 NEW BUYER'S CONVENIENCE AND OUR EXPENSE.**

WELCOME

Welcome to HBH Angus Farms Cattleman's Connection Bull Sale for 2020. A full year under my belt this year working at HBH, what a learning experience it has been. I feel much more comfortable putting the catalogue together, getting to know more people in the Angus business, learning pedigrees and getting to know the cow herd sure helps.

Once again, I am very impressed with the cowherd that has been built here. Most cows tracing back to the great Brookmore herd gave this herd the foundation it needed to promote great performance cattle with calving ease in mind. This makes the bull pen very impressive each year as great cows make great bulls!!!

The bulls have been developed on a totally new ration. We have changed the feeding program to promote more longevity and structural soundness in the bulls. They are on a complete TMR ration with adequate roughage and mineral to produce bulls that have muscle that is bred in, not fed on! I really like how the bulls look and we get lots of comments on how fresh the bulls look!

We had a busy fall this year, heading to Brandon Ag Ex and Agribition and what a great experience that was. Thanks to everyone that helped out at these shows, it is amazing how many people are needed to make it all happen.

An exciting new change for HBH this fall will be our First Annual Heifer Sale on December 22 at Heartland, Virden. Approximately 50 bred Angus heifers will sell. We will be joining forces with Northern Light Simmentals, which is my own family farm, to bring 30 Simmental bred females. We feel this will create an opportunity for our customers to source both Angus and Simmental genetics in one spot. Plus, will make things much easier for myself and family, having both sales joined together.

Bid with confidence on these bulls. I think we have a great mix of calving ease bulls along with the great performance bulls this herd has been built on. We will keep the bulls at the farm and deliver them to you when it works for both parties. If you have any questions or need help picking out your bull, give myself or Darcy a call, we would be happy to talk with you!

FROM THE DESK AT TBAR...

Welcome to the annual production sale of the HBH Angus herd. This large cowherd offers some of the most sought-after genetics in the province and also in one of the larger bull sales in all of Manitoba.

The HBH bull battery is responsible for a fine set of yearling bulls that have been very carefully selected for multiple traits. Including the AI sired cattle, as well, the strict culling process done here by Neil Carson and crew insures only the best will do. The HBH cattle are known for performance and extra frame with abundance of muscle and thick tops. While doing the math, with number cows in the cowherd and the 60 some bulls on offer, equals only the top 30% of the bull calves make it to the bull sale. That is certainly the definition of quality and strength.

The open heifers that are available come in a representation of each sire being used at HBH. The lead off heifer is quite special being a feature of the spring run. Many of times I have witnessed the HBH cows on grass outside Rivers, Manitoba and I can be the first to tell you they are an excellent set. These heifers will become the same.

As always, please contact us if you need any information. If you are wanting to view the bulls prior, Neil Carson and all the HBH staff are very welcoming and we encourage you to do business with them. So please join us in Brandon for some great hospitality and fantastic Angus cattle.

For HBH,

BEN WRIGHT

The bulls at HBH have been developed on a TMR ration with a mix of corn silage, oat silage, hay and a bull pellet. The pellet was formulated with chelated mineral for optimum reproductive performance. We have included enough fiber in the TMR to keep rumen function, feet and legs healthy. We have also balanced energy and protein for maximum growth and muscle deposition. With the protein source coming from the pellet and energy primarily from the silages, intake and digestion is very consistent making for certain longevity.

- Amy Peters

HBH Herd Health 2019-20

Vaccination Program

The HBH breeding herd is on a modified live program for BVD and IBR. These vaccines are given pre-breeding in the spring of the year. Proper vaccination for these two common viruses reduces the risk of reproductive losses in the cow herd as well as protecting against the odds of having calves born with persistent BVD infections. Persistently infected calves can have drastic effects on overall herd health through the constant shedding of BVD virus which can be carried on through the life of the animal.

The bulls and heifers are vaccinated at birth/boosted prior to pasture turn out and again in the fall against the common respiratory infections including BVD and IBR which also gives them their primary reproductive protection against these viruses. Blackleg vaccination occurs prior to pasture turnout and is also boosted at weaning. The heifers and the bulls are again boosted prior to sale for BVD and IBR, the same as the breeding herd. A booster for blackleg is also administered at a year of age.

All animals are treated with an ivermectin pour on in the fall for lice and internal parasites.

