# Welcome to the sale...

Welcome to our 2020 Prime Plus Bull Sale - our 3rd Annual. We feel we are again bringing a very strong offering of bulls. Many of the consignors will be bringing some older two-year-old and fall bulls to add to the diversity of our offering.

In many areas, 2019 was a difficult year, with feed shortages and tough weather. We continue to optimistically look forward to 2020 with all the projections for a bounce back year in the cattle industry. You will want to be well positioned for this by purchasing some of the top genetics available here today. We will also be bringing a group of replacement heifers to the sale that have always been well received. Calvert's Angus Hereford crosses are tremendous heifers. The Manns are bringing a good group of fancy black baldy heifers that are probably as good a group as they have ever brought. I will be bringing a small group of straight bred Herefords and a pair of fancy black baldies.

Due to the uncertainty of the Coronavirus, we will be using DLMS. I would encourage you to view the bulls on the farms, or view the videos. We hope to have a full lunch available, but if we are restricted in our numbers it may not be possible. We will try to keep you informed

We hope to see you at the sale. If you have any questions, please feel free to contact any of the consignors.

- Doug Troop, *Doug Troop Hereford Ranch*

## From the Desk at T Bar...

Welcome to the Annual Prime Plus Bull and Female Sale, April 15th at the Beautiful Plains Ag Complex, Neepawa, Manitoba. This representation of Manitoba's progressive breeders offers a British influence event with Polled Hereford and Black Angus breeds selling.

This year in addition to the great group of yearlings, they have added some late born two-year-olds and a few fall born prospects. These twos and falls can cover more cows, more ground and add uniformity into your calf crop.

The Batho blacks are all twos; stout and designed for the big pastures. The Hereford yearlings are the best offered...bulls with lots of hair, top, body depth and temperament. With four Hereford breeders presenting this great set of bulls, there is diversity in phenotype and genetics for all types of programs and budgets.

The commercial industry needs more Hereford influence to add in the traits the breed is noted for but cannot be produced on paper. No doubt that baldies, buckskins and blazes have one common denominator – Hereford. We all know how sought after these F1s are in the marketplace.

For 2020, they have upped the number of Hereford influenced females due to customer demand. Here's your opportunity to add these uniform replacements into your breeding programs.

Stop by any of these breeder's farms and preview the bulls prior the sale or give them a call...they love to talk cows.

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar team or myself, we will help you in a professional manner.

Here's a bull off our nicely uddered 102Y cow that hasn't missed yet. He's smooth made yet stout enough when you get analyzing him further. We kept his maternal brother back last year to walk our heifer pastures and are pleased with the results. Heifer Approved.
