*Spring Bull Sale 2017*

1 PM // March 14, 2017 // Dryland Cattle Trading Corp // Veteran, AB

Our promotion for our program has been highlighted through the statement "Striving to produce cattle that thrive in today's industry!" These words are not something we came by happenstance but they are the belief and the backbone of how our program has been developed. We are focused on producing the kind of cattle that are ultimately low maintenance, have the longevity to stay productive in the herd, have limited calving issues, and will produce more pounds of salable pay-weight for you, our customers. Basically we want our genetics to add profit to your operation. Cattle that are structurally sound with fault free maternal characteristics and have the muscle and carcass value that ultimately turn into pounds of beef are what we are striving to produce. You will see through the offering many different bulls that carry a large spread from birth weight to weaning weight. We are able to accomplish this level of low birth calving ease without sacrificing weaning performance because of a few simple management practices we have made over the years. The first is that we utilize our herdsires to breed heifers their first year of breeding. If the bulls mate and calve well to heifers and the heifers wean off calves that are not limited in their weaning performance we will utilize the herdsire in our cowherd on a larger portion of cows the next year. In doing this we have produced multiple generations of calving ease genetics into our herd. From a phenotype standpoint, we select bulls that are smooth in their shoulder design and clean in their skull set, but carry an ample amount of chest floor base. We find this type allows for progeny to carry the same characteristics forward which aids in the calving process. For our goal in creating larger weaning performance without sacrificing calving ease, we work to utilize our own sire lines in our commercial herd as quickly as possible so we can have a greater indication as to what lines will create pounds from hybrid vigor on our straight bred hereford or angus commercial cows. This allows us to test our genetics much the same as our customers do in their operations, which allows us to find the sire lines from in herd which will allow more pounds without sacrificing cow longevity, structural soundness, calving ease, or female breed back. Simply put we feel that having our own herd of commercial cows allows us to test our genetics to find the cattle that can excel for you our customers. We appreciate your trust in our breeding decisions and we do not take the work of genetic progress lightly as we respect the fact that you are willing to utilize our breeding to add value to your operations.

As every year passes and we have another sale upon us we want to once again extend our appreciation and thanks to everyone that supported our program in the last year. Whether you have bought cattle from us, bid on cattle, or inquired about our program we want to thank you. We believe that this business is a people business. We are fortunate to be able to work and live in an industry that values family and friendship as much as this industry does. We have the utmost respect for our peers in this industry and we are thankful to know you all and for the opportunity to share ideas, conversation and strategies to continue to strengthen our programs and the industry together. We are a family ran operation but we recognize that it takes a team to be able to keep a program moving in a positive direction and we want to extend our thanks to our guest consignors, Larry and Vicki; our neighbors, family, friends, and the folks that help us at home daily or weekly. We are in an industry that is comprised of people full of resilience, strength, ingenuity, pride, and brilliance. You, the cattlemen and cattlegwomen, that make up this great industry continue to show us this year in and year out. We want to extend our invitation to you all to stop by and view the bulls and heifers and join us in Veteran at Dryland Cattle Trading Corp.

Phone in Bids Available: 403-575-3772  
Go to [www.drylandcattle.com](http://www.drylandcattle.com)

#### **VOLUME DISCOUNT:**

If you need 3 or more bulls we will provide you with a 3% discount on the total purchase price of the bulls.

#### **BULL DEVELOPMENT AND DELIVERY OPTIONS:**

Pugh Farms reserves the right to draw semen on any of the bulls in the offering at their own cost and the buyer's convenience. We will start delivering the bulls to their new homes after April 1st and we will also arrange a day that the bulls can be picked up mid April at Dryland. Whichever option suits the buyer. We will also take off \$50 on any bulls that are picked up on sale day. All heifers need to be picked up on sale day.

#### **BREEDER GUARANTEE:**

Pugh Farms guarantees our bulls to be sound, fertile and reproductive in accordance with the rules and regulations of the respective Breed Associations. If a problem occurs, please contact us immediately and we will provide a suitable replacement (bulls only) or take a sale credit.

**JOIN US FOR LUNCH AT NOON**

#### **FERTILITY TEST:**

All bulls will be semen tested prior to delivery. Due to the age of the yearling bulls at the time of the sale they will be semen tested prior to delivery and are sold as guaranteed breeders. If for some reason a yearling bull is not evaluated as a sound breeder a suitable replacement of equal value will be available to the buyer and or a credit towards the purchase of another bull of which the value will be decided upon between the buyer and the seller.

#### **SIGHT UNSEEN:**

We would love to have you be with us. However we do understand how busy things can get around your operations. Our sight unseen program is simple. Call us in advance and we will discuss your needs, cowherd, goals and which bull or bulls will work best for you. Satisfaction guaranteed. If you want to bid live sale day feel free to Contact any of the Pugh Farms Contacts or Dryland (403-575-3772) or if you want to leave a bid with any of us at Pugh Farms or the Staff at Dryland you can do so and they will be kept in the strictest confidence.

#### **TERMS OF SALE:**

Cash or Cheque payable in Canadian Funds. The right to property shall not pass until after settlement has been made. All settlements must be made with the clerks of the sale before cattle will be released unless prior arrangements have been made with the seller.

#### **LIABILITY:**

All precautions will be taken on sale day and for the sale. Pugh Farms and Dryland Cattle Trading Corp. and their staffs assume no responsibility for injury or loss of personal property.

#### **DISPUTES:**

If at some point during the auction two bids are received from two parties at the fall of the hammer the bidding will be reopened between these two parties and these two parties only to determine selling price and to whom is the winning bidder. All information given from the block sale day will supersede any printed information provided in the catalog.

#### **HERD HEALTH:**

All bulls were vaccinated at birth with Inforce 3, and given Vitamin A&D, Selenium, and Vitamin E tablets. They are Vaccinated Pre Weaning with Vista Once SQ, Vision 8 Somnus with Spur. Poured on with Ivomec pre feeding and mid winter and fed Safe Guard for parasite control.

**Bulls can be viewed at the farm anytime prior to the sale.**

Chauvin, AB / P: 780-858-3941 / lvredangus@live.ca

Once again we are happy to be guest consignors at Pugh Farms annual spring sale. We have a great group of yearling heifer bulls on offer this year. We feel this is the most consistent group of bulls we have raised to date which we are very proud of. We continue to aim to provide our customers with strong sound bulls with great calving ease. Thank you again to all of our past bidders and buyers. We look forward to seeing you all at the sale in Veteran.
