

RIGHT CROSS RANCH

12TH ANNUAL RED & BLACK ANGUS BULL SALE
APRIL 7, 2023 AT THE RANCH KISBEY, SK 1:30 PM

Our Best. Always

RIGHT CROSS RANCH
Box 100
Kisbey, SK S0C 1L0
rightcrossranch@hotmail.com

Welcome to our 12th Annual Bull Sale! It seems like just yesterday that we pulled out a map, plotted out Kisbey Saskatchewan, moved, and started Right Cross Ranch! We've continuously had the support of our family, neighbors, friends, customers, and this great community. We'd like to start by saying THANK YOU for "hanging in there" with us! There are times this trek isn't easy, but it's the support from the people in our circle who "cheer us on" that keeps us moving forward year after year. We appreciate you!

If your ranch is anything like ours, you have hundreds of bull sale catalogs on your nightstand or in the bathroom. Every operation has their "story" as to what sets them apart from the next place; that's one of the greatest things about the cattle industry! Two words that we feel sum up our "story," are longevity and practicality.

With rising costs, interest rates, and inflation, every dollar counts now more than ever! We understand and relate to the expense of buying a new herd sire. Once that money is invested, it sure would be nice to get many years use out of that bull! We raise our cattle and bulls with their futures in mind. Our bulls are fed a TMR that is high in protein, minerals, and forages and includes brown oats, no barley! We've fed the bulls to be ready to head to their new homes, be physically fit, and get to work breeding cows! We'd like everything around the ranch to be in shape to work, our stock dogs, ranch horses, heck even our own bodies. Why would the bulls not fall in the same category?

With limited experienced labor around, our cattle must work for us! We do not have the time or the help to deal with poor udder, feet, or attitude problems! We expect our herd to be practical; if you cost us extra time, your number will be wrote down and you'll be sent to the "train station"!

This year, we are excited to offer you bulls with fresh new genetics! We made a huge leap and purchased five new bulls in one year! They've taken our program to new heights! It's not very often that we are over the moon about every bull purchased in one year, but we sure were! We should have bought a lottery ticket! Unfortunately, our luck ended, and we lost Thunder during his first winter. Don't miss your only chance to snag some of his genetics from this sale.

Customer service is one of our main priorities! We will, once again, be offering our bull warranty program to ensure our customers get their cattle bred in a timely fashion. Refer to the Bull Warranty Summary page for more information.

With cow numbers decreasing, prices are UP; it's nice to feel optimism in the industry again! If you get a chance, we'd love to tour you through our cowherd, bull pen, and operation! The coffee is always on!

Hope to see you sale day,

The Andersons

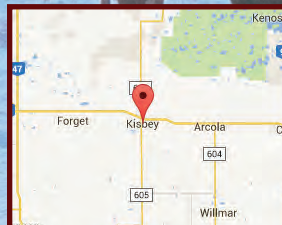

RIGHT CROSS RANCH NUTRITION

Right Cross Ranch has a strong focus on nutrition and management for their growing bulls and entire cow herd. Each ration is balanced based on feed analysis and goals for each set of cattle. The bull rations are formulated with 20% coarse chopped hay to encourage cud chewing, a healthy rumen and longevity. Whole oats provides energy to optimize growth. Silage and a custom formulated bull supplement rounds out the bull rations. Slow and steady growth is the goal for Right Cross bulls. It would be great if you have the opportunity to stop by the ranch to check out the bulls and the growing rations prior to the sale.

FROM THE DESK AT T BAR...

Welcome to the 12th Annual Right Cross Ranch Red and Black Bull sale on April 7, 2023 at the ranch, Kisbey, Saskatchewan. This annual event offers the top cut of yearlings along with a great group of age-advantaged two-year-olds. These two-year-olds are later born and saved for this event. Rugged and sound, they will cover more ground, all types of terrain and ideal for bigger cows. The yearlings are stout and muscled with plenty of hair, testicles, and optimal birth weights. The selection is genetically diverse yet uniform in size and structure... exciting opportunities of value-added selection.

Jim and Sarah are a true example of family and agriculture. Raising a family in a ranching environment and growing a great herd of brood matrons with little outside labor can be challenging, but they have successfully been up to the task. Their many repeat customers will tell you that Right Cross bull's work. They are ranch raised, ranch efficient and maintained in the same manner as those of their customers. The bulls are fed on a high roughage, high protein ration to maintain soundness and longevity.

Plan to be with us to celebrate their 12th bull sale and add some Right Cross advantaged sires to your program. Whether you are looking for Red or Black, there are bulls for all types of programs and all types of budgets. Feel free to stop by the ranch any time prior the sale and preview the bulls and have a peek at the mothers and the sires... Jim or Sarah can provide a tour or just give them a call to talk about the bulls and those that will fit your breeding requirements.

If we may be of assistance prior to, or sale day, feel free to contact any of the T Bar Team or myself, we will help you in a professional manner.

