

Hollinger

Land and Cattle

8th *Annual Bull & Female Sale*
With Guest Nu Horizon Angus

Tuesday, March 24, 2020 - 1:00 PM
At the Farm, Neudorf, SK

Welcome to the Hollinger Land & Cattle Bull & Female Sale

It is my pleasure to welcome you to our 8th Annual Bull and Female Sale. At this time I would like to send out a sincere thank you on behalf of our entire family, to all of you, our past, present, and future customers. Without all of you we would not be to this point today, anxiously anticipating our 8th Annual Bull Sale. We are humbled by all of the support we have had over the past seven years.

This year for 2020 we have assembled a strong, uniform, sound group of bulls that are bred with our customer's needs in mind. There are various new sire groups as well as proven ones, both AI and natural service, that we feel offer both calving ease as well as performance-oriented options, that you can take home and feel confident your needs will be met.

The female portion of our sale this year will consist of an outstanding set of commercial open replacement heifers that have been assembled by our customers that you can be darn sure will be well worth the drive to come see. They consistently bring us some of their very best to showcase each year. If you have any questions regarding these heifers don't hesitate to contact myself or any of the producers directly and we will be happy to answer any questions you might have.

It's again a pleasure to be working with our guest consignors, Kieran, Deb and Kodie Doetzel, of Nu-Horizon Angus. They have brought forth an outstanding group of red bulls that will be well worth your time to come analyze on sale day.

In closing, I would again like to invite everyone to join us on Tuesday, March 24th, to our new heated sale facility. Coffee will be on and lunch is served at 11:30. If you have any questions regarding the sale cattle, please don't hesitate to contact myself or any of the sales team at T Bar C and DLMS, we will be happy to help in any way we can. We look forward to visiting with you in the coming days and wish you all a safe and successful calving season.

Thank You,
Chad

From the desk at T Bar C...

Welcome to the 8th Annual Hollinger Land and Cattle Bull and Female Sale, March 24th at the ranch, Neudorf, Saskatchewan. This annual event has been the source of high-quality sires for the purebred sector and to the added value sires running in the commercial pastures of Western Canada.

The Hollingers had a great fall show season topped off by a very successful female sale in December. This reflects the quality of their breeding and the strength of a large, powerful cowherd. This great group of bulls are rugged, high in performance with very acceptable birth weights and come complete with lots of testicles and hair. Their high maternal values are usually taken for granted. We must remember that half of a bull's progeny will be female and if you are retaining replacements, make sure the bulls you select are high in maternal values.

Again, this year, Nu-Horizon Angus, Kieran, Deb and Kodie Doetzel, bring their top cut of Red Angus to the sale. These bulls are full of body dimension and have the birth weights that will allow you to run them in either pasture.

The Angus influenced females being offered are high quality, replacement females and ideal for anyone starting or adding new blood into their programs.

Stop by either operation prior to the sale for a preview or give Chad, Trevor, Josh or Kieran a call if you require decisions on which bull(s) will suit your breeding intentions.

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar team or myself, we will help you in a professional manner.

The lead off bull for our 2020 sale is none other than a son of the now deceased, \$50,000 Leading Edge, a bull we selected out of the Wheatland Bull Sale in 2018. 461G is flawless in his design, he is big boned, big footed, big topped, long bodied, deep ribbed and has plenty of extension through his front one third. His dam, 260A, has been an exceptional female for us having, a sale feature bull in the last three bull sales as well as a daughter that sold through the Power and Perfection Sale to Nu-Horizon Angus for \$10,000. She is a great uddered, heavy milking, big volume female that consistently hits it out of the park.

If you are looking for a bull with exceptional maternal genetics, 460G is your man. His dam and granddam are excellent females with superb udders and phenotype. We all know what Density has done in the Angus world, producing females that are highly sought after. Leading Edge x Density x GQ might be one of the most interesting pedigrees you'll come across this spring. Don't miss out!

BIRTH WEIGHT & CALVING EASE

University studies in Wyoming and data from Montana and Colorado lend credence to the following conclusions:

1. The birth weight itself influences calving ease by 65%.
2. The female has 60-70% influence on birth weight of her calf.
3. The bull has 30-40% influence on birth weight of his progeny.
4. Pelvic measurement and angle as well as the shape of the calf have 35-40% influence on calving ease.
5. Length of gestation greatly affects birth weight. A fetus can gain over one pound per day in the last days of gestation.
6. Weather and temperature the last 30 days affect the length of gestation.
7. Size and maturity of the cow influence calving ease.

Most commercial producers do not take birth weights. Guessing is as inaccurate as driving with a broken speedometer – what's thought to be 55 mph may in fact be 65 or 70 mph, and what's thought to be 70-80 lb. may actually be 80-90 lb. Remember, everything is relevant. Increased growth, frame and performance will increase BW. A longer-bodied calf will weigh more. If a calf is expected to have genetics for growth, it will display this prior to birth as well as after. As a rule of thumb, it takes a calf weighing 85 lb. at birth to finish at 1200-1250 lb. A cow should easily give birth to a calf weighing 8% of her own body weight. Thus a 1200 lb. cow should give birth to a 96 lb. calf with ease.

