ONLINE BULL SALE

APRIL 9, 2022

2:00 PM - CLOSE OUT 6:00 PM CST
AT THE RANCH, WAWOTA, SASKATCHEWAN

WWW.FARMGATETIMEDACTIONS.CA

WELCOME

Welcome to the 2022 offering of the WRAZ "J" Bulls. I would like to thank you for taking the time to have a look at our sale offering - I know the mail box and internet is full of options for your next new herd sire. We look forward to your visits or calls to talk about your bull needs whether you require more information or if you would like our help with your bull selection. Visitors are welcome anytime and my phone is always on. I guarantee if you take the time to come for a visit/tour it will be worth it. Sound structured functional genetics that will produce progeny that are in demand with top of the line customer satisfaction and a good return on your investment is the goal here. Please allow us the opportunity to prove we really are WRAZ - The Program You Can Count On.

We moved the bull sale home to the ranch five miles East and one mile North of Wawota last year and went with the DLMS Online Farmgate Timed Auction. This year the format remains the same and we welcome you to attend the sale in person as well. We have the bulls penned right outside the sale facility for your personal evaluation and inside the large screen TV monitors will show you how the bids are going. If you are not tech savvy and prefer a personal touch to accommodate your bidding then we have that option for you too. We will have a very capable DLMS rep on site to discretely handle bids on your behalf. You can have a one on one personal visit with the rep with your bidding instructions then sit back and enjoy one of Lana's famous steak on a bun with the beverage of your choice while you keep an eye on the big screen TV's. The cows will be close by with their 2022 progeny at side, the sires are close by as well as 90 or so open replacement paternal sisters for you to view if you would like. Come early and tour the herd. The offering this year is the result of well proven sires and a large group of females from first calf heifers to well proven females 12 years of age. Well over 100 males were born, 65 made it to the bull pen and just over half then made the cut for the catalogue offering. Semen evaluations will be done before the sale so you can be confident in your investment. Please join us any time after 2:00 pm Saturday April 9 for hospitality and stay for the excitement of the Close out at 6:00 pm followed by a little more WRAZ hospitality.

As I write this I cannot help but think of the last couple years of the pandemic across the world and now even more turmoil and extremely turbulent commodity markets across the globe. The cattle market has held on pretty well considering the price of feed. The Canadian herd is at a 30 year low for cow numbers. Although it has been tough going with the drought and very high feed prices I do believe as the old saying goes "just hold onto the cow's tail and she will pull you through". I know it has not been easy but nothing worth doing is easy. There is no place I would rather be than on my own ranch in the wide open spaces and there is no industry I would rather be a part of - real people that still hold value in a hand shake. Take care out there. - Phil

HOW TO PARTICIPATE

GO TO WWW.FARMGATETIMEDACTIONS.CA

1. LOGIN/REGISTRATION BUTTON.

First time FarmGate users: Select the REGISTER button from this page. Fill out the registration form to sign up for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. (PLEASE NOTE FARMGATE & DLMS LIVE SALE SITE USE DIFFEREND LOGINS)

- After you create your FarmGate account you will receive a text message with a pin code to verify your account.

- On your first log in to FarmGate Timed auctions we recommend you go to your profile and confirm your notifications are set to YES. This allows the site to send you text and/or email notifications when you are out bid and if there is activity on your favorite lots.

Returning FarmGate users:

- If you have used Farm Gate Timed auctions in the past simply enter your user name and password to continue. After you have logged in you are able to browse the timed auctions on DLMS FarmGate Timed Auctions.

2. HOW TO BID

Now that you are logged in and your account phone number / email is verified you are able to bid on an upcoming sale. Simply find the lot you are interested in bidding on. After you have found the lot there are 2 options for bidding on the lot.

- Place Next Bid - to place the next bid on the item, you see the amount in the first box, you simply click the "Place Bid" button and after you review the bid and agree to the terms and conditions your bid will be placed.

