

25<sup>th</sup> Annual  
*Tools Of The Trade*

**Angus Bull & Female Sale**

Wednesday, March 18, 2020 - 1:00 PM

Held at the Ranch near Dundurn, SK

**WILBAR**  
CATTLE CO.

## Welcome from Wilbar Cattle Co.

*Bryan, Tracey, Kylie & Owen*

Welcome to our 25th Annual Tools of the Trade Bull & Female Sale! It is difficult to put into words how much we appreciate your support of our program, whether you are a many time repeat customer or are receiving our catalogue for the first time. Thank you!

Our cow herd and sale offering are built with our customers in mind. We work every day and plan every breeding season to bring you sound, attractive, functional and profitable additions to your operations. Every year, we apply even stricter culling criteria to elevate our cow herd, and as a result, the bulls and heifers on offer today.

2019 was a bearcat of a year. After the most miserable, cold, windy spring, the continued dry conditions forced us to make the difficult decision to disperse our commercial cow herd. It was a tough day when we loaded those trucks. We sure missed our steer cheque in the fall, but our grass was much better for it. In an extra effort to protect our pastures and ensure the cattle were not in stressful conditions, we sent a large group of heifer calf pairs to graze in Northern Saskatchewan. Luckily none were eaten by wolves and everyone came home safe & sound!

We also know we weren't the only ones to face tough circumstances – if you weren't too dry in the spring, you were likely too wet in the fall. It seemed like everyone took it in the teeth at some point.

In spite of all of this, our industry remains as resilient as ever.

The quality of the offering this year is higher than ever. We are very pleased with what we consider the most consistent group we've ever had. The bulls are good footed, soft made, hairy, docile and sound. Their mothers are well made cows that can survive on a lot of straw (as we proved in spring 2019 as the feed pile ran out). We are proud of the cow herd behind these bulls – we work every day to build the best cow herd your bull can come from.

You'll notice new sires in each colour as well as some returning ones. Whether you need something for your heifers, young cows or mature cows, we feel there is high quality in every category.

And their sisters are no slouches either! If you want to add a heifer to your replacement pen right out of ours, here is your chance. The group of 10 purebred heifers are very good, backed by solid producing cows and could as easily joined our cow herd as be selected for the sale.

For the second year, the bulls have been developed on a ration of brown oats and silage with a protein supplement and mineral package to ensure proper growth and development. This ration promotes excellent hair coats, fertility & libido. The bulls are in groups of 30-35 in large pens that allow plenty of space on the bed pack, bunk space and exercise.

As always, the bulls are fertility tested, carcass evaluated, performance tested and sire verified. Our goal is to provide you the information you require to make the best selection to fit your needs.

The bulls, heifers and cow herd are available for viewing anytime and we welcome your visit. If you are unable to join us sale day, we invite you when it suits your schedule to go through the bulls and make your selections ahead of time. We or the sale staff would be happy to help you out sale day.

Please join us for coffee and viewing the sale offering in the morning. Lunch will be served at 11:30 am and the sale will begin at 1:00 pm.

Thank you for your interest in our program. We know there are a lot of bulls for sale and we appreciate you selecting, for the first time or the 25th time, a Wilbar bull.

Bryan, Tracey, Kylie & Owen

## From The Desk At T Bar

Welcome to the 2020 edition of the "Tools of the Trade" Angus Bull and Female Sale, at Wilbar Cattle Co., Dundurn, Saskatchewan on March 18th at the ranch. This 2020 event celebrates the 25th Anniversary of the sale, a great achievement for this pioneering family, established in 1963. They have lived and experienced the highs and lows in the livestock industry and have supplied bulls to the purebred and commercial sector, too numerous to tally.

In addition to the 25th Anniversary, Wilbar, along with their bull partner, Poplar Meadows, made history in the Angus breed. After capturing Grand Champion Bull with Conley South Point at the 2019 Canadian Western Agribition, they were awarded Grand Champion Bull at the National Western Stock Show in Denver, Colorado... the two largest shows in North America and a first in the Angus breed.

Constantly searching for new genetics, the folks at Wilbar add new bulls each year to their large herd bull battery. South Point is one of those bulls...this shows the foresight of Bryan and Tracey for the Wilbar program and the Angus breed. He is one of the reasons why they have such a powerful group of bulls and females to offer you in their 25th year. We are excited about the lineup on offer, black and red...rugged, deep bodied with lots of hair and performance. The heifers are sisters to the bulls, selected out of the various strong cow families.