Bull Infertility Evaluation (Virden Animal Hospital)

Bulls are assessed for conformation, examined internally and externally for abnormal development of sexual organs, scrotal measured and semen is collected and examined for normal concentration, motility and morphology. Breeding behaviour to ensure adequate libido and proper penetration needs to be assessed by the owner on pasture particularly for virgin bulls. Having your own herd veterinarian evaluate newly purchased bulls is also encouraged.

One of four scores is given to the bulls.

1. Satisfactory: Bulls are conformationally sound, meet minimal scrotal measurement requirements for age, and meet minimal semen requirement for concentration, motility and morphology.
2. Deferred: Bulls are conformationally sound, meet minimal scrotal measurement requirements for age, but semen production does not meet minimum requirements and bull is under 16 months of age. Just a maturity issue.
3. Questionable: All satisfactory requirements are met but bull may be lame or have abnormalities such as penile warts or a severe frenulum that needs to be rechecked at a later date.
4. Unsatisfactory: Does not meet minimum requirements for scrotal measurement, does not meet semen requirements and is over 16 months or severe conformational issues.

Normal Expectations for Yearling Bulls

12 months old – 45% will score Satisfactory on evaluation (55% deferred)

14 months old – 75% will score Satisfactory on evaluation (25% deferred)

16 months old – most will score Satisfactory on evaluation (rest unsatisfactory)

The above numbers were taken from the third edition of Bull Breeding Soundness (2013) Albert Barth Western College of Veterinary Medicine – Theriogenology

It is biologically normal to have deferred bulls when dealing with animals that are under 16 months of age. Producers need to consider when your turn out date and age of bull (if deferred) to determine if it is likely to be the bull for your program. Remember well over 90% of deferred bulls will reach maturity by the time they are 16 months.

TERMS & CONDITIONS

TERMS:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

BIDDING:

Each animal will sell to the highest bidder...no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

ANNOUNCEMENTS...

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

CERTIFICATE OF REGISTRATION:

Each animal will carry papers issued by the Canadian Angus Association, unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH:

All animals in the sale have met all necessary health requirements.

GUARANTEE:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

LIABILITIES:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any obligations to collect or enforce collection of any monies between parties and any legal action that may, in extreme cases, be taken must be between buyer and seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility of any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

INSURANCE:

We strongly recommend that insurance is purchased for full value.

ERRORS:

All announcements at sale time, written or oral, supersede any written material in the catalogue.

U.S. BUYERS:

We will announce the exchange rate on sale day and all veterinary export costs will be covered by HBH Angus Farms.

SEMEN

We retain the right to draw in-herd use semen on any bull in the sale at the new buyer's convenience and our expense.

TRUCKING:

HBH Angus Farms will deliver bulls free of charge within 750 miles of Brandon, MB.

SIGHT UNSEEN PURCHASE PLAN:

If you are unable to attend sale day, you may call or send bids to the consignors or any member of the sales management team. Those who are interested in this plan are urged to contact anyone of the consignors to discuss your bull requirements and determine a budget. Every effort will be made to buy you the right bull or bulls, at the right price to make you a repeat customer. If for any reason you are not satisfied with any of the cattle you purchased on order, you are under no obligation to accept them.

WINTERING POLICY:

Wintering of bulls is free until April 15, 2019. We ask purchasers to state their intentions for wintering at the time of settlement. We strongly encourage you to insure your bulls under this policy.

CATTLEMAN'S CONNECTION BULL WARRANTY:

Cattleman's Connection guarantees to sell you a bull that is structurally sound, a bull that has passed a semen test and a breeding soundness evaluation by a licensed veterinarian. Should any bull fail to be a satisfactory breeder - unable to physically service a cow or heifer - he will be replaced with a bull of equal value. Should this not be possible, an adjustment will be made to reflect the value of the bull in question, or a credit will be given towards the purchase of another bull.

IN SHORT, WE GUARANTEE TO PROVIDE YOU WITH A SOUND, BREEDING BULL.

We, however, will not provide replacement or adjustment for physical injury or mismanagement. Bearing this in mind, we stress the importance of insurance on your bull. At no time shall the seller's liability exceed the purchase price of the bull. Should you have a problem with your bull, call us right away. We will work with you to make sure you are satisfied with your Cattleman's Connection bull.

**HBH Angus Farms uses Canadian Angus
Performance Program whole herd reporting.**
