BULLS ON OFFER

34 Red, Black & Fleckvieh Simmental
21 Red & Black Gelbvieh
10 Yearling Red Angus
19 Yearling Black Angus
42 Red & White Charolais

- All bulls are semen checked and veterinary inspected.
- Semen tests, all scrotals and weights will be available sale day.
- Half down on sale day with a May 1, 2023 post-dated cheque for the balance.
- Insurance available sale day.
- **Sight Unseen Purchase Program:** For those who cannot attend, we offer a Sight Unseen Purchase Program. Call us with your needs (birth weight, frame, weight, etc.) and we will recommend suitable bulls. We will deliver the bulls to you with a satisfaction guarantee. Your order will be handled in strict confidence. Call the owners, T Bar or any of the sale staff.
- **Right to Draw Semen:** In the event that we would like semen on any of the bulls selling, we reserve the privilege to draw semen in the off season at our expense for in-herd use only.

"Haul your own bull" \$100.00 off per bull

If you bring your own trailer and take your bull home, receive a \$100 credit off your purchase.

Or **Pay \$100.00** upfront sale day and we will take the yearling bulls home, feed and deliver them by May 1, 2023.

Payable at the time of settlement.

All bulls to be taken home and boarded must be insured.

Note - **All two year old bulls must go home with buyer after the sale unless prior arrangements have been made with the breeder.**

- **Delivery:** We will assist in making transportation arrangements outside MB and SK. All costs are the responsibility of the buyer. You may be asked to take your bull early if the truck is in your area. Each animal becomes the risk of the purchaser as soon as sold.

FROM THE DESK OF T BAR...

Welcome to the "Best of the Breeds Bull sale" on March 26, 2023, at Heartland Livestock Services, Yorkton, Saskatchewan. This being the 19th annual event, from its premiere sale in the Leross Auction Mart, Best of the Breeds has grown and matured into one of the leading, if not the best, all breeds bull sale each spring. It has been the source of many breeder bulls in all divisions and 2023 will be no different as the headliners were shelved for this sale.

Chris Poley
306-220-5006

The Simmental offering by Forden Fairview is deep and exciting with homo polled Fleckvieh and Red and Black domestics... their strongest offering to date.

Blair from Goodview presents a powerful lineup of Red and Black Gelbvieh. The Gelbvieh section is the strongest offered in the nation with several breeder bulls lurking.

Shane Michelson
403-363-9973

The folks from Twin Heritage represent the Red Angus part of the sale. They come to town with sleep easy calving sire's ideal for heifer pastures. They raise performance bulls who all have a high degree of maternal value.

The Black Angus comes from Black Ridge Angus Farm. This is a multi-generation seedstock operation known for its high standard of quality and great customer service.

Ben Wright
519-374-3335

Charolais were the base that started this sale. Harcourts and Zentners are the Charolais suppliers. Their offering is large and powerful. Included is a divisional champion from Agribition and some two-year-olds for bigger cows and bigger pastures. We all know the value of a Charolais bull walking in your pasture.

This is a sale one should not miss – onestop shopping for your next sires. The quality is high, and the breeders rank among the best.... a great way to spend a Sunday!

If we may be of assistance prior to, or sale day, feel free to contact any of the T Bar Team or myself, we will help you in a professional manner.

1950 – 2022

FAIRVIEW FORDEN FAIRVIEW FARM LTD.

Welcome to our 19th Annual Bull Sale. We are very grateful and humbled by the loyalty and support we have received from everyone over the years. It is your interest in our program that drives us to produce these bulls while always incorporating new genetics and using the bloodlines which you have come to know and trust.

We have been very pleased watching this group of bulls develop. This year's offering is as diverse as you will find at any Simmental bull sale with reds, blacks, fullblood and Fleckvieh bulls. These are the first sons of Theory & Evolution who created quite a buzz at our 2021 sale. We are again offering sons of the AI sires Sysco and Reputation as well as a good selection of bulls from our herd sires. All bulls are DNA tested for color, dilutor and polled or are known by pedigree. This is an investment we make each year offering you more certainty in your breeding program.

All bulls are Express Verified and treated with Pyramid FP 5 Presponse & Tasvax/Fermicon 7 spring and fall as well as poured with Ivermectin and Boss. The bulls also receive double vaccination of fusogard for prevention of foot rot.

Our Bull Pen Open House is March 18 & 19 from 1-5PM, please join us! This is a great opportunity to look over the bulls prior to sale day as well as see the maternal strength that comes along with the bulls. Each of the kids has a bull in the sale this year so they will be there to answer any questions you may have!

