29TH ANNUAL

**MRL**

**ANNUAL BULL SALE**

*Herdbulls designed by Ranchers for Ranchers*

*On behalf of everyone at MRL we would like to welcome you to the ranch, March 4th for our 29th annual bull sale.*

*This past year has certainly been okay across most of the country including here at MRL. The feed yard filled up, a real nice fall, kinda miserable December, but an absolutely beautiful January which sure helps here with our skeleton crew, a couple thousand mouths to feed daily, over 250 calves born in the past 3 weeks and bull pictures and catalogue put to bed. It seems almost everything we do 90% of the year revolves around our bull sale. We certainly appreciate the calls, visits to the pens and efforts our customers make to be here sale day and prior to. Thank you to our repeat customers that year in and year out source their herdbulls here at MRL. To those in the seats sale day, logged in on DLMS or DV Auction, left orders with sales staff or trust in Dave and I year after year to buy your bulls through our sight unseen program. It all makes what seems to be a mountain of hard work seem worth it. THANK YOU.*

*The bull lineup for 2023 as a group would be the most impressive in over 50 years in the business and 29 consecutive sales. The red yearlings will knock your socks off. The most impressive pen of bulls we have ever assembled. The black yearlings pen is the epitome of curve bender bulls that we think are ideally suited to commercial cattlemen. The Angus yearlings are led by an absolutely phenomenal group by Respect and the black Angus are the biggest and best group ever.*

*The Coming 2's are impressive in every category. Big, strong sound 20 month old bulls ready to cover some ground. Our Comings 2s division is a true 2 year old program. We calve over 350 purebred cows in May/June on grass and these calves are designated to the program, never before offered for sale and no, not the bulls that didn't quite keep up in the early calving interval. Only the cream of the crop in the spring calving group make the sale pens, the same as the winter born calves in the yearling division.*

*The strength of our offering is and always has been our factory or cowherd. 50 years in the making, 800 head strong in a competitive environment with 2 breed lines. We have multiplied our most productive cow families over the years and it is amazing how many of the bulls derive from only a handful of our most elite cow families that have risen to the top through production merit under ranch conditions.*

*Probably the biggest reason we have had success in raising bulls that work within the industry, is our program is in tune with that of our commercial customers. We run a bunch of cows in two different calving environments: over 400 calving in Jan/Feb, and 350 calving on grass in May. We background and finish our steers, we breed and develop over 250 replacement annually. It's simple, genetics that don't work for us under our ranch conditions, won't work for you. The genetics offered in our bull lineup for 2023 are the cream of the crop and the result of almost 50 years of progression.*

*This cow thing is gonna get good boys, real good. Make sure you're in a position to take advantage. The bulls you buy today will sire the calves at the top of the market. Buy the best ones you can find within your budget, from an outfit that has a proven product and can look after you.*

*Once again, welcome to our 29th Annual Bull Sale in our sales arena here at the ranch. If you need assistance in any way, don't hesitate to call us here at MRL or any of our sales staff. Plan to come and tour the bulls anytime prior to sale day and we look forward to visiting with you on the phone prior to sale time or at the ranch sale day. The bulls that are pictured in the catalogue were all videoed the end of December as we took pictures and we're hoping to video the remaining bulls the first week of February and they will be posted on DLMS, DV Auction and on our website the week prior to sale day. Thank you once again for your cooperation and confidence in our program. Rest assured, we will do our best to help get you the bulls you need to keep your operations progressive and profitable.*

*Working for and with you in the livestock industry,*

*Everyone at MRL*

## ABSOLUTELY 100% GUARANTEED

We guarantee to provide you with a sound breeding bull capable of passing a semen test by a licensed vet within 14 months of age. All bulls over 12 months of age will be semen tested as satisfactory by Sale Day. Should any MRL bull fail to be a satisfactory breeder, he will be replaced with a bull of equal value and quality or a credit will be given towards the purchase of another MRL bull. We carry a good supply of backup bulls and will make sure you have bull power to get your cows bred. If you have a problem, notify us immediately, because we're not happy until you are satisfied with your MRL bull.

## Bull Selection

Purchasing a herd bull is very important. Every cattleman is always searching for bull power to improve certain traits in their cow herd. It can be a frustrating and time consuming task. We would be pleased to assist you in identifying a bull or bulls suited to strengthen your program. We offer a wide genetic pool of red and black Simmental bulls as well as Purebred Red and Black Angus and Simm/Angus hybrid bulls. High growth to bulls suited for your heifer pen in every category. Please give us a call in time before the sale to discuss your herd bull requirements.

## Payment Options

2/3 down sale day. 1/3 on possession of your bull or by May 1. Give us a call to discuss financing options.

## Volume Discount

2 bulls	2% discount on your total purchases.
3 to 4 bulls	3% discount on your total purchases.
5 or more bulls	5% discount on your total purchases.

## In-Herd Semen Interest

MRL reserves the right to draw semen on any bull sold for in herd use at the buyer's convenience and our cost.

## Insurance

Alameda Agencies, Bonnie Thompson Ph: (306) 489-2250.