Stop by the ranch any time prior the sale and preview the sale offering, (located conveniently east of Dundurn) or give Bryan or Tracey a call to discuss your breeding intentions and which bulls would fit your program and budget.

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar team or myself, we will help you in a professional manner.

*Raising Registered Angus Since 1963*

# A Life Well Lived

Jake Willms

February 18, 1925 - February 5, 2020

Most of all, Jake was a man of God with very strong faith and an unparalleled work ethic. He was a man who loved his wife and family above all else. I could probably stop there, and you would know what mattered most.

As a young man, Jake attended the Canadian Bible College in Regina where he obtained his degree in Theology. He went on to minister in three different churches, but the most important part of this whole time was him meeting his wife, Bernice Taylor of Edmonton, who would be his cornerstone and the matriarch of the family. After their brief tenure in the ministry, they decided to go back to the farm.

Jake would go on to become a pioneer of the Angus breed, but this was all a bit of an accident! His first choice was to buy a group of purebred Herefords – they were popular and easy to sell. But times were tough, and Jake's budget would not allow him to get the Herefords, so he settled for a group of nine Angus heifers. He persevered with this breed of cattle through many years of thick and thin – mostly thin.

Over the years, Jake served as president of both the Saskatchewan and Canadian Angus Associations. He was also very proud of his involvement in the Agriculture Development Corporation for the province of Saskatchewan. He travelled many places around the world promoting Saskatchewan agriculture. Jake became a very good marketer and developed sales for our cattle around the world – England, Czech Republic, Bulgaria and other parts of Eastern Europe. A highlight was selling a bull to the Queen Mother.

Our cattle operation was a great source of pride for Jake. The love of the Angus breed is a deep passion that we shared and is woven into the fabric of my family. Kylie and Owen have both shown 4-H heifers that trace back to some of the original purchases. We are immensely proud to be continuing the Wilbar herd that was started nearly 60 years ago. Jake is remembered and respected as a true pioneer for the most dominant breed of cattle in our industry.

Although Jake loved being in the pasture looking at the cattle, he realized the importance of the mixed farm as one often balanced the other. Jake loved the land but endured difficult years of drought and blowing land. He was one of the first farmers in the area to buy an air seeder, which changed everything. The successful grain operation continues under Dan, Jud, Tom and Tareq.

Jake believed in a hard work ethic and the value of a job well done. Those beliefs have been passed on to his grandkids and great grandkids.

Jake enjoyed reading and reciting poetry, music and debate of any kind. He loved playing his saxophone accompanied by Bernice on the organ. He also loved a good political debate and would always respect your opinion, no matter how wrong you were!

To say that Jake will be missed would be quite an understatement. He had such a profound impact on nearly everyone he came across. But for those of us lucky enough to be closest to him, he is part of who we are. He taught us to work hard, trust God, love our families and to be good if we can.

Rewind was our selection from the Brooking program a few years ago. He has certainly added the rib shape and base width we were expecting from him. He has also passed on attractive phenotype and presence to his sons and his daughters are exhibiting the strength of the cow family behind him. A daughter, Wilbar Pride 574F was a sale feature at the 2019 Keystone Classic selling for \$12,000 to Spring Creek Simmentals.

Enforce was Classic Livestock's selection from our 2017 sale at \$16,000. He is a product of our ET program so we were eager to use him ourselves. He is unsurpassed in terms of overall performance and foot structure. We used him to add bone, power and hair in both our black and red programs. Consider his sons to add the extra jam you want out of your cows, without compromising the maternal strength offered through his cow family.

- Sired by a cool made Commando son that sold for \$10,000 to Dwajo Angus
- The Commando cattle are easy fleshing with lots of shape
- The dam is a good uddered female purchased from the AW dispersal

- Countdown females are going to make tremendous cows, just like his dam
- Big ribbed with an elegant front end
- 5D boasts a weaning index of 117 on her first 2 calves and is well on her way to CAA Elite status

- Another powerful Countdown daughter, this time out of an awesome Challenger first calver
- The dam has as nice of an udder as you could design
- The granddam was our selection when Arda Farms offered pick of their replacement in Building the Legacy

- After getting not a single Countdown daughter in his first calf crop, we had a large number in year 2 and we'd have loved to keep them all but we're committed to offering quality replacements in our sale
- This heifer is sleek fronted but big bodied and broody
- Her granddam, 217X, is one of our favourite cows and donor dam

*Commercial Heifers*

On offer is our entire commercial open replacement heifer pen. These heifers are out of straight Angus or Red Angus cows. As a group of replacements, they are deep sided, sound and attractive with lots of hair. Maternally strong, they will make a great addition to your commercial herd. They are April and May born and will all be palpated prior to the sale. The heifers will be sold in pens of 5.