Like us on Facebook "Forden Fairview Farm - Simmentals" to follow our program. Videos will be available on our facebook page, DLMS and buyagro.com in early March.

Vault is an attractive, sound structured bull that is a true standout. His extra age, cherry red color and powerful design give him that tremendous presence when you tour the pen. His dam comes from the same cow family as our Lexi and Marci donor cows that have had many high selling bulls in this sale. On the top side he is sired by our Architect bull who is a brother to Payroll and a son of our Sering donor cow. With Vault's pedigree, performance and polled status the opportunities are endless.

HOMO POLLED NON DILUTOR FULL FLECKVIEH

These two flush mates are sired by the \$165,000 Reputation bull that has been proven in herds across the country to produce the right type of fleckvieh cattle for today's market. Their dam is none other than our Eloquence donor, who knocked it out of the park with these two brothers and three full sisters in our replacement pen. We've flushed her to numerous bulls and every combination clicks. Eloquence daughters are powerful, sound footed females with excellent udders, and we have 10 of them in the cow herd/replacement pen with another flush of calves on the ground this year from Payroll. These bulls are very similar in type - stout, big middled, wide topped, hairy with great dark color and well pigmented. President is Homo Polled and Prime is smooth Hetero Polled. We believe these two bulls have a lot to offer the industry. Backed by the proven Reputation bull and our top donor cow that has 25 progeny on the ground, there is no guess work here.

FAIRVIEW EVOLUTION 318H
SIRE TO LOT 6 | BROTHER TO LOT 2-4

HETERO POLLED NON DILUTOR 100% FLECKVIEH
Origin is another son of Eloquence and is sired by Sibelle Pol Darwin. This combination worked so well to produce the \$51,500 Evolution bull we sold to Keets Simmentals in 2021 as well as our Theory herdsire, so we did the flush again. Origin is liver red with large goggles and is smooth polled. He is big hipped, with a deep quarter and full of muscle. We have 4 full sisters in the herd and they are key pieces in our fleckvieh program moving forward.

POLLED/SCURRED NON DILUTOR 100% FLECKVIEH
Jaguar is our only Evolution son in the sale. We selected about a dozen cows to breed to Evolution and are very pleased with the heifers we got; the only downfall was he gave us mostly heifers. The daughters are deep bodied, with some size and are mostly well pigmented. We don't get many calves marked like Jaguar but is he ever good. He is thick, deep, loaded with muscle, style and is a quiet as they come. His dam is a dark red, heavy milking, good uddered cow. Whether you like your cows marked this way or want to produce some powerful bulls Jaguar is sure to create some exciting offspring.

FAIRVIEW THEORY 218H - SIRE

HOMO POLLED DILUTOR FULL FLECKVIEH

We are very pleased to offer these first Theory sons. These next three bulls are nearly full brothers as they are all off Payroll daughters and go back to the same cow family. Payroll daughters have fantastic udders with ideal teat size and placement with lots of milk. Combustion has been a standout since he was born. He is long-spined with a big hip and a wide topline. He was the heaviest Theory son at weaning, ranked 4 out of 38 bulls in his contemporary group, and carries some impressive performance EPDs. Combustion's progeny will be the kind you can build a herd around.

Newton is the son of Mara's 4-H heifer, Princess Pinky. He is long bodied, smooth made with plenty of muscle and is the quietest bull in the pen. These brockle-faced bulls can be a unique breeding piece. Whether you have fullblood cattle and want to take some white off and produce goggle eyed offspring or if you want to add some Fleckvieh to your commercial herd and want just a little chrome, these bulls will work well in either program. One can expect these Theory sons to add muscle, calving ease and pigment, while making most or all of their calves polled depending which bull you choose.

SIBELLE CODA 17A - GRANDSIRE

HETERO POLLED NON DILUTOR 100% FLECKVIEH

Quantum is big middled, square hipped and free moving. He is a larger framed Theory son and has a real good, big foot under him. We bought his dam from Triple T Diamond as the lead off heifer in the 1st Season Wrap Up Sale. She is a daughter of the Sibelle Coda bull which Stewart says is one of the best bulls he ever owned. Quantum will produce bulls full of muscle and power and his daughters will be ones that won't leave the farm.

Einstein is another thick butted, brockle-faced Theory son. These bulls are like peas in a pod. Theory adds so much pigment, muscle and hair to his sons, it is hard to tell them apart sometimes. Theory is dark liver red, infact we've had people think he is black! Einstein is the youngest fleck bull in the sale and comes from a beautiful uddered daughter of our 19B cow and Phantom. 19B put numerous powerful, high selling sons through the sale and Phantom is the bull that built the foundation for our fleckvieh program today. Einstein would work well on a group of heifers or young cows.

