

MANITOBA'S LARGEST SIMMENTAL BULL & FEMALE SALE

HOLIDAY MONDAY

FEBRUARY 21ST, 2022 · 1 PM ON THE FARM · STE. ROSE, MB

 *Welcome to*
Bienvenue à
STE. ROSE DU LAC
Cattle Capital of Manitoba

OFFERING 127 BULLS & 52 HEIFERS

welcome

On behalf of my entire family, we welcome you to our 18th Annual Sale on the farm south of Ste. Rose, MB.

It's early January as I write this & calving is well under way here, the bitter cold has been keeping us all on our toes. Who needs a gym pass when you have cows. The winter months for some can be long & drawn out but when you calve early & host a bull sale, it goes by rather fast & soon enough the sun will be melting the frozen ground & the green grass will grow.

When assembling this catalog, it gives us a great deal of satisfaction & sense of accomplishment seeing the numerous herdsire prospects who will all sell February 21st. A very unique & special drawing card with these animals selling is the fact that they are all sired by exclusively owned herdsires. We aren't afraid of going out & spending some hard-earned dollars on top bulls. The same as all the leading commercial cattle people do. We run our cattle & our business the same as you do. Buy the best genetics you can, it really is the fastest way to improve your herd & your bottom line.

Our core numbers on offer are roughly the same as last year but you will notice we have a few more blacks available than reds. Do take into consideration that the hetero black bulls can also offer some different bloodlines for your red cattle while still siring reds or blacks. This is something that is very unique to our breed & truly a genetic asset. Our red pen is always a fan favourite, long, hairy & thick bulls who work on a variety of cows anchored by some reliable sire groups along with some fresh new genetics. The Fullblood bulls are yet again a very impressive bunch, if you haven't added a Charles son to your herdbull battery, here's your chance. The Commanders & Starfires don't take a backseat to anyone either. From heifer bulls to powerhouse performance bulls to curve benders, there's something for everyone here. We feel the quality on offer in all segments is as strong as ever.

The females in this sale are really an outstanding bunch. There's a special Rampage daughter who we feel is the best red heifer we've produced to date. I can guarantee that if we'd be selling them in the fall as breds, the price tag would be significantly more than it will be here in February. Due to time & workload we host this one sale a year & make our females available when their brothers sell. Buyers have told us time again that they really get full value of their dollar spent.

A huge thanks to all who attended, bid & purchased cattle in last year's sale. The amount of interest from all over is truly humbling. We look forward to hosting the sale once again in our comfortable, heated & spacious farm shop. Come early to look over the sale cattle, enjoy some coffee, donuts, lunch & refreshments.

Feel free to come prior to the sale & look through the offering. With so many lots to go through this is a relaxed way of combing through the sale pens. Shoot me a text or quick call & I will be glad to tour you around or discuss the sale offering. Videos of sale cattle will be online a few weeks before the sale.

Our sales staff are extremely knowledgeable & competent when it comes to making recommendations & helping you select your next herdsire or heifer. We highly encourage you to reach out to anyone of the T Bar C or Transcon team & they will assist you in any way possible with an unbiased opinion & represent you in a confidential matter. DLMS Internet bidding will be available with Mark Shologan broadcasting the sale online.

Consider this your personal invitation to be with us on sale day, be it online, on the phone or preferably in person with us.

Settlement Terms

The terms of the sale are cash, cheque, Mastercard, Visa, or Interac payable at par at sale location unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made.

Guarantee

Bulls selling at the sale will have passed all essential tests and examinations. Every bull selling will be accompanied by a valid Breeding Soundness Evaluation Report, signed and stamped by a veterinarian of the Western Canadian Association of Bovine Practitioners.

Herd Health and Fertility

All sale cattle have been treated twice with Ivermectin & are on Full Herd Health Express Program: Pyramid FP5+Presponse & Ultrabac7/ Somnubac was given as calves & at weaning time. All bulls will be examined, scrotal measured, semen tested & palpated by a licensed veterinarian prior to the sale.

U.S. Buyers

The U.S. Exchange rate will be announced prior to the sale. We will attend to, and assist with, all necessary health testing, vet examinations, paperwork, and obtaining your state permits associated to export your animals. U.S Customs & UPS brokerage charges will be paid by the purchaser for a cost of \$300 US. per animal paid to Transcon at the time of settlement.

Sight Unseen Purchase Program

If you are unable to attend the sale but are interested in a bull or heifer, give any of our sales staff or David a call and they will personally go over the sale cattle and your program and recommend bulls or heifers that will suit your needs. Your complete satisfaction is our goal.

Delivery Terms

Option A Bull(s) will be delivered free of charge within 350 kms or to the nearest Canada/US border crossing. We will do our best to get them to your yard, however, at times, it may be required to meet at central locations. Delivery will be as soon as possible after the sale at the buyer's risk and the seller's convenience. Buyers must insure their bull(s) while being cared for at Rendezvous Farms. Heifers to be picked up on sale day, unless other arrangements have been made. We can assist the purchaser on coordinating transportation.

Option B Sale Cattle can be picked up on sale day or anytime after

Option C Bulls can be kept at Rendezvous Farms free of charge until March 25. A charge of \$5.00 per day will apply after that date. Buyers must insure their bull(s) while being cared for at Rendezvous Farms. We are not responsible for any injuries during that time. The purchaser must pick up the bulls.

Soliciting

It is unethical for anyone to promote, advertise or arrange the sale of any cattle, other than those in the sale, on the sale premises.

Insurance

You MUST insure all of your purchases for your own specific needs, preferably through our agent:

Lois McRae, Keystone Livestock Services, 204-728-3058

Attention Canadian bull buyers are asked to apply "Broad Form & Loss of Use" insurance coverage on all your bull purchases in order to fully protect your investment.

U.S. Bull buyers- Sheila Jensen, Courtland, Kansas 785-262-1116

welcome from Transcon

Let's get down to business and it's business as usual - agriculture! There are now four family generations living and working together at Rendezvous Farms, they have definitely stood the test of time. Reinvestment and growth are always on the radar, thusly you as a valued customer will have comfort knowing you will have a quality bull supplier for a long time!

On to the bulls and I'll start with the Fullblood section. As to no surprise here, "Charles" and "Commander" sons are easy to find. But adding nicely to them as a new sire option are the Starfire sons.

The Red Simmentals are once again led by the "Rampage" sons. Top candidates both blaze faced and solid red exist here. Several calving ease bulls by "Thriller" and "Patriot" exist in the red pen.

"Avenger" has left a large, high quality set of sons in the black division. They are thick, big ribbed and long. High performing sons of "Percy" and "Western Star" stand out among the group, possessing that "pay weight" look to them!

The heifer sale portion to the sale has well evolved to an opportunity for the new breeder to create their own starter herd from scratch! These are the sisters to the bulls of course and simply said, they can't keep them all! If your looking for that next future donor, pay careful attention to the "Rampage" daughter who was picked as the top heifer born in '21!

Please call on Glenn, Darren or myself to assist you with any buying assistance you may require. I've toured the Rendezvous bull pens twice this winter and would be happy to talk about them at anytime, just give my cell a call.

For the Maguet Families,

Jaymes E. (Jay) Good

Without a doubt one of the most talked about bulls to sell in the spring of 2016. Charles was bred by the wonderful people at Lockhart Valley Simmentals, Rimbe, AB, Lee, Tina & Hanna Robson toured us around their farm & made sure to show us the dam of this great bull. After only a few minutes of viewing both "mother & son", my wife Rachelle & I knew that we had to own Charles, there was no other alternative. We also knew there would be some very strong competition in doing so. When the dust settled, we managed to purchase him outright for a ground breaking \$75,000! We felt we needed to add this powerful, perfectly made, genetically unique individual to our herd bull roster for our customers as we know too well that trying to find that ideal individual in the Fullblood business is a very, very tough job. In all honesty, I've never been so excited about a bull as the day we saw Charles & that feeling has continued every single day. His first calf crop was embraced by both Purebred and Commercial breeders with his sons averaging \$10,616. The best thing we've ever done was use Charles in our program. We truly believe the best thing you can do is to use his sons.

Homo Polled, Homo Black As our black program has grown over the years the need to add a black calving ease heifer bull to our roster also became apparent thus led us to the purchase of LFE 3173C (Direct Drive). This long bodied, mellow made, deep sided herd bull was the ideal candidate as he displayed great calving ease characteristics with his small head, smooth shoulders & clean lines. Born with a small birth weight to a fantastic young female we really liked his curve bending abilities since he was one of the heavier long yearlings in the black offering at LFE that year. Direct Drive's calving ease abilities did not disappoint, his calves come small and quick but get up & suck fast just the way we like it. This will be the last offering of Direct Drives selling.

Homo Polled The high selling red bull from the well-respected Kuntz herd is also a maternal brother to the ever-popular calving ease Sheriff bull. We feel Patriot encompasses the similar calving ease traits of his well known brother but also adds a lot of length & growth to his calves all the while maintaining that moderate frame score with good thickness. Patriot is a prime example of purchasing a good bull even though we were "bullied up" at the time. We really liked the structure of him as a yearling & when Dad (Richard) & I saw the cow family when touring the Kuntz herd we both felt we should add this bull to the battery on those merits as that kind of bull doesn't come around every year. We're quite enthused about these Patriot sons selling, they are very uniform in type and most of them were raised by only second calvers. This will be the last group of Patriots to sell.

