BULL SALE
2023

Welcome!

We would like to welcome you to the 2nd annual KAYR Charolais bull sale. 2022 was a rewarding year for most in the agricultural sector. Our region was fortunate enough to get the right amount of moisture to provide everyone with ample feed for the coming winter and the crops were surprisingly positive as well.

The CHAROLAIS ADVANTAGE is a real thing! Buckskin and silver calves top the markets in Auction barns across the country week after week. Every year we strive to have our bull pen improve and this year is no different. For over 40 years we have focused on calving ease, muscle shape, hair, disposition and soundness. This year's bull pen provides all those traits and more. We believe every good herd bull has a great mother. We work hard to keep our cow herd moving in the right direction in terms of milk, foot quality and productivity. We at KAYR take pride in the friendships we have made through out the years with our customers, so whether you are a long time customer or new, thank you for taking time to view our offering. We hope to see all sale day but if you are unable to make it, please feel free to call any one of us with any questions that you may have and we will do our best to help you find a bull to fit your needs.

from the desk at

Welcome to the Kay-R Bull Sale for the first ever live on the farm sale at Waskatenau, Alberta. Mark February 25, 2023 as the day to join your hosts the Phillips Family. This Charolais

breeding operation is now in their

third generation producing and marketing high quality, high performing bulls for the purebred and commercial cattle breeders in North America.

When you are searching for that next herd bull or bulls to enhance your breeding program and bottom line, put the Kay-R Bull Sale high on that list. Some lists have few numbers ... the Kay-R list has many that will be circled. It starts with the head and moves back ... this is one of the best headed group of bulls offered this spring. uniform in type, smooth fronted, loads of hair and testicle and packed full of performance and style. Optimal in birth weight, this lineup is selected from a large hard-working cowherd in the Parklands of Alberta.

Stop by any time prior the sale and preview the bulls... it will sure be worth the trip! Give Kasey a call for further information or just to discuss the bulls selling... you will get an honest assessment of the bulls and their families.

We have graded the offering so If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar Team or myself, we will help you in a professional manner.

KAY-R Luxor 1225K is a truly exciting individual that we feel replicates what we try to produce here. A March bull that checks all the boxes for us, huge growth with a moderate birthweight and a look and build that demands your attention. Luxor is very unique in the way he carries a masculine look in such an appealing package. He has so much width and dimension through his hip and center of body and ties into a very eye appealing front end and head. 1225K gets out on a hind leg that is built to last and steps down a near perfect foot. His dam has truly been one of our best for 11 years with an udder that still looks like it did when she entered production. To top it off Luxor has a curve bending set of epd's to back up everything he possesses. Top 2% for REA 4% for CW 10% for MWWT and YW 20% for WW, MK and MARB and 40% for CE. 1225K has the capability to improve your bullpen and leave you replacements that change your cowherd.

I reckon you better take a serious look at 1224K. A bull that has been a favorite to everyone from the beginning. Admired for his look and presence in a powerful package. Recon is a unique individual that excels in terms of length of body and carrying so much muscle and power in a sound made package. You really have to appreciate his width in such a level square made package. His 11 year old dam is a no miss producer that has been a standout female in our herd for over a decade. Recon is in the top 4% for REA 25% for CW 30% for WW, YW and top 35% for FAT. Add some pounds to your calf crop with a high quality look and build.

KAY-R Simplistic 404K is a high quality individual that is very hard to put a hole in. A unique blend of rib shape and length of body. 404K is a true beef bull with an explosive amount of muscle and power in a functional build. One of the stoutest bulls in the offering with a huge hip and deep lower quarter. A maternal sister was campaigned successfully, winning a jackpot show and grabbing two reserve division banners at fall shows. Top 4% for REA 15% for CW, WW 25% for YW and 35% for MWWT. Keep it simple, profitable and predictable.

KAY-R Quartermaster 24K is a truly unique breeding piece. A bull that has an overwhelming amount of raw muscle and softness. 24K has a ton of depth starting in his heart and carries it through to the center part of his rib and body. What really makes Quartermaster so impressive is the amount of width and hip he has while carrying so much masculinity in such an attractive and good looking package. He is one of the most powerful individuals we have ever offered and gets out and moves on a good foot and great hind leg. His young dam is the type of female we are trying to build a whole herd of. An attractive made female with a ton of length and angularity that has some muscle and shape through her hip and center body with an udder built to last. 24K has a unique outcross pedigree that has been used here for years and has stood the test of time. A bull that packs a punch with a great look in a functional package. To top it off Quartermasters EPD profile is impressive as well top 15% WW 25% YW, MWWT and CW 45% REA.