**We strongly urge you to insure your bull purchases.**

## Identification

All sale lots will carry a CCIA tag with lot numbers

## Delivery

Free delivery to central points near your ranch in Manitoba, Saskatchewan, Alberta and North Dakota. All other points will be cost shared. Bring your trailer and receive \$100.00 discount when you take your bull purchase(s) home on sale day.

## Accidents

Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management or MRL assume any responsibility in this matter and disclaims any liability, legal or otherwise in the event of accidents or loss of property.

## Presale Lunch

Join us for lunch at 11:30 a.m. Sale Day.

## Catalogue Information

EPD's are current and up-to-date as of publication date. Information in this document is believed to be accurate but any updates from the auction block will take preference. Pedigrees in this document have been supplied by the breed Association and all other information has been supplied by the seller.

*Important Sale Information*

# SIGHT UNSEEN PROGRAM

We would love to have you join us for our annual Bull Sale at the ranch. If you can not, this program has worked well for many busy cattlemen unable to make it to our sale. With families and a bunch of cows ourselves, we realize that with hockey, 4-H, chores, frozen water bowls, cows calving and everything else it is sometimes hard to be everywhere you want to be on certain days. Each and every year we sell more bulls through this program from clean across the country to next door neighbors. The program is simple. Call us in advance (preferably a week or so) before the sale to discuss your cowherd, breeding objectives and herd bull requirements. From what we gather from talking to you about your program, we can fit you with a herdsire or herd sires with in your price ranges and suited to your needs without you leaving home. The bulls will be personally hand picked by Lee, Dave or Jim. We are a family run operation so the same person helping you pick your bull is the same person who calves, breeds, feeds and lives with these herd bull prospects and their mothers year around. We know our cowherd very well and the genetics strength of each bull on offer. Just the same as you know yours. Almost 50 years in the bull business we have gained a level of trust and integrity with our customers and have had repeat customers buy their bulls here for years and not been to a sale yet. We will get you the best bull for your program as reasonably priced as we can - you have our word on that.

## WHY THE PROGRAM HAS WORKED SO WELL:

- \* We know our cattle very well and can select a bull or group of bulls to suit your needs.
- \* All bulls are fertility tested and have passed a semen evaluation prior to sale day.  
(No Surprises after you have purchased your herd bulls)
- \* Satisfaction on arrival or we take them home.
- \* Many bulls are photographed in the catalogue.
- \* Complete data on all bulls such as pedigree's, birth weights, and EPD's let us accurately fill your order.
- \* After over 40 years in the bull business we have gained a level of trust and integrity with our customers.
- \* The Majority of our bulls sell to repeat customers from 5 miles to 500 miles from our Ranch.

## HERE ARE A FEW DETAILS ABOUT OUR OPERATION AND WHY WE THINK AN MRL HERD SIRE MAY WORK FOR YOU.

\* **Over 50 years in the bull business.** Over 50 years we have been committed to and stuck to producing Simmental seed stock which will work well under your commercial conditions. Easy fleshing, structurally sound beef cattle have always been #1 at MRL. Over 50 years of stacking the most elite cow families that rise to the top on production merit under ranch conditions.

\* **Customer Care "Large enough to serve you - Small enough to know you"** (borrowed this from another outfit that sells alot of bulls and its the absolute truth). Any given day of the year there are over 300 bulls at the ranch. Herdbulls, spare bulls, sale bulls and bulls being developed. Rest assured if you run into trouble we will have you covered. Free delivery to central points across Western Canada and the Northern States. Cost sharing to the East and Southern States. For those busy cattlemen unable to make it sale day, we offer a sight unseen buyers program and pre-selection program, as well as several sale consultants to leave an order with and internet bidding with both DLMS and DV Acution.

\* **Quality Not Quantity.** Our operation consists of over 700 working females. The 180 bulls on offer have been selected from 350 bull calves, therefore we can be very strict when selecting our offering. The toughest thing about our bull sale will be making up the sale order. Pens full of uniform 1/2 and 3/4 brothers.

\* **Bull Development.** These bulls have been developed on a high roughage TOTAL TMR ration with consultation from Bulls Eye Feeds. Our objective is to offer you sound breeding bulls ready to go to work and stay working for years to come. "Stuffing" is for the "Christmas Turkey" not "breeding bulls". All bulls are semen tested prior to the sale so there are no surprises after you buy your herd bull(s).

**TERMS & CONDITIONS**

**Terms** - The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. We reserve the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase, we reserve full power to resell the animal to the best advantage either publicly or privately without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

**Disputes** - Each animal will be sold to the highest bidder. In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matter is final.

**Purchaser's Risk** - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time. We strongly recommend the purchaser insure their purchase(s) at time of purchase.

**Announcements** - Announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

**Certificate of Registry** - A registration/recordation certificate issued by the Canadian Simmental Association, Canadian Angus Association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

**Shipping** - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management of Seller. See delivery information in the catalogue.