Homo Black, Homo Polled There's a bit of a story as to how we acquired Percy 37D. He was originally purchased out of the MRL sale in 2017 by Grant Gordon, Kibbey, SK. When delivering cattle at Percyview one day, he showed me his bull pen. A particular blaze faced bull really stood out, he was so impressive, thick, long, wide topped & only a 2yr old! We kept this idea in the back of our mind & come the spring of 2019 after a few herd bulls getting injured we called up Grant to see if he would consider parting with his awesome bull. Anyone who

knows Grant will tell you he's a heck of a good stockman & a real gentleman. As luck would have it, we managed to make a deal & Percy became our first blaze faced black herdsire. Percy himself is all about performance, his progeny have a lot of jam & should be a great fit for Angus cattle who need a bit more power.

Homo Black, Homo Polled A direct son from the record setting \$190,000 Captain Morgan bull. Glen & Kevin Maxwell had big time praise for these Morgan cattle, especially commenting on their docility. Western Star was our pick of their black bulls in 2015 & was their 2nd high seller. I couldn't get over the length of this bull. He was a foot longer than any other bull around and weighed 1620 at 14 months. This goes back to the old adage: Length = pounds. Solid footed & light on his feet, Western Star has seen heavy service in our

black program. When his calves were being born, Gerry felt they were the nicest, most uniform calves he would process at 2 days of age. They were sooo long & correct. Flash forward 13 months & these calves are very impressive yearlings. Be sure to check them out. They will add a lot to anyone's program. This will be the last offering of Western Stars.

Homo Black, Homo Polled Our pick of the Beast Mode sons at Lewis's 2019 sale where they were the feature sire group that year. Bringing fresh new genetics is paramount to our program & Avenger is a bull we are extremely high on. The absolute length of body, mellowness accompanied by square hindquarters makes this young sire a rising star with a lot of potential for years to come. Avenger saw heavy service in 2020 & we have a bunch of awesome looking calves already hitting the ground.

Commander was our pick of the Black Gold bulls in the well respected Next Generation Sale in Lloydminster in March of 18. He was also their second high selling bull that day. Randy & Vanessa Noble showed me both the sire & dam of this impressive young bull which really helped me cement the idea of adding him to our herd bull roster. He weighed over 1600lbs on sale day at 13 months of age. His superior depth & overall thickness is transferred over to his calves as well. We've been very pleased with how well he has bred, calved & in the development of both male & female offspring. Commander saw heavy service this year & we feel will really complement the Charles line in the Fullblood program.

Homo Polled Our new heifer bull who's really taking things to the next level. When I found this guy at Blair McIntosh's herd, I really liked him & you know what they say about first impressions. The more I circled him, the better I liked him & felt he would be the answer for heifers. With an 84lbs birth weight, +10.9 CE number, on top of a smooth shouldered, small head & long bodied conformation we figured this guy would be ideal for our program. Blair also showed me his dam & she is a nice moderate made female with a nice udder.

Fast track things to January 2020 when the real test would come to reality. Perhaps the easiest calving sire we've used to date. These Legacy calves slide out so easily, a few pushes & they are out. We are absolutely thrilled with how his calves get up & grow. You will be impressed with his offering & considering all of his sons & daughters are out of first calf heifers. Calving Ease & growth, all in a desirable package. We have nothing but good things to say about this young sire.

Homo Polled Rampage was the all around best dark red bull we could find in the spring of 2019. The middle, hair, thickness & width of quarter would stop you in your tracks. We suspected he would be pricey but with our conviction of owning the top sires we can find, we purchased Rampage at a whopping \$70,000. One of the other reasons this bull was so high on our radar was on account of his mother & her impeccable udder & foot structure. Out of 500+ cows at Skors, she was hands down their best walking cow & led off their dispersal being their top selling cow of the day. Anytime we spend this kind of money, the expectations are also rather large. Rampage has hit the ball out of the park with his first calf crop as you will see with his 14 sons selling. These bulls are just like him, thick, hairy, wide topped & big nuted. We feel Rampage will become a big name in the Red Simmental business.

The search for the next heifer bull is a never-ending quest. When the opportunity presents itself, best to grab it has been our motto. Empire had all the positive attributes we look for when researching a calving ease sire plus his outcross pedigree to our program made it a slam dunk. One of the feature long yearling calving ease sires from LFE in 2020, we've been very pleased with how well he's worked out. Look to his sons for that same style, structure & smooth shoulders.

Our pick of the yearling red bulls at Lewis's in their 2020 sale. We really liked this Amber Jack bloodline & are happy to incorporate it into our ever-evolving red program. Thriller is dark red, long bodied & thick made. He is a great breeder & very athletic. The cow family behind this bull is top shelf & one of the very best according to Kyle. We have a great sampling of Thriller progeny in this year's sale & look forward to a large offering being born this winter.

Quality Fullblood bulls are always of huge importance to us. When we found Starfire, I was really captivated by his sheer length of body, free moving stride & overall structure. Josh Tyler made sure to show us the dam of Starfire, which definitely added to the positive checklist. A thick made & easy keeping bull, he ended up being the high seller for Red Willow at the 2020 Next Generation sale. His new fresh pedigree will be key as this guy sees large service in our Fullblood herd.

We typically like to get out & scout for new herdsires however with time constraints & unplanned need for an extra black bull we acquired Dynasty sight unseen through the T Bar crew. Between Ben, Shane & Chris, they unanimously gave us the green light on this feature bull. The Spring Creek program is highly respected & long-time breeder in the black Simmental business, therefore we were very happy to be the successful bidders on this bull. The Dynasty calves really stand out, they have that extra depth of body, great hair & mellow easy keeping characteristics. Check out his outstanding offering.

The lead off bull & one of the high sellers at the inaugural Spring Lake bull sale in 2020. We've had tremendous success with all our Zimmer bred bulls & we feel Centurion will carry on that track record. He's got that trademark purple red color, smooth shoulders, excellent calving ease yet has a lot of length & performance. He's built the way we like them, after seeing heavy service as a yearling, Centurion kept his condition & looked top shelf all summer. We used him on a lot of cows this past spring & are expecting a large calf crop to be born this winter.

The \$25,000 high selling red bull who created quite a stir at our sale 16th Annual sale. Larkspur Ranch of Eddystone purchased him to use on their elite cowherd of red goggle eyed Simm cows. After a glass or two of red wine, Kelly & Lorraine agreed to sell us a share back into this powerhouse bull. We used him sparingly on a handful of cows as a yearling. The following year he ran with our cows for 2 months then went straight to work at Larkspur. He came out of the breeding pastures in mid August after severe drought conditions & still carried great flesh. Look forward to the Glacier cattle in years to come, they will stand out

Hetero Black, Hetero Polled Yet another powerful Avenger son out of a big barreled, good uddered Stealth female. There's a number of Avenger sons to pick from & let me say, they are all very similar in build. We spend a lot of money, time & effort in acquiring new herdsires with unique pedigrees for you our customer as we feel the average run of the mill AI sire just won't cut it. A maternal brother sold sight unseen to Mike Galbraith of Port Elgin, ON with Ben Wright being the on-order agent.

Hetero Black, Hetero Polled A top pick among the most discriminating cattle breeders, here's a standout blaze faced bull who will grab your attention in the corral. This bull walks exactly the way an animal should, as his stride is long & the back hoof hits exactly where the front left off. Examine this bull closely & you'll see what I mean. Thick butted, wide topped with superior length, he's the kind of bull we strive to produce for the commercial beef industry. The dam of this bull is a hard-working cow & has cranked out some of our best females over the years. Quinn Wilson paid top dollar for one & tells us she was one of his very best in the herd.

RENDEZVOUS LINNE 305C DAM OF LOT 4

Hetero Black, Hetero Polled A real curve bender here. 78lbs birth weight & weaning off the cow at 945lbs, isn't that what we all strive for as cattle producers. The dam of this bull is a feature cow, she's one that we make a point of showing to folks while touring the herd. She's sent daughters to work in the herds of Lewis Farms, AB & AP Simmentals, MB. A son of hers is also a favorite at Abraham Farms of Hazel, SD. We base a lot of herdbull buying decisions from a mother's track record, here's a bull that's easy to recommend just with those simple facts.

Hetero Black, Homo Polled
 A real feature in the black lineup in my opinion. A super impressive individual who demands your attention. Masculine, thick butted, tons of depth with a great set of ribs. From every angle 304J impresses. Large testicles, he's what a herdbull should look like. The length of body to this guy really adds the pay weight. His blaze faced momma is a medium framed easy keeping cow who always raises a heavy calf in the fall. The Red Knight females have a ton of pelvic room & make tremendous mother cows. 304J boasts a unique pedigree which we all know in the Simmental breed is vital to it's popularity in the beef business.

Hetero Black, Homo Polled
 A solid black bull who's sure to knock your socks off when you view him. Length of spine, tons of middle & rib along with good hind quarters makes this guy an easy pick for most. With a whopping 1030lbs WW on August 22, this bull will certainly add pounds of beef to your calf crop. His Hot Shot mother is a well put together female with a nice udder. The Hot Shot cows have raised some of our top black bulls in the last few years. A full brother sold last year to Nick Stormo, SD for \$9000. Nick along with his cow calf operation works for Superior Livestock & travels the country side buying calves & has been a great promoter of our program. Thanks Nick!