Here is an exciting herd sire prospect with a unique pedigree, great look and build with curve bending epds. KAY-R Ranch Hand 88K has an abundance of natural width and dimension in an attractive eye appealing profile. He carries so much shape and depth through his whole body and carries a ton of muscle over his top and through his back down to his lower quarter and has an extremely attractive head and neck. A full brother was very well received and sold to Bar J Charolais in last year's sale and we think Ranch Hand has the same qualities. The first Doc Holidays entered into production this year and they have far surpassed expectations with great maternal strengths and gorgeous udders. 88K is in the top 15% for REA 20% for MWWT 25% for WW, YW and FAT 30% for MK and 40% for MARB. Ranch Hand is a versatile breeding piece full of consistency and quality.

Another Doc Holiday son that has been a favorite all year long. KAY-R Riggins 825K is a very eye appealing fault free individual that impresses you with his length of body and muscle expression. He carries a ton of shape in his hip and rib and strides out perfectly every time on a very high quality foot. His dam is a very impressive young female with a gorgeous udder and phenomenal look. Our Commissioner daughters have become some of our most consistent producers here and the Doc Holidays have us really excited about their future here. I believe the son's out of 825K will be favorites in your bullpen and the females he will leave behind will truly be impressive. Riggins has a very well balanced EPD profile landing in the top 50% in all but two categories. If the majority of our younger cows weren't off Commissioner and Doc Holiday I'm not sure if we would let him go.

KAY-R Poncho 636k is a very appealing bull that has a ton of presence. 636K has a ton of look and is very intriguing in his build. He carries himself with an attractive front end and smooth shoulder and still has a masculine herd bull look. You really have to admire him for his length of body and width. Poncho is a very complete herdsire that will add look and power to your next calf crop.

We have dug back into the AI tank and have used some Grid Maker again simply because his females are ideal in their look and build and produce high quality offspring every year. The vast majority of our cow herd stems back to Grid Maker and this might be the best son we have raised to date. 28K is the type of bull your bull buyers all ask for; sound, good footed bull with performance and calving ease. What makes 28K special is in the amount of length and depth he has in a very complete and attractive package. Built in longevity and quality here with a great set of numbers to top it all off top 15% MARB 20% CE 25% BW 35% FAT and 40% MWWT

“Fruition” the point at which a plan or project is realized. 26K is a plan that has come together perfectly. A truly unique calving ease prospect with a great look and all the extras. Fruition is soft through the center of his body and through his heart and transitions into a perfect shoulder placement with an attractive head and neck. For being a calving ease bull he has an abundant amount of presence and natural muscle that carries over his top and through his lower quarter and hip. 26K also boasts an impressive set of EPDs while being in the top 10% for BW and CE and top 20% for WW. However the icing on the cake might be the cow family backing him up. Stemming from the Annabelle cow family that has been maybe the most productive and profitable we have ever had and continue to excel. We had 8 natural calves sell out the Commissioner Annabelle cross in last year’s sale that were very well received. If you’re looking for a heifer bull to add quality to your calf crop, you found your bull. Fruition was the Reserve champion junior bull calf champion at Canadian Western Agribition.

KAY-R Commissioner 59K is a really exciting calving ease prospect that has the capability to add a ton of quality to his calf crop. 59K is a perfect example of why the Commissioners have become so popular in many operations across North America. He has a ton of shape and sogginess, in a sound structured attractive package. 59K is built so square and correct and still has an abundant amount of muscle shape through his lower quarter. This is one of the better calving ease bulls we have offered and we believe he will make your job easier and provide extra quality as well. In the top 2% for BW and 5% for CE.

802K

Another high quality Commissioner son that does so many things right. A bull with some extra growth and easy doing ability in a very nice well balanced package. KAY-R Commissioner 802K is extremely deep bodied and wide over his top and carries a lot of shape down into his hip. A full brother sold a couple years ago to some very good customers in Rimbey and he was a front runner in that year's set and we believe 802K is also. A very high quality individual with some added look and consistency with a very nice set of numbers.

KAY-R Ludlow 852K is quite possibly the most intriguing bull in the sale. A February calf that is one of the highest performing bulls in the offering with an outcross pedigree and stemming from the Annabelle cow family, there is a ton of quality. 852K is so impressive with his abundance of natural muscle and dimension in an extremely eye appealing package. It's hard to make one with this much mass and presence in such a sound functional build with so much eye appeal. The dam backing up Ludlow is a cow we consider one of our best, an attractive made female with a ton of shape and mass in an angular package with a near perfect udder. Mainstreet was one of our best Classic son's we ever raised and has called Effertz Key Ranch home for a number of years. We expect big things from this young herdsire and quality and consistency is a built in guarantee for Ludlow. Ranking in the top 10% for WW 15% for MWWT 20% for CW 25% for YW 30% for REA and 35% for MARB.