**Breeder's Guarantee** - As per the Canadian Simmental Association/Canadian Angus Association Breeding Guarantee guidelines. In the event of a dispute, the sellers are responsible only to the extent of the purchase price of the said animal. We assume no liability, legal or otherwise, to make any further compensation to buyers. All bulls are vet inspected and sell with a breeding guarantee.

**Health** - All bulls are under the total MRL Herd Health Program. All received Excess 5 Program, Dextomax, Vitamin and all will carry a satisfactory semen evaluation. MRL will look after health tests for cattle purchased by U.S. customers.

**Accidents** - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management or MRL assume any responsibility in this matter and disclaims any liability, legal or otherwise in the event of accidents or loss of property.

**Rights & Obligations** - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale constitutes a separate transaction and the right and obligations of the two parties connected by the terms and conditions of this sale.

**Pictures** - By attending this sale you are hereby granting permission for your photograph to be published by MRL in their catalogue and for advertising purposes only.

# RED SIMMENTAL YEARLING BULLS

The most exciting dominant pen of red bulls we have ever offered for sale. They will flat knock your socks off! 4 full ET brothers by Southern Comfort and another out of the 6823 donor lead the charge! The first sons by the performance Tycoon son MRL Rip are impressive. Probably the most complete red Missile son ever and 3 full brothers by Missile out of the legendary 55W donor. Big time individuals by the \$69,000 Playmaker, Statement, Red Whiskey, Patriot and Yuma as well as calving ease sons of KWA Future, Can Am, Itallion and R+ Focus. The depth of cow power backing up this pen for 2023 can only be matched by the longevity of a breeding program over 50 years in the making. Visitors to the pen thus far have used words like impressive, exciting, consistent, and big-time pen of red bulls. Come see for yourself.

 MRL MISS 477U  
 MRL MISS 863S

The most impressive, consistent flush of 4 full brothers we have ever had in the pen. The most dominant flush of all time here at MRL would be the 4 full sisters in our possession out of the 477U donor that happens to include the 4440B donor mother to these 4 headliners as well as feature Missile son Lot 18 82K and big time Statement son Lot 10 31 K. I could fill 2 full pages on the accomplishments of these cow families and breed leading sires top and bottom on this pedigree. These rascals check a lot of boxes in the herdbull check list and have serious breeding potential. Our most dominant red cow family with 3 generations of powerful donor cows to back it up. If you read last years footnotes in the catalogue I was already eluding to the quality of these calves that were only 3 weeks old at the time. They have turned the heads of some pretty astute cattlemen as baby calves, prospects in the pasture this summer and in the development pens this winter. Homo polled, MRL retaining 1/3 semen interest.

I am going to predict the sleeper in this powerful pen of red bulls and one we seriously considered retaining for ourselves here at MRL and would have had we not kept his maternal brother last year! Sired by the Southern Comfort bull, the top Statement son. Both of these sire groups stand out in this years' pen. The dam is none other than our 6823 cow that has earned a spot in our exclusive donor lineup after 4 consecutive big time herdbulls in a row. She may be the immortal 55W donor's top daughter! As a heifer in the 2019 sale, she raised the \$23,000 MRL Bender bull to Little Rainbow Ranch (check out his sire group in the black division), in 2020, the MRL Emminence Bull going to boundary Ranch top program, 2021, the \$30,000 MRL Bonanza bull going to Kunkel Simmentals leading program in North Dakota and last year the awesome MRL Top Gun bull seeing heavy service here at MRL. A ton of potential here. Big-time pedigree and top numbers across the board.

Interesting young herdbull here! Sired by the \$150,000 R + Yuma and out of the Pocahontas 2Y cow from Labatte's. We purchased as embryos and paid a pretty penny but we are true believers in cow families and Barry will elate that the 2Y cow may be his best cow and that the Pocahontas 52N cow family has been legendary in his herd. Just an 80lb bw and ranks top 25% for calving ease this fella may even work in the heifer pen. Full brother Lot 66 in the black pen. Homo polled.

A son of the feature Whiskey son in our 2019 sale MRL Legend that sold to long-time friends and customers, Downey Simmentals. This young performance sire is a dandy with frame and length and a powerful cow to back up his credentials. She had a feature Tycoon son in 2021 to Randy Geisler and the Lot 1 Playmaker son last year going to Sonny Berndt's operation for \$18,000. Once again, some cow power tied up in this fella!

Big, long, stout, heavy haired son here of the breeding phenom MRL Statement bull. On the bottom side is the old 647Y that has been awesome. Her only bull calf was the \$20,000 MRL Roosevelt bull to Mandan Lake in the 2017 sale. 4 daughters are working in our herd and 2 feature females sold in 2020 and 2021 Herdbuilder sales going to Jorgenson Land & Cattle and McCrostie Livestock, ON. Longevity and predictability bred in this fella. Things that make ranches profitable. Homo polled.

