From Highway 259:

4 miles north on Road 131
Sign at lane on west side

American Friends

We will ensure health tests required will be completed at buyers expense and will work with you regarding delivery. Export costs are at buyers expense.

WELCOME

TO HBH ANGUS FARMS CATTLEMENS CONNECTION BULL SALE

HBH Angus would like to welcome you to the farm on March 30th.

This group of bulls are very consistent and impressive when you get analyzing each individual bull. The maternal strength that is found here at HBH are cows that go to work. I take great pride in the fact that the bulls are functional, docile and go out and get your cows bred with longevity to go forward through the future. The bulls are developed on a TMR ration consisting of hay, oat silage, whole oats and pellets added with mineral.

I'd like to thank everyone who helps out; it doesn't go unnoticed and it means a lot. This year I'm proud to say that I am the new sole owner of HBH Angus which is very exciting for me! The bulls are fully guaranteed for breeding and I am here to answer any questions you have. I invite you to come to the farm anytime to analyze the bulls for yourself prior to the sale. Join us for lunch before the sale and visit with fellow friends and cattlemen. If you are unable to make it to the sale it will be broadcast on DLMS. If you have any questions please give me a call I would be glad to help you.

Hope to see you on sale day!

Brayden Heapy

FROM THE DESK AT T BAR C

March 30th will be a celebration for the historic HBH Angus operation – not only because we will be offering the typical brand of functional, pleasing phenotypic type Angus bulls to the industry, but due to the fact that this marks the first sale with Brayden Heapy officially at the helm as the sole owner. I am proud to have worked with Brayden throughout his transition, and could not endorse this enthusiast young breeder highly enough. Brayden, as well as his dad, work exceptionally hard and are astute and knowledgeable in their development and breeding decisions.

Throughout the catalogue, you will find stout and smooth made bulls that are the total package and built for longevity. I highly recommend coming and touring the maternal based cowherd that stand behind these future herd sires. In addition, the HBH program is notorious for sparing no expense when they put their minds to purchasing a new herd sire. This gives you an incredible advantage when you purchase sons from this both famed and up and coming new era of the HBH operation.

We strongly encourage you to appraise the cattle with your own eyes in order to appreciate their scope, as well as your attendance in Oak River as we show our support of the new captain of the HBH ship. Please do not hesitate to be in contact with any of us at T Bar C if you have any questions or are in need of assistance.

HBH Herd Health

The herd health program for HBH strives to prevent disease rather than treat disease. The breeding herd – cow and bulls, receive a modified live vaccine prior to breeding season. This vaccine contains both IBR and Type I and II BVD which are two of the most important diseases that can cause reproductive losses. Pre-breeding vaccination also prevents the birth of calves persistently infected (PI calves) with BVD virus. A PI calf will shed virus in a herd through out its entire life and can have significant negative effects on overall herd health.

The calves are vaccinated at birth with an intranasal vaccine which aids in the prevention of early calfhood pneumonia. At pasture turn out the calves are vaccinated with a parental 5-way viral vaccine and bacterial pneumonia vaccine (Bovishield Gold One Shot). Also, at turn out the calves receive their initial dose of Clostridial vaccine (Ultrabac 7/Somubac). At weaning, the calves receive a booster of these two vaccines to prevent disease through this stressful time. This fall dose also acts as a priming booster for their first reproductive vaccine the replacement heifers and bulls will receive in the spring as yearlings. The yearling heifers and bulls also receive a third Clostridial booster in the spring as well.

Bull Infertility Evaluation (Virden Animal Hospital)
Bulls are assessed for conformation, examined internally and externally for abnormal development of sexual organs, scrotal measured and semen is collected and examined for normal concentration, motility and morphology. Breeding behaviour to ensure adequate libido and proper penetration needs to be assessed by the new owner in the natural breeding situation, particularly for yearling bulls. Having your own herd veterinarian evaluate newly purchased bulls is also encouraged.

It is expected to have Decision Deferred (DD) bulls when testing yearlings at 12 months of age. At 12 months of age we only expect 50% of bulls to successfully pass a BSE evaluation. Over 90% of yearling bulls will pass a BSE evaluation by the time they are 16 months of age. If you are a producer looking to buy a bull, factor into your decision the date your bull is turned out with cows and the age of the bull (if DD) as to whether this bull will work for you.

 **trouw nutrition**
a Nutreco company

trouwnutrition.ca

TERMS:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

BIDDING:

Each animal will sell to the highest bidder...no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

ANNOUNCEMENTS:

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

CERTIFICATE OF REGISTRATION:

Each animal will carry papers issued by the Canadian Angus Association, unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES:

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH:

All animals in the sale have met all necessary health requirements.

GUARANTEE:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

LIABILITIES:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any obligations to collect or enforce collection of any monies between parties and any legal action that may, in extreme cases, be taken must be between buyer and seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility of any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

We retain the right to draw in-herd use semen on any bull in the sale at the new buyer's convenience and our expense.

INSURANCE:

We strongly recommend that insurance is purchased for full value.

ERRORS:

All announcements at sale time, written or oral, supersede any written material in the catalogue.

U.S. BUYERS:

We will announce the exchange rate on sale day. All veterinary export costs are at the buyers expense.

SEMEN:

We retain the right to draw in-herd use semen on any bull in the sale at the new buyer's convenience and our expense.

TRUCKING:

HBH Angus Farms will deliver bulls free of charge within 300 km of Oak River, MB.

SIGHT UNSEEN PURCHASE PLAN:

If you are unable to attend sale day, you may call or send bids to the consignors or any member of the sales management team. Those who are interested in this plan are urged to contact anyone of the consignors to discuss your bull requirements and determine a budget. Every effort will be made to buy you the right bull or bulls, at the right price to make you a repeat customer. If for any reason you are not satisfied with any of the cattle you purchased on order, you are under no obligation to accept them.

WINTERING POLICY:

Wintering of bulls is free until April 15, 2023. We ask purchasers to state their intentions for wintering at the time of settlement. We strongly encourage you to insure your bulls under this policy.

CATTLEMAN'S CONNECTION BULL WARRANTY:

Cattleman's Connection guarantees to sell you a bull that is structurally sound, a bull that has passed a semen test and a breeding soundness evaluation by a licensed veterinarian. Should any bull fail to be a satisfactory breeder - unable to physically service a cow or heifer - he will be replaced with a bull of equal value. Should this not be possible, an adjustment will be made to reflect the value of the bull in question, or a credit will be given towards the purchase of another bull.

IN SHORT, WE GUARANTEE TO PROVIDE YOU WITH A SOUND, BREEDING BULL.

We, however, will not provide replacement or adjustment for physical injury or mismanagement. Bearing this in mind, we stress the importance of insurance on your bull. At no time shall the seller's liability exceed the purchase price of the bull. Should you have a problem with your bull, call us right away. We will work with you to make sure you are satisfied with your Cattleman's Connection bull.

HBH Angus Farms uses Canadian Angus Performance Program whole herd reporting.