Wizard is a son of our Philosophy bull which we co-own with Creekside Cattle Co. Philosophy has been used across Canada as a calving ease bull with performance. He is safe for use on heifers yet produces top end calves with cows. Wizard is a moderate, hairy, good nutted bull whose dam is a Darwin daughter coming from our Sering cow family. With his low bw, early gestation and calving ease EPD he would be suitable for a group of heifers or young cows.

FAIRVIEW PAYROLL 19D - SIRE

POLLED/SCURRED NON DILUTOR FULL FLECKVIEH

Jackpot is our only Payroll son in the sale. Last year our lead off Payroll sons were some powerful bulls selling to Triple K Simmentals, Thorsteinson Land & Livestock, Swantewitt/Sage Simmentals & Wilkowski Farms. Jackpot's dam, who we bought from Elliott Simmentals, has put every bull through this sale. She is a sound footed, nice uddered Fleckvieh cow who knows how to raise the good ones. Payroll was our first homo polled Fleckvieh sire and what a job he has done for us. His sons are long-bodied, heavy muscled, highly pigmented and you never have to worry about scrotal measurements on them. Payroll is a son of our Sering donor cow, whose daughters have raised many high selling bulls over the years. Lots of potential in this herdsire, be sure to check him out.

 HETERO POLLED NON DILUTOR

Guardian is a powerful extra age bull and full brother to Cannon who sold last year. Big top, round hip, full of muscle, hairy and dark red is how to describe Guardian. We are carefully building our fall program to offer bulls with extra size and maturity. Guardian's dam is a cornerstone female in this program. She is an extremely deep ribbed power cow who maintains an excellent udder and has a good foot. If you're in the market for a bull to sire a powerful set of calves and leave you outstanding daughters be sure to check him out.

HOMO POLLED NON DILUTOR

Scorpion is a definite sale feature and one of the most powerful purebred bulls we have produced. He has a huge barrel, deep quarter, wide top, is loose made, with lots of hair, nuts and a blaze face. We bought his dam from the Ashworth program and she is a CDI Vegas daughter going back to Red Mountain. She is dark red with a nice udder and has a good looking Sysco bull calf at side this year. His sire, Sherman was a bull we sold in 2021 to Lindsay Horvath and we were able to use him on a few cows that spring. Sherman is a true curve bender with excellent calving ease and top end performance and Scorpion looks to be the same. Scorpion weaned at 1010 lbs in early September and has the potential to produce powerful sons and feature daughters.

HOMO POLLED NON DILUTOR

Bruno is a wide topped, long bodied bull with plenty of middle and stoutness to him. We were fortunate to acquire some Sysco semen a couple years ago and do we ever like his calves. The first year we had all bulls, last year we finally had a few heifers and this year we have more calves on the ground. Bull or heifer his progeny are hairy, stout, powerful, dark red and right for today's industry. Bruno's dam is a good uddered Cobra daughter going back to our Erica cow family. Erica is our most prolific cow family and you are sure to read more about them in the bulls ahead. These Sysco bulls are exclusive to only a few herds, be sure to check them out.

CROSSROAD WARRIOR 131F - SIRE

HETERO POLLED NON DILUTOR 50% FLECKVIEH

We have been producing these fleckvieh hybrid bulls for a number of years now. This cross provides hybrid vigour as the fleckvieh and purebred bloodlines are unrelated. In addition we see added muscle, hair and overall performance and some chrome (which Strategy has a bit of). Strategy is a thick made bull with a big square hip and lots of length & width. Since birth, he has stood out and all summer you could see he had extra muscle, so when he ranked at the top of the group for weaning we weren't surprised. Strategy calves will surely push down the scale in the fall.

Like us on Facebook:
Goodview Gelbvieh

Welcome to the 19th Annual Best of the Breeds Bull Sale. We are very excited about the bulls we will have on offer once again this year. We will have both red and black bulls that will work both on heifers, as well as performance bulls to produce those scale busting steers. Our bulls come from good footed, neat uddered, low maintenance cows. At Goodview we put a lot of emphasis on our cows, so you can buy with confidence knowing that the bull you purchased is from a sound, problem free cow herd.

Gelbvieh is a continental breed that has very strong maternal traits such as docility and rich milk that is produced in tight, correct udders. Gelbvieh will add that extra muscle to give your calves the extra pounds you're looking for at sale time. Gelbvieh calves are born with vigor, which is one of the reasons Gelbvieh influenced females wean more pounds of calf per cow exposed. Use Gelbvieh bulls in your crossbreeding program to get early maturing, long lasting females, as well as sale topping steer calves.