This headliner has garnered some attention in the most power-packed red pen of bulls we have ever offered. Some just seem to stand out with that extra presence and herdbull look. On paper we can't make 'em any better. Sired by the Statement bull out of the R+ Venom sire that was the talk of the R+ dispersal. The dam is stunning and one of the 4 flushmate sisters out of the powerful 477U donor you heard me elude to over the past couple of years. One sister, the 4440B donor is dam to Lots 1, 3, 4 and 5 and the other sister is dam to the headliner Missile son Lot 18 82K. Without a doubt our most powerful, best footed and perfect uddered cow family. A Tycoon maternal brother was headliner going to RBD Ranch who always buy a couple real good ones. One here with big time potential. Homo polled. MRL retaining 1/3 semen.

One of the youngest bulls in the pen and is one good dude. His sire MRL Patriot is probably the most impressive walking bull here at MRL and out of the awesome 677Y donor also the dam to the legendary MRL Red Whiskey bull. The dam is an absolute beauty ET daughter of SOW and the 477U donor, our most influential red cow family. In fact, just look at her impact in this year's offering alone- Lot 1, 3, 4, 5, 10 and 18. One I rank really high and numbers that suggest he may work in the heifer pen as well.

Maybe the top son of the \$100,000 MRL Missile bull we have offered for sale and that's a pretty bold statement as there has been a ton of good ones going to top breeding operations over the years. Another bold statement but Missile may be the most consistent sire we ever raised and used here in 50 plus years in the business. The cowboys lap up the sons and the females in production show up time and time again. On the bottom side is the 5413C matron who is one of the 4 full sisters in production that have been nothing short of phenomenal. They are of course ET daughters of the legendary 477U (maybe my most favourite power cow of all time) who was a donor daughter of the 863S donor who is a sister to the 470U donor and on and on. In this year's sale alone, 4 full ET brothers Lot 1, 3, 4, & 5 as well as the feature Statement son Lot 10 31K all out of 3 of these sisters and in the past couple years MRL Red Concept to Westway Farms, MRL Outlast to Come As UR and Trent Walls, MRL Justified to Moonshine Simmentals, MRL Declaration to Dart Simmentals, MRL Rip Zone to Ag Land Simmentals and other to our top commercial outfits; RBD Ranch, Berndt Ranch, and Randy Geisler. Anyways, blood red, hairy, stout with a herdbull presence and one we will use here at MRL. Homo polled. MRL retaining 1/3 semen.

This fella has been a standout every stage of the game! A pasture favourite this summer and one every cowboy finds in this powerful red pen. Super stout made, sound to the ground and posses that herdbull class, head and presence. It is no accident he is what he is. His dam is a herdbull matron, a beauty 91Y daughter that can crank 'em. Last year a full brother MRL Hat Trick was a feature bull going to work at Berts NR Simmentals and the year prior, the MRL Legend bull for \$23,000 to Downey Farms, both bulls we are using here at MRL. Incredible balance EPD profile and actual stats of 92lb bw and 965 lb ww only add to the predictability of this feature herdbull in the making. Homo polled.

Here's one hiding in the weeds. Check out its pedigree sired by Rip and his dam is the mother of the high selling MRL Rip Zone bull last year going to Ag Land and a bull we used heavily here at MRL as well. She is a beauty Venom daughter out of the 4440B donor (dam of Lots 1, 2, 3, & 4). Top of the breed performance numbers here and big-time maternal merit.

Sired by the high selling KWA Can Am bull from Ashworth's topping their 2021 sale and out of a powerful perfect uddered heifer by Rust out of one of our most beautiful Red Western daughters. The 2435Z had a feature \$12,000 Playmaker son last year going to Judd Ag Ventures and raised the \$57,000 MRL Precision bull to Maxwell's top program a couple of years back. Big time genetics here boys and full of predictability.

# RED COMING 2 YEAR OLD SIMMENTAL BULLS

The Coming 2s division of our bull sale continue to grow in both numbers and quality. We are now calving over 350 cows in our spring calving group in May which includes many elite cow families. This herd is right where we want it and now totally self sustaining with the very best heifers plus 50 embryos added each spring. We absolutely love calving this group on grass in May, it is right up our alley. The bulls are born and bred in an environment identical to most of our commercial customers and will excel under ranch conditions. At MRL we have always paid attention to our customers needs and the evolution of the industry. Bigger ranches, bigger breeding fields and less man power, these Coming 2s are ideally suited. They are big, strong, athletic and not over conditioned, ready to cover some group, get more cows bred, adding dollars to your bottom line. Temperament is second to none on this group. These bulls are the result of a true spring breeding program! Never previously offered for sale or the bottom end of the earlier calving group. Buy with confidence here boys.

This is the largest group of red age advantage bulls we have offered. Exciting sire groups by the \$69,000 MRL Playmaker and MRL 75F bulls whose sons were popular with the cowboys last year. As well as a powerful group of percentage bulls by the impressive 200F sire (Cobra x 55W). Both breeders and top commercial cattlemen are gonna want to have a good look in this pen. Pound for pound these bulls are often the buys of the sale.

