

FIFTH ANNUAL BULL SALE
MARCH 17, 2022 AT 1 PM
AT THE FARM, HARTNEY, MB

WELCOME...

It is with great pleasure that we welcome you to the Strongbow Farms 5th Annual Bull sale. We are honored to be able to offer the industry the largest selection of Black Angus yearling bulls in the whole of Manitoba.

We would like to thank our past customers for their support in our brand and the confidence that you have placed in our breeding program. This year presents the most diverse offering to date – a fantastic offering of calving ease bulls along with a tremendous offering of power bulls. The sire groups on offer include Rainfall, President, Renown, Ten Speed, Stunner and Strength to name a few. An incredible set of 9 flush brothers by SAV President are on offer this year. These brothers are true herd bulls in the making; packed with tremendous thickness, muscle shape and capacity, backed by one of the most maternal, productive dams on the ranch today. The offering of bulls with heifer pen potential is second to none this year – sired by bred leading genetics, sporting low birth weights, and heavy gaining traits. If you have any questions or would like to discuss the bulls please feel free to give us a call or text anytime, no one knows these bulls better than we do. Free delivery will begin right after sale day. Please leave delivery instructions sale day. We encourage you to come and personally examine the bulls here at the ranch prior to bidding. They are always available for viewing. A live sale will be taking place at the ranch this year and will also be broadcasted live through DLMS for internet bidding for those not able to attend the sale in person. We look forward to seeing everyone.

FROM THE DESK AT T BAR...

Welcome to the 5th Annual Bull Sale for the Strongbow family, featuring the largest offering of Angus bulls they have had to date. This expansive cowherd has swiftly solidified its status as a force within the Canadian Angus fraternity, based upon the excellent quality of cattle that have been brought forth year after year. The Bertholet family must be commended on building a solid cowherd through fierce attention to detail, focus on progressiveness, and sourcing the best possible genetics to produce both profit and predictability. Not only is a quality product being offered, but it is further backed up by exceptional customer service.

The 2022 pen of bulls are put together remarkably well. Starting off the catalogue this year is the Rainfall sire group. This now deceased AI sire remains exceedingly popular, supplying both low birth weight to heavy weaning. This large sire group supplies many heifer bull options that come highly recommended. The President group also arrives distinctly demanded, with needing no introduction as the sire of the America bull who has taken the breed by storm. These heavy weight bulls will push the scales on your calf crop. Next in the sire lineup is the standby, Renown. These bulls tie everything together in a bow when you consider numbers and actual phenotype. Stunner has stamped an excellent group of bulls that apart from simply calving easy, will also leave a set of replacement females that can only enhance even the most established of herds. Smaller sire groups can be found towards the back of the catalogue, that while may not be coming at you in vast numbers, do not let off in the slightest in terms of excellence. The Strongbow trademark of performance-oriented cattle that do not sacrifice ease of calving is represented strongly throughout the offering of 105 bulls. Just check their weaning weights this year, and remember the record hot Manitoba summer with very little grass. These are cattle that can adapt in every sense of the word, to any environment that is thrown their way.

We at T Bar C strongly encourage your involvement within the Strongbow operation. We are confident that as you walk through and evaluate this impressive pen of bulls that you will have a lot of hatchet marks in your catalogue beside the lot numbers. If any assistance needed, please don't hesitate to contact any of us listed.

See you at the beautiful sale pavilion at SBF!

TERMS AND CONDITIONS

TERMS...

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

BIDDING...

Each animal will sell to the highest bidder... no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

ANNOUNCEMENTS...

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

BREEDER'S GUARANTEE...

All bulls sold are guaranteed breeders by the owners. We guarantee to provide you with a sound breeding bull. Should any bull fail to be an unsatisfactory breeder, he will be replaced with a bull of equal value, or a credit will be given toward the purchase of another bull. If you have a problem with your bull please notify us immediately. Under no circumstances will the seller be liable for more than the purchase price of the animal.

EXCEPTION GUARANTEE...

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

CERTIFICATE OF REGISTRATION...

Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES...

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.