- Max Bid Amount - to place a max bid you put your max bid in the second box listed as "Max Bid" on the item, and then click the "Place Bid" button and after you review the bid and agree to the terms and conditions your bid will be placed as the next bid. With the Max Bid placed the computer will then keep you as the high bidder to the max amount you have placed. This can be a great feature if you are not able to give 100% attention to the sale close out and protect your interest so you do not miss out on any lots you want to purchase. The Max Bid amount is completely confidential from the seller during the sale process. Example of How the Max Bid Works - If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest. Please note that in some cases a lot value can change very quickly if 2 max bids are placed on the same lot competing against each other.

3. WATCH LIST FEATURE

If you have items in multiple auctions or only a few from the same auction that you want to watch with out having to scroll through the entire list you can add the lots to your watchlist. On each lot you will see the "eye" button beside the bid button, by clicking this "watchlist" Icon that item is added to your personal watchlist for easy viewing of just your favorite lots in this sale or on the entire site.

4. SALE ENDING / CLOSEOUT

Most FarmGate Timed Auction sales close racehorse style with extended bidding.

WHAT IS RACEHORSE STYLE CLOSE?

Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

HOW WILL EXTENDED BIDDING WORKS?

When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

5. BIDDING CLOSE & FOLLOW-UP

After the clock has gone to "ENDED" and no bidding has occurred for 5 min the computer will declare the sale finished. Following the close typically within 24 hours of the sale close the sale consignor will contact all winning bidders to arrange payment, transfer of pedigrees and delivery/Pick up of your lot. Or as the winning bidding you can contact the sale consignor / sale manager to confirm payment instructions.

Please make sure that your account info is up-to-date and correct if you are the winning bidder of a lot as this is how the billing is sent to Sale manager and/or Sale consignor.

TM Agricultural

Our flagship product is used to stimulate strains of beneficial microbes in the soil that have become dormant. The result: softer, more mellow soil which translates into higher organic matter, better water retention, improved percolation and increased yields.

PH Adjuster

Used to help balance the pH in the soil. Helps mobilize heavy metals. The result: Proven increased crop yields, by unlocking nutrients due to salinity issues.

Seed Germination

Apply during seeding or up to 120 days prior. Results in early emergence and more even crop growth.

Herk Foliar Fertilizers

Scientifically proven to be the fastest way to get essential nutrients into a plant! Our HERK MAXXX crop specific foliar blends will give your crop the muscle it needs to compensate from soil deficiencies, with our full package of high quality chelated micro nutrients and trace elements. Increase yield potential and put bushels in your bins.

ASSASSIN

13 Assassin sons sell - This will be the last big group of sons as we have retained daughters and we need to freshen the genetic pool our loyal bull buyers needs as well. The sons and daughters of Assassin have a lot of eye appeal - something that will add value when you market the progeny. They are very docile and it's a trait that gets passed on. Added length of body with incredible hair coats and a ton of meat are all things you will see from Assassin progeny. We used him on heifers in the past and some of his sons can be heifer friendly depending on your specific herd genetics. There are sons for mature cows that will pound the scale down in the fall as well. Keep all the females they are well proven and a treat to be around at calving time.

CLIPPER

Clipper was our high selling ET son of Assassin in the 2020 Bull Sale. Our good friend Dennis Mauthe had the winning bid that day and he walks the pastures SE of Brandon now for Dennis and Nancy. Clipper's dam Red WRAZ Sheba 40X was a favorite of mine that sold through the mighty Red Round Up for \$10000. We were very pleased when Dennis allowed us to breed a few to Clipper - I really look forward to his daughters in our herd. We used him on a mix of heifers and cows to put him to the test. The heifers calved just fine with lighter birthweights and the cows calved well with more birthweight but typical of the individual female's genetics.