Hetero Black, Homo Polled

We set the bar quite high when it comes to breeding bulls, however 361J is at the very top of the spectrum in our mind. A bull with so much to offer, where do you even start, from every angle he shines. Long bodied, smooth made yet thick butted & soft sided are just a few things that can be said about this guy. Nothing beats a personal appraisal, we feel you get a much better appreciation for what this bull is. A full brother was a feature in last year's sale, he was selected by Gormlea Farms, Balcarres, SK for \$9250. John & Mark are extremely keen cattlemen who always end up picking out the very best bulls for their top cut herd.

Hetero Black, Homo Polled You'll often here us talk about the production of these Stealth momma cows, they have made a tremendous base for our black program. 79J has the signature Avenger look with his extra rib. Don't underestimate what that extra length does when selling a package of steers, that "free weight" goes a long ways to make up a potload of calves. An all around well pieced bull with good testicles & masculine look. A full brother sold last year to Springbrook Farms of Fort Qu'Appelle, SK. Brett is a very keen young cattleman who along with his family run an outstanding mixed farm in a pretty scenic area of Saskatchewan. A Western Star sister was selected as a high seller the year before by Philippe Barette of Quebec for the start of his black Sim program.

Hetero Black, Homo Polled
 Length and depth of body along with that signature Avenger stamp of quality, here's a another top shelf herdbull in the making. Masculine made with a good crest on his neck, picture him as a mature bull & your neighbors will be pumping the breaks to get a better look. A sister sold in last year's sale to Brett Siroski of Davidson, SK. Brett was also our volume female buyer purchasing 9 head.

Homo Black, Hetero Polled A ¼ sib to the lot 8 bull. Check out his 900lbs WW, being a March 1 calf. I had to double check my records just to make sure that was right. A bull with a lot of length, power & should raise both top grading steers along with top cut replacement females. A maternal brother sold to Seth Zink of North Dakota in 2020 and a sister to Bergman Family Farms, SK in 2019 was a feature then.

Homo Black, Homo Polled When writing these footnotes truth be told I was floored to realize this bull was actually one of our youngest being born in March. A fantastic long bodied, smooth built bull who travels evenly in his stride. With a balanced set of numbers this guy should be ideal on some 2nd & 3rd calvers. A maternal brother sold last year to repeat customer Larry Dudar of Ethelbert, MB. Larry along with his daughter Shae-Lyn run a pile of cattle in a pretty scenic area along the Duck Mountains.

Homo Black, Hetero Polled A ¾ sib to Lot 1 you can certainly see a lot of the similarities in these bulls, which is what we strive for as a breeder, uniformity is key. The premium on being able to market full pot loads of calves in the same weight class is huge & this is achieved by using same sire group bulls or even better with ¾ brothers as your calf crop will show more of the same traits & phenotype. This particular bull won't even be a year of age by sale day & look at how impressive he is. The potential is here with the Avenger sons. You won't find better breeders either...they know how to get the job done. A maternal brother sold to a really hard-working guy who's passionate about the cattle business, Ryan Keck of Gravelbourg, SK.

AIA 545H MATERNAL SISTER TO LOT 7

Hetero Black, Hetero Polled The youngest black bull in the offering. With 140 some bulls to compete with after weaning, we feel 370J has done extremely well. One of the squarest & thickest butted black bulls of the whole deal. A combination of Black, red & Fullblood genetics encompass this future herdsire. A maternal sister sired by Rampage was one of our feature & high selling females being selected by prominent Simmental breeders, Red Willow Ranch of Cutknife, SK.

Homo Black, Hetero Polled
 Here's one of the bulls that gets a ton of attention in the bull pen when visitors come touring. A real powerhouse of a beef bull. So much length, size & all in an attractive package. A bull that steps out & travels really well. 512J is the kind of bull who will keep the Simmental breed in the forefront, he is of top caliber. His WW & YW EPD's are through the roof with 91.6 & 139.6 ranking him in the top 4% of the breed. We all get paid by the pound, be it raising top end steers or producing bull calves, the dollar is derived from the payweight. 512J's dam is a 3rd calver & is proving that she can raise the good ones. Her son sold last year to repeat customer & keen young rancher Nathan Ziprick of Inglis. Nathan tells us his heifer pen gets stronger & stronger every year with all the Rendezvous bulls he's acquired.

Hetero Black, Homo Polled
 A bull with some chrome, a pile of middle, depth of rib & great top. 120J stands solid on all four legs, his hair coat is also something worth mentioning. The Rambo mothers make very efficient, good milking cows. The grandmother of 120J has been a stellar producer, she's a model blaze faced cow you want to build a herd around. A brother to this guy sold last year to first time customer Blaine Pasichnyk of LaBroquerie, MB. Whether it's your first bull here or your 20th we always appreciate the business.

Hetero Black, Hetero Polled
 A solid black, long bodied bull who's sure to add some size to his calf crop. I feel like a broken record repeating myself when talking about the Percy's but it's plain & simple when it comes to what they can do. We have quite a few maternal sisters to 229J in the herd & they are producing really well. A Western Star sired sister sold a few years back to LaBette Simmentals, SK with Wilf Davis doing the bidding.

Hetero Black, Hetero Polled A double blaze faced bull with both parents having the money stripe. If you want to add longevity & fertility into your cowherd, it can't get much better than 432J's dam. At 15 years of age we decided to retire the old girl, she was still good footed, good uddered but felt it was time. If you lookup the CSA database you will find the 432S cow raised natural 16 calves in her lifespan. She's raised high selling daughters to a lot of sound, useful commercial bulls with the last 3 sons going to Shane Pottinger, MB, Gillridge Organics, SK & Corey Flower, MB to name a few.

AIA 146H FULL BROTHER TO LOT 22

Hetero Black, Hetero Polled Lordy here's a powerhouse bull with length & performance to burn. A bull who will just be a year of age by sale day but likely one of the highest WPDA in the entire offering. To wean off the cow at 985lbs in August at 6 months of age doesn't happen very often. The Hummer cows are big broody females & they know how to raise the good ones. A full brother sold for \$7000 last year to the hard-working crew at Salty Fox Farms Ltd. The DeVos's run a very successful grain, cattle & dairy farm west of Fork River & purchased 3 bulls here last year.

Hetero Polled, Hetero Black

A long bodied, performance-oriented bull who's dam has raised some great females for us over the years. This is her first son & he's a dandy. Fertility & longevity should be bred into this guy. You'll definitely want to keep his daughters as replacements if you saw his mother. A full sister is working in Kisbey, SK at the well known Percyview herd. Another sister sold last year to Ferme Gobeil of Quebec. His color test came back as a re-test.

AIA 119G FULL BROTHER TO LOT 24

Hetero Black, Homo Polled We made sure to breed the powerful 119B cow to our tried & proven Western Star sire. If performance & frame is what your after, 119J is a surefire bet. We all know how easy it is to downsize cattle, but upsizing is a lot bigger challenge... no pun intended. 119J has length to burn & a ton of capacity. No doubt his steers will perform big time in the feedlots. A full brother sold to Robert Ellingson of South Dakota in our 2020 sale. The year before another brother went to Bar 88 Ranch of MacGregor.

Hetero Black, Hetero Polled A very good natured individual who should develop into an impressive herdsire. This is the 9th & final son to sell from the old 542S cow. She's been quite the faithful & fertile cow having raised numerous bulls that sold for over \$10,000. Some of which have went to the following prominent commercial herds: Kotowich Evergreen Farms, AB, Zdan Farms, MB, S&A Frericks Farms, SD & David Remmick, ND.

Hetero Black, Hetero Polled
 Another solid made beef bull with a great hair coat & good structure. A bull who should maintain his condition & produce both strong steers & quality replacement females. This bull is built like a tank, he's got the performance we all look for. A maternal sister sold in last year's sale to Spring Lake Simmentals, AB and a few years ago a maternal brother was the Rendezvous Captain bull purchased by Southam Simmentals, MB.

Homo Black, Hetero Polled
 The heavyweight black bull at weaning time, crunching the scale at a whopping 1100lbs! No surprise to any of us as his mother has cranked out 3 heavy weights in a row. Unfortunately, last year's bull got injured in December & didn't make the sale. This year's bull, 164J is a fan favourite to many when viewing the pen. A super long bodied bull with a ton of scale & performance. He will add that pay weight to your calf crop. It's amazing how fast you can gain extra money by having your calves weigh 50lbs more come sale time. A full brother sold to Bueligen Ranch of New Salem, ND in 2020 for \$7750. David & Dawsen always pick out the most powerful bulls to run in their large commercial black herd.

Hetero Black, Homo Polled A pair of brothers who definitely look the part yet easy to distinguish as 603J is solid black & 803J has the blaze. These two are very similar in size & structure, they're easy keeping, wide topped build is impressive. The dam of these guys has been a real "cash cow" if you will. With 12 calves in her career at the age of 12, she's never missed a beat, was always in top shape & a great milker. There's definitely a lot of cow power behind these two bulls. A red brother sold last year to Brad Morgan of Sifton for \$7500. Jacob Bach of South Dakota along with Trevor Mantik & Doug Isaac of Manitoba all own black brothers as well. When there's this much reputation built into bulls like these it would be logical to take them both & run them together.

