Win a sale credit

Buy a bull from the 2023 Kuntz/McIntosh/SAJ Bull Sale, transfer the registration papers and your name is automatically entered in the draw to win a \$2,000 sale credit with the Saskatchewan Simmental Association. The draw will be made this Summer at the SSA Annual General Meeting. The sale credit can be used to purchase a bull or female at any public auction or by private treaty from a current SSA member.

24 Annual Sales.... and stronger than ever!
 Welcome to Kuntz/McIntosh/ SAJ Simmental Bull Sale, Tuesday March 14th, Lloydminster Exhibition Grounds, Lloydminster, Saskatchewan. This trio of Simmental leaders are coming to town with an outstanding lineup of herd bull prospects that require your scrutiny whether you are a purebred breeder or a cow/calf producer. The depth of quality is second to none... the kind that will produce those heavy weight stockers that will fetch a premium. The Fullblood section is powerful... muscle, hair, depth, width, and volume. They are genetically designed to add pounds at weaning. The offering of the sought-after Red Purebreds is exciting, and consistent through the entire sale offering while the Blacks are low in numbers but high in quality. It is amazing to have such a potent group of bulls with such diversity in genetics.

For the record, it took a pandemic to stop the Canadian Western Agribition Supreme Champion Pen of Bulls winning streak but the McIntosh Family picked it up and started again... congratulations are in order. They will help headline the Purebred section of this event.

Congratulations to Jim Pulyk on your award at the National Western Stock Show... a well-deserved award for a cowboy who has been a part of this sale through its history.

Feel free to stop by any of their farms prior the sale and preview the offering. The bulls will be in the barns late Saturday, Sunday, Monday, and sale day. The facility is heated, stop by and the boys will show you through the offering. Don't hesitate to give any of these breeders a call to discuss their prospects and the bull or bulls that will fit your pastures.

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar Team or myself, we will help you in a professional manner.

- Chris Poley

LOT 1

KUNTZ MISS MOSES 517C DAM OF LOTS 1 AND 2

LOT 2

GENETIC FULL BROTHER TO LOTS 1 AND 2

Miss Moses 517C has done it again! Her ability to raise the feature Fleckvieh bull in the pen year after year convinced us to use her as an embryo donor in an attempt to get some daughters off her who might also produce that level. She did give us a couple heifer calves last year that we are very excited about but she did also give us these two stud bull calves. Break the Bank is slightly smoother made with a bit more extension to his front end, while Broker has a bit more rugged muscle shape to him. All the calves off this flush have tons of pigment and exceptional hair coats. And, I challenge you to find a pair of fullblood bulls that are darker coloured than these two. Every one of 517C's sons to date are working in purebred herds and I believe these two bulls have enough good about them that her streak could continue. **Non-Diluter.**

Phil is a cherry red, heavily pigmented bull that will have some friends sale day. Typical of the Esposito sons, he has a nice square hip with plenty of length and a little extra eye appeal. His mother is a stout made, powerful cow that always stays in good shape. Phil should sire a nice set of replacement females. **Diluter test pending.**

This twin bull came as a surprise and was born outside and he got touched by frost. Unfortunately, his brother got the worst of it and froze his ears bad enough that we decided not to put him in the sale. We split the calves up and this guy ended up on a first calver that didn't do as good of a job raising him as his own mother would have and he has been playing catch up since weaning. That said, the genetics that this bull carries are some of our best and this bulls daughters will end up being some of your most productive cows **Non-Diluter.**

I would like to take this opportunity to welcome everyone to our annual bull sale. This will be our 24th year of bringing bulls to Lloydminster for your appraisal. Many things have changed over the years but a few that haven't are our goal to bring you the strongest set of bulls possible and our appreciation for our customers. Your trust in our operation is what drives us to produce the best genetics possible to allow you to prosper in the cattle business. We take pride in our cattle and our goal is that you too can be proud of the cattle that you have purchased from us. We encourage you to come evaluate the bulls prior to the sale. We are always available to tour your through the pen on the farm, where you can also step into the pen beside and see their mothers. The other option is to stop in at the Exhibition in Lloydminster and walk through the bulls inside the heated and we'll-light barns any time from Saturday March 11 up till sale time on Tuesday March 14. All bulls have been tested for the Diluter gene to help you avoid greys if that is a factor in your breeding decisions while the polled bulls have Homozygous polled test results posted.

Please follow us on Facebook or check out www.kuntzsimmentals.com for videos and updates regarding the sale.

