

Our practice has always been to cull hard and we do that both in the cowherd and bullpen to ensure the highest quality for our customers. We try to balance maternal traits with performance to breed cattle that will work well in any program.

The bulls and the cow herd are on a full vaccination program. The bulls were fed an oats based ration until November and then they were switched to a TMR which includes corn silage, hay, super oats, distillers and a loose supplement with a target gain of 3.5 pounds per day. The TMR is designed to promote longevity and allow them to reach their genetic potential without adding a bunch of extra fat.

Customer satisfaction is very important to us and if any problems arise we will do our best to make things right. If you have time to stop at the farm before the sale we would love to tour you through the bull pen but if not we look forward to seeing you on sale day. Give us a call at any time so that we can discuss your bull needs and help you pick out a bull that will work for your program. We are proud to have sold bulls through this sale every year since it started and would like to thank all of our past bidders and buyers for their support and trust in our program.

We reserve the right to draw semen on any of the bulls in the sale for in herd use only.

Here are three flush brothers that we are very excited about! When we saw Captain Scream at Agribition we knew we had to add his genetics to our program. We searched for a cow that we thought would cross well by adding calving ease to his performance and we partnered with Swan Lake Farms and purchased the high selling cow out of Red & Black SIBL Half the Herd sale in 2018. We flushed her successfully and the resulting calves have been very consistent as far as quality goes. We got 4 bulls and one heifer last year; the heifer is in the replacement pen and the 4th bull might have actually been the best one but unfortunately hurt himself right after weaning. These bulls are long, thick, deep and hairy. They are structural correct and move out very well. At fourteen years of age their dam has a calf on the ground so there is longevity in these genetics.

HOMO POLLED HOMO BLACK

Jacked up is a standout being the stoutest hipped and boldest muscled bull in the pen. He is masculine and already has that herd bull character in his head and crest. He is structural sound and complete in his makeup. 81D has had a bull in this sale every year including a very good full brother that sold in last years sale to a super progressive commercial cattle producer, Jamie Husband. His dam also has a good udder and is easy on the eyes.

Welcome to the 2022 Proudly Western Bull Sale. We are always happy to come together with this great group of people to work with. We are offering our top three bulls at the sale. Two of them, JTC 52J & JTC 57J, are out of well known flush cows that have raised herd bulls in the past. JTC 9J is a half blood calf with a unique white marking on his face out of one of our top cow families. This happens to be our grandson, Braiden's, first bull sale.

You are always welcome to visit the farm to view the bulls before the sale. If not, we look forward to seeing you sale day.

Evan & Linda

Flying TL Simmentals

Welcome to the 16th annual Proudly Western bull sale. Last year was our first year working with these great consignors. We would also like to thank all the bidders and buyers that participated in last years sale. We are committed to raising two year old bulls with no yearlings ever sold off the farm. We have a great mix of calving ease and performance bulls on offer. These extra age bulls offer the advantage of being developed at a slower rate and the ability to service more cows without losing condition. Our bulls are on an oat based diet with free choice hay. They are on a full herd health program and are also vaccinated for foot rot. Since we calve on grass, udder quality in our cow herd is very important to us. Nobody has the time or wants to deal with a bad uddered cow. We have a very strict culling program on feet and udders. For this year we also have a group of bulls from the Diamond M breeding program. These bulls came in dam when we purchased quite a few cows from their dispersal sale. These cows have been a great addition to our herd. We welcome the opportunity to tour you through our bull pen however if you are unable to come, please feel free to contact Ben Wright of T Bar C as he has seen these bulls in person.

YOUNG MR *Harrington* 119H

PG1314347 YTL 119H APR 23, 2020 POLLED PUREBRED MALE

HOMO POLLED

Young Mr Harrington commands the number one spot in our sale catalogue as he is very hard to find fault with. He has the WOW factor, a bull that Ben kept walking back to for a second look. 119H looks just like his sire, Captain Scream 47D. He has been a stand out calf from day one. His well uddered dam produces the good ones and has one of the top 2021 bull calves in our yearling pen. 119H was the heaviest bull in the pen at picture taking time. He is a stout, thick, deep bodied bull and comes with the baldy white face. A definite herd bull prospect.

YOUNG MR *Hartley* 160H

PG1314367 YTL 160H MAY 3, 2020 POLLED PUREBRED MALE

HOMO POLLED

Young Mr Hartley is a red baldy calving ease bull with a birth weight EPD in the top 1% of the breed and with a calving ease EPD in the top 2% of the breed. This bull is a clone to his sire Black Gold Advance. His dam is a Captain Scream 47D daughter who passes on thickness to her calves no matter who the sire is. 160H is a moderate framed, big nutted, deep soggy bull, with smooth shoulders. He carries no white on his body except his baldy face. You have to drive a lot of miles looking for a bona fide heifer bull but here he is. 160H definitely could have been our lead off bull for our sales catalogue as well, as he caught Ben's attention as soon as he walked into the bull pen. Young Mr Hartley is an absolute heifer herd bull prospect for a breeder.

