## Terminal Sire Index

The AICA Terminal Sire Index (TSI) utilizes economic and management descriptions of your ranching operation, along with EPD on available Charolais bulls to assist in identifying the most profitable sires for your unique operation. Using economic selection index theory, this tool will generate dollar indexes per terminal progeny produced on bulls in the AICA database, ranking them for profit potential given the inputs you provide. The dollar indexes are to be interpreted much like single trait EPD. For example, if sire A's index is \$191.66 and sire B's index is \$200.00, then we would expect Sire B's offspring to average \$8.34 more net return (\$200.00 - \$191.66) than sire A's offspring.

### Sire Listing Criteria

For bulls to have a Terminal Sire Index they must be registered with the American-International Charolais Association. Each bull must also have an EPD for BWT, WWT, YWT, MAT, REA, HCW, MARB and FAT.

### Progeny Proven Sires

Must have sired at least 3 calves with performance data reported to AICA within the last two years and an accuracy value of .30 or higher.

### Terminal Sire Index (TSI)

The AICA Terminal Sire Index (TSI) is a formal method of combing Expected Progeny Differences (EPD) - BWT, WWT, YWT, REA, HCW, MARB and FAT - into one single value on which to base selection decisions. The TSI uses estimates of the genetic relationships between traits with an economic default value based on three year rolling USDA data.

## Directions to the (DCR) Doll Ranch

Going west from Bismarck, North Dakota,  
I-94 west to Exit 134. Go two miles  
north and one mile west.

Going east from New Salem, North Dakota,  
I-94 east to Exit 134. Go two miles  
north and one mile west.

## Terms and Conditions

**TERMS:** Terms of the sale are cash or check payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing my cattle. **INSURANCE OF PURCHASES AND RISKS:** All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer. Arrangements will be made to have insurance available when making settlement. **BIDDING:** All animals sell to the high bidder. Any disputes or challenges regarding bids will be settled by the auctioneer and his decision will be final. **HEALTH AND EXPORT:** All animals sell with proper individual health certificates. **ANNOUNCEMENTS:** Any errors or changes in information contained in the catalog will be announced from the auction block, and such announcements shall take precedence over information contained herein. **GUARANTEE:** Every animal in this sale, to the best of our knowledge, is free from any disease or defect. Any known defects will be called at sale time. All animals are guaranteed breeders. If any animal fails to breed after a trial of six months, it may be returned to the seller if in good condition and have gained 1 pound per day while in possession of the buyer and in compliance with North Dakota health regulations. The seller reserves the right to try said animal for six months, and if it proves a breeder, return it to the buyer at the buyer's expense. If the animal proves to be a non-breeder, an animal of comparable rank will be substituted. All bred heifers will be pregnancy checked and results of that check announced at sale time. Females selling safe in calf are considered breeders without further guarantee. We assume no liability, legal or otherwise, to make any further compensation to the buyer. No other warranty of any nature is expressed or implied. **HEALTH:** Health of this breed is excellent. This is a Certified Brucellosis-free and Accredited Tuberculosis-free area. Females are officially calfhood Bangs vaccinated. Individual health papers will be furnished for shipment anywhere. **LIABILITIES:** All persons who attend the sale do so at their own risk and the seller and sale manager assume no liability for any accidents that may occur. Neither does the sale manager assume any liability for loss of injury to livestock due to theft, mysterious disappearance, sickness, improper handling, or Act of God. It is to be clearly understood that the sale management and its representatives act only as a medium between the buyer and seller. They are not responsible in any way for any failure on the part of the buyer or seller. They are not responsible in any way for any warranties or representations, express or implied. Neither does the sale management assume any financial obligations to collect or enforce collection of monies between parties. Any legal action that may be exceptional cases be taken, must be between the buyer and seller. **CONTRACT:** The above terms and guarantee shall constitute a contract between the buyer and the seller of each animal sold. **MAIL BIDS:** Mail or wire bids may be furnished. Bids must be in the hands of the sale manager in ample time prior to sale date, and will be handled in strict confidence.

## Dams of Distinction

The AICA's dam of distinction Program recognizes dams that have consistently weaned calves with above average weaning weights and have been regular producers with 380 days or less calving intervals. Since 2009 in the Doll herd.

### Sterling Dams of Distinction:

Must have produced three calves by the time they are five years old. . . . . **Dolls have 116 dams**

### Diamond Dam of Distinction:

Must have produced seven calves by the time they are nine years old. . . . . **Dolls have 23 dams**

For both awards, the calving must interval must be 380 days or less. Also, all calves must be weaning weight ratios of 101 or higher of the dam's average progeny weaning ratio must be 106 or higher for dams with one calf below average for weaning ratio.

