# CRAIG ANGUS

On behalf of Craig Angus welcome to the 28th Top Cut Bull Sale.

Our purebred and commercial herd is managed the same. Herd bulls are turned out July 1 for 60 days. The past few years with lack of rain and cost of feed it has become very important to cull any female that is not producing. The first winter the bull calves are kept with our steers and fed for an average daily gain of 2 pounds per day. They go to grass the first part of May until October when they are brought back home and wintered in a 20 acre field until sale day. At no point in their development have they ever been fed high levels of grain to achieve "target weight" that looks good in a catalog but are detrimental in the longevity of the bull. I see no point in risking a bull's future for a few extra pounds on sale day if he can't make it through the breeding season without breaking down.

All bulls will be semen tested by Creekside Veterinary Service and have received their first two shots of the footrot vaccine and will just need their booster shot before turn out.

If you have any questions feel free to call or stop in and have a look at the bulls. They will be at home until 25th of March.

Please consider this your invitation to join us on March 27th.

Best regards,

Jason & Tanya Craig

Jim & Shirley Craig

## Meet our Bullseye team.

Keeping your cattle healthy and profitable with the right nutrition means a great deal to us.

Why? Because our passion is to help farmers feed people. Our team is committed to providing a specialized, full farm approach that optimizes all aspects of your cattle operation, so you and your family can continue to feed people for the next 100 years.

We are a Western Canadian, family-owned company that caters to purebred, commercial, and backgrounding segments with the following line of nutritional services:

- Forage Analysis
- Ration Balancing
- Custom Formulation

To learn more about our team and our full farm approach to beef nutrition, visit [bullseyefeeds.ca](http://bullseyefeeds.ca).

For inquiries, call one of our highly-trained beef consultants today.

Helping Farmers Feed People

# FORBES ANGUS

Welcome to the 2020 edition of the Top Cut Bull Sale. It is with much anticipation that we are bringing this bunch to town. There are many feature and top end bulls in our consignment. We have groups of half and three-quarter brothers to compare and select from.

My program is based on raising these bulls at a balanced growth rate. During the first winter, they are fed at modest gains, so our 365 day weights are most comparable in herd. As yearlings they mature naturally on grass until October. At this time they are started gradually on a ration developed by Cargill for growing bulls. Long yearlings are fed this ration at 1% of body weight mixed with dry hay.

The purebred and commercial cow herd here at the ranch endure some dramatic environments. It is very important that our cows can maintain their condition efficiently. Genetics that are functional in terms of hair coat, disposition, and feet. Birth weights that are below or equal to the breed average. Calving issues are not acceptable. We have recorded performances on the purebreds for over 20 years. If an animal doesn't produce in our conditions, they don't stay, and underachieving bloodlines are discontinued.

My standard of quality is a continuous process of analysis and research. If you have any questions about the bulls please don't hesitate to contact me. With Stacey's help this year's pen of bulls has really come together. I will be putting up a number of sale lot photos on my Facebook account for further inspection. I look forward to seeing you sale day.

Colin Forbes

I purchased Crossfire in 2018 at the Six Mile sale. He stood out to me as a calving ease sire. His moderate birth weight was complemented with enough performance to still produce pounds. He has a very subtle temperament. His offspring are all off first calf heifers, and they are an impressive bunch!

SIRE - BURNETT COMPLETE 21C

Outstanding eye appeal and temperament. A consistent bull that has tremendous structure, well-muscled, easy-calving, and easy-keeping. I have retained many heifers for my purebred operation. They are feminine and fancy. This sire had the ability to stamp, enhance, and deliver on expectations.

# BEAR CREEK ANGUS

Directions to ranch: 4 miles south of Piapot  
and 1½ miles west

The past three years have been hard on the feed supply, but these tougher years just further instill in us that Black Angus cattle are the ones that can get us through the tough years.

There are many tools at one's disposal in selecting your next breeding genetics: performance data, EPD's, genetic testing, carcass data; but for myself nothing beats the process of culling. In a world of efficiency, I focus on cattle that will walk soundly the duration of their lives, milk and breed without any maintenance. This leads to fewer cull cows, requiring fewer heifer calves retained, maximizing calf production.

When the structure, udder quality, and fertility is taken care of: I breed for length of body, eye appealing angus character, including an angus head which promotes calving ease, and naturally developing muscle definition. I don't expect my bulls to develop on a duck's breakfast (a drink of water and a look around) but they should muscle up and carry weight with a moderate amount of feed intake.

