

Sunny Valley Simmentals

*33rd
Annual*

**BULL
& FEMALE
SALE**

Wednesday, March 8, 2023 at 1:00 p.m.
at the Ranch - Hanley, SK

*We*elcome to our 33rd Annual Bull & Female Sale. It's hard to believe we are getting ready to host the 3rd sale here at home. It truly is best for the bulls to remain in their home environment.

We are coming off of our 6th year in a row of below average moisture. Sourcing enough winter feed has become more challenging with each passing year. We are optimistic that 2023 will be the year that everything turns around! One thing is for certain that the cowherd has never been scrutinized and culled as hard as it has been in recent years. Either you get the job done or we don't need you to be here. No excuses.

The search is constant for fresh genetics to add to our program. Whether it be a herd bull, female or AI sire, there isn't a catalog in this country that we don't read. We also have found that using sires bred and raised right here at SVS has moved our program forward. Not only are these bulls working incredibly well in our program, they are seeing very similar success and popularity throughout the industry. This is something that is extremely rewarding and we are very proud of!

This years offering is very diverse and offers something for everyone. There are a great selection of stout, hairy beef bulls that will increase quality and add pounds. As well as a solid offering of low birth weight bulls suitable for heifers or young cows. Give us a call, or better yet come and tour this elite pen of bulls yourself! We feel they are worthy of your consideration. Hopefully you will be able to join us on Sale Day!

Wayne & Linda Libke
PH: 306.544.2651
Cell: 306.221.4210

Sale is located at Tyler & Erin's Ranch

From Hanley: 14 km east, 3 km north, 1/2 km west
From Bradwell: 33 km south, 1/2 km west
From Kenaston: 2 km east, 16 km north, 1/2 km west

Sunny Valley Simmentals can be found on Google Maps!

It is a pleasure to be working with the Libke family at Sunny Valley Simmental. The Libke family continues to provide exception bulls to the seedstock and commercial cattleman. There is a high-quality offering for the 33rd Annual Bull & Female Sale where the quality runs deep throughout the entire pen.

The Sunny Valley cowherd utilizes a chelated mineral package throughout the entire year which is crucial to the overall health and immunity of the sale bulls on offer. The mother cows along with their calves have access to free choice mineral throughout the entire summer and fall. Throughout the winter the cows are then force fed a high quality organic mineral package with their daily feed ensuring consistent consumption. The program prioritizes harvesting high quality hay every year for the bulls to consume throughout the development stage. The bulls are limit fed a high protein pellet to promote lean muscle growth and prioritize longevity. The diet also contains a chelated mineral package to strengthen the bulls own immune system and compliment their growth patterns. The bull diet and nutrition of the cow herd is monitored year around to ensure the animals overall health flourishes in the environmental and seasonal conditions.

If you have any questions about the nutrition or sale bulls, please feel free to contact me.

Best of luck to the Libke family on sale day!

 at the ranch - Hanley, SK

On Offer: 29 Red Yearling Bulls
 16 Black Yearling Bulls
 7 Fullblood Yearling Bulls
 5 Replacement Heifers

The Sunny Valley Simmentals program is a world renowned operation that has been producing quality seed stock for multiple generations and we are happy to welcome you to their 33rd Bull & Female sale.

Over the course of these past 33 years and previous, the SVS prefix has been associated with the highest quality of Simmental genetics in the country. The large commercial acceptance across North America is a true testament to the product they annually put forth and the quality program and people backing it. Sunny Valley has certainly always had a "cut" or a "mold" they have stayed true to producing when it comes to functional beef cattle and it's truly encouraging to see how they have never strayed too far from what they know has worked. They consistently put bulls into some of the most progressive commercial outfits each year and the amount of repeat customers that keep coming back is overwhelming. The 2023 offering is as deep in quality as ever with a set of bulls that will please even the most critical cattleman. Bulls that are sound and athletic that heavily emphasize the attributes they are bred to possess. Muscle shape, depth of body, presence and hair. This bulls are built for the long haul and are guaranteed to leave you a set of progeny to help increase your bottom line. Whether you are in need of a red, black or fullblood bull, the options will be endless and as you study the catalogue you will see many of the most popular donors and cow families represented within each bull's pedigree. The fancy open heifers on offer are a great representation of the cowherd and are a great opportunity to acquire sisters to the bulls that make up one of the strongest sales each spring.