We continue to use a high fiber developer program. We wean the bulls off on oats then after 60 days they are pail fed a bull developer ration along with barley silage and grass alfalfa hay. This diet develops a healthy rumen, while maintaining good long-term health. We target a 3.5 lb. average gain to develop good footed, long lasting bulls that will last for their new owners.

Please join us on March 26 in Yorkton to evaluate our bulls and we can talk about your bull needs. If you can't make the sale, feel free to call or stop by anytime to tour the bull pen and the cows with their 2023 calves at side. Join us Saturday evening at our hotel and stay the night. If you purchase a bull from Goodview Gelbvieh, we will pay for your one-night stay. Please join us for an afternoon of visiting and cattle viewing on Sunday, March 12 for our customer appreciation day and bull viewing.

CUSTOMER APPRECIATION DAY AND BULL VIEWING SUNDAY, MARCH 12 AT 1:00 PM!

Attend our open house, call, text or tour the bulls at any time before the sale and be entered for a chance to win a \$500 sale credit to be used at this years sale.

Knockout 245K has been a standout from the beginning. He presented himself well on the show road this fall at the Futurity and Agribition. He is moderate in frame but possesses the hip and rib shape that the cattle industry desires. We have been breeding these traits here at Goodview for a few generations and are getting to where we want to be. We believe that a heifer bull doesn't need to look like a heifer bull. They should have the hip and rib shape like a power bull and produce daughters that are broody and sons that sire steers that grow. Knockout's dam BLB Black Magic 12G is a broody Exact Combination daughter that has a bright future here at Goodview. 245K is sired by BLB Hitch 23H who has done a great job producing the way we had hoped. You will see more sons of his as you go through the sale offering that pattern just like Knockout 245K. We believe 245K will work on heifers and sire stout moderate daughters that will out produce themselves.

Kruzer is the most powerful bull in our offering. 210K is the fourth Exact Combination son on offer. These sons are top end, structurally correct, breeder quality bulls. 210K leads the way in terms of power. He exhibits the biggest hip to go along with his big rib shape and eye appeal. Absolutely love this bull as he was an eye catcher in the pen as a calf and all summer in the pasture. We would like to retain the right to walk him with a small group of cows for this spring only.

242K is the second of our Hitch sons on offer. This bull is so cool. All summer long we had him pegged as a heifer bull, which he likely will be. Since weaning he has been a growing fool, gaining over 4 lbs. A day with a wpda of 3.8. Not surprising is the fact that his dam is a Gung Ho daughter, as is our FLAD Element herd sire. Gung Ho in my opinion is a bit underrated. If your looking to add a lot of maternal traits, hair and explosive growth with calving ease look to 242K.

TWIN HERITAGE FARMS

That time of year again, eh? Well, its great to see you! Thank you for your interest and support of our program and welcome to our 2023 edition of the annual "Best of the Breeds" bull sale.

The bulls that we have on offer are a consistent group backed by proven genetics and a cow herd built with an emphasis on fertility, sound udder structure, and good feet. We pail feed a balanced bull developer ration to ensure responsible development and longevity with access to free choice hay, mineral, and water. The weights provided are actuals with WW taken early in the fall on August 20 and YW taken on February 3.

We would love to see you on sale day, but if you are not comfortable attending the sale in person, for whatever reason, please stop by the farm in advance or give one of us a call if you have any questions. We encourage you to check out our website at www.twinheritage.com for viewing of the bull sale videos. While there, please check out a new and exciting venture with the addition of our Simmental herd. Also, head over to DLMS.com if you have not already signed up to view and bid online.

BW 638S - GRANDDAM

This is the first set of sons to be sold out of our Helix 635H bull. We are extremely impressed with how easy the Helix calves were born and how the bulls have developed. The sons have calving ease appeal with moderate BW, length, and style. Helix's exceptional dam has been a long-time herd matron and donor cow at Wilbar. We expect the Helix 635H daughters to impress with strong maternal traits and tidy even udders. These sons are noted for their balance, length of body, and calving ease appeal.

- Well balanced bull that will catch your eye.
- Strong topped and deep ribbed.
- Dam is a broody front pasture kind of cow out of the 671X cow that is still consistently producing at 13 years of age.

