- Sight Unseen Purchase Program: For those who cannot attend, we offer a Sight Unseen Purchase Program. Call us with your needs (birth weight, frame, weight, etc.) and we will recommend suitable bulls. We will deliver the bulls to you with a satisfaction guarantee. Your order will be handled in strict confidence. Call the owners, T Bar or any of the sale staff.
- Right to Draw Semen: In the event that we would like semen on any of the bulls selling, we reserve the privilege to draw semen in the off season at our expense for in-herd use only.

Sale Staff

"Haul your own bull" \$100.00 off per bull - If you bring your own trailer and take your bull home, receive a \$100 credit off your purchase.

Or Pay \$100.00 upfront sale day and we will take the yearling bulls home, feed and deliver them by June 1, 2018. Payable at the time of settlement. All bulls to be taken home and boarded must be insured.

Note - All 2 year old bulls must go home with buyer after the sale unless prior arrangements have been made with the breeder.

■ **Delivery:** We will assist in making transportation arrangements outside MB and SK. All costs are the responsibility of the buyer. You may be asked to take your bull early if the truck is in your area. Each animal becomes the risk of the purchaser as soon as sold.

From the desk at T Bar...

Welcome to the 14th Edition of the "Best of the Breeds Bull Sale." Each year this sale increases in quality, as these breeders have strived to make available the best genetics in their individual breeds and programs for the livestock industry. Since cross-breeding is commonplace in today's industry, the line up of breeds can fill all your pasture requirements with just one trip to town...it's a no brainer!

(306) 577-1256

(306) 536-4261

(306) 621-3824

Each program selects only their best bulls for this event. Whether you are looking for Angus, red and black; Gelbvieh, both red and black; Charolais, or Simmental, red, black, blaze or Fleckvieh, you will find what you need. The diversity of breeds and breeders give you a vast genetic pool to select from. Each of these breeders pride themselves in their programs and cow herds, trying to maintain a high maternal factor in the bulls without giving up performance.

The bulls will be available for viewing at Heartland the day prior or feel free to visit any of the breeder's farms, preview the bulls and see their mothers. Do not hesitate to call any of the consignors and discuss their lineup and which bulls would be suitable for your program. Plan to come early sale morning, view the bulls and be guests for a noon luncheon complete with hot and cold refreshments, then get your "Best of the Breeds" selection!

If we, at T Bar C, may be of any assistance, prior to or sale day, do not hesitate to give myself or any of our professional team a call, as we can help you with your needs.

SHANE MICHELSON 403-363-9973

BEN WRIGHT 519-374-3335

Welcome to the 14th annual Best of the Breeds Bull Sale. We are very excited about the bulls we will have on offer once again this year. We will have both red and black bulls that will work both on heifers, as well as performance bulls to produce those scale busting steers. Our bulls come from good footed, neat uddered, low maintenance cows. At Goodview we put a lot of emphasis on our cows, so you can buy with confidence knowing that the bull you purchased is from a sound problem free cow herd.

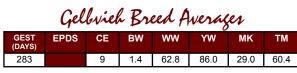

Gelbvieh is a continental breed that has very strong maternal traits such as docility and rich milk that is produced in tight correct udders. Gelbvieh will add that extra muscle to give your calves the extra pounds you're looking for at sale time. Gelbvieh calves are born with vigor, which is one of the reasons Gelbvieh influenced females wean more pounds of calf per cow exposed. Use Gelbvieh bulls in your cross breeding program to get early maturing, long lasting females, as well as sale topping steer calves.

We continue to use the same feeding program, which is a high fiber bull developer pellet that is mixed with whole oats, bunk fed barley oat silage and a grass alfalfa mixed hay. This diet develops a healthy rumen, while maintaining good long term health. We target a 3.5 pound average gain to develop good footed, long lasting bulls that will last for their new owners.

Please join us on March 25th in Yorkton to evaluate our bulls and we can talk about your bull needs. If you can't make the sale, feel free to call or stop by anytime to tour the bull pen and the cows with their 2018 calves at side. Join us Saturday evening at our hotel and stay the night. If you purchase a bull from Goodview Gelbvieh, we will pay for your one night stay. Please join us for an afternoon of visiting and cattle viewing on Sunday, March 18 for our customer appreciation day and bull viewing.