## Video Sale

All sale cattle will be videoed ahead of the sale. Videos will be available online at [www.wilbarcattle.com](http://www.wilbarcattle.com). All sale cattle will be penned immediately north of the sale barn and will be available for viewing prior to the sale.

## Terms

Payment due at the time of purchase. The right of property shall not pass until settlement has been made. All cattle sell under the standard terms and conditions of the Canadian Angus Association. All information in this catalogue is the most current available at press time. Any announcements made sale day supersede catalogue information.

Each animal becomes the risk of the purchaser at the point of sale.

Wilbar Cattle Co. reserves the right to collect semen on any bull for in-herd use only, at the seller's expense and buyer's convenience.

Scrotal circumference, ultrasound data and current weights will be available sale day.

All bulls will be semen tested and fully guaranteed. Bulls may remain at Wilbar Cattle Co. until May 1, 2020.

Bulls will be delivered to your yard or central points in Western Canada.

Wilbar Cattle will also provide assistance with trucking to Eastern Canada and the U.S.

All heifers will be palpated for breeding soundness.

Please make arrangements to pick up heifers before April 1, 2020.

## Liabilities

All persons attend the sale at their own risk. The sellers, facility owner and sale staff assume no liability, legal or otherwise for any accidents that occur.

## Pedigree Estimates

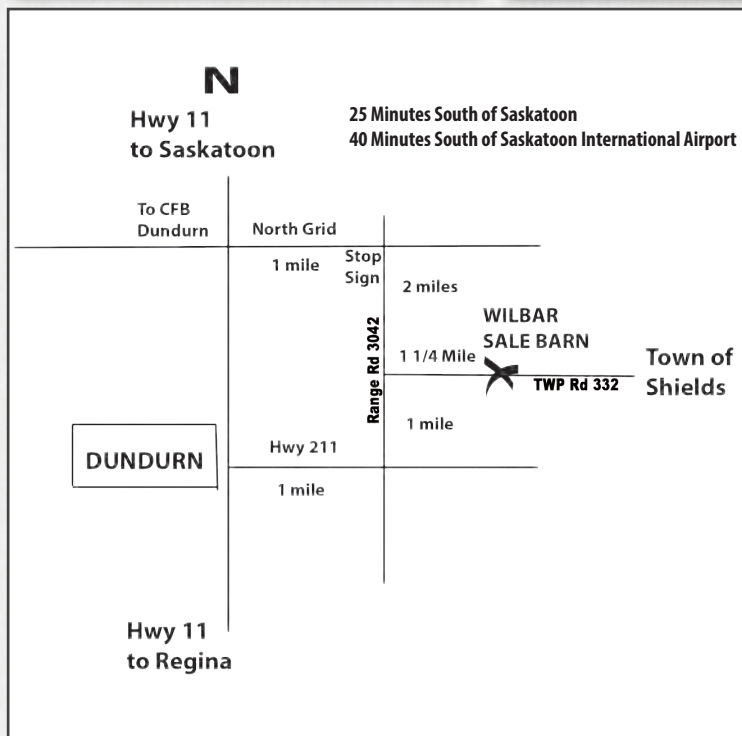

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

### Glossary

BW	Birth Weight
AWW	Adjusted Weaning Weight
AOD	Age Of Dam

### Calving Ease Scores (CES)

- ★★★ Recommended for use on heifers for little to no assistance on normal births
- ★★ Recommended for use on larger heifers for minimal assistance on normal births
- ★ Recommended for use on cows

### AVERAGE BLACK ANGUS EPDS

BW	WW	YW	MM	TM	CE	MCE
2.2	46	79	21	44	3.2	6.9

### AVERAGE RED ANGUS EPDS

BW	WW	YW	MM	TM	CE	MCE