Two years ago we had an awful drought, but this past year was stellar for growing pasture, hay and silage. We were very blessed this past year, many were not. This set of bulls are developing similar to our past bull pens. They did not receive any creep feed except for the 2 weeks prior to weaning to decrease weaning stress. This year the silage they are getting is peas, alfalfa and barley mixture, more silage this year and less whole oats since we purchase our grain. They have been gaining well on feed, but not pushed, and we feel they are in excellent shape to go out and breed. Feel free to call or stop by at anytime. Please also check out our facebook page for pictures, videos and updates.

closer to Sale Day*

ATTRACTIVE is an AI sire we used to add some fresh genetics, he has been very popular among breeders. He is in the top 1% of the breed in weaning and yearling weight. Look for these two sons to add high growth and performance to your herd.

This bull has performed all year long, he is long, wide topped, deep sided and is full of muscle. His epd's put him in the top 5% of the breed for weaning and yearling weight. His dam is a very thick made female, stout and has a beautiful udder. She is a young female and we are looking forward to more calves from her. The grand-dam is stellar, this year will be her 11th calf.

This Attractive son is going to be a bigger framed bull, he is long and big ribbed. His calves should have great growth! His dam raises a big calf every year and keeps her condition, she is a very solid producer, wish I had a whole herd of cows like her, beautiful udder and excellent foot. We kept her 2019 bull here and used him hard last year.

BLACK ANGUS

LFE BA LEWIS 289G - SIRE

We purchased Bravo, the 2020 lead off high selling Black Angus bull from Lewis Farms. Before they sold him, Lewis Farms drew semen and used him in their own herd. He has a great spread of an 80lb birth weight to 1537lb yearling weight, and is in the top 10% of the breed for growth. He is hairy, stout, moderate but exceptionally thick with large testicles, and he has passed that down to his calves. His daughters are having their first calves now, they are looking great and the udders are beautiful.

A cracker of a calf off a first calf heifer, can't complain when a first calver weans off calves like this. He also has performed awesome after weaning! This guy is very wide across the top, long, super hairy, big belly and very quiet too. These Bravo sons are peas in a pod.

BLACK ANGUS

Another excellent calf from a first calf heifer, Bravo was almost exclusively used in our heifer pen and now for two years has had top quality calves. This guy could be a twin to the MJO 13K bull in the pen. Hairy strong topped big bulls.

A flashy stout bull with a great pedigree to boot! Bravo, Bank Note, Power Up and the immortal Right Time. This guy has some jam to him, he is long, wide, strong foot and bone with great angus character, awesome hair and growth. Quality and depth of pedigree run deep in this bull. His dam was a top end heifer calf, bred heifer, and she catches your eye. We hope she follows in her mother's footsteps and keeps raising good ones.

A little short on ears, it was a cold day when we found him, but it hasn't slowed him down. This bull is a real eye catcher in the pen, nice front end, excellent hair, well balanced and thick. His dam is a good-looking cow who keeps her condition when raising a big stout calf. Lots of solid cow power in the pedigree with Insight, Tiger, Banknote and Donna.

BLACK ANGUS

McCRAES DEWALT 428G - SIRE

Our first set of calves from this bull, he is a moderate beef machine, low to the ground with an excellent foot under him. He has big nuts, small angus head, walks like a cat and for the past two years has been used on a section of rocky pasture with 80 cows and he never loses weight. He sires deep middled heavily muscled bull calves which are impressive.

This bull was our biggest calf at weaning cracking the 1000lb mark, he has been at the top of the pen since birth. He has a nice angus head and shoulder, but is wide, big middled and a big rump. His dam is just a young cow, we retained her last year's heifer as well. She has an excellent udder with awesome milk. His weaning and yearling weight epds are the top 5 and 6% of the breed. You will find him sale day

72

This Dewalt son has been a masculine meat machine all year, he is a moderate and a heavily muscled bull. He is long and has had the herd bull presence all year long. He is in the top 25% and 15% of the breed for weaning and yearling weight. His dam has been a stellar cow and we have retained 2 daughters. This bull is just solid, keep all of his daughters.

This bull is long, deep and has beautiful hair. Since he was a twin, he was raised by a heifer who lost her calf. She did an excellent job but the older this guy gets the better he gets, he has really come along. Very well-balanced bull, hard to poke a hole in him. Dam is quiet, great udder and has been a very consistent cow.

BLACK ANGUS

Off a first calf heifer that goes back to Chance's 4H heifer, he will be a moderate bull with lots of length, has a very nice angus head and well-muscled. His dam has a beautiful udder and has kept her condition while weaning a big bull.