We are located approximately 40 on South west of Battleford off Highway #29. The coffee is always on and we'd love to tour you through our cattle. Otherwise, we look forward talking with you at the sale on Tuesday March 14.

Tony is one of those bulls that always catches your eye. He has a little extra style along with the ideal color pattern and that sharp mahogany red coat that everyone loves. He is a smooth made bull with a strong, square hip. This well balanced bull is a carbon copy of his full brother who sold to Daryl Paulgard at last year's sale. **Non-Diluter.**

Kurt came to us "in dam" with a heifer we purchased from Skywest Farms. She is developing into a heck of a young cow that is moderate framed, stout, yet feminine in her design with a tight, square udder with small, well placed teats. We had some pretty high hopes for this cow, and so far, she has delivered. Here is a low birth weight, highly maternal, Full Fleckvieh bull for your consideration. **Diluter test pending.**

Here's a low birth weight bull off one of our top heifers last year. We have had decent success breeding heifers to Guerrero over the years, the calves are born easily and grow up to be very acceptable cattle. Much the same can be said about the Rocket calves we have had. This bull comes with a double shot of calving ease and a low 81 pound birth weight. If you're needing a bull to turn out with your heifers, 22K is one worth considering. **Diluter.**

LOT 8

This Outlook son's mother is an embryo daughter off the Miss Moses 03X cow that we have built our cowherd around. 03H was offered as a choice lot at the Border City female sale as a yearling. Hoegl Farms selected her full sister and 03H came back home. She has developed into a nice young cow with a beautiful udder and has a bright future ahead of her. Watchman is a well balanced type of bull that is sound in his structure and should sire an exceptional set of replacement females. **Non-Diluter.**

KUNTZ KINGPIN 2H SIRE OF LOT 10 AND 11

Here is a solid dark red bull with a nice blaze face and a beautiful coat of hair. King Blaze is a bull that I've been excited about since the day I AI'd his mother to Kingpin. We've been wanting to add some Fleckvieh jam to red cows but want to avoid horns. Kingpin allows us to add the power of the Miss Moses cow family while maintaining the polled head. King Blaze is a stout, soft made bull that is sure to make some friends on sale day. **Homo Polled and Non-Diluter.**

Defender is a calving ease prospect that we are quite high on. Low birthweight, good length, nice muscle shape and a nice clean head. His dam was my pick of the heifer calves that year and she did not disappoint with her first calf. We only got a couple Can Am calves last year but have a few more this year and will definitely be using him heavier this spring. He calves well on heifers and they quickly grow into stout hairy calves with good color and style. **Homo Polled and Non-Diluter.**

This well - balanced red bull has a splash of white on his face that gives him that little extra eye appeal. The old 5Y cow has raised some pretty darn good calves for us over the years and 52K is no exception. One of her sons, Kuntz Paystrip, sold to Virginia Ranch a few years ago as one of our feature bulls that year. But where she is going to leave her biggest impact is in her daughters. We have several young embryo daughters in the herd off 5Y, they will have a big impact on our herd. **Hetero Polled and Non-Diluter.**

Here's a bull that will catch your attention. Monumental is wide topped and has as much spring of rib and shape as you will find. As good as Monumental is in the flesh, he might be even better on paper. If you follow EPDs, you will want to take note here. Top 3% of the breed for calving ease and top 20% for yearling weight along with strong maternal numbers as well. He had an 84 lb. birth weight and an impressive Sept. 1 weight of 954 pounds. Monumental is a maternal brother to Kuntz Sheriff 8A and I would expect him to pass on similar calving ease with a bit more performance. **Homo Polled and Non-Diluter.**

Law Enforcement is the natural calf off Li'l Nettie 23Y. To date, she has 4 sons working in purebred herds and many others working in top commercial herds. Being our only fall born calf, this guy did not get any TLC and just hung out till January when the rest of the calves arrived and his performance numbers reflect that. Law Enforcement is a sound made bull that is very fluid in his stride and has the extra maturity and scrotal development to handle a large number of cows. **Homo Polled and Non-Diluter.**

LOT 17

This might be our top prospect to bring some "Law and Order" to you heifer pen. He comes with a +16.7 calving ease EPD which ranks him in the top 1% of the breed. This makes sense when you combine Law (who has calves extremely easy on heifers) with Epic and none other than Sheriff's mother. Law and Order is a sound made bull that is refined in his bone yet has a deep, thick quarter with spring of rib and style. His mother is a full sister to the Lot 15 bull, and just like him, she is stout made with a boldly sprung rib and carries herself around with presence. **Homo Polled and Non-Diluter.**

