TERMS & CONDITIONS

Terms of Sale – Cash or cheque payable in Canadian Funds. The right to property shall not pass until after settlement has been made. All settlements must be made with the clerks of the sale before cattle will be released unless prior arrangements have been made with the seller.

Bulls sold with a “Responsible Breeder Guarantee of Satisfaction.” In the unlikely events of a dispute, the regular terms and conditions standard with the applicable breed association shall apply. In any case, the seller is not responsible for more than what the bull sold for at the auction mart.

Purchasers Risk – Each animal becomes the risk of the purchaser as soon as sold. Insurance will be available sale day.

Liability – Purchasers must look to the seller of the animal for fulfillment of all guarantees and representations made are hereunder. Provost Livestock Exchange are acting as agents and assume no responsibility or representations made by the seller.

INSURANCE

Larry Toner – Stockmens Insurance

Phone: 306-932-4866 | Cell: 306-834-7652

Kolton Kasur – Canadian Farm Insurance

Phone: 780-447-3276 | Cell: 780-387-8376

DELIVERY

We will take the bulls home, feed, and deliver them free within 150 miles. We will start delivery around April 15th and work with you to get them to your yard or pastures. If you are unable to receive your bull at that time there will be a \$2/day feed charge from that point on. Any bulls coming back to the ranch MUST be insured.

SIGHT UNSEEN PURCHASE PLAN

We look forward to seeing you on Sale Day but if you cannot make it and wish to participate please call any of the sale staff or sale contributors with your selection criteria and price range and we will try to fill your order.

**All bids will be kept in strictest of confidence.

Welcome

FROM PEDERSEN LIVESTOCK

OUR PROGRAM

Our cattle run in the Battle River Valley so structure is key as they have to walk up and down hills grazing and for water. We don't pamper our cows; they run like our commercial herd, on grass as long as possible then bale grazing until calving. Our cows don't get second chances, they raise a quality calf and come in bred on time or they go down the road. Our aim is to have cattle that are functional and sound for a very long time, easy doing cattle that convert feed into pounds while catching a grade. We use the best sires we can, through both AI and natural service and use embryo transfer to increase our rate of genetic advancement. We work with the Lloydminster Animal Hospital to provide a complete herd health program.

Dear Friends

Hard to believe it's this time of year again. It felt like we were going to be stuck in an eternal spring after the one we went through in 2017. We spent months in mud and it made AI and embryo work (and pretty much anything that involved cows in the corral) much more challenging this year! Was such a huge relief when we were finally able to get cows & calves out on solid ground again! But by late summer we then were grateful for all that moisture in the spring.

This past summer we hit the show road with the kids leading the charge. Kurt was honored to be asked to judge the Provincial 4-H Heifer Show in conjunction with Summer Synergy in Olds. We figured the kids would have fun at Synergy as well, so they got a taste of a pretty amazing program and made some new friends. Thanks to the Cinder and K-Cow kids, both Quinn & Trigg were able to borrow calves to show in the showmanship class. They had great stories to tell for the rest of the summer about the calves they had shown (they were not black). The kids, also got a chance to participate in the Canadian Junior Angus Association Showdown in Lloydminster. It was another really wonderful learning opportunity for the kids where they once again made many more friends in the industry from across Western Canada. August brought the annual Alberta Junior Angus Association Show, that we all look forward to and the kids did a wonderful job showing us what they had learned through the summer. We managed to hit a few pen shows through the summer as well as having cattle on display at the Sask. Angus summer tour.

Speaking of summer tours, we'd like to invite you all to the Northern Alberta Angus Club summer tour being hosted by us this year June 15&16. Make sure to let us know if you'd like more info.

We really put a lot of emphasis on the momma cows, they are the heart of our herd. We are very proud of the herd of cows we have put together and are very selective for maternal traits and longevity. Through the use of embryo transplant and strict culling and sire selection we are very pleased with the direction of our program. Rest assured that these bulls come from mother cows that are sound and productive with tremendous udder quality, efficient in their production and carry themselves in good condition while producing a top end calf. We feel that behind every good bull is a good cow. When we select our herd bulls we always want to do our homework and see their mother. We are sure you probably feel the same way. Come for a tour and check things out or if you are busy and can't get away please pick up the phone and don't be afraid to ask us any questions. We know our cows and can give you more information to help with your selection.