CUSTOMER APRECIATION DAY AND BULL VIEWING SUNDAY MARCH 18 at 1:00 PM

Blair, Lorie, Courtney and Kelsey

Tag 708E is very complete in his makeup. He is very structurally correct with the eye appeal to match. He is without a doubt our top herdsire prospect. Sired by BLB Wrocker 20W, who is also the grandsire of Flad Roc M Soc M the 2013 Futurity Champion. Wrocker sires very long, deep sided cattle with above average hair and hip muscle structure. You will notice the similar style of his sons, as you continue along in our sale offering. 708E's dam is an Outback daughter from the very productive and consistent Lovebug cow family. His dam BLB 17A is one of the prettiest, neatest uddered females in our herd. We are very excited to see what this bull will do for our breed going forward. HOMO POLLED.

Tag 733E is another Wrocker 20W son, exhibiting all of the traits of the Wrocker sons. He is a dark red son of BLB 37X, who is a BLB Stacker 16S daughter and has raised the good ones year after year. His maternal brother, BLB 23B was a Futurity finalist in 2014. HOMO POLLED.

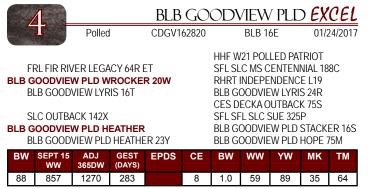

Easton

Tag 728E is a dark red, thick haired power bull. Also a son of Wrocker 20W and BLB 13Y who is a BLB Stacker 16S daughter. She is the daughter of ATC 249H, who is one of our original SIX that we purchased to start our herd back in 1999. 728E has a little different pedigree which could be interesting for those breeders looking for an outcross power bull. HOMO POLLED.

Emmett

Tag 716E has been a standout since spring. This is a bull that catches your eye as soon as you enter the pen. He is a Wrocker son out of a powerhouse Outback daughter, BLB 4A. He is also the maternal sibling of BLB 112D, our new black herdsire.

Tag 743E is an ET calf from two parents that have made a significant difference in our program. His sire, SLC Outback 142X needs no introduction, being the 2012 Agribition National Champion and RBC Supreme finalist. He has lived up to his accolades by producing both sons and daughters that just work. His dam, BBB Maureen 107M is a cow that produced many herd bulls for ourselves as well as other breeders. We also have daughters in the herd that have been and will be very high producing cows. She is also the great, great grand dam of Flad Roc M Soc M. So as you can see, her genetics are in a lot of herds across the country. I believe that 743E will be a bull that will be a herd improver. HOMO POLLED

Tag 737E is a bull we are very excited about. A bull with a 72 pound birth weight that has grown out to be very stylish and eye appealing. He is sired by SLC Starbucks 62B, a bull that we used on our heifers and performance cows. He sires very attractive calves that are deep sided, have a long strong top line, with good hair and dark red in color. We sold a paternal sibling to 737E at the Prairie Alliance this fall, where she was well accepted by many who saw her. 737E dam, BLB 55C is from our Wilma cow family. If you were to follow our program, you would see them come up time and time again. 55C is a black Outback daughter going back to Holman and Garth. She did a very good job with her first calf and we are excited about her future. 55C full sibling is the dam of 715E, who also sells in this sale. BLB 737E is a sure fit in many purebred programs, not only for his EPDs but his pedigree is just a little different. Come take a look at 737E if you're in need of a calving ease bull; he is definitely a bull that will work for you. HOMO POLLED.

Tag 717E is sired by SLC 62B. A dark red, thick haired bull. He is a soft made, big ribbed bull that will sire the type that today's cattlemen are looking for. HOMO POLLED.

BLACK RIDGE ANGUS Black Angus

I hope everyone wintered well, it has been a cold and windy one. We have started calving and have several with a little less ears than they started with.

The bulls were developed similar to last few years, free choice whole oats mixed with 32% protein supplement, mineral tubs and hay, and then in the New Year we offered

them free choice oat silage. Again these bulls have exceeded our expectations with their performance on whole oats. Please feel free to call or stop by at anytime. Please also check out our facebook page for pictures, videos and updates.

This is the second set of calves from a bull whom we raised and used ourselves. Two years ago, he was used almost strictly as cleanup in one pasture but last year we let him out and he bred 50 cows. He combines S A V Harvestor 0338 and our old donor cow 60K. In our opinion, she was the best Whitestone Widespread female raised here. A neat twist in the pedigree is that her grandma was born 44 years ago – in 1974! These calves have tremendous performance; they are super deep and have lots of hair. They also carry a big old hoof and are very heavy boned. All the calves have been born unassisted; they come out long and fast and then they grow and they don't look back.