We really hope you can make plans and join us March 8th near Hanley at Tyler and Erin's farm. This set of bulls and females need to be seen in person to be fully appreciated as they are truly exciting. If your busy schedules don't allow you to join however, please feel free to contact any of us at Bohrsen Marketing Services and we would be pleased to go over the cattle with you.

Best regards,

The Bohrsen Marketing Team

Homo Polled. SVS Lincoln 10K has a tremendous presence to him with his up headed, 'look at me' attitude. He is big middled, square hipped and very free moving. This group of brothers is truly worth the drive to see! The flush also produced 3 excellent females that we are very high on. These brothers should produce sound, functional cattle that are right for today's market. The daughters will be ideal females, we love our Tycoon daughters and the Sage's are simply as good as it gets!

Homo Polled. SVS Kansas 40K is a complete made, power bull that we really like. A maternal sister to these brothers, by Walk This Way, has just calved and she will rank among the very top of our first calf heifers. 932G herself is a moderate, tanky female with an ideal udder. She is an impressive young cow that will continue building the Sage cow family's legacy.

Homo Polled. SVS Roughneck 22K has been a standout and favorite since the day he was born. Dark red, moderate framed, thick topped, deep ribbed, heavy muscled, stout, sound structured, good dark foot and very hairy, these are all terms that describe 22K. He has been at the front of the pack his whole life and would stand right in with some of the best we've ever had! He is part of a tremendous flush and his 4 flushmate brothers are worth a look as well.

SVS RED ANNIE 411B
OVHF TRIBUTE 138E
SUNNY VALLEY SASSY 75G
SUNNY VALLEY SASSY 31B

Homo Polled. Cruise is a real interesting calf and one we really like. We seriously considered keeping him ourselves but when you see how many he is related to around here it gets tough to justify. He is a dark red hairy Tycoon son with plenty of length and when you look from behind a big wide top and hip that carries down into his quarter. Cruise is the calving ease option in the Tycoon sire group. With just an 82 lb birthweight and EPD's that put him into the top 25% for calving ease & top 10% for birthweight. He has the potential to work on well developed heifers & young cows. His dam Sassy 75G is one of my favourite you cows. She boasts a good udder, moderate frame and real good feet. Her two year old Strut daughter just calved here the other day and looks great.

WLLS 75G - Dam

92	727	1341	7.5	3.2	89.1	132	28.2	5.2	72.8

Homo Polled. Genesis is a bull that keeps getting better everyday. All summer when we were hauling water to the cows with bull calves, he is one of the calves that caught my eye. After weaning he has continued to develop into an all round easy doing herd sire. Its tough competition in the red pen this year but Genesis is one of many that have loads of potential. His dam has been a top producer since we purchased her from the good Maxwell program.

Homo Polled. 55K is a red Walk This Way son with a ton of hair. He is another one of the several red calving ease bulls in the sale. With just an 86 lb birthweight and EPD's that rank him in the top 3 or 4% of the breed he should calve really well. His dam is also a member of the Flirt cow family and last year produced the really good Sunny Valley Duke 37J bull that sold to the good folks at Grona Farms.

Homo Polled. If you are looking for a calving ease heifer bull that comes from an excellent female then check out Bishop. His dam is a first calf Betts female that we are really high on. She has a great udder which appears to happen a lot with Betts heifers. Betts has taken the industry by storm with his progeny winning many championships and numerous high sellers. Females like Cheyenne 3H are the reason why. Bishop has just an 80 lb. birthweight and EPD's that put him in the top 1 or 2% of the breed while still providing adequate performance.