A favourite in the pen and one we think has a ton of potential. The 75F progeny led the charge in this division last year with the high seller going to Sunny Valley Simmentals. The dam is an ET daughter of True North and the 470U donor that has made a huge impact on our program. She is the maternal sister to the 863S donor who is the dam to the 477U donor who is the dam to the 4440B donor (dam of Lots 1, 2, 3 and 4). Once again phenomenal EPD profile clean across the board! Homo polled. Full brother by blood to Lot 42 238J.

A definite herd bull here in this awesome 75F sire group. The dam 3550A is an ET daughter of the \$48,000 MRL Integrity sire and the 557U donor cow, a paternal sister to our famous 477U donor. The 3550A cow can get it done. A sister headlined our 2017 sale going to R + Simmentals for \$10,500, a feature bull in 2018 MRL Crown Royal to Mader Ranches for \$12,500, a brother led off the coming 2's in 2020 to Stacey Bell, AB, and last year a feature coming 2 going to Charles Allan. This guys got it covered from every angle and a good son of a gun!

One of the good ones in the pen that deserved his picture in the book. His dam is another flushmate full sister to Lots 42 238J and Lot 47 259J. The Load M Up sire is of course the sire of the powerful 75F herdbull and his daughters are absolutely perfect uddered and good footed. Extra length and pounds in this sire group and big time maternal.

# BLACK SIMMENTAL YEARLING BULLS

Our black pen has been popular the past couple years and the group for 2023 we think is the most impressive in terms of curve bender bulls that suit our commercial cowboys outfits to a tee! Lead off by the outcross genetics of the State of Wars. His top son MRL Bender and his top son MRL Walter. Almost 20 impressive sons of these 3 leading sires. Elite performance sons of the MRL Untouchable and MRL Missile bulls, 2 of the most dominant sires bred here at MRL. 3 impressive ET sons by LFE Riddler and some pretty neat calving ease bulls- Proclamation, Focus and Night Hawk round out the pen. All bases covered whether your needs are performance sire, heifer bull or all-around curve benders!

Our 2023 lineup offers up some pretty cool breeding pieces but none more so than this fella! Sired by MRL Bender, a bull we are extremely high on out of our most powerful donor in production currently the 6823D cow who is out of course our highest revenue earning cow of all time TSN 55W! The dam is none other than our 6681D donor that has started her own page in MRL history. Her first son was a \$10,000 herdbull to Steichen Simmentals, ND, next a \$12,000 high selling heifer to Steeves Land & Cattle. In 2021, our lead off black bull, the \$35,000 MRL Power Play bull to BLI and last year once again our lead off bull going to Fallen Timbers, top program in BC for \$31,000. This cow family has been outstanding. Now for the stats- 85 lb actual bw, 836lb actual ww off his recip dam and ranks top 5% calving ease, top 2% bw, top 15% ww, top 5% yw and mce and top 1% both api and ti. This fella is the true definition of a curve bender and absolutely loaded with cow power in his pedigree. Homo polled, homo black. MRL retaining 1/3 semen interest.

His sire Bender, the first son of our powerful 6823D donor you will hear a whole lot from in the next couple of years, is a bull we own with Little Rainbow Ranch and are extremely high on but have had limited progeny due to a leg injury as a yearling. We have finally got the semen tank filled and Bender boasts our biggest sire group for 2023. This fella's Black Edition dam has been productive with a \$10,000 Missile son in 2021 to RBD Ranch and another feature going to repeat volume buyer Korey Jorgenson, ND. Once again, the kind here that work for cowboys. No fuss.

One of the absolute feature herdbull prospects in the pen. I was hoping all along this February born bull wouldn't get lost in this powerful group of black bulls for 2023 as I know his worth on type and pedigree alone. Sired by the Patriot bull who might be the most impressive herdbull on the ranch, he is a Missile out of the 677Y donor (MRL Red Whiskey dam). He is a full brother to MRL Da Bomb doing a great job for Yellow Rose & Hampton Simmentals. On the bottom side is an awesome SOW daughter once again out of the 836W donor that is quietly making a name for herself. Her first son going to Kunkel Simmentals, ND, and a feature Bentley daughter in our herd. Once again, really strong numbers across the board. When the whole pen of 2023 bulls are 3 year olds, this fella may be the most impressive of the bunch. Homo polled.

A headliner in this pen of black bulls. This guy really puts it all together. He is big-time stout but yet so balanced in his makeup with that herdbull head and masculinity. If temperament is important to your breeding program, I'm not sure we have ever had one so easy going. There's no getting around him being a performance sire yet just a 96 lb bw, actual ww of 930 lbs and ranks top 1% of the breed for ww, yw and ti. His dam is a dandy SOW out of an ET daughter Riddler out of the awesome 310X donor (dam of MRL Pretty Reckless for \$60,000 to Erixon Simmentals). On the top side is both our 836W and 55W donors. This big free wheelin dude is a herdbull and the kind we need more of in the breed if you want the cowboys coming back year after year! Homo polled.