A son of the Wilbar Barracuda 716C bull which we own a half interest in. Nicely made calf out of a first calf heifer that really did an excellent job, with a 800 pound weaning weight. Low birth and high performance.

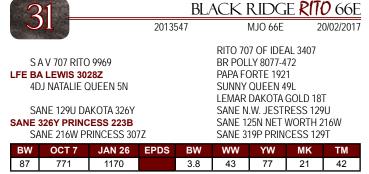

Lute 21E

LFE Lewis 3028Z Sons

This is "Louie's" third set of bull calves coming to town. A good description is the old cliché "Guts, Nuts and Butts" in a moderate frame and he is a very easy keeping bull. Sound with excellent feet and balance. We feel his sons will be very similar to their sire and have been favorites over the past years at this sale. Very consistent breeding sire. We have kept a son back to use to replace him in our herd.

Rito 66E

A Rito son that will catch your eye and has looked good since birth. A moderate made beef machine.

A younger Bullseye two year old, moves like a cat, will go out to pasture and work very well and cover a lot of cows.

Harvestor 13D

Just a May born two year old bull but he was a real good calf so we gambled on him. He turned out very well. In herd weaning weight - indexed 114 in his group. From a very good cow family.

Bullseye 100D

TWIN HERITAGE FARMS Red Angus

Welcome to the 14th annual "Best of the Breeds" bull sale. Thank you to all previous buyers and bidders for your interest in the Twin Heritage Farms program.

Another year has passed and we continue to see advancement in our cow herd and in our bull sale offering. The bull pen is as consistent as it has ever been and there are a few gems to take note of. Our offering is catalogued by herdsire grouping with sons from our Soldier 41Z, Trigger 80B, Motivator 4B, and Hustle 13X herdsires. Sons from Soldier 41Z continue to impress, while the Trigger 80B sons are wide based, thick and display excellent scrotal development. The Motivator 4B bull is siring beautiful uddered daughters and the sons in the sale will be calving ease, highly maternal bulls worthy of a second look.

Please accept this as your invitation to join us for lunch on sale day and check out our sale offering. The bulls have grown since taking pictures in early January and we would love for you to be able to see them in person. If you can't make it down sale day, please stop by the farm or give one of us a call with any questions. We also encourage you to check out our website at www.twinheritage.com for a tour of our cowherd as well as viewing of the bull sale videos.

Our Hustle 13X sons have done extremely well for us over the years and we have many top producing daughters in production. We were able to qualify some semen off 13X but he is no longer with us. The sons in this sale will be his last natural service sons on offer. 16E is a moderate framed well-bred bull that traces back to our "go to" Raven cow family.

Hustle 29E is moderate and smooth made with a strong top. He is the youngest of the Hustle offering, but every bit as good as his pen mates.

Hustle SZE

WS 64E is a bull that continues to excel as time goes on. His dam was purchased from Mar Mac Farms as a heifer calf and she has done an admirable job with her first calf. The Widespread sire adds some power to his calves and 64E is one with strong performance.

WS 64E

DOGPATCH AC Welcome to the 14th edition of the Best of the Breeds bull sale. Thank you to our repeat bullyers and new customers that support our CRES

buyers and new customers that support our program. We focus our breeding on the main

areas that cattlemen look at when purchasing a new bull; calving ease, growth and performance, hair, soundness and docility. We provide stout, moderate framed bulls that can get out and service your cows. We are pleased with this year's offering as it exemplifies our breeding program.

This year the majority of our bulls are sired by our senior herd sire MVY All Star 61A. In 2016, two of his sons hit \$10,000.00 each to Perrot Charolais at Naicam and Ryan Stolson from Hodgeville. Another son sold for \$32,000.00 in another sale. Many more sons were snapped up by keen eyed cattlemen. In 2017 we had no

ALL Star sons, only daughters, which we retained for our herd. We are excited to be able to offer his progeny again for you to take advantage of.