Homo Black, Hetero Polled

These blaze faced bulls are always extremely popular amongst cattle producers. Banking on the black hide, this is the kind of bull that can go onto a variety of cows. The dam of this bull has become a top producer here having raised consecutive high selling black bulls for us. Her Avenger son sold last year to East Point Cattle Corp of Melville, SK for \$12,500 to use in their large progressive commercial black herd. In 2020, a full brother to 101J sold for \$21,500 to Mac & Cody Creech of MC Livestock Corp, Lloydminster. 101J should be a real female maker.

Hetero Black, Homo Polled A pair of brothers here mothered by one of roomiest, big barreled cows on the farm. The 151A cow never disappoints, she's produced a lot of big time marketable progeny in her career with some notable high sellers in both Male & Female divisions. A bull is working in the seedstock operation of Hill 70 Quancock Ranch, SK, another bull in North Dakota at Triple V Ranch. Daughters have went to Boomer Creek Livestock, ON & Wilson Stock Farms, BC. Decisions are made much easier when your future herd sire comes from such a highly productive mother! Interestingly enough, Trevor points out the 151J bull has the Batman logo stamped on his forehead.

Hetero Black, Homo Polled 481J stems from one of our very best red cows, the Skittles 481Y cow. We wanted to try her with a black bull & chose old faithful Western Star and this was the resulting calf. A bull who should mature into a large, impressive individual. Long bodied, smooth made with the same stride & large hoof as his father. Maternal brothers to this guy have been some high sellers over the years all going to elite commercial herds and averaging

\$11,000 to McPeak Cattle Co, ND, Zdan Farms, MB, Mark Ferguson, MB, Steve Hoffart, ND & D&S Moffat Farms Ltd, MB.

Hetero Black, Hetero Polled
 Here's an awesome blaze faced bull many people tend to gravitate towards when touring the pen. Soft made, great rib shape along with a lot of depth of body, 108J is a bull who's easy to like. Weaning off at over 1000lbs in dry conditions we feel is something worth noting. His Western Star mother is a top producer, with 108J being her 4th son through our sale in 4 years. Last year's bull sold to Rick & Clint Miller of Lundar, MB. Jarret Bieber of Wolseley, SK selected a brother the year before along with another bull to Wayne Peters of Plumas back in 2019.

Hetero Black, Homo Polled A super stylish blaze faced bull who's docile, moderate made with a great hair coat. He's got a nice small head, smooth shoulders & should calve like a breeze. An ideal candidate for those 2nd calvers. Maternal power to burn, you'll find the Powershift females to be the ideal black cow as far as size, udder quality & ease of fleshing is concerned. A maternal brother was selected sight unseen by Okraincee Land & Cattle Co of Glentworth, SK.

Homo Black, Homo Polled
 It's quite easy to pick out the Dynasty sired cattle. They all have a very low maintenance, easy fleshing appeal to them. Soft made, lots of middle & rib, these cattle will work in the harshest of environments. 380J has large testicles, a nice wide top & a great hair coat. We have 2 sisters to this bull working in our herd & we can tell that they will rise to the top of our black program in years to come.

Homo Black, Homo Polled
 Another sound, correct made bull sired by our junior black herdsire, Spring Creek Dynasty. This bull will have just turned 1 by sale day but boy he stacks up with his pen mates easily. A maternal brother sold last year to Frankie Kehler, Lakeside Ranch of Eriksdale, MB. We thought so much of that bull that we ended up using him on some heifers. 476J comes from a very strong cow family with a lot of punch, they calve like a dream and are super maternal.

Hetero Black, Hetero Polled

Take a good long look at this cool made blaze faced bull. Here's one I'm really high on, perhaps I'm biased to any of the first cross red & black cattle however it's an awesome cross any way you slice it. We've been breeding our first calf Fullblood heifers to red or black heifer bulls for 10 years now & it's really a slam dunk when it comes to calving & what they raise in the fall. 523J has great overall confirmation, he moves out very well, is wide topped, thick butted yet has smooth shoulders & a nice head. He's also a ¼ brother to the lot 45 bull. If I was running a herd of commercial black cattle, these two bulls would be in my herdbull battery for sure.

Homo Black, Hetero Polled A solid built bull from a first calf Powershift X Western Star mother. We sure like how unique & exclusive our pedigrees are when it comes to the black bulls we have on offer. 404J ranks in the top 10% for CE with a +12.1 & top 20% for BWT at 1.9. Being born unassisted at 80lbs he is sure to pass on those calving ease traits. We've used Direct Drive as our main black heifer bull up until he was injured this spring. His predictability in calving along with exponential growth in his calves made him a true curve bender & so much more than your average heifer bull. We certainly encourage you to pickup a few of these Direct Drives as they have been proven with time.

	94	900	894		7.8	4.6	85.3	128.3	26.5	2.4	69.2

Homo Black, Hetero Polled In true Direct Drive fashion, these guys start out small at birth then just grow like weeds. There WPDA ratio is likely at the very top of all our herdsires. We're really keen on this guy's cow family, his dam is a beautiful young cow with a great udder. The grandmother was a fabulous easy keeping, wide topped & perfect footed female. Here's a bull who would excel with some young angus cows to add that bit of pop required.

Hetero Black, Hetero Polled
It's been a real debate here about retaining 196J for our own use to replace his sire, Direct Drive whom we lost last April. Perhaps my bull buying addiction won out as it gives me a reason to travel & look at more bulls in the country therefor this fella sells. The mother of this cow is a beauty of a first calver & did a bang up job with this guy. Great numbers, excellent balance from head to tail, the phenotype on this bull is truly right. The grandmother, 595Y has produced a ton of sons over the years, many of them going to South Dakota.

Hetero Black, Hetero Polled A top blaze faced bull right from birth, we knew he would turn into an impressive individual. His first calf Commander mother did a fabulous job raising him & stayed in great shape the whole time. 510J has a stellar set of numbers from his EPDs to his actual birth & weaning weights. You'd be hard pressed to find too many single cross blaze faced blacks of this quality anywhere. A very well-balanced beef bull, be sure to circle this guy on sale day.

Hetero Black, Hetero Polled

A bull with balanced EPDs most notably ranking in the top 10% of the breed for CE. His numbers read well across the board however he checks off all the boxes when it comes to confirmation & structure as well. Thick butted, easy keeping, wide topped yet he's smooth shouldered with adequate neck extension. Big testicles to boot, we feel 321J has a lot to offer & has been a favorite since birth. Mark this guy down, he is worth the look.

Hetero Black, Hetero Polled Here's a fantastic opportunity for someone wanting to keep black cattle yet add the Charles bloodline to their program. This awesome blaze faced meat machine is mothered by a first calf Charles daughter & one of our very top producing cow families who's generated a lot of money over the years. This family raises bulls. The fertility & longevity cannot be beat. This 384J bull has the best of both worlds built right into him. The way he moves & his natural easy fleshing abilities puts him in a league of his own. We could go on & on about the merit of this bull however will let you check out his videos & hopefully see him in person to appreciate what he has to offer.

Everyone always looks forward to supper in the field

Hetero Black, Homo Polled
 Here's a neat twist of pedigree, a black Empire son out of a first calf Direct Drive female who traces back to the master himself, the \$75,000 Charles. A bull with a lot of calving ease bred into him plus the Fullblood influence in the back should add to the milk bank. This fella should work on heifers with his 85lbs birthweight & smooth made confirmation.

Hetero Polled Without a doubt one of the absolute powerhouses to sell in the red division. This massive, thick butted, big nutted, bull is a real showstopper. Like all Rampages he's got that extra middle & capacity which will carry into his calves. The more capacity translates to more weight gains at the end of the day, just check out his impressive weaning weight. You can see this bull coming from a mile away, he's what we strive to produce in the beef business. A maternal brother was a high seller at \$13,000 to Sonny Berndt of Rugby, ND in 2017 along with another brother selling to Greg Fraser of Carman in 2019.

Scurred A stout made rascal, he's an all meat hold the potatoes kinda bull. Wide topped with a tremendous hair coat to boot. Don't underestimate the value of extra hair on cattle. Some days ranching in the prairies is just as cold as the North Pole & you can really tell which ones have a bit more wool. A maternal brother sold to Blaine & Brent Pasichyk of LaBroquerie, MB last year.

Hetero Polled A bull with some top & thickness. Dark, dark red & mothered by a really big volume cow. The 460Y cow was one of our largest red cows on the farm, age caught up to her & so this will be her last son to sell. She's cranked out multiple bulls who were always picked by great commercial ranchers such as Nick Stormo, SD, Morgan Farms, MB & Larry McAuley, MB.

Homo Polled A bull with a lot of power & performance. If you want pay weight here's the golden ticket. One of the burliest bulls to sell, 72J will knock your socks off when you examine him. Mothered by a blaze faced big old roomy Icon cow who milked really well, there is a lot of maternal strength in this pedigree. A maternal brother sold a few years back to Zahn Ranch of Towner, ND. Jason & Jenny were awarded the 2015 ND Simmental Commercial Breeders of the year award as they run a top-notch herd.

Homo Polled Here's a great herdsire prospect that could fly under the radar. We lost his mother in late June on pasture so 702J was orphaned from then on therefor he was a bit behind at weaning, but not by much. We really like how mellow & easy fleshing this bull is. He should mature into a moderate, yet really thick & correct bull. A maternal brother sold last year to repeat customers, Durmac Farms Ltd, prior to that Jim Geisel of Makinak also purchased a son. On a side note Jim used to help Laurent at the Royal Manitoba Winter Fair showing Angus bulls in the 60's...safe to say we go way back!