Denim Danger is the top performing bull in the pen. At weaning time he was the third heaviest bull and had the heaviest yearling weight, all while being one of the youngest bulls in the pen. He gets that weight from the extra length of body he possesses along with his width and stout build. He wasn't the most photogenic bull on picture day and needs to be seen in person to truly appreciate. A full sister is one of my favourite 2 year olds this year. Like her brother, she has that wide, strong hip and extra length. She has lots of milk and an impressive udder with ideal teat size and spacing. **Homo Polled and Non-Diluter.**

We bred South Seven Miss Red to Epic in the spring of 2021 with the hope of getting a calving ease red bull calf out of the mating, and you've got to love it when a plan comes together! Keep Up combines great phenotype with exceptional numbers across the board. He catches your eye with his dark red colour, great depth and stoutness of muscle and bone. Then you look a little deeper into his stats and he's even more impressive. 90lb birthweight, 995lb weaning weight, 1399 yearling weight. He comes with a pretty ideal 283 day gestation. Keep Up anchored our Agribition Supreme Pen of Bulls 2022. **Homo Polled.**

Welcome

We would like to welcome you to the 24th Annual Kuntz/McIntosh/SAJ Bull Sale. We are excited to showcase this group of bulls. We feel this is a very complete group of Bulls that we have brought to town, with a good mix of calving ease, highly maternal and power bulls to add value to your operation. Leading off the reds will be the pen of three that took home the Supreme Champion Pen of Bulls title at CWA in December. Our pen of three black bulls made lots of friends at Edam Fall Fair 2022 and represented the black side of our bulls well. We truly enjoy raising our family in this industry and spending time at cattle shows and sales watching the excitement in the Simmental breed. We seem to get busier every year though, with things around the farm and activities with family and perhaps don't get a chance to show our appreciation and visit with all our customers the way we would like to. So a special thanks to everyone that has supported us at the past bull and female sales over the years. Without all of you we wouldn't be able to enjoy this great industry! McIntosh bulls have been developed on a TMR ration this year. Our ration consists of brown oat silage, chopped hay, brown oats and a BULLSEYE Feed bull supplement. All bulls have been double vaccinated with Fusogard to help in the prevention of foot rot. Also bulls have been double vaccinated with Bovi-Shield Gold One Shot and Ultrabac 7/Somubac. Bulls have been treated with Ivermectin early fall, then they had a dose of Clean Up 2 and also received Safeguard crumbles late in the fall. We will work with you to get the bulls delivered as close to you as possible and in a time frame that works for both parties. Keep an eye on our McIntosh Livestock Facebook Page as well as DLMS/Cattlevids for Videos. Sale Weights and scrotal measurements will be posted a few days prior to the sale. We would like to invite all past, present and future customers to come on out to the sale and also try to stop by the farm to preview the bulls and the cow herd any time. The bulls will be on display indoors from March 11-14 at the Lloydminster Exhibition grounds in Lloydminster SK. Don't hesitate to call with any questions. We look forward to seeing everyone March 14th!

BLAIR AND STEPHANIE MCINTOSH

LFE STRATTON 3094F SIRE OF LOTS 31 AND 32

Here's a very eye appealing Stratton son out of the herdbull producer McIntosh Nashville. He carries added eye appeal with his extra rib shape and herdbull presence through that front third. This is Nashville's fifth son to sell through this ring and all have been well accepted by our customer's thus far and we expect Kraken to follow in all his brother's footsteps! This is our first set of bulls from the popular LFE Stratton sire and we are very pleased with how they have developed thus far. **Homo Polled.**

LOT 31

This Stratton calf is one we really like a lot. Dark, dark red colour, deep as you can make one and as sound as can be. This one has a real herdbull presence about him and he's easy to find in the pen. Cow power runs deep in this guys pedigree with the Amber family backing the top side of his pedigree and our own R Plus donor 8297U close on the bottom side. 8297U was one of our original herd building donor cows and left a lot of quality daughters in our herd and also put a lot of quality sons through this sale. His dam is a perfect uddered TNT Gunner daughter and we all know how productive those Gunner daughters are. **Homo Polled.**

LOT 33

MCINTOSH SASSY 31F MATERNAL SISTER

Greenstreet is a super dark red Stratton flushmate. He is a well balanced type of guy, he's deep bodied with a real nice soft look to him. Not the biggest framed bull in the pen, but he makes up for that with his thickness and stoutness of bone. We predict Greenstreet will sire very desirable replacement females. **Homo Polled.**

