BRANDING THE BEST BULL SALE

Welcome to this year's annual event on the ranch. I would say the offering is a culmination of a year's work, but it is so much more than that. Every year when we look at the sale offering, we are reminded about the generations of cattle that lead to this day, as well as the loyal customer base it takes to support our passion. Thank you for the continued support!

We run these cows like most commercial operations. The purebred cow herd runs with our commercial herd. We expect them to work, to travel and help us drive our costs down. Fertility, fleshing ability, structure, and maternal abilities are paramount. The bull calves that come from this program are expected to carry on these same traits. The cow herd is left for summer grazing in early June and will be grazing right up to calving.

The Red Angus division this year looks incredible. We used some new but proven herd bulls as well as a couple of mainstay sires that have proven themselves through their bulls as well as milking daughters. We think you will agree that's it's one impressive group

The Black Angus group is down a bit in numbers this year but not in quality. Performance bulls that make it happen on a moderate frame, as well as sleep easy calving sires.

The calves were weaned on October 2nd. Weaning weights represent what their dam was capable of, we don't creep feed. Their diet this winter was formulated for a 2.5 lb ADG. Rumen and liver function are top of mind when developing these bulls. Every summer I am reminded about how much these bulls have to travel, and they can't do it being over fleshed. On sale day, we do it a bit differently. The bulls will be housed on hard ground for you to evaluate feet and legs. No sense in hiding things.

There is a small offering of two-year-olds again. They aren't leftovers. There are some top tier herdbulls in this group. They summered on grass and were brought in at the end of November. Their ability to flesh up on a low energy diet is impressive.

We stand behind the bulls 100%. We plan on doing this for a lifetime and the only way we can do that is with customer satisfaction. If you're not happy, we aren't happy.

So with that, we invite you to the sale. If you cannot make it sale day, we would love to see you ahead of time. Sale day can be a bit hectic and it gives us more time to show you the pen as well as the cows behind them. We look forward to seeing you.

Please note:

The winter of 2019 was brutal, and we had 120 calves born in the longest, coldest stretch we have experienced. The intakes on the cows skyrocketed for a long period and, in turn, moved our birth weights up 5-10 lbs. No sense in adjusting numbers, we are just trying to be transparent. You might question a few of our calving ease ratings, but we have a wealth of history with the cow herd and know which ones will calve easily.

Sincerely,

The Stuarts

FROM THE DESK AT T BAR...

Welcome to "Branding the Best" Annual Angus Bull Sale, April 16th, at Stuart Cattle Station, Edam, Saskatchewan. 2020 marks their 29th year of supplying the great Northwest with high quality sires.

"Cull the bad ones. Propagate the good ones. Stay out of the way and be relentless, do it for a lifetime and you just might have something". (David Stuart)

This statement was the headline for Branding the Best's sale advertisement. I have never heard it summed up so well...it reflects a true cattleman and our industry; this motto has been used by the Stuart Family for many years. One needs to visit the ranch in the summer months and see the cow herd on grass, then you would realize why over eighty percent of the bulls go to repeat customers. Predictable bulls stem from great cow herds.

The 2020 lineup offers a top set of red and black prospects which will add value to your program. As a feature, the first sons of Duralta 9C Onward 161E, will sell. These bulls are slowly developed after weaning and put on aTMR ration for growth without sacrificing soundness. This top set of bulls will suit any type of program or budget.

Stop by the ranch any time prior the sale to preview the bulls or give Mitch a call to discuss their bulls and your requirements for breeding season.

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar team or myself, we will help you in a professional manner.

DURALTA 32T ERICA 85Y

The lead off, high selling bull from Duralta Farms in 2018. We hadn't seen a calf with this type of performance on such a moderate frame score. He really was a man amongst boys in his contemporary group. His first calf crop looks incredible. The sons are high performing yet thick based and moderate framed with strong Angus character and a great foot. If you can come to look at his daughters, please do, they are the right kind. I've learned to not get ahead of ourselves on a new herd bull, but it's hard not to here. He walked with 50 purebred cows last summer, and I think he might have gained weight doing it. **BW average on sons - 92 lbs. BW average on heifers - 84 lbs.**

One of the highlights of the Eastondale sale in 2018. Laramie is a dual purpose sire, giving us the capability to use him on cows or heifers. His dam is our type of female maintaining herself on a moderate frame with a great udder. We have a small sample size this year but expect a larger offering from him next year.

 RED BECKTON ROSE F791 EM

From the heart of the Beckton program in Wyoming and proven at McArthur Livestock and Venno Ranches in Hanna, we jumped at the chance to use this proven sire. He calved easily on the heifers, and when used on some mature cows, he maintained a high level of performance, shape and early maturity. He turned a lot of theories about low input cattle not having the ability to gain, as his sire group ranked #1 on feed this year. Help yourself to a group of sons that we feel have a lot to offer.

 RED LAURON MISS DYNA 91W 1506451
 RED LAURON MISS DYNA 86S

Our pick of the Lauron pen of bulls in 2016. Cassanova sons are noted for being exceptionally long spined, smooth fronted and very docile. The birth weights on his calves are a stitch bigger, but when you look at the length of them it makes sense. Sons have sold for use in both cow and heifer programs with great success.

BW average on sons - 88 lbs. BW average on females - 80 lbs.

It is hard to walk away from something that works. Breakout sons continue to offer calving ease attributes, but not having that typical flat pattern that can come with it. His daughters are forming the nucleus of our young females, offering up consistently moderate, wedge-shaped females that flesh up easily. Breakout will go down as one of the best herd bulls we have ever used, having over 150 registered calves with the CAA. Your opportunity to purchase a son is short, as we retired him after breeding season this past summer.

BW average on sons - 84 lbs. BW average on females - 81 lbs.

We believe in using our own genetics if the right fit comes along and we are glad we incorporated Dominic into our program. The cow family behind him consistently sticks around past 10 years of age, highlighting his strengths of stayability, fertility, structural soundness, and production. We have used him on mature cows the past two years, but he keeps birth weight in line yet stamps his calves with muscle definition, early maturity, extra scrotal and hair. Dominic is a negative BW EPD sire, but you wouldn't know it looking at the offering, they have muscle and growth. Some of our feature calves last year were out of him and we expect the same again this year.

BW average on sons - 82 lbs. BW average on females - 80 lbs.

After seeing many progeny from him that we appreciated, we purchased a package of semen on Ghost Rider. We used him on some smaller framed females that needed some punch and he delivered. They carry a solid muscle pattern, flashy style, and performance.

TERMS AND CONDITIONS

TERMS: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Each animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION: Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES: Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

GUARANTEE: Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

LIABILITIES: All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co.(2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any obligations to collect or enforce collection of any monies between parties and any legal action that may, in extreme cases, be taken must be between buyer and seller. T Bar C Cattle Co.(2013) Ltd. assumes no responsibility of any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

PHONE, MAIL & WIRE BIDS: Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE: We strongly recommend that insurance is purchased for full value.

ERRORS: All announcements at sale time, written or oral, supercede any written material in the catalogue.

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers as well as Canadian Cattle Identification Tags.