We think this fella check a lot of boxes in our search for herd bulls! He is one we are extremely excited about and will use here in our program. Once again sired by the \$40,000 Walter whose first progeny are impressive. His dam is on her way to being a candidate for our elite donor pen. She is a beauty Missile daughter and our highlight high selling \$18,500 bred heifer this fall to Crowe/ Ultra is one we sacrificed and maternal sister to this headliner. Many of the sires and donor dams that have made our program what it is today, show up in this pedigree. Next box checked is his stellar phenotype! He just has that herd bull pizzaz, look, stoutness, balance and character. His numbers are also flawless – top 10% calving ease with just an 85 lb actual bw and top 3% ww and yw, top 4% api and top 1 % ti. All in all, we think this one is kinda special. Homo polled, Hetero black. MRL retaining 1/3 semen interest.

A serious herd bull candidate here. Outcross yet highly sought after pedigree and solid numbers across the board ranking top 5% ww, 4% ti and 3% yw. His sire, MRL Walter, was the popular \$40,000 high selling Bender son in our 2021 sale going to one of the top breeders in AB, Maxwell's & Kathol. Walter's sister, the feature and high selling red female this fall in our Herdbuilders sale, going to Haman Simmentals in North Dakota (Congrats to these young breeders, she will be a foundation female for you.) Now the exciting part! This fella's dam is none other than a direct Spring Creek 56U daughter out of our immortal power donor cow 836W making her a full sister to MRL Payweight, feature bull in our 2020 sale going to Sonny Berndt in ND. If you want performance, hair, muscle and maternal power, lay into this one boys. Homo polled. Hetero Black

**GIVE US A CALL; ANY TIME, ANY DAY!**

*Does bull buying  
got you stressed?*

Making a living solely with our livestock, we realize the herd bull selection is one of the most critical decisions any stockman will make each year ... we are here to help. We would like to extend a warm welcome to visit the ranch sale day and any time prior to view the sale offering, our cow herd and herd bull battery. We truly believe, and past customers will confirm, the strength, uniformity and breeding consistency of the bulls on offer is due to the powerful cowherd and herd bull battery behind them. If you can not make it to the sale or prior to, give us a call; anytime, any day. One of the most important parts of service to our customers is helping select the right bulls to optimize their breeding objectives. We know our cow herd and genetic strengths of every bull in the offering better than any one and would be pleased to assist in any way possible. Our Sight Unseen Program has worked very well for busy cattlemen in sourcing the best bulls for their program within and quite often below their price range. Viewing our cowherd, bull battery and visiting with the people involved at MRL will make your bull buying decision less stressful, more profitable and pleasurable.

Here's a herd bull! Sired by the popular LFE Riddler sire and out of the legendary 836W donor, one of the Simmental breed's all-time greatest power cows. We have 4 full sisters in production that are phenomenal and full brothers have went to Korey Jorgenson and Come As UR & Trent walls. Of course, maternal brothers are the likes of the \$100,000 MRL Capone, MRL El Tigre and MRL PR Man that topped the sale last year. Don't miss your opportunity to own a son of the 836W cow and especially sired by Riddler. Homo polled, hetero black.

This is a stud in the pen and a full brother to our most elite black donor currently in production, the 823D donor. The grandam is a legend the 55W donor that has 82 registered progeny to date and still counting. The embryo inventory is pretty low so if you want a direct son of 55W, one of the greatest, most consistent cows of all time, don't drag your feet. If I've learned anything over the years, it's take advantage of opportunities when we get them. Homo polled.

# BLACK SIMMENTAL COMING TWO YEAR OLD BULLS

The Coming 2s division of our bull sale continue to grow in both numbers and quality. We are now calving over 350 cows in our spring calving group in May which includes many elite cow families. This herd is right where we want it and now totally self sustaining with the very best heifers plus 50 embryos added each spring. We absolutely love calving this group on grass in May, it is right up our alley. The bulls are born and bred in an environment identical to most of our commercial customers and will excel under ranch conditions. At MRL we have always paid attention to our customer's needs and the evolution of the industry. Bigger ranches, bigger breeding fields and less man power, these Coming 2s are ideally suited. They are big, strong, athletic and not over conditioned, ready to cover some ground, get more cows bred, adding dollars to your bottom line. Temperament is second to none on this group. "These bulls are the result of a true spring breeding program!" Never previously offered for sale or the bottom end of the earlier calving group. Buy with confidence boys.

The black Coming 2's will be led by an ET son of Riddler and the legendary 836W donor, a group by the impressive Missile x 677Y son Patriot and the State of Wars and Focus sons as usual will be a hit with the cowboys. No non-sense herdbulls ready to cover some ground.

These State of War influenced cattle are true curve benders. The numbers don't lie. Boys, they are born small and then grow. Awesome pedigree here.

We seriously considered just hiding this one to turn in to our heifer pen this spring. This is an awesome cow family. The 2490Z cow produced the \$16,000 MRL Warrior bull to Spring Creek Simmentals, is the dam to our 6681 donor cow (dam of feature Lot 59 19K\_ who raised the \$350,000 Power Play bull in 2021. Another daughter is the dam to the Lot 64 100K bull in they yearling division. A maternal brother was also a feature 2 year old last year going to volume buyer Korey Jorgenson for \$12,000. All in all a top herdbull prospect that ranks top 5% bw and top 3% api. This guy will cover a big pasture and genetically we can't make em much better.