LOT 34

LFE STRATTON 3094F SIRE

Fanboy is the eldest of this years flushmate full sib feature bulls. These bulls are very consistent in type and have a fantastic momma cow backing them. Super hair coats on these siblings that are nice and dark red. Fanboy sports a perfect blaze as well. We chose to add Sassy 16C to our donor program simply because of the high quality female offspring she produces. And at the end of the day, every great herd bull should come from a great cow! **Homo Polled.**

LOT 35

MCINTOSH SASSY 24K FULL SISTER

Turn It Up is the longest bodied of these full sib brothers, but certainly doesn't give up any softness of look or depth of rib. All of our Stratton sons are sporting great testicular development and Turn It Up is no different in that department. It's hard to come up with unique things to say about each of these bulls because there really isn't much separating them. They are a very consistent group of bulls for sure. **Homo Polled.**

Get It On was part of our Agribition Supreme Pen this past fall. Where he was admired by many for his width of top, overall thickness, dark cherry red colour and awesome blaze face. Phenotypically Get It On is the total package. He's hard to fault. Great footed, great boned, sound on the move. Again with that amazing mother backing him. **Homo Polled.**

LOT 36

MCINTOSH SASSY 16C DAM

Here is the natural calf off of the Sassy 16C donor cow. He is sired by Game Face. This sound moving bull shows great testicular development and is a total package type of bull. He will sire calves that will grow and wean off heavy in the fall. The Sassy's are great uddered females and all have a showstopper look to them. We would expect Riptide to continue on that line of maternal excellence and sire some beauty females. **Homo Polled.**

Pure power here in this bull. Ram Jam was a member of the Agribition Supreme Pen 2022. He was selected as one of the pen bulls because of his scale pushing power combined with a super showy up headed look that gets him noticed every time. He's out of a very nice female we purchased from Prairie Wind Farms through the Shades sale a few years back. She's a reliable producer with a beauty udder and always raises calves with a little extra eye appeal. **Homo Polled.**

Here is this year's heavyweight of the red division. He weaned off big with an actual weight of 995 on September 1. He hasn't slowed down since either, posting an adjusted yearling weight of 1490. The LFE Game Face calves have performed very well here, they are power oriented cattle that have a great look to boot. Super dark red and out of two black parents, makes for an interesting pedigree in a red hid package. Krush carries strong growth EPD's as well as a Maternal Weaning Weight EPD in the top 10%. **Homo Polled.**

Check out the birth weight on this Daredevil son. Beauty 78lbs out of a WS Epic first calver. His dam is a lovely daughter of the Mary Jane cow family and we've sold full sisters to her in past Border City and Friday Night Lights sales where they were well accepted. Mary Jane 5H is the type of cow a person wants their herd bulls to come out of. The ability to have a moderate birth-weight calf and then have that calf grow to an above average weaning weight is something we strive for. Combining Daredevil and the Amber family with Epic and the Mary Jane family has proven to work well here. **Homo Polled.**

Outright is a growthy bull with some stretch to him that will sire some excellent feeder cattle. He has great colour and has some chrome on his face which only adds to his value. This mid-February born son of CRS Mr. Absolute gets noticed consistently by people touring the bull pen this year. He is out of a good Ankonian Red Caesar daughter that has put many bulls through the bull sale over the years. She is a great uddered cow with ideal teat size and is out of the Pocahontas cow that started it all for us many years ago. **Homo Polled.**

Freestyle and Smoke Show came to us via an embryo purchase from Kade Earley in Ontario. We were out that way and toured a couple summers ago and decided after seeing the STF Trendy cow that it would be a no brainer to snag some Cobra embryos off that great looking donor. We purchased 5 embryos from Kade and ended up with 5 live calves! These brothers are identical twins and are the result of one of those embryos splitting shortly after being implanted in our recip cow. When you get in the pen and see these two, they are identical no question about it and really it's just the coolest thing! These two are easy to like in so many ways, good scrotal, good haired, great cow family backing them, and they carry the signature Cobra look and style that we love. **Homo Polled.**

This red hided Ironclad son is one we really like. He carries very solid performance numbers along with a very solid set of EPD's across the board. This guy exhibits some stretch and has a lot of grow in him. Super duper hairy, nice dark red colour. I know I start to sound like a broken record. But it is what it is! This guy's young Copperhead dam has performed very well on her first two calves and we are excited for her future in our herd. **Homo Polled.**