We also have the last group of CSS Gridmaker calves available from our program. This group is younger but exhibits the structural soundness, thickness and hair coats that is synonymous with the Gridmaker cattle. Last but not least are some AI calves from a few sires that have proven their acceptance in the industry. Cederdale Zeal for his calving ease, Kayr Velocity for his performance and a new bull, CJC Symbol which we are quite pleased with, that maintains the calving ease and can really add some muscle.

We are dedicated breeders with a great set of bulls. For our customers, we keep a few bulls in reserve for your insurance in case you have a wreck . Please call or drop by the farm, if you have questions or to view the bulls and their mothers. Check out our videos on Dogpatch Acres.com website in early March.

See you in Yorkton!

Low birth weight calves are the norm for his dam. Uniquess 53U always has the smaller calves that really bloom. A really conservative 80 pound birth weight and a really comforting negative birth weight EPD. You sure don't have to shy away from an opportunity like this yet look at his impressive weaning weight. A bull that will pay dividends and you can use anywhere. A maternal brother is walking the heifer pasture at JLK Livestock at Englefeld.

Lithium 44E

Sherman 186E

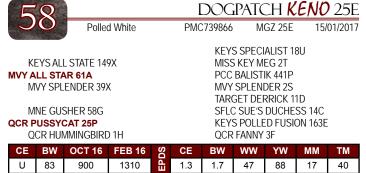

His name was no accident. This dude is a tank. Extremely deep and soggy, this bull will produce the loose hided, easy fleshing calves with tons of middle, butt and hair. A cowboy's bull and a cattle buyer's dream! An excellent string of EPDs to boot makes Sherman a must have on sale day.

HOMO POLLED. LEPTIN TT.

Keno 25E

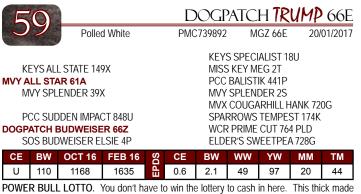

Keno is a long bodied bull with an excellent profile. He will provide a little stretch in your calves with good hair, deep quarters and channeled lines. With a tight clean sheath and an ample tool box, Keno will produce the kind of calves buyers will fight over.

Trump 66E

24

POWER BULL LOTIO. You don't have to win the lottery to cash in here. This thick made unit has got the frame to work on the big cows and will sire those exceptionally heavy weaning weight calves come fall time. From high performance parents comes high performance offspring. If you are going to win at cards or cattle, you need to have Trump in your hands. Recommended for Mature cows.

DOGPATCH GRID ROAD 52E

Hard to believe a bull with this much horsepower came with a 90 pound birth weight. Cannon is a surprising individual with his outstanding 4.55 pounds weight per day of age and average daily gain of 4.04 pounds per day. You would never believe he is much younger than the other bulls in the pen. A moderate framed, thick calf with the heavy fur coat needed to excel in the cold winter months. With his light birth weight and a below average birth weight EPD, you know you can turn him out and be worry free, even in your heifer pen!

HEIFER BULL ALERT. You know how we feel about using Zeal on our heifers, confident! A bull that has proven to be an industry leader for calving ease yet has some growth in him, too. Nevada is no exception. Look at his negative birth weight EPD and a weaning weight of 985 pounds. It doesn't get better than that! Be confident turning Nevada into your heifer pen. All out of a first calf heifer.

HOMO POLLED

Reference Sire KAYR Velocity 812Z

"Charolais bulls were the backbone of the breeding herd 30 years ago. High birthweights and tougher calving had us move to other breeds over the years.

Working with Mick and Annette at Dog Patch Acres has given us confidence to bring Charolais back to our bull pen. Calving ease, growth, good temperaments and a moderate, feed efficient frame can all come in one package.

Dog Patch Acres is great to deal with and we always enjoy our cattle talks."

Marvin and Charlene Lange 220 cows, Colonsay, Sask.

HERD BULL ALERT. We are in awe of what this combination created! Our first crop of CJC Symbol calves and our first calf of the year, make Kracken number one in so many ways. From his small, smooth front end up and over his massive top and extreme spine length to his huge set of pants, Kracken is truly an impressive brute. He has a real quiet nature and comes from a long line of easy calving performance based siblings. **HOMO POLLED**

Riot is a deep sided, great haired young sire with a big square hip. He will make an excellent cross on any female helping to produce those calves with extra volume, hair coats and lean red meat that pays the bills. Crossing on blacks or reds will result in the hairy polled calves that will make the buyers come alive.

