Welcome

Welcome to our 19th Annual North of the 49th. I still have fond memories of the first few years when you wondered if you were headed in the right direction or not. We have put in some sweat equity over the years and feel we are producing a product we are proud to stand behind. Thank you to our customers that have put confidence in our program, year after year, right up to our 19th.

The breed is on the move and at the forefront of most kitchen table conversations, where the breeding decisions are made. The time has come when your breakeven is no longer talked about, pencil is being put to paper. Charolais sired calves is your way out of that red ink at the bottom of your financial statements! Pounds pay and nobody gets paid more for those pounds than buckskin calves. The cattle industry could be in for a real nice fall run if things can stay together. I'm hopeful they will.

Our 2022 lineup has some real nice prospects, from front to back. We are excited for our offering. We sound like a broken record every year but consistency and type in this year's pen is just what we are striving to produce. The herd bull power throughout our book is what makes our program unique. The Ransom bulls are new to the program and have really nice calving ease and set down on a solid foundation. The Tank bull is leaving his mark on our program and will be used extensively in our AI program again in 2022. The Epic sons are back this year in full force and provide calving ease, performance and balance in an attractive package.

Family wise, last May, Tricia and I doubled our kids up with the arrival of Crew Weston. He has been a blast and he will have many years of joining his sister opening gates and bedding straw. I can already see them fighting over the pitchfork. Big sister Harper is really proud of her little brother and will tell you anything you want to hear. Just ask.

We look forward to full dugouts and green grass this spring, for a change. I am not sure hauling water is on my radar for this summer. I had about enough last year. The summer of 2021 had many challenges and left us with a few more challenges to get through the winter. As Cattlemen, we are relentless in our pursuit of profitability in this industry.

As always, the front door is always open at the ranch for a visit. We service what we sell and guarantee our bulls to be breeding bulls! There is "No Sale Gimmicks" in this yard. We are honest and provide a low stress atmosphere to look at bulls and discuss the Charolais advantage. Feel free to contact us about your bull needs, we are always available. The sight unseen program is available and has been very successful for many customers. Be sure to check out the videos of the bulls online at www.wilgenbuschcharolais.com.

We hope to see you before the sale for a tour of the bull pen. The pie will be available at noon on sale day and the sale barn will be warm. See you on April 4th.

- Global son that is huge ribbed and deep bodied with bone mass and tight sheath
- Performance bull that has plenty of hair and super quiet

We feed for
athleticism & longevity

The entire pen of bulls has been developed on a high roughage, total mixed ration from fall weaning to spring delivery. The ration has been formulated to maximize nutrition. We like the bulls to gain 3-3.5 lbs/day, carrying moderate flesh, not excessive body condition. We feel it is difficult to properly appraise these bulls when they carry excessive condition.

Longevity and athleticism is of highest importance - structurally sound feet and legs are a must and we will not put any trait ahead of it. We are confident in the dam's structure and the herd bull they are sired by or these bulls aren't in the sale.

We understand that we are a performance driven breed and we strive to utilize genetics that add pounds to your calf crop without sacrificing calving ease. It is important the genetics we select also leave you with desirable replacement females.

Halfbloods GREENWOOD ELECTRIC IMPACT X JWV TREASURE 505A

These last 3 bulls in the sale are a bit of a twist in our program that we have never offered before. The gene pool in our red program has become limited and it has been on our mind for awhile to step outside the box a bit and work on something a little different. These bulls are half bloods and can still be used in a commercial program very successfully. The cherry red bulls are ideal candidates in a solid Angus based herd to get your threeway cross. We came across the Electric Impact bull in the fall of 2019. We appreciate good cattle, no matter the breed. When they are built like that bull, it's tough not to find a way to incorporate him into your program. This bull is loaded with presence, balance, eye appeal, and full of red meat. He was the Supreme Champion bull at Edmonton Farm Fair and Canadian Western Agribition in the fall of 2019.

It is again a pleasure to be working with the hard-working folks at Wilgenbusch Charolais. The Wilgenbusch family continues to raise reputable Charolais cattle and is one of the top Charolais seedstock producers in the country. There is a large selection of bulls on offer for the 2022 sale and the quality is very consistent across the entire offering.

The Wilgenbusch sale bulls are developed on a high forage total mixed ration that is built to strengthen the longevity of the sale bulls on offer. The program harvests great quality forage annually, allowing the bulls to be slowly developed on a balanced, high forage-based diet to maximize genetic potential and to promote lean muscle growth. The diet utilizes a chelated mineral package to enhance the bull's immunity and complement the bull's growth patterns. The cowherd also utilizes an organic mineral package throughout the year which is essential to the overall health and longevity of the sale bulls on offer. It is important that rumen health stays a priority throughout every stage of the bull's development. The bull's diet along with the cowherd is continuously monitored year-round to ensure the animals' overall health flourishes in the environmental and seasonal conditions.

If you have any questions about the nutrition or sale bulls, please feel free to contact me.

Best of luck to the Wilgenbusch crew on sale day!
