

## Reference Sires

### S A V Renown

S A V Renown is a well-known sire who has produced great bulls and cows. We flushed Royal Pride Dolly 46P to him and are impressed with the offspring. Mel Sisson has told us more than once that 46P is a no miss kind of cow.

### S A V International 2020

We purchased embryos from Family Ties Angus sired by S A V International 2020. We have two bulls for sale from the mating of Family Ties Krug Girl and this outstanding S A V bull.

### HLC Unforgiven 966E

Our walking bull HLC Unforgiven 966E is a son of Sankey's Justified. He has proven himself to be very safe on heifers and his calves have excellent vigor at birth. He is a red gene carrier (on the dams side), Ee, and is somewhat unique in that he may be one of the few known red gene carriers with Justified in his pedigree. He also sells as we have too many of his daughters retained in our herd. All offspring for sale have been color tested.

# Welcome...

We are excited to offer this set of Angus bulls for sale. We have been in cattle for many years but recently moved from a commercial herd to building a registered Angus herd. Melissa loves to show and promote the cattle and she is building her own herd of Red Angus cattle. We have exhibited at the Lloydminster Stockade Round-Up and Agribition. Our foundation females include animals from the Royal Angus dispersal and Six Mile Ranch. We are using Embryo Transfer and AI to expand the genetics of our herd.

We have on offer eight yearling Black Angus bulls and two yearling Red Angus bulls. We also have one two-year-old Black Angus bull and one three-year-old Black Angus bull.

We are enrolled in the CAA Performance Program. All bulls are DNA verified and will have carcass ultrasound done the beginning of March. All bulls will be guaranteed under the terms and conditions of the Canadian Angus Association rules. All bulls will be semen tested before delivery. Deposit of \$1,000.00 is required to hold a bull and the remainder is due May 1st. Bulls can be delivered starting April 1st and will be kept free of charge until May 1st.

Bulls are raised on free choice roughage - hay, straw and oat green feed with supplemental complete pellet ration. They are vaccinated with Tas Vax 8 and Vista Once and will be vaccinated for foot rot.

Bulls are listed by sire group and color. We have three red carrier bulls for sale.

**Bull prices range from \$3,000.00 to \$5,000.00**

## S A V International Bulls

**Honeybrook International 64G**

## Red Angus Bulls

The sires of both these calves are calving ease sires. Melissa purchased semen from Pugh Farms - Red GJP Thor 255A. He combines performance with calving ease. Melissa purchased Red McGowan's Sasha 20A bred to Red QLC Quantock Cat 2467C from Family Ties Angus.