	100	900	901		0.9	7	82.8	120.9	33.8	0.9	75.2

Hetero Polled Yet another great prospect sired by the \$70,000 Skors Rampage bull we purchased. It's no secret that we take bull buying seriously & only want the best for our program. Long term, we feel that investment is some of the very best money you'll spend in the cattle business. This particular bull has depth of body along with length & thickness all nicely packaged together. The calves that are born from the old 475X cow always have just a bit more capacity & rib expression. It's interesting how over the years you get to know what you can expect from your cowherd.

	102	975	984		0.5	7.5	86.9	123.5	21.4	0.5	64.9

Homo Polled Here's a really solid stacked bull that I quite like. He's perhaps a touch more moderate than his brothers but he's built exceptionally well. The signature thick hind quarters & wide top are always a real give away when picking him out in a pen of a 130+ bulls in the fall. His dam is a real roomy cow with a ton of middle & is a great milker. She raised a daughter who sold to Jim & Pat Zuk of Komarno, MB a few years back. The Zuks even topped the market in Winnipeg a few years ago & attributed it to their Rendezvous sired steers.

Homo Polled We get a kick out of raising yearling bulls with this much substance & power. Quite a few of these guys end up being just as big as the long yearlings that you'll find elsewhere. We feel that's a true testament of what a breeding program can produce. Plus the simple fact of getting an extra year of breeding makes sound financial sense. 602J is a whopper, he's got the thickness, stretch & the good ol' money stripe to make you those extra dollars. We have a few sisters to this guy in the herd & you can count on them to crank out the power bulls as well.

Homo Polled Here's the tip of the iceberg with the only Glacier bull born in 2021. Expect them to be a leading sire group in next year's sale as the Glacier bull saw heavy service here last spring. 30J has a ton of length, meat & muscle. He was impressive as a 10 day old calf & has kept up the pace. He will likely be one of the heaviest bulls to sell in the entire offering.

Homo Polled A feature red bull with an outcross pedigree, he's packed a lot of punch right from the get-go. Sired by our exclusive new Amber Jack son, LFE Thriller, we're very excited about this herdbull prospect. Low set, super thick butted, wide topped, he's got all the qualities we search for when purchasing herdbulls for our own program. The dam of this bull is a stellar producer, she's a middle of the road cow with a lot of depth & extremely easy keeping. She's no stranger when it comes to producing breeder bulls, she raised a \$20,000 bull that sold in last year's sale to Jason McQuaig of JayDawn Farms Ltd, Sexsmith, AB. Another maternal brother sold for \$10,000 to 3M Simmental Farm of Lone Butte, BC.

Hetero Polled A pair of brothers out of one of our oldest cows on the place, the 590U dam. 13 calves for a 13 year old cow, not a bad deal & she's in calf again for 2022. The 890J bull is referred to as Fabio by Trevor since he is always looking over the fence towards the heifers. 590J is also similar to his brother. If you want a good honest red bull, either one of these guys would do the trick. Longevity & fertility should be built right in. Brothers to these guys have sold to some really top producers such as Gawazuk Farms, Momotiuk Farms, Martin Farms, Earl Warkentin & Lanes End Simmentals.

Homo Polled A dark red bull with two very dark colored parents. Long bodied with good thickness & hip. This sire group is really low set & easy keeping, we're quite high on their future prospects. The pen of steers this bull will sire should be impressive. This guy's mother is a fabulous young cow, her two previous sons have both sold to neighbors within 20 miles at Rugby, North Dakota. Randy & Stacey Schmitt own one son along with Haman Ranches.

Homo Polled Quite likely the longest spined bull in the entire offering, which says something since we've always bred cattle for length. The blend between performance & calving ease should be ideal as this guy is smooth shouldered yet has tremendous performance being one of the heavy weights at weaning time crunching the scale at 1045lbs. His Hashtag mother is a really sweet, long bodied cow with a very tidy udder & nice teats. Nick Stormo of South Dakota has a maternal brother working in his great program along with the Lasota's of Chaplin, SK.

Homo Polled We get comments all the time on how commercial cattle producers love the fact that these bulls are raised under real world conditions & managed under similar practices. You won't find show banners in our sale shop but rather good, practical, affordable & functional bulls that were designed for the commercial beef business. 262J is just a great example of that. A maternal brother was selected last year by Eric Haman of Rugby, ND. Eric along with his mom, dad & brother purchased a total of 5 bulls for their large commercial breeding herd.

Hetero Polled We're really taking a shine to these Red Centurion bulls. They're easy to admire for their mellowness, natural fleshing, length of body & top. Plus they all slide out so easy at calving time. The shoulders & heads on these guys are ideal. A maternal brother sold for \$10,000 last year to one of the most knowledgeable & hard-working guys we have the pleasure to do business with, Randy Geisler of Ashern, MB.

Retest Polled An end of February born bull who's got that tremendous purple red color going on. 195J has smooth shoulders, good neck extension & length of body which should translate into calving ease & still sire calves with growth & potential.

With having a video sale, this really enables you to study these bulls in depth at

Proud Grandparents
 Richard & Pauline, the herd of grand kids is growing.

Homo Polled A soft made, dark red purple bull who should calve extremely well yet still add pounds on your calf crop. Until I did the footnotes, I never realized he was that much younger than his pen mates. This guy has awesome growth. His dam is one of the widest topped red cows on the farm. She could live on willows & still be in great shape. A Patriot sired sister to 71J has a really nice Legacy son selling, he's lot (AIA 322J) We always like to mention how a sibling is producing so you can get a better feel on the consistency of what your future purchase will resemble.

 RENDEZVOUS SHAMWOW 92Z

Homo Polled This guy sure looks good from every angle. He really struts his stuff & is quite impressive to say the least. From his thick hind quarters to his tidy front end & everything in between, this bull checks off a lot of boxes. With a Mandako mother you're sure to have that extra easy fleshing ability plus the daughters should have excellent bags as Patriot & Mandako sure tidied things up in that respect. A maternal sister sold last year to Kuntz Simmentals of Battleford, we are excited to see what great things she has in store for Trevor & company.

Homo Polled The best way to describe this bull is like a Komatsu excavator. Smooth, yet solid & strong. One of the top red bulls in the offering. The build on this guy is exactly what we strive for. He is balanced so well from head to toe. In all seriousness, we just can't say enough good things about him. 458J's dam was our best red heifer we retained in 2018. The Alaska daughters are turning into some amazing cow factories. Last year's maternal brother sired by Legacy was also one of my top picks as well. He was selected by Ben Wright on order for 49th Parallel Farms Ltd of Pilot Butte, SK.

Homo Polled We really like how well the Patriot line has worked for ourselves & our customers. That blend of calving ease & muscling really shines & is what the industry looks for as herds become larger. The udders on the Patriots are picture perfect, something that is of huge importance to us all. 139J is a great looking bull, he strides out really well & has a very appealing body type. I had the privilege of selecting a full brother for Jack Hansen of Otter Creek Farms of Ontario.

Homo Polled Another calving ease prospect, born small at 68lbs, yet look at how heavy he weaned. A lighter colored bull, he would be a great fit for those who chase the buckskin market but want something to use on their 2nd calvers. If you like studying cow families, check out the Rampage sired bull lot 51 his mother is a sister to this fella's dam.

Somehow we never run out of things to do

Homo Polled Yet another Legacy son who combines thickness & muscle with low birth weight & strong calving ease attributes. When studying the pedigree it's no wonder why he's as good as he is. The cow family behind him has been bullet proof. The grandmother has been one of our highest earning red cows & this year has a black bull selling as lot 34.

Hetero Polled A 7/8 brother to lot 89 it's sure a satisfactory feeling as a breeder when you can have these kinds of closely related calves that hold more similarities than most ET calves. Take your pick but it's essentially splitting hairs at this point. Born small & easy to a first calf heifer, 289J is a tremendous prospect for the heifer pen. His smooth shoulders just spell smooth births. The hair coat on this guy is also a real bonus.

Homo Polled Born easy at 83lbs out of a first calver, you can circle him for the heifer pen. This sire group is really just like rain drops they're so darn similar. What can I say about this guy that I haven't already said in his brothers' footnotes! The comment is made when touring the pen on numerous occasions how it really doesn't matter which one comes home, it just all boils down to the sale order. Lucky for our customers as we have a lot of bulls to sell therefore there is always something for someone.

Homo Polled A good calving ease prospect with a low birthweight, smooth shoulders & small head. One has to really appreciate his thickness & great structure. His outcross pedigree to our herd is also a nice touch. His Kill Switch dam is a heifer we bought from Erixon's, she's super easy keeping & very maternal. A bull with a great deal of future ahead of him, he should have some fans on sale day.

ERIXON LADY 6G DAM OF LOT 85

Erixon's, she's super easy keeping & very maternal. A bull with a great deal of future ahead of him, he should have some fans on sale day.

Homo Polled Yet another Legacy son who fits in so easily with his brothers. Top of the class EPD's with +13.8 CE & 1.0 BW & a Milk number of 30.4 makes this guy an all-around attractive package. One has to really enjoy the hair coat on these Legacy's as well. We've been so impressed on how these bulls develop & how commercial & purebred breeders alike have been using them. The grand dam of this bull is a highly respected cow here, she raised our high seller last year at \$21,500, Rendezvous Lombardi, who was selected by Beechinor Bros, AB.

