andersoncattle@inethome.ca

We are very excited about our front cover. It is a drawing Austen did for the Canadian Junior Angus Association fundraising auction at the Showdown in Lindsay, Ontario. The technique he used is called "reverse light" in which he grates graphite onto a blank page to create the black or darkness. With an eraser he draws or removes the "black" to release the "light" and create the image. It is amazing to watch him create these pictures.

Welcome to our eighth annual bull sale. This year we are pleased to offer a strong group of yearlings and some impressive two year olds. Once again we have consistent sire groups represented.

The bulls were fed a balanced TMR growing ration of corn and barley silage, rolled oats and barley, 32% supplement and Blair's Performax mineral. The bulls are very athletic and have been wintered in large paddocks to ensure they get plenty of exercise. They will go straight to work and walk your pastures with ease. All of the cattle are familiar with both horses and dogs. We work with the bulls daily and we value the good dispositions in our breeding lines.

We exhibited at Yorkton Harvest Showdown, Agribition and Manitoba Ag Days. We were happy to see the cattle were competitive and hope you agree. We would use any of the bulls offered for sale in our program.

This year we have added females to our sale. We selected a group of open females from the heifer pen as well as some cow calf pairs. Our cow herd has been built on large sire groups and you will find lots of consistency in these females. We select for structure and are very critical of udder development. Longevity is essential to a profitable herd.

Austen and Katie are both employed as teachers in the local school division and we are proud of the positive influence they have on students every day. They are both very involved in our program as it takes all hands on deck to keep things running. Breanna is finishing her Master's Degree at the U of S, completing a two year corn grazing trial at Western Beef in Lanigan, SK. We value her knowledge on a daily basis and she has been a tremendous help in formulating our rations. We believe in corn grazing and the cow herd was "in the corn" until mid-February. The cows have to work for a living, just like the rest of us.

We can't thank our family and neighbors enough for all their extra help. A special thanks to Larry Burton, Ron Stanely and Lynne Fullerton for keeping us going, you are part of our program in so many ways.

T Bar is once again managing the sale. We have complete confidence they will assist you with your requests. You are welcome to stop by the farm any time prior to the sale to view the cattle. If we can help you select your next herd sire or females please don't hesitate to call. Hope to see you April 12th!

**Sincerely,
Bruce, Ione & Breanna
Austen & Katie Anderson**

FROM THE DESK AT T BAR...

info@tbarc.com**

Welcome to the 2017 edition of the Anderson Cattle Co. annual bull sale. The Anderson program is one of the longest running Angus programs, built on the strength of cow families and incorporating unique genetics into their pioneer program; which was proven last year, as they sent bulls across North America.

The opportunity to one stop shop in north western Manitoba for both red and black Angus genetics that offer both true two year old bulls, as well as yearlings. These bulls are developed for their customers, with longevity and success in mind. They are developed in big, open runs with plenty of exercise and are not pushed on a high burnout ration. They stem from proven cow families that are built from the ground up with tidy udders, good structure and are phenotypically correct.

This year the Anderson family will offer a select group of open purebred and commercial heifers for your appraisal. The opportunity to add these genetics to your own program doesn't happen every year. They are big, roomy heifers with a whole future of earning potential ahead of them. As well as some commercial pairs that will be that much closer to a return on your investment and add strength and numbers to your own herds.

We at T Bar C are very excited to be working with this great family and their program. Chris, Ben and myself have been in the bull pens and viewed the offering. We can assist with any appraisals or absentee bidding requirements you may have.

For the Anderson families,

ACC Pacesetter 73B is an exciting new sire at ACC – he is excellent footed and combines calving ease and growth. The Daisy and Pacesetter females are top producers in our herd with excellent udders and great mothering ability. His calves are born unassisted with lots of vigor. He is so gentle that we exhibited him at MB Ag Days in January – never having been tied up until Christmas. He was tested for the Leptin gene and possesses the traits of increased fat accumulation, tenderness and marbling. He walked the pasture with ease last summer and we will be using him extensively again this breeding season.

76 10 COMMERCIAL REPLACEMENT HEIFERS

These fifteen top cut commercial red and black replacement heifers will make excellent cows. They are all structurally correct with lots of rib shape and capacity. They were managed in the same group as our replacement heifers and received a corn and barley silage ration mixed with a complete mineral and protein supplement. Fertility, longevity and calving ease has been bred into these heifers for generations. The heifers are on a complete vaccination program including Bovishield and Ultrabac.

77 20 COMMERCIAL COW/CALF PAIRS

Twenty commercial pairs that really reflect the traits that we desire in our purebred females. With February and March calves at side these pairs make a great investment opportunity with a quick return when you sell the calves in the fall. We have selected youthful cows and many are from the two year old pen. All females offered have good udders and will showcase our commitment to structural correctness from the ground up. The females in the sale are vaccinated with Bovishield pre-breeding and received Scour Bos pre-calving. All calves have received Enforce at birth and the initial dose of Bovishield and Ultrabac.

TERMS & CONDITIONS

TERMS: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Each animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION: Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

GUARANTEE: Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

LIABILITIES: All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. Ltd. is acting only as a medium between buyer and seller and is not responsible for any obligations to collect or enforce collection of any monies between parties and any legal action that may, in extreme cases, be taken must be between buyer and seller. T Bar C Cattle Co. Ltd. assumes no responsibility of any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

PHONE, MAIL & WIRE BIDS: Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE: We strongly recommend that insurance is purchased for full value.

ERRORS: All announcements at sale time, written or oral, supercede any written material in the catalogue.

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers as well as Canadian Cattle Identification Tags.

HEALTH: The bulls offered for the sale have been vaccinated in June and October with Bovi Shield Gold and Ultrabac. All bulls were treated for external and internal parasites and will receive the initial dose of Fusoguard (foot rot vaccine).

DELIVERY: Please speak to us about arranging delivery or deduct \$50 from the purchase price if you take your bull home sale day. Any bulls remaining at the farm must be insured and after May 1/17 will be kept at a cost of \$3/day.