HOMO POLLED

91H is a well muscled, deep bodied son of Advance, whose sons are very consistent in their body structure. A bull that has a great EPD profile. Young Mr Hawkins is a definite calving ease bull who scores 1% in the breed for both birth weight and calving ease. 91H's dam's sire is WS High Stakes, who is well known in the Simmental breed for calving ease. This dam did an outstanding job on this her first calf and is positioning herself as one of our top producing cows as we plan to retain her 2021 heifer calf in herd. She was AI'd to Tycoon so we are looking forward to her 2022 calf. The heifer calves off 91H should make great replacement females.

POLLED/SCURRED

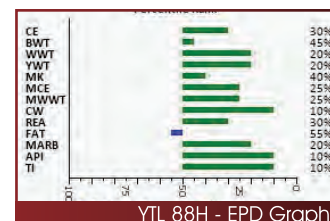

This is a really long, small headed calving ease prospect in a dark red package with a curly hair coat. The dam of 6H is a Black Gold Advance daughter who was bred to T33 Mr Frank 3F, so calving ease is on both the paternal and maternal sides of Young Mr Henson. 6H's granddam is the dam of 31H, the Lot 31 bull. 6H is in the top 4% of the breed with his calving ease and birth weight EPD's. With a birth weight of 83 pounds and a calving ease EPD of 13.9 he could definitely be used to breed heifers or first calvers.

This bull looks like his sire with the dark red coloring with a bit of black showing on his face. Young Mr. Hutton has a great hair coat and is a soggy built calving ease bull with great milk EPD's. The dam of 71H is a daughter off our calving ease bull Black Gold Advance. The granddam of 71H also has calving ease in her background as she is the daughter off the calving ease bull BJL Rango so there is lots of calving ease on the maternal side of Young Mr Hutton. 71H's grand sire is Kuntz Sheriff so calving ease is high on the paternal side as well. Young Mr Hutton has a birth weight of 78 pounds and a calving ease EPD of 14.7 so he would most assuredly work in the heifer pen. Mark this one in your book.

HOMO POLLED

Here is a really dark red DMF Epic sired bull who's grand sire is Lewis Farm's Vegas 3145A. We purchased 114H's dam from the Diamond M Ranch's dispersal sale and we could not have been happier with all the DMF cows we purchased that day. We actually retained three Epic daughters in our own herd and they will be calving this spring. This will be the last opportunity to purchase Diamond M genetics, as these four lots all came in dam from Jordan's cows. Young Mr Hammond had the highest daily gain as a yearling of all sale bulls. A very good solid dark red bull that will sire good performing calves. I'm positive you will have him checked off in your sales catalogue.

133H came to us in dam from the Diamond M Ranch dispersal. His dam comes from a strong cow family and with Epic on the sire side, this bull should be a good option to add some extra weight to his calves, as he has a great weaning weight EPD which is in the top 10% of the breed. Young Mr Hartman is wide topped, and has great depth through out.

HOMO POLLED HETERO BLACK

Young Mr Huxley is our youngest and only black bull on offer. His sire is LFE BS Lewis 3195E who goes back to LFE The Riddler, the well known Simmental breeding bull. 203H's dam is a thick, deep bodied black Vegas sired cow who we purchased at the Diamond M Ranch dispersal sale. He has a solid set of EPD's and had one of the highest average daily gains in the bull pen.

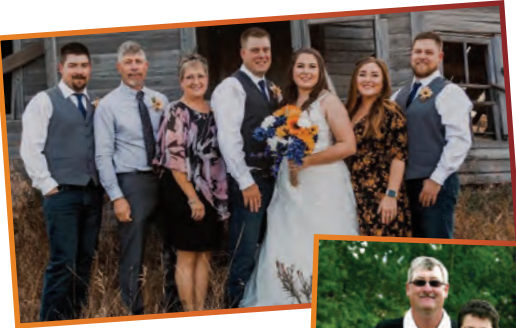

Triangle 33 Simmentals

Welcome to the 16th annual Proudly Western Bull Sale. We are very excited to be part of this great sale. We appreciate our fellow consignors Scissors Creek Simmentals and Sunrise Simmentals for making this opportunity possible. A big thank you goes out to everyone who has supported our program in the past few years, and we look forward to working with you in the future. Once again, this year we had Erin Yewsiuk do the photography and videoing of our bulls. Thank you Erin for doing such a professional job in a timely manner.

This bull pen consisting of 13 red and 1 black is a pen that we are very proud to have raised. We have a variety of calving ease and performance genetics to fit all your breeding needs. Two years ago, we retained the majority of our heifer calves, resulting in this being the largest group of Advance sired bulls we have had on offer. This group does not disappoint, with many destined to do a lot of work in the heifer pen. The rest of the bulls on offer come from two herd sires, Frank and Denali. They are rock solid as they come. These bulls carry great traits from their sires, and the EPD profiles are a must to look at closely.

These bulls were weaned early September and have been fed free choice hay along with a SO1 oat/pellet mixture. We feel this is a great way to promote longevity in these bulls and not lack weight gain through the cold winter months. The bulls are on Pfizer full herd health program for their spring and fall vaccinations.