LOT 45

Stallion is his name and he really is a stud! Such a cool look to this bull, he's proud fronted and is an attention grabber in the pen. Stallion was the bald faced bull in our Edam Pen of Three last fall. His dam is a super showy looking, deep ribbed, great uddered female that always gets pointed out to visitors to the farm. She is sired by Profit and out of a Broker dam. The Profit/Broker cross is known for producing some impeccable females and 19E fits that mold to a tee. Stallion should produce high quality, marketable offspring whether they are bulls or heifers. **Homo Polled and Hetero Black.**

LOT 46

This solid black Game Face son is one that we have always liked since last year at this time. He has a great look and presence about him that can be admired. His grand dam was a full sibling to our donor cow McIntosh Lexi, full sibling to our favourite black herd sire McIntosh Ironclad, also a full sibling to Mader Walk This Way. You can bet on the fact that this bull has top notch cows backing him. He is a good numbered bull posting very strong growth EPD's and his docility EPD is off the charts. He is a stretchy growthy type that will sire good growing cattle. **Homo Polled and Hetero Black.**

MCINTOSH PRIDE 36H MATERNAL SISTER

Afterparty is a nice bald faced 3/4 blood bull out of Dimension. Our group of Dimension sons last year were a real solid set that were very well accepted come bull sale time. Dimension adds performance and eye appeal to his offspring. Afterparty is out of our WHL Pride 1680D cow that has produced really well here for us. She has put daughters through the Border City Sale in past years and her first daughter by Cobra is an absolute herd favourite here. This is the first bull Pride has ever had for us and he doesn't disappoint. If you like to raise beautiful replacement females then Afterparty may be your bull! **Homo Polled and Homo Black.**

LOT 47

CKCC LD DIMENSION 8965 SIRE

Fortress is a real scale crusher that fits the bill perfectly if you want to wean heavy calves in the fall. He posts a 98.8WW EPD which is in the top 1% for the breed. Fortress was a member of our Edam pen of three bulls that were well accepted there at the show placing 3rd overall out of over 20 pens. His mother 11B is a past donor cow for us and is a cow we really admire, with great udder and foot quality. She is the type of cow that we like to have around here. **Homo Polled and Homo Black.**

This very cool looking dude is Seth's bull and is the first calf out of his Swayze X Cobra show heifer. Any cow that raises a calf like this one first try is a cow to be excited about. Kickstart was born unassisted with a very acceptable 80lb birth weight. He is a good numbered bull with added strength in the calving ease, birth weight, and maternal calving ease categories. He has also grown very nicely and has performed very well from weaning to yearling. If your looking for a total package type of bull that will add some chrome then Kickstart would be a good choice. **Homo Polled and Homo Black.**

LOT 51

Fortify is a son of the popular Agribition Champ True North and comes from a power Cobra cow who is no stranger to raising the good ones. She consistently produces offspring with added style and performance. A maternal sibling to Fortify was a past Friday Night Lights feature that sold to Lee Shologan and Rusylvia Cattle Co. in the fall of 2020. Fortify has a nice smooth look to him and sports a balanced set of EPD's. **Homo Polled and Homo Black.**

This Ironclad son was a member of our Edam pen of three bulls this past fall. He was the low birthweight one of that group with a very nice 78lb birthweight. 3K has a really great set of numbers and has performed well since weaning. It's not always easy to find a bull that combines a CE epd ranking in the top 15% with a YW epd that ranks in the top 10%. We purchased 3K's dam from City View Simmentals as a bred heifer, and she can be counted on to shorten gestation length on her offspring producing lower birthweight babies that get up and grow quickly. **Hetero Polled and Hetero Black.**

Another low birthweight Ironclad son here with with a double digit calving ease EPD. 12K is pretty hard to fault, he's a sound moving bull, he's clean in his lines, he has a solid set of numbers and has performed well overall. His sire Ironclad is one of our walking herdsires here at McIntosh Livestock and he carries a great pedigree combined with a great look which he passes on to his progeny. **Homo Polled and Hetero Black.**

 The HPR William "Willow" bulls were well received at the sale last year, and I've brought another solid set of half brothers this year. The 90J is a bull that stands out. He had the heaviest actual weaning weight at 1000 lbs. on Sept. 11. His Diesel sired dam has a strong udder and goes back to my good 1U cow that is still producing at 15 years old. 90J will impress with his sound feet, dark markings and good temperament. A bull to circle on sale day. **Non Dilutor.**