Continued selection for light birth weights will ultimately reduce the mature sizes and performance of your cattle.

This bull may be one of the most interesting we've ever had the pleasure to raise here at HLC. He offers calving ease with excellent performance and maternal excellence. He has length, thickness and unmatched eye appeal. His dam is a female owned in partnership with Nu-Horizon Angus. Kodie found her in the Hoffman Ranches 2017 Female Sale down in Nebraska. That fall, shown alongside her dam, the pair was selected Grand Champion Female at CWA 2017, she was an instant barn favourite and created quite a buzz. She was also crowned Champion Female at the Regina Spring Steer and Heifer Show 2018 where she was shown by Kodie Doetzel. Recommended for heifers.

Heavy Metal 5093 was a sire that certainly made his mark on our breeding program. He produced sound, functional cattle that were big volumed and sound structured. 536G is a true testament to the type of cattle his sire produced, and possibly one of the greatest breeding achievements sired by Heavy Metal. He is massive, with tons of volume and dimension in an easy fleshing, sound package. His dam is a heavy milking Sitz Upward 307R descendant that is ideal in terms of frame size and fleshing ability.

Hello Fellow Cattleman,

Firstly, we would like to thank our bidders and buyers from last year's sale having trust in our program. This will be our second year offering **RED ANGUS** bulls in conjunction with the Hollinger Land and Cattle Bull Sale.

We are excited about the twelve bulls we have consigned to this sale. Whether you are looking for a heifer, cow or a bull that can work both ways, there is a bull to cover your needs in this sale.

We have been very progressive in selecting AI sires for strong maternal traits with performance as well. Our walking bulls are selected for correctness, easy fleshing and sound feet and legs with maternal traits.

We are very proud of this offering and develop our bulls to be functional within your program with longevity and soundness. You can bid with confidence and we stand behind our product.

Again, thank you Chad and Trevor for giving us the opportunity to be a part of your sale.

Feel free to give Kieran or Kodie a call if you would like to discuss the offering or come by to view them at our farm in advance before the sale; or contact the T Bar C team.

Open House March 14, 2020 at the farm to view the Bulls Prior to the sale!

Sincerely,

Kieran, Kodie & Deb

Kill Switch was the 2015 National Western Champion bull. He sires big bodied, structurally sound cattle that work well in both the show ring and the pasture. All three bulls on offer are structurally correct and are muscle patterned the same as they all go back to progeny from our Red U-2 Mama Boy 110A who packed performance with calving ease. These sons should get a second look because they are real world cattle that should fit the needs of both purebred and commercial sides of the industry. This past fall we sold a Kill Switch daughter for \$8,000 to Jeff Fraser and she was admired by many. **3 Sons Sell.**

His sire, Red U-2 Foreigner, was ranked fifth by the Canadian Angus Association for progeny count. These Format bulls are built to raise calves that will tip the scales. Format was our selection a couple years from the well-known U-2 program for \$13,000. We selected Format because he is big topped, bold ribbed and stout hipped. What made him extra special for us is that he could combine this added shape and dimension with a sound, functional build. If you're looking for a bull packed full of red meat, these Format sons are where it's at. His first-year progeny exceeded our expectations with consistency and great muscle pattern. **2 Sons Sell.**

Testimonial

We have been using easy calving red and black Nu Horizon bulls exclusively for the last 8 years. They have good temperament, excellent feet, and longevity. Deep bodied, wide backed calves have given us superior weaning weights. Calving is a breeze with replacement heifers that are good mothers and have beautiful udders. With quality like this, why shop anywhere else!

Ahan & Janet Namoth - Cupar, SK

9007 has many breed greats with both black and red in his pedigree like Kodiak 5R, New Trend, Pasquale and Hi Ho. Some of our best cows are off of Red Kodiak, as they are good milking, easy fleshing females that are big ribbed and sound structured. If you're wanting to increase the quality of your heifer pen, 9007 is the right option for you. Longevity is on this dam's side as her great granddam, TK 730T, is still in our herd. **Heifer Bull.**

LOT 50

Testimonial

If you are looking for bulls to take your program to the next level please give Nu-Horizon some serious consideration. We have purchased many bulls from them over the last decade which have gone on to have a major impact on the overall quality of our cow herd. Their focus on cattle with functionality and longevity, as well as having bulls with performance numbers, carcass values and breed epd's give the bull buyer a wealth of information at their fingertips. The Doetzel family are extremely passionate and knowledgeable about what they do and what their cattle can do for you! Talk to them about your next Angus seed stock purchase, you'll be glad you did...

A sample of females on offer

Terms & Conditions

Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Certificate of Registration:

Each animal will carry papers issued by the Canadian Angus Association, unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Pedigree Estimates

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

Health:

All animals in the sale have met all necessary health requirements.

Guarantee:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

Liabilities:

All persons attend the sale at their own risk. The sellers, facility owner, auctioneer and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

Delivery:

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

Phone, Mail, Wire Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Insurance:

Agents will be in attendance to insure your purchases. We strongly recommend that insurance is purchased for full value.

Errors:

All announcements at sale time, written or oral, supersede any written material in the catalogue.

Thank you to all of our Bull & Female customers over the past few years.

We truly appreciate your support!