In 2021, we purchased the high selling bull in V8U Ranch's 50th sale, Red Jewel Thunder 149H. We'd been searching for a long time to find a bull that checked as many boxes as Thunder did. He had presence, was smooth, heavy muscled, long bodied, calved easily, and had perfect feet! Unfortunately, we lost Thunder after his first breeding season, we were devastated. Don't miss your chance to snag the only sons available! 6K's granddam is one of our donor cows and is almost a replica of his sire; a sweet way to start the Thunder sons!

Prime Cut 15K, also known as the "Long Black Train!" This guy has been one of our favorites since birth and weaned off the cow at over 800 lbs without creep! His dam is a picture perfect All Star/EXT female; angular, great udder, and good footed. You'll have to travel a lot of miles to find another bull quite like this! Brother sold to Ramage Land & Cattle and his maternal sister is our favorite Black Angus bred heifer to calve this year.

CE: *

LOT 4 AND HIS DAM

We'd like to say a big THANK YOU to Matthew Roberts for all his help this past year! He participates willing with everything from feeding, to riding horses, to babysitting here and there! Your help is appreciated more than you'll ever know!"

AOD: 6 BW: 96 lbs. WW: 683 lbs. CE: 5.5

One thing about the Equation daughters, they sure know how to milk! 105K's dam has an udder like a wash bay; her calves never miss a meal! You'll notice lot 18's body length, he's one of the longest calves in the group. Brother sold to Charles Peckover and a sister is a standout bred heifer here in our herd.

Oh Monarch, you've done it again! Lot 19 will be one of the first bulls to catch your eye on sale day. His dam is sired by Grizzly 4Z and there's a slight glitch in the DNA story; this will get figured out sooner rather than later! In the meantime, enjoy the look and correctness of this guy. Our first calf heifers sure knocked it out of the park this year!

If you want consistency, here it is. Blackbird 220B produces bulls with the same look year after year. They are box-like, thick, angular, class looking, and all stand on good feet. Cody Drummond owns 2 sons, Tyler & Amber Culbertson own one, Gordon Allan owns a son, and we have 2 daughters producing in our herd. Herd sire potential with this boy!

AOD: 5 BW: 81 lbs. WW: 643 lbs.

The Indeed 808S daughters are known for their small teats and nice tight udders. 341J's dam has just that! A mid-sized birthweight and shaped like a torpedo. Lot 42 should calve nicely bred to bigger heifers.

352J is sure eye-catching! His grandmother is the cow that raised Red RCR Rio Grande 123Z, a bull that is still raising seedstock for Pugh Farms at 11 years of age. A sister to lot 43 works here at RCR.

The last two lots both go back to Mar Mac Mastermind 110Y on the dam's side. All the females sired by this bull have a huge middle and handle the conditions of SE SK very well. Notice how clean these bulls are? We've worked hard to keep a consistent ration in front of them and a clean nice bedding pack for them to lay on!

RIGHT CROSS RANCH BULL WARRANTY PROGRAM

Customer service always has been, and always will be, our number one priority! We stand behind our bulls, and our program, and will do anything in our power to make sure your cows are covered. Every bull sold has passed a semen test prior to delivery. If your bull fails to be a satisfactory breeder, we will provide you with a replacement bull or a sale credit. The Right Cross Ranch Bull Warranty Program covers your bull for injury or death.

Intentional acts of mistreatment causing injury or death are considered fraudulent claims. If there is a concern regarding your bull, please notify Right Cross Ranch immediately. We ask that you contact a licensed veterinarian to diagnose and assist you with treating your bull. We will be in contact with your vet and if the animal dies a postmortem will be required (at your cost).

Warranty Program Descriptions

The following options are available, and settlement will be required on the day of the sale. The buyer is responsible to choose their plan and communicate their wishes on sale day.

6 months - 7%

This plan covers your bull from the date of our sale, through one breeding season. Covers 100% of the bull's purchase price less salvage value.

12 months - 10%

This plan covers your bull from the date of our sale, through one breeding season, and one winter. Covers 100% of the bull's purchase price less salvage value.

*** If you choose to decline our warranty program, there will be other options available sale day ***

Terms & Conditions

Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Each animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Certificate of Registration:

Each animal will carry papers issued by the Canadian Angus Association, unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Pedigree Estimates

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

Health:

All animals in the sale have met all necessary health requirements.

Guarantee:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

Liabilities:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co.(2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any obligations to collect or enforce collection of any monies between parties and any legal action that may, in extreme cases, be taken must be between buyer and seller. T Bar C Cattle Co.(2013) Ltd. assumes no responsibility of any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

Phone, Mail & Wire Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Insurance:

We strongly recommend that insurance is purchased for full value. The buyer assumes all risk if insurance is declined.

Errors:

All announcements at sale time, written or oral, supersede any written material in the catalogue.

Trucking Policy:

Please insure your bull if you are looking to have him delivered, no exceptions! Free delivery will be available for any bulls selling for more than \$3,500. Bulls selling for less will be delivered at cost. If more than one lot is purchased we will still deliver for free. We will begin deliveries after the sale. We will do our best to work with you to get you your bull. We would also appreciate if you would work with us! If we are near your farm, your bull will be delivered at our convenience. Thanks for your cooperation!