The bulls are being developed along nicely this year on a whole oat and barley silage total mixed ration. As always these bulls are fully guaranteed and if for some reason there is an issue we want to be the first to know. We always carry spare bulls and will have one to get your cows bred should an issue arise.

We would like to thank all our past bidders and buyers that have shown support of our program. We trust that your past purchases have worked out for you and if you are for some reason not completely satisfied please let us know so we can make it right. Satisfied customers make for repeat customers and we want to see you back.

There are many people that help us throughout the year at the shows and at the farm and we couldn't do it without you. We really appreciate the help from all our family and friends! Thank you for all that you do!

Please join us on March 6th, 2018 at Provost Livestock for a visit and see some great cattle. If you are unable to attend we will have videos on our website to help with your selection and please don't be afraid to contact us with any questions, the sale will be live on DLMS once again as well. You are always welcome to stop by the farm to take a look at the bulls as well & you may find some cinnamon buns waiting. We would love to help you find the bull that fits your needs.

In 2015 I traveled many miles to look for our next great herd bull. We wanted a bull that would be a foot improver with big time performance and muscle shape. One that had a ton of fore rib, big middle and most importantly backed by a terrific mother with a history of good production and efficiency. I found what I was looking for at Johnson Livestock and the search was over. He has an EPD profile that will blow your mind. He was one of the highest YW bulls in Canada that year. We were lucky enough to partner with Clifford Land and Cattle and got him bought as the high seller that day at \$19,000. We had to stretch to get him but we weren't going home without him. His first and only daughter to go on offer was Pedersen Undiscovered 301D and was a high seller in the Fall Fusion Sale to our new partners at Avelyn Angus and Goad Family Angus. His sons were well accepted last year and his first daughters are calving this year with much anticipation and excitement.

The 2015 National and Farmfair Reserve Champion Senior Bull. We found this great bull down at the great herd of Bar-E-L. He is an own son of the two-time Agribition champion, Southland Thriller, who is known for producing terrific females. He is a real power house with a terrific front end and awesome feet and legs. He received many compliments from those that saw him, amazed at how a bull with his mass and muscle could move out so freely. He sired Pedersen Confidence 39C our high selling bull at \$16,000 to Grant Lodge and Diamond B. His daughters are very angular made with absolutely beautiful udders with small teats, level fore udder and ample milk flow. We cannot say enough about what this bull has done for our program and will continue to do going forward.

Bulldoze was our 2014 high selling bull to Clifford Land and Cattle and we were fortunate enough to buy an interest in him back to use ourselves. He has not disappointed. We have used him on our heifers each year and he has calved out nicely. His calves have extra hair and are a very consistent group. They are moderate in frame but have wide tops, big hips and nice headed. His mother 184S is a donor cow for us and has produced a tremendous set of females from her first flush. Unfortunately, we lost him last fall due to a stifle injury but we will continue to use him in our AI program. We think his daughters may be his true legacy.

A real tank of a bull. One that you have to appreciate for his width of chest, wide top and overall muscle mass. He packs a lot of performance behind him and backed by a nice cow we purchased from Allandale Angus. She has a daughter working at L & S Livestock and a son went to Darryl Clark in last year's sale. If you follow EPDs have a look at the numbers behind this guy!

A feature Muchmore son. We had this calf along side his mother this summer to be named overall Grand Champion Pair at the Edgerton and Paradise Valley Pen shows. We also had him on display at the Saskatchewan Angus summer tour where he found lots of friends and great compliments from many astute cattlemen. We think an awful lot of this guy and what he can offer the industry. Run him in the heifer pasture with ease. His mother is one of our feature dams that outdoes herself every year.

This could very well be one of our proudest breeding accomplishments to date. This fella has found friends everywhere we have taken him. He was the anchor bull of the Champion Pen of three at Farmfair, as well as a division finalist in Legends of the Fall show and in the King of the Ring at Stockade Roundup. No matter what angle you look at him from you have to appreciate him for his muscle pattern and explosive shape. A full sibling heifer sold to Wiwa Creek at the Angus Collection sale in 2015. His dam will be entering our Donor Program and is a beautiful made, moderate female with an ideal udder. Combining the 2015 Reserve National Senior Champion Bull with this Tiger daughter makes for a very proven and useful Pedigree. We wish to use this bull in the future in our own program so will be **retaining a 1/3 semen interest**.