Riot 96E

Here is a opportunity to step with style into some of the newest genetics available. A real complete character with natural thickness, clean lines, great hair and a great attitude. Not to mention his stellar birth and weaning weights. Octane will give a boost to any herd purebred or commercial. A real eye catcher that gets better and better as he matures. Check him out sale day.

Justin receiving November

Gold judging award

Charolais

We'd like to invite you to the 2018 Best of the Breeds Bull Sale!

We are excited to bring out what we feel may be our best set of bulls we have produced to date. The quality runs deep with some outstanding herdsire prospects. The use of A.I. sires Sparrows Kingston, Cedardale Zeal, and our 2015 high selling Ledger son HBC G2, has added depth, hair, overall muscle and growth. These bulls are sound and ready to go to work. Calving ease is important to you, and it's important to us. That's why when we select herd sires, calving ease and moderate birth weight are always a priority. We also value cattle with a great disposition, and these bulls certainly reflect those qualities.

Char-cross calves are bringing a premium at the pre-sort sales. We congratulate you for

your commitment to using Charolais bulls. Whether you are a purebred breeder or a commercial producer, this is a solid offering worth a serious look

Sometimes things happen and you just can't make it on sale day. For your convenience, new this year, our sale will be broadcast on DLMS. We invite you to stop by our farm prior to sale day, and have a look at the bulls and their mothers. As always, NO BULLS ARE PRE-SOLD before the sale.

Thank you for your support of our program. We look forward to seeing you in Yorkton. Join us for lunch and refreshments - we always enjoy your visit. See you on March 25th!

Doug, Tammy, Jennifer & Justin Harcourt Home: 306-383-2346 Doug's Cell: 306-383-7068

You can drive a long way and look at a lot of two-year-old Charolais bulls before you find a better bull than this powerful herd bull stamp. The look, the presence, everything about him says herdsire. He is soft made, smooth and correct. His dam was just outstanding at CCYA in 2015 where Justin showed her very well. He is in the top 3% of the breed for milk EPD and his maternal genetics prove just that with loads of milk and perfect teat size. We held him back for clean up on a few cows where he performed very well. This is the kind of bull every cattleman needs

Take a look here. 705E has all the attributes you want in a herd bull. Thick curly hair coat and homo polled. Soft made and a great skull. Good solid foot, a great set of testicles, all in a moderate frame, with only 80 pound birth weight. His dam has a perfect udder and is super correct and ultra feminine. A bull that will leave a mark on the industry.

HBC 720E is some peoples' pick of the pen this year. He has the herd bull look along with a thick hair coat, super feet and legs and a great genetic profile that will make him a great bull for his new owner. Whether you want to raise bulls or replacement females, this guy was made to be a breed improver. Calving ease, overall soundness, it's hard to fault this guy. Check him out. He can give you whatever you need him to. His dam 8X is moderate and angular with a perfect udder. Southview Farms selected her Divergent son in 2015 and he is doing a great job for them. HBC 723E is from the great Sparrow's Kingston and our pick of the heifers at Wood River Charolais. He is solid front to back. Sound on his feet and legs with that extra hair we all want in our calves. 9A has a fault free udder and produces a top end calf every year. Calving ease, growth and hair – a great combination.

Chicago 723E

FORDEN FAIRVIEW FARM

The best part of the cattle business is the people in it. We are humbled and thankful for the support from all our customers and friends over the years. We always enjoy visiting with people to understand your program and how a piece of our program might fit into yours.

Over the past few years we have made a considerable investment into DNA testing our entire herd. We want to take the guess work out of the equation for our customers and ourselves. All bulls are DNA tested for color, diluter and polled or are known by pedigree. If you have a question about DNA and what the results mean or how it might apply to your herd, please ask as we really enjoy talking about the many different DNA combinations within the Simmental breed.

New this year, are the first sons of MRL Avenger 19C. He is a Discovery son we purchased from the great program at McMillen Ranching at Carievale, SK. His first son, Nighthawk, is quite possibly the best black bull we have ever produced. In addition we have some new genetics in both the red and black programs that along with our Fleckvieh bulls make this year's offering one we are excited about.