# Doll Charolais and Simmental Family

Dear friends and livestock producers,

What a great pleasure to invite you to our 43rd Annual Production Sale on March 7, 2023 at Kist Livestock. We would like to thank you for your interest in our 43rd sale offering. We also hope this catalog finds you in good health, enjoying the New Year and all of this white stuff. The moisture we received early in 2022 gave us a very good crop. The barley and wheat plus our oats crop were above average. Our later crops, sunflowers, soybeans and corn were also above average. The hay crop was one of our best. We hayed our winter rye, then turned around and put it into millet. Boy we were very fortunate, we baled up to ten bales an acre off of it. The pastures were full of grass and the cows were very happy.

Not much is new with Harley and myself. We love getting to spend as much time with our grandson as we can. Just never dreamt that being a grandparent would be so awesome! Thomas continues to work at the refinery in Mandan. Both Hailie & Jacie work at the Pain Treatment Center in Bismarck. Hailie is their RN and Jacie does their accounts receivable. Last fall, Dylan started at Faulkirk as is a heavy equipment operator. We are so blessed that both of our kids live close to home and that we get to be together often.

David and Donna have been so blessed this year with the birth of their first grandchild. It has been a great year of watching him grow and learn and give his parents a run for their money! We were lucky enough to squeeze in a trip to Nashville last fall. Wayde and Katie were married in September of last year and are living in Mandan. Katie works at Starion as a Business Banking Representative and Wayde is with MorGranSou as a lineman. Its been a long year for him and the line crew! As mentioned earlier Jake and Krysten welcomed their baby boy, Mason James, into the world last February and have been loving every minute of being parents. They have learned the meaning of "time is a thief" because he grows so fast! Krysten remains at Bowers Excavating and Jake is doing his Taxidermy full time. Life is good.

Charles & Pam have been enjoying their growing herd and are blessed to still see them all often! Pam has been sewing her retirement away and has been loving the extra freedom for grandma daycare drop-ins, being able to travel to be with her sisters, and even some chore-time with Charles. Angela is still the marketing director for FYZICAL Therapy & Balance Centers across the state. Braxton (11) and Truett (10) love to play any sport they can and love helping their grandpa and uncles out on the ranch. Austynn (8) can't seem to go anywhere without her own herd of animals - stuffed and alive, alike. This will be their last school year on the ranch as they'll be moving into the big ol' city of Mandan with Joel. Our oldest son, Joey, is still working on the ranch. He and Amber got married out here last October on a beautiful,

windy day and we couldn't be more excited for their future. Our oldest twin, Casey, is working with Bullinger Tree Services as a foreman and maintains his passion in his industry. His other half, Bobbie, has been with Nodak Mutual for 12 years, now. Little Quintin will be two in July and he's a mover and shaker with his mom's sense of humor. Wesley and his wife Amy are enjoying life with their brood of pets and even occasionally each other. Wesley is still climbing poles for MDU and Amy is finishing up her Journalism degree. Our youngest son, Ty, is still also full-time at the ranch. Ty's wife, Blaisey, is still working for Sanford and is still loving the mom stuff. Everly Rae (3) is a spitfire and has the most contagious and mischievous smirk. Little Emery Kay just celebrated her very first birthday in December. She has the sweetest personality and a smile that will just melt you. We are so grateful for our healthy, happy and growing family and are excited to see what lies ahead.

Its very hard to brag, but this maybe the deepest front end and deepest to the end we have put together in both breeds. In both breeds we AI and purchase the best bulls we can find. Will be bringing 100 very powerful, thick, deep bodied Charolais bulls. A tremendous set of 65 black and red Simmental bulls, 5 fancy broody females from both breeds.

The bulls have been fed a TMR ration consisting of grain, corn silage, mixed chopped hay and distillers. We would like to thank J & L Nutritional Consulting from Perham, Minnesota for all his help with the rations. He will be at the sale and be will available to answer questions, as will Harlan, David, and myself.

The cattle will be at the ranch until the Thursday before the sale. Anyone is welcome to stop in and walk through them. The ranch is located west of Mandan on I-94, go to exit 134 then travel 2 miles north and one west.

Again we would like to thank you for your interest in our program. We hope to see you on sale day.

Sincerely, The Doll Family

Charles Doll Family

David Doll Family

Harlan Doll Family

Out of one of our newest sires. LT Dillinger 9629. This son has great depth and thickness. Backed by our great donor dam T388.

## Did you know?

### THE PERCENTAGE CALVING CHART

1. An average cow of any breed should be able to calve 7% of her body weight.
2. Most Charolais cows will weigh between 1400-1800 lb., expected calf weight to range from 98 to 126 lb.
3. Most Red Angus cows will weigh between 1200-1600 lb., expected calf weight range 84 to 112 lb.
4. Calving ease is MORE important than birth weight because a longer sided calf may calve easy, but the birth weight is higher.

### 7% CALVING CHART

CW WT	CALF WT
1200 lb.	84 lb.
1400 lb.	98 lb.
1600 lb.	112 lb.
1800 lb.	126 lb.