Everyone is welcome to come to the farm prior to sale day to check out the bulls, or feel free to give us a call anytime with questions on our offering. The TBarC sales staff is available as well for a professional evaluation of the bulls. We look forward to seeing you sale day.

PG1366732 RYS 44J FEB 7, 2021 HOMO POLLED PUREBRED MALE

HOMO POLLED

Here is a great calf to lead off our 2022 bulls. When Ben toured our bull pen this winter this is the bull that caught his eye instantly. We totally agreed that he was destined to be our lead off bull. His dam knocked it out of the park on her first calf with this guy. 39G is maturing into a larger framed cow that has a nice square udder with proper teat size. We can't wait to see the Blockbuster calf she will be raising this year. We feel that 44J is suitable to use in both the heifer and cow pen. He possesses the small head and smooth front end of his sire Advance. The spring of rib and muscle that he carries throughout is very impressive. This bull will have no trouble covering ground as he lands on a solid foot and moves with a great stride. Just like the other Advance calves, he has a great hair coat. This bull is well worth the drive to come and see.

HOMO POLLED - 279 Gest

16J was part of the pen of three bulls that we showcased in Bull Pen Alley at Agribition last fall and won reserve grand champion for the Simmental breed. On grass we admired him all summer as he was a standout from the day he was born. You will be impressed when you walk behind this bull as the length and width of his spine is second to none. 16J's first time dam did an outstanding job with him and she has a tremendous Blockbuster sired bull calf at her side now, so we are excited about her future to be a leading female in our herd. Don't let the extra couple pounds of birth weight be alarming, as 16J was an extremely long-spined calf when born.

If you want a bull with growth and performance, this is the one to look at. From weaning to picture day in mid January, this bull was at the top of the pen at a daily gain of 4 pounds per day. A super stout bull from front to back. He carries the qualities of Advance having calving ease, but still pushes down the scale. 157D is one of the only mature cows we bred to Advance in 2020, and the mating turned out very well. She is a six-year-old cow that still maintains a solid foot and a perfect udder.

HOMO POLLED - 284 Gest

19J is a milestone in our program, as he is sired and raised by our own genetics. This is a bull we are proud to be offering in this sale. He is truly a clone to Frank and has a blaze face as an added bonus. His EPD profile is second to none, which has calving ease and performance built into his pedigree. Those are the qualities we all need to raise quality cattle. He is smooth made throughout, and strides on a flat solid foot. Once again coming from a first calf heifer his dam 21G will be doing great things for our program in years to come.

PG136678 RYS 4J JAN 2, 2021 HOMO POLLED PUREBRED MALE

HOMO POLLED - 275 Gest

4J is a bull you will definitely want to check out sale day. He is built like a freight train. Depth of rib, quality hair coat, and great muscle expression throughout are the best qualities of 4J. 31F raised this bull with the perfect udder size and this year has an impressive Blockbuster heifer walking at her side. Be sure to take note of 4J's EPD profile, as Denali once again left his mark on this guy. He checks off all boxes when you are searching for your new herdsire.

BPG1366713 RYS 24J JAN 16, 2021 HOMO POLLED PUREBRED MALE

HOMO POLLED - 284 Gest

24J was the only black bull to be born on the farm in 2021. Hair color aside he stands among the top in the bull pen. With a moderate birthweight, be confident in breeding any group of cows you'd like and they will be born easy and have tremendous growth at weaning. He was raised by a great young cow that came from Berts NR and has left her mark in our program. 17E is one of the cows we thought highly enough of this past spring to breed to the exclusive SRH Hannibal 5H.

Ritters will also be consigning 15 RED/RWF open commercial heifers to the sale, all being born mid February/March. They all come from top producing cows in the commercial herd. The heifers are palpated and vet checked open. They will be sorted and sold in pens of three. All heifers must be taken home sale day.

Terms & Conditions...

TERMS...

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

BIDDING...

Each animal will sell to the highest bidder...no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

ANNOUNCEMENTS...

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

BREEDER'S GUARANTEE...

All bulls sold are guaranteed breeders by the owners. We guarantee to provide you with a sound breeding bull. Should any bull fail to be an unsatisfactory breeder, he will be replaced with a bull of equal value or a credit will be given toward the purchase of another bull. If you have a problem with your bull please notify us immediately. Under no circumstances will the seller be liable for more than the purchase price of the animal.

EXCEPTION GUARANTEE...

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

CERTIFICATE OF REGISTRATION...

Each animal will carry papers issued by the Canadian Simmental Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES...

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

LIABILITIES...

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

RIGHTS AND OBLIGATIONS...

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

PHONE, MAIL, WIRE BIDS...

Bidders unable to attend the sale may phone, mail or wire their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

DELIVERY ...

We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold. \$100 rebate on bulls taken home sale day. Bull must be insured by buyer.

INSURANCE...

Will be available sale day. We strongly recommend that insurance is purchased for full value.

ERRORS...

All announcements at sale time, written or oral, supersede any written material in the catalogue. The seller reserves the right to draw semen from any bull in the sale for in-herd use only. The collection will be at the purchaser's convenience and the seller's expense.