NEXT STEP

This is the last group of Next Step sons on offer since we unfortunately lost him to an injury - a great loss as this big bugger checked a lot of the boxes that are in demand in the current livestock industry. Semen is limited so if you get the opportunity to acquire some you better jump on it. He did a great job here - a little more birth weight than some in the industry feel is ideal but it is time to leave that thought behind before the buyers won't touch a straight Angus calf at the local auction mart (was the angus breed not there already at one time??). Although there may be a higher number in the birth weight column the calving ease is still there with Next Step. The shape of the head and smooth front ends with the nose between the knees mean more for calving ease than a BW in most cases. This guy does it well and you end up with a frame that the feedlots can put some pounds on to make a buck. He did so many things right. Use his sons on your mature cows to add tons of hair, length of body, great feet and sound structure. Keep all the females - the daughters are raising some of the biggest calves with very sound tidy, well attached udders with real nice teat size. I believe the daughters have higher Milk Fat than most in the breed as well - proven by generally impressive wean weights.

COVERS & CO. MULTI SPECIES FULL SEASON FORAGE OPTIONS:

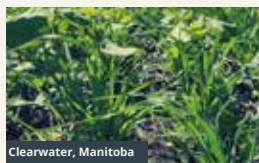

Do not apply nitrogen fertilizer with these multi-species blend options. Synthetic N fertilizer will inhibit legumes from forming a symbiotic relationship with rhizobium bacteria (lazy roots syndrome). This relationship is crucial for early & late season nitrogen production to the system. Inoculant required.

➞ FULL SEASON COVER

Our most popular blend. Lower input costs, provide a balanced feed ration & transform your soil to infiltrate & hold water. Regrowth.

➞ COOL SEASON COVER

A full-season cover option without the insurance (drought tolerance) of warm-season plant species. A great next step from a pea/oat blend. Regrowth.

➞ SOD SEEDED COVER

These annual plant species selected for this blend will give you your best chance of penetrating and establishing a root system when sowing into sod.

"With 78 percent of the atmosphere being Nitrogen gas, why would I ever write a cheque for that. It just doesn't make sense."

- Gabe Brown

Image: Plants are forming symbiotic relationships with rhizobium bacteria, mycorrhizal fungi, and other soil micro-organisms to fix, solubilize & share nutrients among each other.

Photo: Full Season Cover. Wawota, SK 2022

NITROGEN FERTILIZER: A CATTLE FARMER'S PERSPECTIVE

By Joseph Gardiner & Owen Taylor | October 21st 2021

Today we wanted to come to you from the perspective of the cattle farmer as we are facing near-record high nitrogen fertilizer prices. What do these prices mean to the farmer - specifically, the cattle/mixed farmer. Who is better positioned to absorb these prices? What can you do to reduce your synthetic nitrogen bill this upcoming year?

Let's get started by looking at the local price of nitrogen fertilizer:

- 2021 Avg. Nitrogen Fertilizer Price: \$0.54/lb
- 2022 Avg. Nitrogen Fertilizer Price: \$1.00/lb

It is no secret that fertilizer prices follow commodity prices. Therefore, grain farmers are better situated to absorb the higher costs. Unfortunately, these trends are not true for the cattle market. As fertilizer prices increase, cattle markets have been stagnate or in decline.

What Can We Do as Cattle Farmers?

1. Crunch your own Winter Forage ROI numbers with current nitrogen prices.
2. Consider a multi-species blend consisting of nitrogen-fixing legumes, nutrient scavenging broadleaves & mycorrhizal-dependent grasses.
3. Maximize Growing Season (Sunlight)
 - Pick species that will regrow after 1st cut has been harvested.
4. Stop writing cheques for synthetic nitrogen fertilizer. Utilize legumes in a multi-species blend.

FRANCHISE

Franchise has been used exclusively on heifers at WRAZ to date. I am very pleased with his progeny both male and female and he will see as many cows as he can handle this breeding season. We only tested him as a yearling then he bred in the pastures of Red Ember Ranch last season. Another partner Brylor/OTM has proven his donor dam Reba 49D to be a great asset as well with a maternal brother bringing \$19000 so you know his dam rings the bell every time. The few sons of 149F that have sold are well accepted - MAVV Farms sold a son at \$10000 in December. True calving ease with plenty of growth and dark hair coats are a given with Franchise. The feed conversion in this bloodline is exceptional - I had to turn Franchise 149F out with the cow herd grazing this fall to keep him from getting obese. Use his sons in the heifer pen and sleep easy. The progeny start small but they grow and you will love the look of the females too. When his sons are physically too big - and they will have more frame than the average true calving ease bull - you can then turn him out with the cow herd and keep all the daughters.