Power cow bull, this guy was born long! His dam is a bigger framed female, impeccable udder quality and milk, and yet she is extremely easy keeping and still raises big calves. A muscular bull with lots of length and very nice head and shoulders, very flashy type, he looked like a bull from a very young age and matured quickly.

This guy really performed beyond my expectations, started out at 79lbs and weaned off at 777lbs. Not to sound like a broken record, but he is like his brothers, moderate, long and heavily muscled. His dam also is a big easy keeping cow with a good udder and excellent milk. Brother sold to Matthew Leippi last year

From our new herdsire, BAR-E-L Bankroll 31H, we own him in partnership, so he arrived later in breeding season. This guy is a real tank, big strong masculine bull is how I would describe him. The Renown dam is a beautiful moderate female with a great udder and has that wedge shape to her.

These next bulls are all sired by our home raised herd sire, these are his last calves as we sold him to a neighbour. He was one of the best performing bulls we had ever raised, he is exceptionally thick, deep with a smooth shoulder and fine refined angus head and character, and exceptional scrotal. His personal performance was 842lbs adj WW and 1480lb actual YW. His daughters are calving now and they are beautiful females with excellent udder quality.

I really struggled with entering this bull into the sale, he is just a so good, but he is an April calf. He is a performance bull, big capacity, big butt and big hair. He is bigger than a lot of his February pen mates and he is two months younger. We have slowly been backing our calving dates the past few years. This guys full sister just calved and she has a beautiful udder and milk. We sell our calves by the pound and this guy has that!

The dam of this bull is a really good crossbred cow, she has size and performance. She always has big calves and they have all been unassisted with lots of zip to them. She is not a mean cow, but she is definitely a ranch cow. This guy has wicked hair, strong wide top and will be a bigger framed bull. Solid black and polled.

BLACK ANGUS

HARCOURT CHAROLAIS

Welcome to the 19th annual Best of the Breeds bull sale! As we write this, it's the middle of calving season, the time where we see the results of hours of discussions, research and decision making. Like many of us who have been doing this a long time, we appreciate the value of using bulls with shorter gestation, that produce calves that are strong, full of vigor, and grow like crazy. That is one of the greatest benefits our customers have for selecting a Charolais bull. The other is in the fall when they wean those big tan calves that bring a premium at the auction market. You not only see it on the price of the steers, but there's a premium on the heifer calves too. We are excited to introduce new bloodlines

this year that we know will deliver on what you've come to expect from Harcourt bulls; calving ease, performance, hair, and great dispositions. If you have any questions on the bulls, give us a call or stop by the farm for a visit. Check out the videos on our website www.harcourtcharolais.com or visit our Facebook page for regular updates. See you sale day!

Stealth is the result of years of putting the right cow families together that have both the EPD's and the phenotype to produce a great one. 920G is in the top 2% for weaning and top 3% for yearling weight. She has a perfect udder and is the biggest ribbed cow on the place. She hit a homerun when she dropped Stealth last January. We knew within a few weeks he was going to be special. He is one of the biggest ribbed, most complete bull calves you will find. The comment from Agribition Judge Jill Mader was that this bull should be used heavily in the future going forward. We couldn't agree more. Stealth has a ton of hair, a great skull, explosive shape and complete structure. When you study his genetic profile it doesn't get much better. It includes cows that are at the top of the breed in performance, along with the same genetics as the most dominant Charolais female in a long time in Berkley. If you want a bull that has it all, check him out. He can take your program wherever you need it to go. Winning in the ring and in the pen at home where your buyers will love what they see, bulls and heifers. Selling full possession, 2/3 interest. HOMO POLLED

209K patterns very similar to his 3/4 brother Stealth. Like all White Bear offspring he is bold ribbed, smooth fronted and fault free. He has excellent feet and great temperament. His mother is in the top 1% for weaning EPD and top 2% for yearling weight. She produced the mother of Stealth so you know predictability of throwing a great one is already built in to this young herdsire. Calving ease, performance and fault free are just a few words we would use to describe this young stud!