 This is a young bull but other than his higher number tag you wouldn't know it walking through the pen. A quiet bull that has good testicle size for being only a year old. His dam is a solid cow that has raised a good one. This is a bull that I would consider using myself if I didn't have such a heavy influence of the "Diesel" and "Willow" blood lines. Take a moment to find this young fella. **Non Dilutor.**

Welcome

On behalf of my family I would like to welcome everyone to our 24th sale this year. It is once again a pleasure to work with the Kuntz and McIntosh families. We are three families dedicated to the Simmental breed and enjoy doing what we do. I would like to thank all past customers and friends who have purchased bulls from me. All SAJ bulls will be double vaccinated for the prevention of footrot and are on a full herd health program. Videos were done on January 13, 2023 the same day as picturing and will be available for viewing on buyagro.com, dlms.ca and cattlevids.com. Thank you again and good luck with your purchases!

 A big rugged Willow son here. A bull that has matured quickly and looked the part at a young age. He should add some payweight to his calves. Clinton Russett selected a son of the 44F dam and she is bred back to Willow again this year. 66J is a typical Willow son with the good temperament, good scrotal and the color all locked in. **Non Dilutor.**

A high percentage Fleck bull here coming from a full Fleck dam. More moderate than my other Fullblood bulls this year but his low birthweight reflects that. He could be considered in some heifer pens but would be good to discuss first. 87K is deep quartered and wide topped. A bull that will be interesting to see as a mature bull. His 6D dam is moderate in type and strong uddered. Troy Bohn and Joel Mann have selected sons from this cow. **Non Dilutor.**

A larger framed, big testicled Willow bull here. He has a full sister who just calved that looks like she will be a strong cow. His 45D dam has raised two sons through the sale selling to Keith and Dallas Johnston's strong commercial herd and North Creek Simmentals purebred herd. I flushed his dam this fall to get more from her in my herd. The Diesel and Willow combination has really worked as you see with the many 3/4 brothers in the sale. **Non Dilutor.**

Another Willow son stemming from a strong producing Keet cow. This bull is long sided, very well coloured and a good honest bull. His easy keeping dam has raised a son to Purvis Trucking, Kerrobert and heifers retained here. A bull that should be trouble free and work well. **Non-dilutor**

LOT 62

A different top side pedigree for me is this polled Shamrock son. He stepped on the scale at weaning and weighed 1000 lbs. off his Diesel dam. With just a 90 lb. birthweight that is a nice birth to weaning spread. His 93F dam has put two nice bulls through the sale with her last year Willow bull being popular and selling to the Capjacks at Elk Point. Expect this bull to knock some horns off while not sacrificing performance. **Polled, non-dilutor.**

Every so often I dip into the AI tank and pull out some Anchor T Metro semen. A bull that has stood the test of time and still sires useful cattle for today's cattle. 59K is just that, coming out at 89 lbs. and weaning at 900, all from his first time "Crush" mother. He has strong maternal EPD numbers which isn't a surprise because the Metro females are some of the best. Have a look at this well tempered fella on sale day. **Non-dilutor**

I purchased some embryos from Crossroad Farms in hopes of getting some females. Well one female and 3 bulls later, these three full brothers come to town. With the fullblood sire, these bulls will inject milk back into the red cattle. These three bulls have big hips and wide tops. They are all a little different from each other but all are good bulls. **Polled, Non Dilutor.**

IPU MS. CODE RED 249A DAM

TERMS...

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

BIDDING...

Each animal will sell to the highest bidder...no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

ANNOUNCEMENTS...

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

BREEDER'S GUARANTEE...

All bulls sold are guaranteed breeders by the owners. We guarantee to provide you with a sound breeding bull. Should any bull fail to be an unsatisfactory breeder, he will be replaced with a bull of equal value or a credit will be given toward the purchase of another bull. If you have a problem with your bull, please notify us immediately. Under no circumstances will the seller be liable for more than the purchase price of the animal.

EXCEPTION GUARANTEE...

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

CERTIFICATE OF REGISTRATION...

Each animal will carry papers issued by the Canadian Simmental Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES...

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

LIABILITIES...

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

RIGHTS AND OBLIGATIONS...

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

PHONE, MAIL, WIRE BIDS...

Bidders unable to attend the sale may phone, mail or wire their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

DELIVERY...

We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold. \$100 rebate on bulls taken home sale day. Bulls must be insured by buyer.

INSURANCE...

Will be available sale day. We strongly recommend that insurance is purchased for full value.

ERRORS...

All announcements at sale time, written or oral, supercede any written material in the catalogue.