Beef cattle have been compared to pork and poultry, but one aspect will always vary, our environment. It changes what type of cattle work where and on what inputs. Our cattle are raised on ranch conditions and developed slowly to ensure longevity. We solely make our living raising cattle, commercial and purebred, and our cattle work for us because we need them to. And I believe they can work for you too.

Visits before the sale to view the bulls, cows, and herdsires are very welcome. Our website has pictures of the cows and herdsires. If you have any questions please contact us at:

Home:(306)558-0011

Chad's Cell:(306)662-7060

Website: [www.bearcreekangus.ca](http://www.bearcreekangus.ca)

Hopefully we will see you at the sale!

**Bulls Weaned  
October 11, 2018**

SIRE - EASTONDALE JACKSON 63'15

Jackson is impressive. Starting with large, good feet, legs with a little extra bone to them and natural thickness with an attractive angus head. His bulls are sure to please, they check all the boxes, but even more so do his heifers; they are incredibly consistent with a stamp to them. The first crop of heifers calved last year and their udder development is second to none. Aside from that, he's an outcross pedigree that does not sacrifice quality in any shape or form. Right now, Jackson and Stoney are our flagship herdsires. I don't believe we can ask for much more than these two sires do, and we are very fortunate to own them.

LOT 50 - Maternal  
Brother BEAR CREEK  
JACKSON 796E

Last year my bulls in the catalogue started with a maternal brother that went to Drowning Ford. He's also had maternal brothers sell to Dale Easton, Jess Parsonage, and Jay Stokke. There's a lot of breeding potential in this bull, with Jackson on the top side and 796W on the bottom side. Designated as an elite/ premier damn since 2018, she was a good footed, good-uddered cow that always raised one near the top of the pen regardless of what sire was used on her. Definite herd sire prospect.

LOT 51 - BEAR CREEK JACKPOT 56F

Here's another herd sire prospect. His damn raised thirteen calves until the age of fifteen. Designated as an elite/premier damn she really embodied the ideal angus cow. At fifteen years of age, her feet and udder were still perfect and she spent her last summer at the 76 grazing co-op maintaining good condition and bringing home a whopping bull calf. Maternal brothers have went to Travis Armstrong, Hal Topham, and Brett Bock with five daughters retained in herd. She's the grandmother of 107F and 44F who are both in the sale. Make sure you check this bull out, he's a real jackpot.

LOT 57 - Maternal Brother BEAR CREEK JACKSON 44E

Designated Elite/Premier dam, this cow has done a great job raising bulls. Maternal brothers have went to Drowning Ford Grazing Co-op, Triple L Ranch Ltd., and Les Sloan. From one of our most prolific cow families, this bull's grandmother raised 56F. A lot of solid breeding potential in 44F.

Here's a big performance bull with a big top, big hip, and lots of hair. His mother is an excellent Main Event daughter that's designated elite/premier after having only four calves. This is true beef bull without sacrificing functionality.

We had high hopes when we purchased 'Stoney', and he's exceeded all of them. His heifers are flat out amazing, the bull calves are the most consistent that we've raised. If you're looking for thick, hairy cattle to add spring of rib, and stick some meat on while doing it with moderate birth weights then Stoney sons are the bulls you need. It is amazing how theses bulls weigh up with their thickness and length. They are angus cattle through and through.

Definite herd sire prospect. Probably the best Stoney son I've raised. He's long, stylish, full of meat and moves like a cat. His mother was a gorgeous 26T cow with a tremendous length of spine and wide hips. The type of cow we would want every herd sire to have as his mother. His grandmother raised the 56F bull and I think it's a testament to the maternal strength in the lavender lady cow family. His pedigree isn't new, but it's a proven genetic combination that can be measured by the quality calves he will leave you. Don't overlook this herd sire on sale day.

From the grandmother of 104F, 21F is a solid made Jackson son. I think the performance and consistency of this cow family speaks for itself. 21W is a good-footed, tight-uddered cow that has raised a bunch of solid females for me.

Here's a consistent genetic package. This is the third full brother in a row that stood right near the top of the pen. Last year's full brother went to Perring Ranching 1990 Ltd. If you could stand all three together, they would be peas in a pod. The dam is a great cow, always raises a good one and has the angus appeal that everyone wants in the mother of a herd sire. She's also the grandmother to 70F in the sale. Make sure to check this bull out.

Don't worry about this bull's birthweight, his calves will pop out easy. Once you see how long and wide topped this bull is, you'll understand where the birthweight came from, but you will not sacrifice calving ease. He comes from a solid upward daughter who unfortunately came up open.

# HAWKEYE RANCHING COMPANY LTD.

Welcome once again to this years edition of the sale. We would like to thank the fellow contributors for once again allowing us to be part of this sale.