NOZEKA

Nozeka's unique outcross pedigree and his dam being from the well proven Tibbie cow family was a very attractive opportunity we feel pretty fortunate to own. He is a very dark red, good haired, solid footed meat machine with a strong libido. Year one he was successfully used on a group of heifers with very consistent calving ease - the resulting progeny in this offering - I look forward to his great looking females coming into production. He added enough shape and mass to his progeny that he bred a large group of G females this past season. Expect sons to be breeding machines that will work well on heifers but have plenty of jam for cows as well. Many of his progeny started out with fairly light birth weights but the wean weights/ADG were quite impressive. Although his females are not yet milking I am quite sure you will want to keep all the females as well - I certainly appreciate the sisters to these bulls in the replacement open heifer pen.

DEAL

Deal 16E is a son of Final Deal 78Z that we purchased from Leon Roy just east of Moosejaw. Final Deal 78Z was a true calving ease sire excellent if a calf born with a birthweight in the 60's can live in your climate at calving. At WRAZ those 60 lb calves do not produce enough body heat to survive our limited facility winter calving conditions. His daughters were also very desirable. We did use Deal 16E on heifers the first year but he has a little more birthweight than his sire with a little more frame as well so his service moved on to cows. Our main goal with Deal 16E was to produce females and he has done a fine job of that. His sons will produce well and leave behind a really sound set of herd builder females.

THANK YOU

DIRECTIONS TO WRAZ RED ANGUS:

5 miles East of Wawota on Highway #48 - 1 mile North on Grid 601
1/4 mile West to the top of the hill - South into the yard.

SALE OPENS 8 AM APRIL 8TH & CLOSES 6 PM APRIL 9TH

3 WAYS TO GET THE BULL YOU WANT IF YOU ARE NOT COMFORTABLE WITH TECHNOLOGY

Hey there! I just wanted to let you know you are not alone if you do not have a computer or good enough internet service to watch a sale or bid or even have the desire or experience to set up an account with DLMS to buy a bull. DON'T WORRY WE'VE GOT YOU COVERED! It is no different than before we will help you get a bull to fit your needs.

#1-PERSONALLY MAKE THE TRIP TO WRAZ anytime that suits your schedule to evaluate the bull pen right up to and including sale day. Make your list of bulls that fit your needs. You can take that list home and ahead of April 9 set up your own DLMS Farm gate account (it is a separate user account than the one you have used in the past to bid on the live auction sale at Whitewood). Tune in April 8 to test you are properly set up and your internet is suitable to watch/bid on your favorite bull. Tune in Saturday April 9 sale close out day to place your bid in the comfort of your own home. You can still make the call to one of the consultants if your internet goes down or something unforeseen comes up.

#2-YOU CAN VOICE CALL OR TEXT PHIL AT 1-306-577-7440 or any one of the very capable listed sale consultants in the catalogue -that's what they are there for! They have all evaluated the bulls too so you can have a chat about your bull requirements to come up with a list and a budget to purchase from a list you have picked yourself or we can work with you to purchase one sight unseen on your behalf and we will invoice you - Satisfaction guaranteed! If any of the sale staff or myself buy a bull for you sight unseen you pay half the invoice on receipt then I will deliver the bull to you and collect the remainder once you have seen the bull.

#3-THIS ONE IS MY FAVORITE! YOU CAN BE RIGHT HERE WITH US AT THE RANCH ON SALE DAY! It will be WRAZ OPEN HOUSE - CUSTOMER APPRECIATION - SALE DAY ALL IN ONE with lots of room here to social distance and still enjoy our hospitality with Lana's famous steak on a bun in one hand and your favorite refreshment in the other hand, while watching it on the big screen TV's. Sit back and enjoy while you follow the sale on your own technology or you can have one of the capable consultant/technology operators keep you up to date and buy your pick for you with no need to even sign up! Sounds like fun doesn't it?

Hope to see you soon - Phil Birnie - WRAZ