KAY-R Pecos 17K sired by the popular Outsider and off an exceptional young Commissioner cow is a bull we feel has a ton of future. Outsider females have maybe been the most decorated to come along in some time winning shows all over the world and we feel that with added growth, calving ease and quality of the Commissioner's provides a ton of quality. 17K is extremely attractive in his look and build and still has a ton of natural width and muscle shape through his lower quarter and hip and carries through his center body and heart with a deep and soft look. I believe much like his sire Pecos will produce extremely high quality females and bulls that never go out of style. In the top 10% for BW and CE. It's hard to build a calving ease bull with this much added quality.

KAY-R Wheeler 733K is one of the deepest stoutest bulls we have in this year's pen. He is so soft and easy fleshing in a big stout masculine package. He has a great look and is built to last starting with his nice hind leg and sound structure. Another reason why we like these Tapaderos so much. Performance with a look and presence that is hard to not like. Wheeler ranks in the top 3% for REA 15% for CW and in the top 50 percentile in all but one.

307K

307K is backed by one of the most prolific cow families we have. Tilt has a granddam that is just now entering our donor program. His dam 307A is massive middled brood matron as is the 26Y grandmother. 307K puts a lot together in one package. His EPD profile is outstanding and when you combine that with his awesome structural build he is a true herd bull in the making.

27K

27K has the tools needed to be a great herd bull. He starts with a 78 lbs BW and weaned off with a 815 lbs weaning weight. Be sure to look him up sale day as heifer bulls that don't sacrifice weaning weights are hard to come by.

The dam to 910K has been for the record books here at KAYR. She has had as big of an impact on our cow herd as any that have walked our pastures. She has produced three herd sires working in purebred operations and numerous bulls in commercial farms. One of her sons, KAYR Mainstreet made a lasting impact in the Effertz Key Ranch in North Dakota and we feel that this guy could do the same for his new owners. He's a larger framed, longer bodied bull with great feet.

KAY-R Duracell 518C is sired by the exciting young herdsire Houlio who has really impressed us with his first set of calves. Duracell is so attractive in his eye appeal and look but doesn't sacrifice any width or dimension. He carries a ton of depth and sogginess and carries it through over his top and down into his lower quarter. Stemming from a Grid Maker out of the Annabelle cow family who consistently produces high quality progeny. Combined with Houlio this is a calf that will bring a ton of consistency and quality to his calf crop. Top 4% for MK 10% for MWWT 25% for BW 30% for CW and REA 35% for MARB and 40% for YW. Exciting new genetics from a proven cow family.

We purchased a semen pack in the 105,000\$ Hulio bull and we are sure glad that we did. 123K is complete in every way. Started small with a 75LBS BW and lots of vigour at birth. He's really long bodied, and thick with a great head and smooth flat shoulders. His Dam has been a great producer for us for many years and there are many sons working in commercial herds with great success.

Farm location

From the junction of HWY 28 and 831 we are 2 miles East and then 2 miles South on RR192. The farm is located on the West side

Terms and Conditions

terms

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

bidding

Each animal will sell to the highest bidder... no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

announcements

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

breeder's guarantee

Should any bull fourteen (14) months of age or over fail to prove a breeder after being used on females known to be breeders, the matter shall be reported in writing to the seller within six (6) months following the date of purchase or six (6) months after the bull has reached fourteen (14) months of age. The seller will have the right and privilege of six (6) months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

exception guarantee

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

certificate of registration

Each animal will carry papers issued by the Canadian Charolais Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

phone, mail, wire bids

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

delivery

We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold.

insurance

Insurance will be available sale day. We strongly recommend that insurance is purchased for full value.

rights and obligations

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

semen

KAYR Land and Cattle retains the right to collect semen on any bull selling for in herd use at the buyers convenience and the sellers expence.

errors

All announcements at sale time, written or oral, supercede any written material in the catalogue

It has been a pleasure working with the crew at Kay-R on their nutrition program. They are known for raising elite seedstock and this remains true for this year's high quality, consistent bull offering. I hope you can see this impressive set of Charolais bulls in person.

The bull feeding program is built to maximize forage utilization and gut health. All forages are sampled and analyzed to ensure quality feed sources are used. Once the calves are weaned, they are slowly transitioned to a TMR. The TMR is forage based and is designed to promote lean muscle growth, allowing the bulls to express their genetic potential. Rumen health is of utmost importance, which is why suitable protein sources and proper starch levels are fed to the bulls. Organic minerals are used both on the cow herd and sale bulls to ensure proper immune function and overall health.

If you have any questions about the nutrition program, feel free to reach out. Buy with confidence knowing the bulls have been developed on a balanced nutrition program.

Good luck on sale day!