We are proud of our consignments this year. Buy with confidence as we develop them with their futures in mind. We pail feed them a bull developer grain ration and free choice grass hay. The grain is fed at about 1.1% of their body weight, which is actually less than the suggested amount. By doing this we are confident that they will go out to their new homes and get the job done. As always we stand behind our products and look forward to answering any of your questions. Feel free to stop in any time before the sale to appraise them at your convenience.

Leif, Melissa, Emma, Kolt & Manni Brost

The mother to these bulls was a favourite around here. She was a solid deep cow with tremendous feet and udder. Absolutely problem free and threw low birthweights and good performance. Some of our favourite young cows are her daughters and granddaughters.

Just a March bull here and youngest of the brothers but possibly our favourite. The Renown daughters are known to be tremendous and being out of 851T these bulls will produce daughters that are as solid as they come.

LOT 78 - HE 3439 RENOWN 122G

LOT 79 - HE 3439 RENOWN 4G

Lots of muscle in this guy! Hard to beat his dams production record as well. She raised 16 calves in her 16 years raising a set of twins by herself one of those years. She always cycled early and caught to the AI first time every year we had her. A couple of sons working at One Dog Ranch. Great feet and sound udder was another of her top features.

A top calving ease prospect that was a heifers first try. Out of the top Barbara cow family. Again tremendous length and attractiveness. His mom looks like she will be one of our top young cows combining 2 of our donor cows.

REF - S A V SENSATION 5615

The 650,000 high selling bull of the entire angus breed in 2016. He delivers calving ease with outstanding phenotype and his daughters have the look to be outstanding females. This should come as no surprise as he is out of the legendary 4136 cow who has produced \$10 million worth of progeny sales. His sires dam is also the second top producing dam in the SAV program with \$3.7 million of direct progeny sales. Needless to say his pedigree is absolutely stacked!!!

REF - YOUNG DALE XCALIBER 21A

We were searching for a really good footed sound proven walking bull a couple years ago when we found 21A. He probably had as much heel as any angus bull I have seen and had a tremendous amount of length and hair. He definitely passed these features on to his calves. His daughters are just calving here at our place this year and are making really good cows.

LOT 87 - HE 21A XCALIBER 13G

Stamped like his sire this guy has a lot of length and hair. His mom is a really good footed cow with a nice udder and a pleasure to look at.

A big performance bull here. Unfortunately, he sells as unregistered as we don't know who his mother's sire is just that he is a purebred angus bull. She has raised big high performance bulls in the past as well.

Another 21A son that is long as a freight train. His mother is a full sister to Quantified and a current donor dam. This guy was her natural calf.

A top son of our 56U donor and Density. He has a lot of maternal value but still has a ton of muscle shape. His full sister 125C, is a top donor for us.

A big growthy bull out of our pick of the cows at the Stryker dispersal. She had our high seller a couple years ago to Carmichael Colony. Full brother working at Stuber's.

Thicker more moderate bull here. His dam is an excellent daughter of Final Answer that is definitely the right kind.

## To All Our New and Repeat Customers Who Supported us in 2019!

★ ★ ★ ★ ★ ★ ★ ★ ★ ★

**TERMS OF SALE:** The terms of the sale are cash or cheque, made payable in Canadian funds immediately after the sale. The right of ownership shall not pass from seller to buyer until settlement is made. As soon as the animal is sold it becomes the responsibility of the purchaser.

**BREEDING GUARANTEE:** All cattle are sound and sell with a responsible breeder guarantee of satisfaction. In the event any bull 14 months of age or over fails to prove a breeder after being used on cows known to be breeders, within six months of the sale date, may be returned to the seller at the buyers expense. The seller reserves the privilege of trying to prove that animal a breeder. Full settlement and satisfaction of all claims is the option of the seller (whether return of the purchase price or replacement of the animal with one of equal value.) Any animal returned must be free of disease and in good health.

**CATTLE INSPECTION:** All carry permanent identity tags corresponding to the sale lot numbers. All shall be available for inspection prior to the sale.

**ANNOUNCEMENTS:** All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to any announcements.

**DISPUTES:** In the case of disputes bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The Auctioneer's decision in such matters is final.

**LIABILITIES:** All people who attend the sale do so at their own risk. The owners, Management and Sale Staff assume no liability, legal or otherwise, for property loss or any accidents that may occur on or about the premises.

**CERTIFICATE OF REGISTRY:** A certificate of registry duly transferred will be Furnished to the buyer by the breeder for each registered animal after settlement has been made.