Homo Polled A heifer bull prospect in our humble opinion. The demand for Simmental heifer bulls has grown exponentially over the years & it's really no surprise. The added benefits of using a Simmental bull on heifers takes a lot of the risk out of the well-known hybrid size variability factor at calving time. A full brother to this guy's dam was one of the high selling reds last year going to Stolson Farms Ltd of Hodgeville, SK for \$13,000.

	83	770	877		13.9	0.9	67.7	96.7	27	9.5	60.9

Homo Polled Talk about hitting a home run in the Calving ease division. 83lbs & +13.5 EPD puts him in the top 1% of the entire breed. Study the pedigree a bit closer & you'll understand why, there's some elite calving ease bulls stacked in there. A bull that should be slated for the heifer pen in our thought process. The dam of this fella is a really sweet made cow who should develop into a real dandy.

Homo Polled We've only got a small sampling of Empire calves for this year however we must say, he calves like a dream. This son is thick with a nice top yet has that signature small head & smooth structure that spells out effortless calving. Study this guy's pedigree & you'll find some of our former calving ease sires such as Red Knight & Caesar who really left their mark in our program. If long sleepy nights during calving is on your wishlist, be sure to get this guy bought.

Homo Polled A younger, lighter colored bull with a good hair coat. A good candidate for the second calvers. His mother & grandmother are both big volume cows. With the natural dehornor built in, he should be a maintenance free kind of sire.

Coffee time after morning chores

Neighbours Guy Tardiff & Henry Janssen supervising while picturing bulls in December

fullblood bulls

FULLBLOOD BULLS LHSV CHARLES 29C SONS

AIA 591G & AIA 591H FULL BROTHERS TO LOT 93

If you aim for performance along with jaw dropping length & thickness, here's the ideal bull. A powerhouse in the making, here's a bull that many gravitate towards. It's always a slam dunk crossing Charles with the Para 591Y cow. She's raised our heaviest weaning Fullblood bull 3 years in a row now. Also turning out to be some of the sale toppers. Last year's brother sold for \$13,000 to the strong commercial herd of Lake Manitoba Cattle Co, the Johnsons of Vogar. Greg & Cole always pick out the powerful bulls & top the market in Ashern every year with their Simmental X Char calves. Another full brother was a lead off in 2020 & sold to Maple Lake Stock Farms to use in their purebred herd. Expect to see calves off of that guy in their bull sale. If your curious about the females here, check out the lot 123 bull, he's a Starfire out of a Para 591Y female.

It gets quite challenging to get them made any better than 191J. With 43 years of breeding registered Simmentals, we set the standards on these Fullblood cattle very high. You can tell at birth if you've got a winner & let's just say we knew this guy would create some excitement. This bull is so well balanced, from start to finish, he moves like a cat. Wide topped, very long bodied & yet smooth made, opportunity knocks with this guy. His full brother was one of my top picks last year & was selected by Andres Stock & Seed & Jason Becker of Roblin, MB for \$13,500. Jeremy & Jason both have a very keen eye for the best bulls & run some terrific programs. The Andres heifers are of top quality replacement stock, there's a reason why they sell out by the end of February. Jason is well known for his quality pot loads of steers he cranks out in the hills of Calder.

RENDEZVOUS MS BUSTER 408M

Here's a feature Charles son that could be as good as any we've raised, and that's saying a lot. A very refined bull, this guy is built with proper structure from the ground up. A great footed individual with large testicles, thick hind quarters & fluid movement. One has to appreciate his smooth shoulders & nice head. A bull that will have a lot to offer. His dam was an awesome PRL Houston female who raised a number of bulls over the years going to work in some great commercial herds such as Moose Creek Red Angus, SK, Barlan Holdings, MB, Gilles Parthenay, MB & Larry McAuley, MB.

A showstopper since birth, 149J just has that look of something extra special. Long like a rail car, this beef bull has the thickness & length built in. Full in the flank & has all the signature Charles features. Mothered by a highly productive polled Jahari female who's always a cow we like to show off when people tour the herd. A full brother was purchased by Scott & Brittany Ingelbeen of Ste. Rose, MB. Between cattle & carpentry, the Ingelbeens are busy people & know the value of investing in good bulls.

An elite herd bull prospect. It's no surprise to us with having such powerful parents. We don't have to go on about the merits of Charles however this bull's mother is one of our most powerful Fullblood cows. She is an ideal momma cow with so much top, middle & length. Her feet & udder are also top shelf. This year's son has always been impressive & he's continued to develop into a striking herdsire in the making. A full brother was a popular bull selling for \$16,000 to Jeremy Andres & Jason Becker. Jeremy also owns a maternal sister, he knows a thing or two about this bull's cow family.

A more moderate made bull here, granted this guy was orphaned on pasture in mid summer. His dam was a large, powerful, strong milking cow who would typically crank out the scale toppers, we unfortunately had the misfortune of losing her last summer. Last year's full brother sold for \$12,000 to Huber Simmentals of North Dakota, he along with 4 other bulls made their way to Halliday.

AIA 187H FULL BROTHER TO LOT 98

Capitalizing on free labour

For the 3rd year in a row a Charles X 160Z bull graces the pages of our bull sale catalog. Like peas in a pod, this bull will follow in his brothers footsteps. Deep, dark, cherry red, thick butted & big nuts, here's a bull who's easy to recommend on a sight unseen deal. If past performance means much to you (it does to us) the mother of this bull has had one of the very best track records in our Fullblood herd. She's raised 3 daughters, all of which were retained for our own herd. Now, her sons have been extremely popular commanding \$21,000 to M.C. Quantock, AB, \$12,500 to S&A Frericks Farms, SD & \$9500 to Wall Simmentals, SK.

Another hairy, red goggle eyed bull who turns out to be the maternal brother of our high selling Fullblood bull last year that was selected by Mitch Wall of Wall Simmentals, Edam, SK for \$14,000. This year's bull had a bit of a rough start as he was bottle fed for a month until we got him a nurse cow. We unfortunately lost his mother at calving time as she bled out on us. The 383D cow was a phenomenal young cow & with so much depth, thickness & top. We all know how stuff can happen with cows but all said & told this 383J bull should really add a pile of maternal power into anyone's herd.

RENDEZVOUS 451U DAM OF LOT 104

A super stylish bull mothered by a fabulous U cow who at her age still had a flawless udder & great feet. This 451J bull is colored right, he will calve like a dream with those smooth shoulders & low 85lbs birth weight. The MFI Supreme bull on the dam side was noted for his color, calving ease (was our heifer bull in mid 2000's) but what we later on discovered was how maternal & productive his daughters turned out to be. We have a number of sisters to this 451J bull in the herd & brothers to this guy have went to Alex Ayotte of Roseau River, MB & Jason Becker or Calder, SK.

AIA 74G FULL BROTHER TO LOT 105

Don't hold this guy's age against him, he may be the second youngest FB in the offering but he could mature to be one of the top ones. Red, goggle eyed, he should pass on that strong color to all his offspring. Full brothers to this guy have been feature bulls here in the past with Rendezvous Renegade 74E selling to Mark Land & Cattle & Kyle Westman, AB & Rendezvous 74G to 4 Matt Simmentals, AB.

There's not much Gerald can't fix, including Richard's windchime

The quickest way to build a fence through a swamp

A powerful & impressive herdsire here. He seems to get discovered quite fast when people tour the bull pen. This beef bull is chuck full of meat with thick hind quarters, a wide top & a ton of capacity. His mother is a moderate made, cherry red goggle eyed cow with a nice udder. The grandmother is a stellar producer & interestingly enough also has a Commander sired son in the sale as lot (AIA 210J). If you take the time to compare these two bulls it's easy to tell they are related. This is something we as breeders strive for, consistency in every generation.

The same words keep coming to mind when thinking about the 469J, being a Commander son. As a cattle breeder, this is the goal. As the guy writing footnotes, it's a challenge to find different words to use! A masculine bull with thick hind quarters, good top & a ton of depth. A maternal brother sold for \$10,000 to TJ Farms back in 2020, other brothers have went to Rick & Emily Driedger of Vita and Floyd Price of Westbourne. A maternal sister is also working at Northern Lights Simmentals good purebred herd.

A stout, strong built beef bull, he places a leg under each corner, built just like a table top. The masculine look of a herdbull is always an asset when selecting your next herdsire. This guy has that deep, dark red color that is always highest in demand when it comes to selling replacement females. A full sister sold for \$4500 to Brightstone Colony of Lac Du Bonnet, MB last year along with another full sister selling the year before to Wilson Stock Farms, AB.

Who needs to flush cows when your 14 year old cows crank out a pair of twin brothers like these. These 2 brothers are natural flushmates and both very similar in build. Thick butted, wide topped with lots of hip, they will excel on some red cross cows. Balanced set of EPDs to boot. If your running large breeding paddocks, it would be a clever idea to keep these two mates together & let them do their job, the consistency in the calf crop would be impressive to say the least. Over the years the 570T cow has raised numerous high sellers & generated a lot of income. Sons of hers have went to the elite herds of Wall Simmentals, SK, Darrel Goosen, MB, Bar 7 Farms Ltd, MB & Cross A Simmentals, ND.