Another member of our Champion Pen of three from Farmfair. This fella is an outcross option for our valued repeat customers, being sired by the Semex Sire KR Cash Flow. A bull that is making his mark in the breed tracing back to the very influential Barstow Cash. A real long spined, smooth fronted individual that is very extended through his front third. His dam is a very angular made, beautiful uddered Bando daughter. She has made her mark on our program leaving us with five top end daughters in the herd with this bull being her first son to date. He will make momma cows!

We thought an awful lot of this bull and his mother together on pasture this summer and were very tempted to drag them out as a pair last fall. A full trailer and the fact that she isn't halter broke may have slowed us down but their quality sure didn't. This guy is chalk full of red meat and muscle like most Resource sons. His dam has one of the nicest udders you will find in any pasture; with nice short teats and square placement.

A Muchmore son we really admire for his overall balance and style. Very clean made through that front end yet explosive from the rear. He has an abundance of muscle shape and spring of rib over that top. His mother is again a Bando daughter which we just can't say enough about. They are simply the right kind. Sound, fertile, efficient and offer lots of longevity. He will be one that will make a mark on your program for a very long time. His maternal brother was a high seller to Atlasta Angus last year and a maternal sister is the dam to lot 423E as well.

Another solid Muchmore son that we just can't say enough about. They come out shaped right, long and lean and develop into thick, long sided, heavy muscled individuals. We recently sold his maternal sister to Macnab Angus in the Form and Function Sale as one of the lead off bred heifers. We calved her out for Larry and man is she a beauty, may be having a bit of seller's remorse on her.

One of the younger calves in the sale out of the old 503T cow that has left us a lot of descendants in our herd. She would be the great grand dam to Trigg's 327D show heifer also. Combined with the consistent herdsire, Bulldoze 296B, made for a great calf. He is moderate in his frame and smooth made but has ample shape and style.

The youngest Angus bull in the sale. He may be a little younger but has lots of shape, muscle and growth to him. Don't overlook him due to his age. He is developing into a very useful breeding piece.

For more information, to view our catalogue online or to watch videos of the bulls, please visit our website:

Welcome

FROM
**WJ SIMMENTALS
& BIG JOHNSON
CHAROLAIS**

OUR PROGRAM

We farm on the original Johnson homestead that was settled in 1906. Our son Wyatt is the fifth generation on this farm. Our land base is around 2500 acres of grain, pasture and hay, plus we use the community pasture in CFB Wainright. Around 2007 Wyatt decided to take his 4-H money and purchase some Simmental cows and heifers. Bernice and I decided to jump on board and purchase some as well, thus the creation of WJ Simmentals. The foundations of our herd came from XXX Farms, Campbell Simmentals, Siam Farms and Ginalta Farms. Our Charolais herd also started with bred heifers from XXX Farms. Over the years we've had a small backgrounder program of around 300 head in the winter. In the spring we would buy heifers and sell them as breds in the fall, thus giving us lots of experience with many different aspects of the cattle industry.

Dear Friends

Hi and welcome to the 5th annual Built Right Bull Sale. Once again I would like to thank Kurt, Becky and family for working with us again to put on this sale. They are bringing one heck of a set of Angus bulls to town this year! I would also like to thank everyone along the line that have helped us in some form or another from clipping to pictures, processing and harvest etc, without all your help this sale wouldn't be possible. The biggest thanks goes to my wife to Bernice. Her countless hours spent outside with our cow herd and her love for animals is truly something to be admired. I couldn't do it without her.

This year we hired a nutritionist and are feeding our bulls with a balanced TMR ration specifically designed by Mark Schwengler of Raven Feed Consulting to grow and develop our bulls. We stand behind what we sell so if you're not happy we're not happy. Please feel free to stop by for a tour and refreshment anytime.

