2023

Angus and Simmental

Welcome

This year we have 17 yearling bulls to offer, as well as 4 two year old bulls. The Simmental pen has black blaze face and full blood bulls that are the result of embryos purchased from Double Bar D. In the Angus bulls there is again a great selection of calving ease heifer bulls to power bulls. All of our bulls are selected for functionality, longevity, with a strong emphasis on maternal traits.

With the increased costs we all have acquired in the last year from fuel, to fertilizer, to parts and machinery the margins are tightening on profitability. We want to continue to supply an affordable product to you our customers, so that you can produce and profit from your investment. With our private treaty bull offering the prices are listed in this catalogue and you can select a bull within your budget. As always our warranty and guarantee program on our bulls is second to none! You do not need to insure your purchase for the time it is left with us. We will guarantee your purchase sound, semen tested and delivered when you are ready for them at no charge. In the unfortunate case that a bull is injured or doesn't semen test before we deliver, there are a couple options for you. A) You can select another bull to replace that bull or B) we will lend you an aged herd bull to breed your cows this year and return your deposit so that you may purchase a replacement bull the following year.

100% of our bulls are for sale by private treaty with nothing held back. We believe by selling these bulls off the farm we can enhance your bull buying experience, in a no nonsense, no pressure setting where you can come by anytime and tour the bull pen. We can discuss what you are looking for in a bull, and help you select the bulls that best match your needs.

We will be hosting an Open House to showcase our bull pen and to gather fellow cattlemen for a day of fellowship on February 20th. Please consider this your invitation, but we would also invite you to come out any day to tour through the bull pen and cow herd. We have videos completed and available on each individual bull and they can be viewed on buyagro.com.

We can be reached anytime at (306) 441-7984, to discuss your bull buying needs.

John & Apryl Grant & Family

Herd Health Plan

Bovi Shield Gold vaccinated, Blackleg, Ultra 8 vaccinated, Ivomec, Fusogard vaccinated.

Bulls were put on creep feed Co-op bull pellets pre weaning, weaned Oct. 8, 2022. Left on creep feed pellets until mid-November then switched to being pail fed oats and supplement pellet along with free choice grass hay and free choice Masterfeeds mineral.

All bulls will be semen tested and purchaser will be provided a semen soundness evaluation.

We will keep all bulls and deliver them at your convenience at no cost.

Our Warranty is Simple

We 100% guarantee our bulls. We guarantee that you will have a bull to breed your cows. We keep extra bulls for our customers to use in case of a bull injury during breeding season.

Purchases require 25% deposit with the remainder due at time of delivery.

**Please join us for our
Open House on Feb. 20**

4K is a AI calf from a bull with an outcross pedigree to most Canadian genetics with only 10 registered offspring in Canada. 4K is a larger framed, power bull. He exhibits length, width, and depth of body and hindquarter. A bull with as much mass, and volume as any in the pen. He has an abundance of hair and a large foot. Apryl has him marked as a standout and her favorite bull in the pen.

The only Maximus bull calf this year and he's a great one! We have never had a calf show so much early growth & stoutness at only a few weeks of age. I sent Lee Wilson a video of this calf at 2 months of age, Lee replied with "He's a man among boys" hence his name. He continued to explode throughout the year, and the WOW factor hasn't changed. He's moderate framed, long bodied, extremely broad topped, has depth of body and hip, extreme eye appeal and softness for such a powerful individual. Great temperament, an abundance of hair, and large testicles. He is no accident either, his sire Maximus may be the most winning bull in Canadian history going undefeated in the fall of 2021 winning supreme over all breeds at every show he attended. Last year a full brother to Man Among Boys 8K, was a pen favorite amongst visitors and was purchased by AJ Acres from Ontario. We feel strongly enough about this bull and his future that he is currently being halter broke in case we decide to show him in the future. Grant Lodge Man Among Boys 8K will be used extensively in our own program. **We will be retaining 50% semen interest & 50% possession and look forward to partnering on this once in a lifetime type of bull.**

43K is a result of embryos we purchased from Double Bar D farms. He is smooth polled, double goggled, thick topped, and long bodied. Lots of hair, large footed, and free moving best describe this herd bull prospect. When we were looking for fullblood embryos, we were immediately drawn to his dam as she was a powerful, tanky female with an exceptional udder. 43K sire is the Homo polled Semex bull Grinaltas HP Sensation. We were hoping for heifer calves when we implanted these embryos and unfortunately only got one calf. Therefore we will incorporate 43K genetics into our herd by retaining an interest in this calf to use in our own herd. **Homo Polled & Dilutor test pending. Selling ½ possession and full interest.**

Smarty Pants 3D is as close to the ideal female as we believe you could create. She is moderate framed, long made, big ribbed, along with great udder attachment and milk volume, and as sound in her foot structure as any female on the farm. More importantly is her production, she has produced the top of the pen every year, while also being very fertile and productive in her embryo production, with her flush last spring yielding 15 viable embryos. These 3 full brothers are sired by the great W/C Bankroll who we purchased a small semen package from Double Bar D Farms. The Bankroll offspring that we have seen are moderate framed, and extremely thick made. If you're looking for bulls that have extra maternal to fill your replacement heifer pen these 3 bulls should not be overlooked. Our daughter Ella has chosen a pen favorite Smarty Pants daughter to be this year's 4-H project. Consistency bred into both the sons and daughters of Smarty Pants 3D.