# RED ANGUS YEARLING BULLS

It's hard to believe 2023 will be the 19th year to have Angus bulls in our bull sale. We were fortunate to start with some great cows and have built this cowherd with the same values as we have for over 50 years in the Simmental business, multiplying top cow families that get it done under real world ranch conditions. We have implemented elite red and black sires and utilized feature bulls we have sold through this very ring heavily in our breeding program. Our Angus cowherd is one we are extremely proud of; big capacity, good footed, good uddered productive females that produce results in a highly competitive environment of almost 800 cows in the two breed lines.

This group for 2023 will surely be worth the drive! Led off by 15 red sons of the \$130,000 MRLA Respect bull that drew attention North America wide in 2020 sale season. He has proven to be more than just a pretty face but rather a dominant breeding bull. This sire group is flat impressive in terms of consistency, natural muscle, length and impressive Angus character. There are a couple big time herdbull prospects in this group with interesting outcross pedigrees and powerful cow families that may outbreed the old boy himself. This will be the last major group of Respect sons, an opportunity to add 2 or 3 sons to your breeding program, you will be glad you did. Of course sons of the legendary Red Resource bull and highly proven U2 Retrospect bull and the first sons of the high selling Range boss bull and the first sons of the \$40,000 U2Q 38 Special bull. We are excited to add this bull out of the elite Beauty 113Z cow to our lineup. Unlimited maternal power, calving ease sons and unmatched foot quality is what he will add to our program, buy his first sons with confidence. Whether you need calving ease heifer bulls or muscle bulls, we've got you covered.

One of the red bulls that has drawn some attention in the pen. Blood red and once again hip, natural stout and herdbull presence. The dam once again a Tilt daughter. If you have followed our program even a little bit, you will realize the value in owing one out of a MRLA Tilt daughter. The production value of our few Tilt daughters is just flat out off the charts, and I wouldn't trade them for any other cows in the breed. Pretty interesting herdbull here boys! Heavy bull at weaning at 866 lbs.

This one's kinda special and one we think has big time potential. He's a stud in the pen with the muscle and sheer class of a herdbull. The quality of this entire group of Respect sons is undeniable and then here's what sets this one apart: His dam is an absolute gorgeous SAV Resource daughter out of the elite 433T matron making her a maternal sister to the 4422B donor better known as the dam of the \$90,000 MRLA Red Resource bull that has left a footprint on the Red Angus breed. This is some kind of pedigree for a red bull and one that will leave his mark. MRL retaining 1/3 semen interest.

The youngest bull in this group and let's see who finds him. His dam 5317C is one of our most beautiful Tilt daughters that has cracked a spot in our elite donor lineup. Her son last year was the feature cow bull and maybe the most elite Red Resource son to date selling to Little Rainbow Ranch and one we used heavily by AI last spring in our own program here at MRL, MRL Full Tilt. Watch for his sons next year. A diamond in the rough here and should work on heifers. 80 lb bw, top 20% calving ease numbers.

This young U2 Renown daughter is quickly making a name for herself (she is a beauty). A feature calving ease bull in 2021 going to Terence Ortloff, ND, for \$8000, last year a top herdbull by Respect going to the top Mar Mac Farms program and this headliner this year by the immortal sire, Red Resource. Just 82lbs actual bw and look at the length, shape and awesome dark red hair. If you haven't got a Resource son working in your program, it's high time you did.

Another strong calving ease bull here! Just an 80lb bw sired by the 38 special bull who will add big time maternal and foot quality. This guy sells with no papers and his dam is an unregistered purebred female.

# ANGUS COMING 2 YEAR OLDS

The pen of Angus Coming 2's has turned some heads the past couple of years. We truly do have an awesome set of Angus cows in this program calving on grass in the spring. The group for 2023 are more impressive than ever with sons by the \$130,000 Respect sire and \$90,000 Red Resource bull. The Red Angus breeds top outcross genetics backed by highly proven Angus cows with advantage to cover a ton of cows this spring. Just a ton of value in this pen of bulls. Cowboys you want to add natural muscle and Angus character and maternal, this is a must see group.

We've had our eye on this one for a long time. He has been a standout every stage of his life. No surprise when I pulled up his pedigree. A Respect out of a fabulous Tilt daughter (3/4 brother to the feature bulls in the yearling division as well). The production record of our Tilt daughters is off the charts and this combination mated to the \$130,000 respect is undeniable. This is a big time herd bull and one we considered hiding in a back pen to replace his sire.

# BLACK ANGUS YEARLING

A dozen black hided Angus bulls for 2023 including a handful of exciting outcross Black/RC bulls that will be exciting breeding pieces and 4 ET black bulls that are pretty interesting in terms of pedigree. Not the largest pen of black bulls in the industry and MRL may not be the norm for sourcing that big time Black Angus bull as we have been committed to the Reds, but a couple of these individuals we believe have serious potential of leaving their mark in the industry. All in all this pen of bulls is worth seeing in person.