AIA 570F MATERNAL BROTHERS TO LOT 112 & 113

A standout to say the least, colored to perfection with no socks. Since three weeks of age this guy has been a real dandy. Thick butted, wide topped, stout, big testicles & great length is all built in. A neat pedigree for the Fullblood world with a Draco sired mother who's done well here. A full sister was one of our top replacement females in 2020, she's got a tanky black bull calf selling as lot 40. A Full brother sold in last year's sale for \$9000 to Ellice Fort Farms of St. Lazare, MB. Brandon & Denis always know how to pick out the good ones.

A rugged, hairy beef bull who's got a lot of things going for him. The Commander cattle showcase that extra depth without sacrificing any power. Great color & pigment, his mother has been a terrific producer along with the grand dam being a U cow & still cranking out the good ones. A Charles sired sister was a feature in last year's sale, she was picked out by the junior division at Double RN of Lloydminster. Brothers to 35J are working in the herds of Moose Creek Red Angus, SK & RJG Farms, MB.

The first Polled Commander son we've raised. A very deep sided, mellow & stinky made beef bull. His mother is a moderate, well pigmented, easy keeping cow with a tidy udder. We purchased her through Darryl Snider a few years ago from K&S Simmentals. A maternal sister sold last year to Janssen Simmentals, our neighbors to the west of us a few miles. Henry & Gail run a very strong Fullblood herd always weaning some of the heaviest steers in the area.

This will be the last son to sell out of one of our oldest Fullblood cows. A moderate, chunky, thick yet compact kind of bull. Truth be told his mother wasn't producing much milk by summertime with her age so he wasn't quite up to par with the other guys at weaning time. Since then, he's really picked up steam. Maternal siblings have gone to Stacy Frericks, SD, Gilles Parthenay, MB, Kruk-Lylyk Livestock, MB, TJ Farms, SK, MCF Simmentals, MB & Randy Bartel, MB.

Yet another performance-oriented Commander bull who's colored up the way we want them. Long bodied with great scale, this guy still has smooth shoulders & a nice build. He should calve well but still give you some market topping calves. The dam of this bull is a really nice uddered Smuggler female that traces back to our old MFI Supreme bull. Tons of maternal power in this guy & one should take note how there's no relation to the Charles line, therefore could be a suitable candidate to use on some of those females in the future. A maternal brother was selected in 2017 by Darrel Goosen of Kelwood.

Polled A bull who will garner some fair interest not only due to his smooth polled head but his overall build. A long bodied, smooth made individual with a nice small head. He should calve really well & stamp his calves with that awesome hair coat. His mother is a lovely young cow who came to us in dam from a cow we purchased at Simmsational a few years ago through Jay Good. The possibilities are endless with this guy.

Likely the easiest bull to spot in the offering. Not only does he stand out due to his funky color scheme but his overall physical build is pretty impressive to say the least. His structure & fluid movement really reminds us of his sire when we purchased him as a yearling. 362J has got to be one of the longest bulls on offer, his capacity & spring of rib sets him apart from the pack. A maternal sister was a feature in last year's sale, she was selected by Rising Dawn Simmentals of Yellowhead County, AB. The year before another sister was a standout selling to Wilson Stock Farms.

An all-around user friendly bull that shouldn't break the bank. A suitable candidate to use on a group of Red Angus cows to add that Simmental punch back in. The MWW & Milk EPDs put him in the top 2 & 3% respectively. Last year's maternal brother was selected by MJD Farms Inc of Carman. The Dunn's run a great mixed farming operation with the next generation helping out Melvin & Jeff more every year. Having purchased 32 animals from us in the last 10 years, we greatly appreciate the enormous support.

The growth in these Starfire sired calves is really impressing us. Another bull with that extra length & pop. Considering he's just tuned a year of age this guy isn't done growing. 83J travels really well & should cover some ground during breeding season. A neat twist on pedigree with the NUG Clipper on the dam's side. A maternal brother sired by Legacy sold in last year's sale to the progressive mixed farming operation of Van Buuren Stock Farms of Pipestone, MB.

A real interesting herd bull here, a solid red faced Fullblood with an outcross pedigree. One of the longest bulls in the whole offering, you could easily use him in your red cows to add that extra Fullblood punch & maintain the color scheme one would think. His Milk EPDs are absolutely through the roof as he ranks in the top 1%, that's right, no misprint with a +43.8. We purchased his mother from Doug & Eric Zimmer & have been extremely pleased with how this cow has turned out.

A bull who gets picked out often, he sports a great hair coat, fleshing ability, mellow made & loads of length. A spitting image of his sire, our new junior in the Fullblood division, RWR Starfire. 75J comes from some pretty special parents. The dam of this bull is one of our very best up & coming Charles daughters. She just also happens to be a full sister to the \$25,000 Rendezvous 562G bull that Zdan Farms selected in our 2020 bull sale. Now, take note, with this bull just being the dam's second son, she's already got a successful track record started. Her son in last year's sale was one of the high sellers of the day bringing \$13,000 to Doug Wilson of Pilot Mound, MB. 75J has a lot of things going for him & would be easy to recommend to any Fullblood enthusiast wanting to keep this great breed at the top.

This genetic combination seems to be working quite well. A free moving individual who should go out & get the cows bred. Good thickness, with length & style, if you retain your own replacements adding a shot of Fullblood power goes a long ways, especially in the milk department. With a 43.3 for MILK Epd puts this guy in his very own league at the top 1% of the breed. A maternal brother sold in last year's sale to Melvin Dunn & the boys from Carman.

There's just something about this guy that seems to peek ppl's interest. Considering he's born March 7th he's no slouch of a bull. He has a balanced set of actual numbers along with his EPDs. For the most part this fella also has an outcross pedigree to most of our Fullbloods which is always something we try to achieve with some all the different bloodlines we have to work with. Ted Wood of Rivers purchased a maternal brother last year.

The youngest FB in the sale, we refer to him as the Throw back Thursday calf. A blast from the past with his color scheme, but truth be told, we kinda like it. A bull who should sire some dandy steers that will excel at the feedlots. A sister sold in last year's sale to Raymond Custeau of Quebec, the year before a bull went to repeat customer Brian Johannesson of Gimli, MB.

black open heifers

BLACK OPEN HEIFERS MRL PERCY 37D DAUGHTERS

One of the powerhouses of the whole deal. This blaze faced Percy daughter packs the punch we all seek. Thick made, wide topped & deep bodied, she has brood cow written all over her. The 124A cow is no stranger to producing the good ones. She raised our high selling bull in 2017 selling to Czech Mate Simmentals for \$15,000.

Here is the absolute tank of the whole offering. What a standout heifer, from both color & body type perspectives. This is exactly the type of female you want raising calves, roomy, easy keeping & soft made. Her length & power is impressive to say the least. We purchased her mother from the recently dispersed Meadow Acres program a few years ago since we really admired the Pashmenia cow family. If anyone was paying attention at the MAF dispersal, that cow family was really a sale highlight.

We've done a few of these Direct Drive X Charles combos in the bull lineup & they're some of our top blaze faced prospects. It worked equally as well in with this stout made heifer. She's got a lot of barrel to her not to mention a great haircoat. A full brother to the dam of this heifer was a feature bull that sold for \$16,500 to Zdan Farms.

We absolutely adore these blaze faced single cross black females. They make the best mother cows. We've been breeding all our Fullblood females either red or black for their first calf, it's been win win making these single crosses with more punch & the calving part is trouble free.

 RENDEZVOUS MS SNUGGY 228B

A heifer with a mighty strong pedigree. Combining some of our very best black herdsires & way back a shot of Fullblood with the 118Z cow. This should make a great producing cow if she's anything like her mother. A maternal sister to this heifer has a stellar homo polled, homo black bull in the sale, he sells as lot 41.

A ¼ sib to the 140J heifer above her. As cattle producers we all know the importance of raising stock who carry the same qualities & the most consistent calf crop possible. Take a look at this heifer or any of the Avenger daughters & you'll get what we're saying. A Percy brother sold last year to none other than Percyview Farms, SK the year before a Powershift brother was selected by K Bar Livestock of Ste. Rose.

We can't keep all these heifers as much as our herdsman Trevor would like that. This Avenger female comes from a really productive Hashtag cow. She's also the dam of the Rendezvous Viking bull that has been used successfully on heifers at Larkspur Ranch. The Larkspur heifers commanded top dollar back in December at the last SRAM Bred cow sale. It's always nice to see our customers success with the genetics they use.

One of the huskier black heifers on offer, the length in this girl will add some payweight. We have a full sister retained that is due to calve this winter, therefore felt we could let this one sell. We've employed that philosophy when marketing our females & it's been a fair way to contribute to our sale numbers.

There likely won't be an abundance of Dynasty daughters to sell in the near future so if you like what you see, take em while they're available. We feel this young black herdsire has only started to make his mark in our program. He stamps them all so thick, deep, hairy & consistent in their build. A maternal brother sold last year to Lonny Farthing of Lundar, MB. Lonny and good delegation of neighbors attended the sale last year & we sure appreciate seeing everyone's faces.

Crop scouting fun
in the summer

We even managed to make some 3rd cut alfalfa bales, first time ever!

Mothered by our oldest active cow in the herd, the 618T cow. We have 6 sisters to this heifer in our own herd so we felt it was time to offer one for sale. With Western Star as her sire, she will certainly grow into a beautiful young cow. The Stars make some darn nice cows with the most perfect udders you could ask for. Check out the lot 26 bull, he's a Western Star out of a maternal sister to this heifer...the genetic potential rises to the top here.