To all of our repeat customers, thank you for your continued support, we really appreciate it! To all our new customers we thank you for choosing to buy a bull from us! To everyone else thanks for taking the time to look through the catalog or for stopping by and touring the bull pens.

We selected Bartender out of Jaydawn Farms bull sale on the recommendation from Mark Shologan. We don't typically buy bulls sight unseen but time could not get us up there and having known Mark for years we trusted his opinion. We were hoping for a bull to complement Encore and use on our Encore females. When Jason showed up at our farm and he walked off the trailer, we more than excited about what we had done. Bartender breeds true to himself also adding some power and a touch of frame to his calves, but not comprising calving ease. The combination of WinMans Lanza and Jaydawns flush cow JDF Fairytail is a dynamite combination and I must congratulate Jason on his wisdom for putting that combination together.

We were fortunate enough to find Encore in 2014 at Farm Fair (thanks to Kurt). Soon as we saw him, we knew that he was the bull we needed! Encore has won almost every show he has entered. He was champion at Fort Worth, Denver, Olds, Agribition, Farm Fair, and a supreme finalist at Agribition and Farm Fair where he missed winning the truck by a couple points! Encore is backed by maybe the strongest cow family in the Charolais breed right now. His combination of calving ease and performance makes us able to breed him to our heifers successfully, but yet his calves have plenty of performance!

We found Chuckwagon on a farm tour at Springside Farms the fall of 2015. When we saw him and found out he was going to be sold at the Alberta Charolais Select that December, we knew we needed to try and buy him. As the day turned out we were not able to buy him but after the sale and talking to McKeary's, they agreed to sell us a semen interest on him. We felt he was going to compliment Encore very well. With this his first calf crop we couldn't be happier. Chuckwagon calves very well, his calves are vigorous and have lots of hair.

Calling Card is an Encore son we raised. He was a standout from birth and never slowed down. he sold in our 2016 sale for \$25,000 to R&R farms of Loughheed Ab. We really wanted to incorporate him into our program so after the sale Jeff graciously let us buy an interest back in him. Boy are we thankful we did, his calves come small but grow and exhibit all the same qualities that we love about Calling Card.

Where do I start with this guy! We can't say enough about him. His females are very good. Absolutely perfect udders and tiny little teats, they are easy keepers and excellent moms and extremely fancy. His bulls possess his same style with ample muscle and lots of hair with excellent temperaments. We are super excited with the future of our black herd with females of this quality entering our program.

Macho Man is one of our senior Polled Fullblood Herd Sires. We selected him out of Rendezvous 2014 bull sale. He is a polled MEAT MACHINE! He seems to be breeding true to himself. His first females are now milking here and they seem to be very well uddered and just good honest cows.

We purchased Total Value in 2016 from Robb Farms. I really like the dark red pigment he possesses, as well as his depth spring of rib and natural muscling. All these traits are hard to find in a polled Fullblood bull, thus making him their high selling Fullblood bull that spring. He breeds very true and his calves are easy to pick out in the bull pen. We are very happy on the job he is doing for us thus far.

POLLED. Rangeland Derby has lived up to his name being the first one to a 1000 pounds and the heaviest one at yearling. This Chuckwagon son is very good, he is strong boned, heavy muscled, long, deep, and coming into the world with only a 99 pound birth weight. He is the kind that will leave you those heavy weight tan steers that top the market.

POLLED TWIN. Mr Python comes from a cow we purchased at the Working Girls Sale from Gerrard Cattle Co. We first saw this Evetta daughter at Farm Fair and at that point we decided to try and own her. Well a few rupees later she was in the trailer and on our way home with this guy and his sister on board. He is easy to look at and easy to get along with. Plenty of long hair with a touch of curl but he is still going to make them good tan calves. His momma is heading into our donor program watch for her progeny in future sales.

POLLED. This middle of March bull is the only son in this year's sale from SOS Top Gun. If you like big time performance bulls take a good look here. His mother is a full sister to the \$75,000 Gerrard Pastor.

Last year just days before our bull sale our little community was struck with the loss an entire family of four as well as a young man in his early 20s in a head on vehicle accident just outside of Amisk. Seeing how much tragedies affect our local volunteer fire and rescue we felt there was a need to give thanks for everything they do to keep our community safe.