SVS JOYS ELEGANCE 28H
AJE/JF ANT JOYS ELEGANCE

Homo Polled, Homo Black. SVS Laredo 68K is an exciting individual that we feel has the potential to work in the heifer pen. He is long bodied, smooth made and had just an 86lb birth weight. 68K has an absolutely stacked pedigree. Walk This Way is a proven curve bender bull who has done a tremendous job in our program and throughout the industry. His dam is an exciting young cow that was an embryo purchase from Rancier/Bohrson. She is a full sister to the dam of 60K. They are good uddered, good looking cows that we are excited about moving forward. Have a close look here, 68K has a bright future!

Homo Polled, Homo Black. SVS Walker 69K is a long bodied, smooth made, very hairy bull that should work very well on a group of young cows. His mother has been a very consistent producer for us and comes from the popular Eileen cow family. This cow family has put a lot of quality bulls thru this sale and also can produce top females as well. A really strong pedigreed bull here.

Homo Polled, Hetero Black. SVS Dodger 56K is a smooth made, good footed bull that will calve extremely well. He has really good EPD's for CE and BW and I would expect him to breed true. 401B has been a really consistent producer with sons working in both purebred and commercial operations.

Homo Polled, Hetero Black SVS Cornell 98K is one of the youngest bulls in the offering but is an exceptional individual. He is long, thick, hairy and sound. He is one of the top performance bulls in the pen and has an outstanding set of EPD's. True curve bender potential. 521G is an awesome young cow that has a great udder and a very bright future. 98K is a very interesting bull that will be easily found sale day.

Hetero Polled, Homo Black. SVS Boston 24K is a thick, moderate bull that is easy to appreciate. He just wouldn't cooperate on picture day, his picture does not do him justice. 24K has a really strong pedigree, Walk This Way has bred incredibly well and is a true curve bender bull. His dam traces back to the original Flirt cow family. You will want to keep all of his daughters.

Homo Polled, Hetero Black. SVS Dallas 60K is a moderate framed, stout made, big ribbed bull that is out of an awesome young cow. 12H is an elite pedigreed female that has been a standout her whole life! I was really hoping for a heifer calf when I bred 12H to Bond, but 60K has not disappointed. Expect his daughters to be highly productive, good looking females that can really produce! We really like this bull and think he will only continue to impress with age.

SUNNY VALLEY HANNAH 81Z

Hannah is a heifer that always caught our eye in pasture. She has that attractive look. She is a complete as any in the offering. Hannah comes with the popular blaze face as well. The first Strut female has calved here and has a perfect udder for sure. Hannah's Bodacious dam is a good baldy cow that traces back to an excellent fullblood genetics. A full brother was a feature bull in last years sale selling to Gray Farms.

Homo Polled. 69K is the type of female I really like, a heifer with plenty of length, some frame, some top and great haircoat. She comes from a very productive cow family. Not sure which is the best heifer we have in the sale but 69K will get some votes.

100	687		5.7	5.2	82.9	121.0	26.8	7.0	68.3

Allison is a good Betts female that is dark red and hairy. She is probably one that should be staying home because the Betts females make great cows. Her 10 year old dam, 31A has another heifer calf on her this year and shows no sign of slowing down. She has great feet and a sound udder.

92	693		14.5	0.5	71.1	106.1	24.7	10.1	60.3

15K is an exceptionally long, attractive heifer that comes in a really dark red package. She also has the splash of white on her face which comes from her mother who has a full blaze. Plenty of maternal strength bred into this heifer. A maternal sister was popular at Simmsational in 2020 where she sold to Mavv Simmentals.

Homo Polled. Zoey is typical of the Walk This Way progeny. They came small and then really perform well. They are the kind that make top end cows. She has lots of middle and a little added frame to really help produce the performance bulls. Her maternal sister sold last year to Kingswood Simmentals.