Purple bull here worth the drive. We think this guy has a ton of potential. His numbers are impressive 70 lb actual bw ranking top 9% calving ease, actual ww 776 lbs early September and ranks top 15% ww, top 20% yw. Sired by the SAV Final Answer legendary sire and the dam is a flawless Retrospect daughter out of the 433T cow making her a maternal sister to the 4422B donor (dam of \$90,000 MRLA Red Resource bull). This young female will absolutely be a donor female herself. An almost identical bred bull last year was the lead black bull and a bull we used heavily in our breeding program MRL Final Tour (wait until you see the calves next year). All in all a pretty interesting herdbull prospect here! MRL retaining 1/3 semen interest.

A pair of ET full brothers here we have been pretty excited about for a while now. They are the result of embryos we purchased at NYR sale. Opportunities like this don't come along very often. The dam is the SAV 1420 cow (full sister to the legend SAV Resource sire). The sire is the phenomenal breeding bull SAV Territory making these headliners double bred SAV 4136 the most influential donor cow in SAV history). They are full brothers to the \$100,000 SAV Landmark bull. Our expectations were higher but have maybe even been exceeded. I'll keep it short, Angus breeders you need to come have a look. They are impressive in their own rights. The MRL 66K was the heavy bull at weaning tipping the scales at 1000lbs and carry it so well, strolling around the pen. The MRL 37K has the volume, stout, overall balance and class of a true herdbull. A couple of black Angus Major League herdbulls that will leave their mark on your breeding program. MRL retaining 1/3 semen interest.

Another black hided son of the \$130,000 MRLA Respect sire out of another awesome Final Answer daughter back to the Fire Fly 363 cow that raised the awesome MRLA flex bull for \$50,000 to the acclaimed Leeuwenburgh Angus breeding program. Brother last year went to Brock Thompson. Awesome bull here combining muscle, performance, calving ease and maternal. One of my favs in the pen.

Watch for this guy to lead off this awesome sire group. His dam is a beautiful cow we purchased from Lewis Farms as a lead off female there. She is on the short list and will most likely enter the donor lineup this spring. She had had 2 elite sons sell both going to the strong RJ Ag herd. Rod's bought some awful good bulls here over the years. The very best SAV and Brooking pedigrees line up here.

One of the best pedigreed bulls in the entire offering. The 47G has bred well. His dam is a beautiful uddered SAV Density daughter out of the famous TLA Beauty 6R donor. On the bottom side is an awesome SAV Resource daughter out of the 433T matron. Yes she is a maternal sister to the awesome 4422B donor (dam of \$90,000 MRLA Red Resource). Same cow family again as the lead off Lot 160 (MRLA 4K) in the yearling division.

# COW POWER AT MRL

Just a small sample of a few of our Simmental Foundation Cows

**MRL 836W**

- Dam of Capone, El Tigre, Progress, Sleep Easy, PR Man and more
- Reference Dam Lots 5, 71, 72, 85, 89, 99

**TSN 55W**

- Highest revenue earning cow in MRL history
- Dam of Tracker, Discovery, Pre Destined, Untouchable, Heat Seeker and many more
- Reference Dam Lots 5, 14, 15, 16, 51, 52, 53, 54, 55, 60, 61, 62, 63, 64, 77, 78, 100, 101, 107, 115

**MRL 570U**

- Dam of MRL Integrity
- Daughter of 431N Donor
- Reference Dam Lots 25, 26

**MRL 7368E**

- Maternal sister to MRL Playmaker, MRL Southern Comfort, MRL Centrium
- Reference Cow Family Lots 1, 2, 3, 4, 5, 17, 35, 36, 37, 38, 39, 40, 41, 59, 64, 65

**MRL 683D**

- \$37,000 Riddler X 55W
- Full ET sister to 6823D donor
- Reference Cow Family Lots 59, 60, 61, 62, 63, 64, 79, 80, 84, 85

**MRL 2423Z**

- Dam of MRL Missile
- Reference Dam Lots 12, 14, 15, 16, 18, 33, 73, 113, 114

**MRL 477U**

- Legendary donor dam with accomplishments that could fill this book
- Reference Dam Lots 1, 2, 3, 4, 10, 12, 18, 20, 31, 43, 63, 69, 97

**MRL 863S**

- Daam of 477U Donor
- Maternal sister to 470U Donor, our most elite red cow family
- Reference Dam Lots 8, 32, 73, 86

**MRL 470U**

- Maternal sister to 863S Donor
- Reference Dam Lots 42, 47, 48, 58

**MRL 493U**

- Dam 91Y, Luxor, Driller and more
- Reference Dam Lots 49, 61, 103

**MRL 677Y**

- Dam of MRL Red WHisky, Regulator, and more
- Reference Dam Lots 7, 12, 20, 35, 54, 72, 113, 114

**MRL 431N**

- Dam of MRL Storm
- Dam of 570U Donor
- Full sister to 443N Donor