WC WHIPLASH 8298 - SIRE

STEPLER MISS 252H - DAM

201K is an outcross bull that checks a lot of boxes. The Whiplash bull that sired this stud is a calving ease sire used heavily on heifers at both Stepler Farms and Pro Char. The unique thing about him is that his sons also have incredible performance. 201K is a shining example of this. He is complete from his great skull, superior structure and muscle pattern. His mother is the epitome of what a first calver should do. Calve on her own, milk heavy, rebreed early and wean a big calf. She was the high selling bred heifer out of the Stepler Farms Female Sale in 2021. She has lived up to every expectation and will be a stand out for years to come.
HOMO POLLED

CHAROLAIS

This young herdsire has all the tools in his kit. Along with a great skull and super structure, he is the deepest bull in the pen. 205K started with a moderate 84 lb birth weight and has grown like crazy on his highly productive Ledger momma cow. She was our pick of the Hunter Charolais bred heifers the year we bought her out of the front end of the Sterling Sale. He is a standout in the pen and is sure to command some attention Sale Day. Everyone wants to add pounds to their calf crop without sacrificing calving ease, this guy will do the trick. Selling full possession, 2/3 interest. HOMO POLLED

HEIFER APPROVED

206K is built right in every aspect, just like his sire. Exceptionally correct with big nuts, lots of hair, and super disposition. Turn him in the heifer pen or with cows. He will calve easy and leave you with a set of attractive calves the buyers will love. HOMO POLLED

HBC CARRIE 303A - DAM

CHAROLAIS

222K is one of our favourites in the pen. It's too bad because of COVID, not many people got to see his sire HBC Summit. Probably the deepest ribbed, most correct bull we've raised. An absolute beast of a herd bull that sold to Sonderup Charolais in Nebraska for \$32,000. His progeny follow him very closely and are consistent in their type. Something a great herdsire will do. 222K we believe could be even better. He puts it all together – big testicles, great character head, perfect feet and legs, and a haircoat that is the envy of any breed. He just gets better every day. 331E is a Braxton daughter that will run with any you want to compare her to. She is long spined, smooth front to back. She has excellent feet and legs with an udder that is flawless. The number of great individuals in her pedigree is impressive and not taken lightly. The Braxton daughters are proving to be superior producers and it isn't easy finding a great bull out of a cow that possesses elite genetics. We really believe in this bull. He is worth the drive to see him! Selling full possession, 2/3 interest HOMO POLLED

HEIFER APPROVED

This year's bull sale sees the introduction of some new and exciting bloodlines. LT Patriot is a bull that we were very pumped to add to our list of A.I. sires. He is known as one of the top sires in all of North America. His calves are born easy with vigor and then grow like crazy. Outstanding is a word we would use. The Patriot bull is exclusive in the breed to only a few discerning breeders in Canada. You will only see a few sons offered for sale anywhere and these 4 are some of the best you will find. 212K is our lead off Patriot son because of his overall balance, perfect structure, and high libido. His dam is in our donor program and is the mother of the \$32,000 HBC Summit bull that sired some impressive bulls in this sale. The homework is all done on 212K. We believe his predictable genetics will make him a great herd bull! Elite cattle on top and bottom of his pedigree make 212K one of those bulls that is a no miss. Hit a home run - add 212K to your bull battery! Selling full possession, 2/3 interest. HOMO POLLED

LAE STARRY 281Z - DAM

We really like this long bodied super smooth Patriot son. In case you didn't know, LT Patriot is the sire of LT Nationwide - a bull whose sons were very popular in last year's sale. If you liked the Nationwide bulls, you will adore the Patriots. They have nice big feet and outstanding fertility. 211K fits the description perfectly. He is long as a train and carries that extra top and muscle definition that all buyers are searching for. His dam 281Z just keeps producing good ones. She is a big volume highly fertile cow that is easy to have around. Mark him down sale day! 4 GENERATIONS POLLED

92

CHAROLAIS

221K follows the same pattern as the other Patriot bulls with some added hair. He is very correct, has big nuts and is ready to go to work. 221K is long spined, big topped and correct with good feet and legs. 9A has been a money maker from the time she arrived from the Wood River female sale where she was a high seller. She has a perfect udder with a lot of depth. Just a nice cow to have around. These Patriots are like peas in a pod. 3 GENERATIONS POLLED

CHAROLAIS

LT PATRIOT 4004 - SIRE

This big performance Patriot son is impressive. He has the size and composition to do a great job on mature cows. His great haircoat, excellent structure and high libido make him a great candidate to turn in with a bunch of cows knowing he will get the job done. His mother 6133 is a heavy milking cow that is producing at the top of our herd. Her two year old Wizard daughter has an Affinity son in the sale. Now that's production! 3 GENERATIONS POLLED

LT Affinity is widely regarded as the best calving bull in the industry. His calves are finer boned and rocket fronted. Build for calving ease. These 2 sons are 3/4 brothers and you can see the consistency Affinity has in his offspring. If you are a first time buyer of a Charolais bull and you are concerned about birth weight on your cows, grab hold of one or both of these Affinity sons. Let them show you what the Char breed has to offer. Easy calving, lots of vigor, more pounds in the fall and that means more money for you. Get the Charolais Advantage! See you sale day!