We decided to auction off a chance to win a purebred heifer from our operation in memory of Ryley Spears and Tim, Michelle, Nicole and Shawn Carson. One of the greatest things about living in a small community is how people come together in times of need and comfort. This auction exceeded our wildest dreams and we raised in excess of \$19,000 for the West End Fire and Rescue in memory of those we lost. They have used the funds to purchase some much needed safety equipment to help keep our volunteers safe.

I would like to take this moment to send a huge THANK YOU out to everyone that supported this raffle we cannot thank you all enough. The winner of the heifer was Raymond Small of Small Ranches from Czar, Ab.

Byron, Bernice and Wyatt

HOMO POLLED/ HETRO BLACK. Here is a real special one. Everlast is a top quality herd sire prospect sired by the \$165,000 WFL WESTCOTT and BLACKSAND SADIE 4Z. We purchased him in a pregnant recip cow at Sim Power in 2016. His recipient mother was a little shy on milk thus reflecting in his weaning weight but has exploded on feed with an average daily gain of 4.62lbs/day. We are retaining the right to 100 straws of semen for in herd use to be drawn at your convenience and our expense.

HETERO POLLED NON DILUTER FULL FLECKVIEH. Pro-Choice is a sale feature out of the \$60,000 Anchor D Raptor and PHS Your Choice AP 54Y. We feel this guy has herd bull potential. Your Choice is a polled Laramie cow that we purchased from Prospect Hills dispersal as our top pick. She exhibits a beautiful square udder with perfectly placed tiny teats and a dark red hair coat. We flushed her to Raptor and this is the only bull but he is a good one. All of his full sisters are keepers in the replacement pen. Take the time to analyze this guy as I feel he is hard to fault.

HETERO POLLED/DILUTER FREE. Velocity is a true sale feature and herd bull prospect. He is an end of February calf that just impresses me more every day. When I look at him the word stud comes to mind. He is so deep and soggy with a good quarter that goes way down into his twist. His sire is LRX Total Value who is a \$26,000 bull we bought from Robb farms as their high selling Fullblood in 2016. Velocity is the natural calf of our donor Cow PHS YOUR CHOICE AP 54Y. This cow is going to make a big impact in our herd with many daughters coming on stream. Her flawless udder seems to be passing on to her daughters so look for this guy to make some exceptional females. Finding polled Fullblood bulls of this quality is rare, don't pass this one up.

SCURS. This guy is a nice bull off of a new herd bull for us Krypton. Krypton combines the great bloodlines of General Lee, Wheatland Stout, and LRX Cheyenne. We purchased him as a cleanup bull but he has turned into a great young sire so look for his presence more in future sales. Hero is worth a second look sale day.

POLLED. Taylor Made is a real eye catcher, his big hip and dark red hair grabs your attention as soon as you enter the pen. This gentle giant comes from BEE Berri who is an Anchor D Viper daughter that we purchased from Beechnoir Bros at Fleck Equation a few years back for \$17,000. She is an exceptional young cow with a great future here.

POLLED. This Macho Man is another pen favorite. Thick, deep, lots of muscle and dark red describes this guy's best features. Macho Man breeds very consistent for us and his first females milking look very promising.

POLLED. A little lighter colored Macho Man son that has plenty of good about him. He has a little more frame than what's typical of Macho Man. His dam is a granddaughter of MFI Wistler that we bought from Beechnoir Bros as a heifer calf in their inaugural bull sale.

HORNED. One of the younger bulls in the sale. He is out of our Granite bull who exemplifies longevity and performance. Genetically Legacy Stone is off of the beautiful Braddock cow Siebelle Fanny 14X who we purchased from Prospect Hills. Check out his weaning and yearling EPDs.

POLLED. We don't have many straight red bulls in this year's sale but this one is a good one. He is one solid tank of a Bolt son that is very hard muscled. His maternal sister sold to Virginia Ranch this past December in our Camrose Classic female sale.

POLLED. Murphy's Law is a Macho son that exhibits ample natural muscling. He is really soft made and I am sure he will also find some friends. We don't have many red purebreds this year but the ones we do have I feel are darn good.