All bulls are Express Verified and treated with Pyramid FP 5 Presponse spring and fall. The bulls also receive double vaccination of fusogard for prevention of foot rot. <u>We'd like to invite everyone to our Bull Pen Open House at the farm March 17 & 18 from 1-5 PM.</u> This is a great opportunity to view the bulls in their environment as well as walk through our cow herd to see the maternal strength that comes along with these bulls. <u>Visitors are welcome any time, so if you can't make it for the open house, please do</u>

Like us on Facebook "Forden Fairview Farm – Simmentals" to follow our program. Videos will be available on our facebook page in early March.

Like us of Facebook: Forden Fairview Farm -Simmentals

ACS LOUISVILLE 666S FDN WILMA 36W MISS FDN NUVELLE 98N

HETERO POLLED. HETERO BLACK. Nighthawk is the first son to sell off our new herdsire, MRL Avenger. When we were looking for a new black herdsire we toured a number of herds and we were most impressed with the consistency and uniformity of sire groups at MRL. We were very pleased with the Discovery sons and decided we needed to own one. Nighthawk is a super stout, big barrelled, sound footed bull and one of the best black bulls we have ever produced. His dam is an ACS Louisville daughter and if you've been following our program you know what we think of our Louisville females. They are long bodied, great uddered females with tremendous feet and longevity. We have over 40 Louisville daughters or granddaughters working in the herd today. Nighthawk was a member of our pen of bulls that were shown at Harvest Showdown and Agribition.

HETEROZYGOUS BLACK: A bull noted as such carries one black and one red gene. Depending on the colour type of the cows you can get both red and black calves from these bulls.

HOMOZYGOUS BLACK: A bull noted as such carries only the black gene (BB). They will pass on only the black gene and all calves will be black.

HOMO POLLED. NON DILUTER. Lightning is a powerhouse. He has tremendous length, is heavy muscled and deep quartered. Lightning has been a favorite since birth as he always had that presence about him and his dam is a beautiful uddered, deep bodied, easy keeping Louisville daughter. He does have a higher birth weight however this is a result of a longer gestation and the length of body he possess. He was born unassisted and one can expect the same from his calves. Maternal sisters have been sold to Fox Hills Simmentals, Kish Bros and Clayton Kruda. Lightning was part of our red pen of bulls that were shown last fall.

HOMO POLLED. NON DILUTER. Eagle is a moderate framed Avenger son out of a good, young, black blaze cow. He is a maternal brother to Monaco who we sold last year to Future Legends Ranch, Curtis & Isabel Logel. We were fortunate to walk Monaco in our program last spring as the Logels have a later breeding season. Eagle is out of two black parents and for those customers who don't run black bulls, here is a unique opportunity to access essentially all of our black bloodlines yet in a red bull.

Eagle S9E

Maternal Brother - FAIRVIEW Monaco 59D

37

HOMO POLLED. NON DILUTOR. 100% FLECKVIEH. Philosophy is an attractive, smooth made, low birth weight brockle-faced bull we have been excited about since the day he was born. We bought his mother, Ariel, from Starwest Farms in 2014. She is a homo polled, heavy pigmented daughter of Semex's Commander bull who is said to have a strong maternal pedigree that also provides performance, muscle, eye appeal and style. Philosophy's pedigree both top and bottom contain some of the most recognized Fleckvieh genetics. Even with his low birth weight and late birth date he weaned off at over 800 lbs in mid-September and was the top ranking bull out of the entire group. Ariel was one of the first cows to calve in January this year and has another exciting full brother to Philosophy. Ariel's calves have ranged from 70-90 lbs and have been anywhere from on time to 2 weeks early. As a result, we believe Philosophy will moderate birth weight and calving ease on cows and may also work in the heifer pen. Philosophy has a bright future ahead of him and we would be interested in being part of it.

HORNED. NON DILUTOR. 100% FLECKVIEH. Pitcher is a moderate framed, square hipped, deep sided bull. His dam is an excellent uddered, 10 year old cow that has out produced herself. She has had 2 other bulls in the sale, as well as put three daughters into the herd. A full sister to Pitcher is one of our favorite first calf heifers.

Berlin 75E

Sire - GRINALTA'S HP Ultra FF 940

FLECKVIEH: Fleckvieh cattle are a strain of Simmental that originate exclusively from Germany and Austria. There they were bred as a dual purpose animal, used for both milk and meat. Fleckvieh cattle are more moderate framed, easier fleshing than the "traditional" Simmental that came from other parts of Europe. Fleckvieh influenced bulls will add milk to your females and performance to your bulls and steers.