LT AFFINITY 6221 - SIRE

HEIFER APPROVED

We used LT Affinity exclusively on the heifer pen knowing he would be the easiest calving Charolais bull around. He did not disappoint. We think there is enough performance in the calves to make them marketable. If you want sleep easy calving with lots of vigor, check out 214K. 4 GENERATIONS POLLED

CHAROLAIS

Cowboy's Bull. A smooth made individual with tremendous thickness and tons of red meat. A big hip and a wide flat top, shows off his fleshing ability. Like his sire, Knoxville will pass on a pile of long curly hair, great feet and legs, and a friendly temperament. Attractive birth and weaning weights make Knoxville a cowboy's bull and a cattle buyers dream! **Top 25% weaning weight, top 20% yearling weight, top 2% marbling** HOMO POLLED

JWX DOWNTOWN 7C - SIRE

Heifer Pen Approved! Boys if you need to breed heifers, grab a hold here. Kingston not only built to assure ease of calving, this guy can crush down a scale too! His small head and smooth front ensure no problems getting out of the hole. Kingston is a "sleep easy" bull that can be put into any heifer pen and should pose no calving problems. Get the most out of your heifers, experience calving ease and the char cross advantage at market time. Unassisted

Knight will be a valuable asset to any operation. He has the calving ease built in and the performance background that will give your calves the Char cross advantage in both weaning weight and a premium per pound in the fall. His sire is an exciting new AI option that combines some of the industry's top proven bloodlines. Char cross calves are in demand and Knight will provide a stress free way to improve your bottom line.

Jetliner is as long as a jumbo jet and just as smooth. Heavily muscled and correct, this young gun is ready for action. Big butted, strong topped with great muscle expression, Jetliner comes to you out of a vintage dam. A \$10,000 maternal brother working at Vogeli Charolais at Maymont, Sask.

Jettison is a smooth fronted bull with a long spine and a touch more frame which allows him to service the mature cows in your herd. These assets combined with a polled pedigree and a sound structure, make Jettison one to check out on sale day. **Recommended for mature cows.**

Jolt is a moderate framed bull that can pack on the red meat. A smaller head and front shoulders make calving easy. A great foundation to cruise the pastures on will ensure the cows get bred quickly. Jolt's easy fleshing calves will have buyers digging deep come sale time.

CHAROLAIS

A well muscled bull with a strong top and good performance. A real cowboy's bull that exhibits natural thickness carried on a big solid hoof. Stamped out in the pattern of his sire, Junior is thick topped, big butted and has a gentle disposition.

If you are looking for a older bull to put in your heifer pen, Jurassic is the bull for you. Small headed with good neck extension and tight front end that will allow the calves to pop out easily and get up quickly, all backed by strong calving ease EPDs. A really smooth made bull from front to back and a gentle temperament to boot.
Top 20% milk

"I've been running Dogpatch bulls exclusively on my redangusx commercial cows. The results speak for themselves, I have no issues during calving and in the fall the calves have all kinds of hair and a big hip and top which is exactly what buyers are looking for. The bulls have always been reasonably priced for the quality you receive and am looking forward to buying a couple more this spring. Mick has always stood behind his bulls and always been willing to accommodate my needs. I'll conclude by saying I'm definitely a satisfied customer and happy to call the Zentner family good friends."

NOTES

TERMS AND CONDITIONS

Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Bidding:

Each animal will sell to the highest bidder. In the case of a dispute, bidding will be reopened between the parties involved in the dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

Announcements:

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

Breeder's Guarantee:

Should any bull fourteen (14) months of age or over fail to prove a breeder after being used on females known to be breeders, the matter shall be reported in writing to the seller within six (6) months following the date of purchase or six (6) months after the bull has reached fourteen (14) months of age. The seller will have the right and privilege of six (6) months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

Exception Guarantee:

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

Certificate of Registration:

Each animal will carry papers issued by the Canadian Charolais, Angus, Simmental, and Gelbvieh Associations. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Pedigree Estimates

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

Health:

All animals in the sale have met all necessary health requirements.

Liabilities:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made here under.

Rights & Obligations:

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

Phone, Mail, Wire Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Delivery:

We will assist in making transportation arrangements outside MB and SK. All costs are the responsibility of the buyer. You may be asked to take your bull early if the truck is in your area. Each animal becomes the risk of the purchaser as soon as sold.

Insurance:

Will be available sale day. We strongly recommend that insurance is purchased for full value.

Errors:

All announcements at sale time, written or oral, supersede any written material in the catalogue.