Two generations of blazes & mothered by a fabulous old Bombshell cow who's cranked out calf after calf. If you like your cattle to carry the money stripe & add some extra jingle to your pocket, here's your ticket. A brother sold last year to Ryan & Shanley Jarvis of Austin, MB. Ryan's parents Garth & Marj are no strangers to the cattle business & have been great customers over the years.

Without a doubt, the best red blaze faced heifer we've raised to date. Between Gerry & Trevor thinking I've hit my head a little too hard underneath the deep tiller this fall, we are offering this unique & special heifer to anyone who wants to further enhance their Simmental program. A female like 382J doesn't come around all the time. With 43 years of raising registered Simmental cattle, we are proud to offer this outstanding female. She is as thick as we can make them, long bodied, powerful & hairy. Yet feminine & soft made, just the way the ideal cow should be made. She is of donor quality & would likely pay herself off with one flush. Breed her to the bull of your choice, the possibilities are endless with this one. Two brothers to this heifer have sold for \$8500 & \$10,000 both being purchased by top notch cattle producers, D&S Moffat Farms Ltd of Rorketon, MB.

One of two Rampage heifers we are selling this year. One would be wise to scoop up these outstanding females since Rampage has sired a much larger percentage of males, we will most likely be retaining most of his females back in the next few years to come. The dam of 414J has been a very consistent producer. We've retained some of her daughters as well as having sold one to great repeat customers Brian Smith, Cornerview Cattle Co of Ontario & Triangle 33 Simmentals, SK. Brothers to this heifer have sold to Ryan Alford of Swan River, MB & Nick Stormo, Hyati, SD.

Sired by our new junior red herdsire, ZSL Red Centurion, we have a lot of good things to say about his calves, both on the male & female end. Calving Ease, growth, thickness & dark color are but a few of his strong points. Eric Zimmer showed us Centurion's mother when touring their herd & it truly helped secure the idea of owning that bull. A maternal sister sold in last year's sale to long time Simmental breeder in Ontario, Don Farrell of Far-L Farms.

This heifer has the look. She draws attention from far away. Her eloquent walk along with her eye catching, feminine head, she'd make a great 4H or YCSA project. Easy keeping, soft made with a lot of rib shape. We really like her style, combine that with her natural thickness & top, it's pretty easy to put this heifer at the top of anyone's shortlist. Sisters to this heifer have been very popular with breeders over the years, we've really sold too many of them in all honesty. Two are working at Cornerview Cattle Co, ON, along with one at MacCrostie Livestock, ON & Severtson Land & Cattle, AB.

A ¾ sibling to the 519J heifer. The 540G cow is one of our favourite young cows, she's a second calver & we suspect you will be seeing more of her progeny in years to come. This heifer has the money stripe, she's very correct & feminine, will no doubt follow her cow family's footsteps & get to the top of anyone's herd.

A fancy Empire daughter here. Lots of calving ease built in with this female as many of the sires showing up in her pedigree have been proven CE bulls. This heifer is most likely Homo Polled with so many generations of Homo Polled bulls. Watch her video, you'll like her style.

When you pair up all these Empire daughters, consider their age as they are younger than the bulk of the heifers on offer. Mandako in the background, one of the best red bulls we've used in our herd you'll be wishing you bought more of these females.

We're only offering a very small sampling of Thriller females this year. We've been big time fans of the Amber Jack line & here's your only opportunity in Manitoba to acquire such genetics. This heifer is as dark as they come. 5 generations of females in this heifer's pedigree are all producing here at Rendezvous. Even the great, great, great grandmother has offspring in the sale! How often will you see that in a sale! If fertility, longevity & dark purple red color is your thing, get this heifer producing in your herd this spring.

A solid built heifer with some size & strength. Great hair, she should set a beautiful udder once in calf. The Patriot females have flawless udders & we would go as far as saying that he himself is an udder improver. A maternal brother sold last year for \$7500 to a great guy Bohdan Procyk, SK.

We can't say enough good things about these Patriot daughters, they make tremendous cows. Just ask the guys at Momotiuk Farms how they like their Patriot cows. Interestingly enough, the grandmother to this heifer has a feature Rampage daughter selling in this sale as lot 146. Last year a maternal brother sold for \$7250 to 4M Cattle Co, AB. The Marcinek's are well known for their elite replacement heifers they sell every December at the Thorsby Stock Yards.

We are calving our first set of Legacy daughters this winter & we are very pleased with the kind of cows they will make. Moderate, dark in color, easy keeping & lots of hair. They are springing nice udders as well. The added benefit of having the FB powerpack in the bottom of the pedigree makes these kinds of females the ultimate package.

It's somewhat remiss of us to sell heifers like these when we are in the bull business. However, it does become a numbers game & therefor we must part with some from each sire group. The pedigree in this heifer speaks volumes here & we know the potential that this heifer holds.

fullblood open heifers

FULLBLOOD OPEN HEIFERS LHSV CHARLES 29C DAUGHTERS

Once mature, this could very well be the best heifer of the bunch. Her birthdate & the fact she was mothered by a 15 year old cow are somewhat noticeable today, however give it some time & she will rise to the top. This heifer will be a fertile factory if she's anything like dear old mom. A maternal brother sold to Tommy Dush of Nebraska last year for \$7500. Another brother is only a mile as the crow flies working at our neighbor's herd, Denna Farms Ltd, Denis & Donna Parthenay.

A Charles daughter from one of our best Draco cows. This heifer wasn't supposed to be in the sale pen but after another Fullblood was injured in late December, we gave her a quick clip job & added her to the offering. Full brothers have been feature bulls over the last few bull sales selling from \$7500-\$15,250 to leading commercial herds in Western Canada.

A red goggle eyed heifer with a lot of hair. A full brother sold last year for \$11,500 to long time customer Triple V Ranch of Carrington, ND. This heifer traces back to one of our elite Fullblood cows, the 74D, MPL Meister cow. Perhaps I'm dating myself in going back that far however she really made a lasting impact here in the last 2 decades.

These Commander females are really rising to the top of the Fullblood herd. With stiff competition in sire groups, they compete with the Charles females any day. A good looking thick made heifer who's deep sided. We have a full sister in our bred heifer pen & she's a dandy. Siblings to this heifer have sold to TJ Farms, SK, Jason Lasota, SK, Double G Farms, SK, Sheppell Farms, MB.

We're somewhat reluctant in selling this heifer since the cow family behind this female is top shelf. You'll recognize the 562Y & 586U cows in the pedigree. They've raised some of our high selling Fullblood cattle over the last decade. A maternal sister to this heifer was our high seller in 2020 going to Double Bar D Farms. Last year a full brother to 222H sold for \$9000 to MC Quantock. Some of the largest bull breeders in the prairies also have a lot of confidence in this cow family.

	95	695	665		-0.7	7	76.5	115.9	37.6	-1.6	75.9

This is the first of the Starfires to sell, we feel they will make awesome mother cows. The extra rib in these cattle is very noticeable, they're just so darn long. The dam of this heifer just keeps cranking out the good ones, she's in fact never given us a bull. Sisters have sold to Cornerview Cattle Co, ON, Jeff Watson, SK, Yaciuk Farms, MB, Bergman Family Farms, SK & Michael Chapelaz, MB.

This heifer has a lot of growth & scale. Considering her mother & herself were separated from the main herd this summer & stayed on 500 acres of drought stricken bush/ridge pasture & weaned a month later than the rest of the group, she's done really well. The 76Z cow has produced a lot of bulls in her career with sons going down the #5 hwy to Richard Puhach of McCreary, Bar 7 Farms of Kelwood along with the Lasota's of Chaplin, SK & Ryan Alford of Swan River, MB. When a cow can crank out bull after bull, it's a given that the daughter will hold the same traits.

RENDEZVOUS MS DRACO 76Z DAM OF LOT 174

A heifer who will just have turned a year of age by sale day. Once mature, she should make a stout & productive cow. Her pedigree is a bit more unconventional to our program which opens up a world of opportunity to use a Charles son here. 554J ranks in the top 2% of the breed for Milk EPD's with a +42.6. We have 2 maternal sisters in our own herd & Jase Martin a keen young cattleman in Swan River owns a maternal sister as well.

RENDEZVOUS 533S

Another functional Starfire female with some of the great Maxwell breeding bulls we've owned on the bottom side. The dam of this heifer is a really soft made, easy keeping moderate cow who's got a lovely udder.

RENDEZVOUS 13N

The youngest Fullblood heifer in the whole offering. Her dam is a stellar young cow who can really crank out the good ones. I had the privilege of selecting a bull for our neighbor & friend Ron Boerchers of Laurier a few years ago when he was unable to attend the sale. Ron tells us that this particular bull has been the best one to date. A maternal sister was also selected sight unseen by Loren Duscherer of Balfour, ND in last year's sale for \$4250.

notes

terms & conditions

TERMS The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Transcon reserves the right to charge interest at a rate of 2% per month on overdue accounts. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaultor. All settlements must be made with the clerks of the sale before any cattle will be released. Transcon Livestock Corp and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

BID No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INSURANCE Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

US BUYERS There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

CATTLE PICTURES AND INFORMATION PROVIDED The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Transcon Livestock Corp. and catalogue designers/producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

ANNOUNCEMENTS All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY A registration/recording certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price. **EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

EMBRYO & SEMEN Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

ACCIDENTS Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.