HOMO POLLED. NON DILUTOR. 50% FLECKVIEH. Pit Stop is a deep sided, long bodied son of our Fleckvieh herdsire, Phantom. We often cross our fleckvieh bulls on our red and black cows to produce these heavy haired, thick made, blaze faced bulls. Pit stop has that dark red color that can sometimes be hard to produce in the Simmental breed. His mother is again a Louisville daughter. You can quickly see the consistency with which these Louisville cows can produce bulls. Combine that with Phantom and you have a highly maternal pedigree yet carrying solid performance as Pit Stop had an ADG of over 4 lbs/day from weaning to yearling.

HETERO POLLED. NON DILUTOR. 50% FLECKVIEH. Zane is a son of our Zeus bull that we sold to Oakview Simmentals a few years ago. In their program, he is the performance Fleckvieh bull that adds length and muscle to his calves. A maternal brother was sold to Howard Dobson a couple years ago (his 12th bull from FFF). When Howard started buying bulls from my dad 15 years ago, one of the key reasons was because our bulls are very quiet. This is a key attribute that we continue to focus on today and we thank Howard for his trust and confidence all these years. Zane is a bigger framed bull that was the 2nd ranking bull at yearling time.

HETERO POLLED. NON DILUTOR. Firebird is a real thick made bull that has tremendous width and a super disposition. He is a twin therefore he is more moderate than some, however once you stand behind him you will see that he is every bit as powerful. His dam is an excellent uddered Legend daughter that has above average milk. TWIN.

NON DILUTOR: A bull noted as such does not carry the Dilutor gene and will NOT produce grey calves when bred to black cows. Awareness of this gene (or lack thereof) is only important when breeding to black cows. If you have red, buckskin or white cows the non-dilutor factor is not as relevant.

DNA TESTING: All bulls have been tested or are known by pedigree for Polled, Dilutor status and Coat Color. Those that are non-dilutor are noted as such.

HOMO POLLED. NON DILUTOR. Villeneuve was the third bull in our red pen of show bulls last fall where he was appreciated by many. He is straight topped, square hipped and well equipped with the largest testicles in the pen. He was one of the top ranking bulls at yearling time. With Redstream and Grand Prix in his pedigree you can expect him to produce heavy weight steers.

HOMO POLLED. NON DILUTOR. Leanne's cow did it again giving her another bull calf. Whitney has placed 4 sons in the sale and 2 daughters in the herd. Pirelli is a long-spined, dark red beefy Grand Prix son with a little extra frame. Whitney typically calves early and easy so one can expect Pirelli's calves to come easy and get up and grow. A maternal brother sold to Leonard Kuschak & Sons in sale last year.

HETERO POLLED. NON DILUTOR. Walker is a wellbalanced, stylish bull with a moderate birth weight. He is a son of Remington Red Label, the bull that much of the Remington program was built around. His daughters are known to be superior cows with fantastic udder quality in a moderate package. Walker is out a first calf heifer and weaned off in mid-September at 868 lbs. This bull is owned by Carter, Declan and Mara so if you purchase Walker you will be making some kids really happy.

Terms and Conditions

Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Bidding:

Each animal will sell to the highest bidder. In the case of a dispute, bidding will be reopened between the parties involved in the dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

Announcements:

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

Breeder's Guarantee:

Should any bull fourteen (14) months of age or over fail to prove a breeder after being used on females known to be breeders, the matter shall be reported in writing to the seller within six (6) months following the date of purchase or six (6) months after the bull has reached fourteen (14) months of age. The seller will have the right and privilege of six (6) months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

Exception Guarantee:

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

Certificate of Registration:

Each animal will carry papers issued by the Canadian Charolais, Angus, Simmental, and Gelbvieh Associations. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Health:

All animals in the sale have met all necessary health requirements.

Liabilities:

good calving ease candidate.

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. Ltd. assume any financial obligations to collect or enforce collection of any monies

between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made here under.

Rights & Obligations:

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

Phone, Mail, Wire Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Delivery:

We will assist in making transportation arrangements outside MB and SK. All costs are the responsibility of the buyer. You may be asked to take your bull early if the truck is in your area. Each animal becomes the risk of the purchaser as soon as sold.

Insurance:

Will be available sale day. We strongly recommend that insurance is purchased for full value.

Erross:

All announcements at sale time, written or oral, supersede any written material in the catalogue.
