[www.jaymarandylivestock.com](http://www.jaymarandylivestock.com)

Our title for this year's Jaymarandy Livestock Online Angus Bull Sale is "Grow Where You Are Planted" and as such you will see our sale being a stand alone sale with a smaller offering, taking place on our farm and online. This is all new for us, but we continue to stand by the belief that quality always supersedes quantity. Along with that, we also believe that:

1. Cows should work for you, not the other way around.
2. Live calves pay bills so fertility and calving ease are vital.
3. Quality cattle will always bring a premium no matter what the industry is doing.
4. There is nothing more critical in your breeding decisions than the decision to invest in great cows.

We have invested in great cows to lead our program through direct purchases, embryo transfer of off farm pedigrees and embryo transfer of our own elite cows. What we have found is, no matter how hard you search, not every cow brought into the program has been a standout producer. Our goal is to produce top quality cattle and to do it consistently. The only way to do this is to cull the cattle that don't meet our standards to avoid wasting another producer's time in inferior production. It hurts at times but the industry does better for it.

This year's offering is one we are very proud of because it is strong on calving ease, fertility and maternal traits, yet deep in visual appeal with soundness and muscle shape at its core. It is consistent with many bulls tracing back to our foundation, the 'Grace' cow family. We have added some key additions that expand our bloodlines, from herd sires that are relevant in the industry but have ensured the breeding is consistent with our program goals. Whether you are looking for performance or calving ease, the maternal component will always be a guarantee.

Our largest group will be the Copenhagen Smile sons - a home raised embryo son of one of the greatest bulls in the Black Angus breed history, from a dam that is considered the most phenotypically ideal donor in the Bohrson Marketing arsenal.

Copenhagen Smile is a bull that is solidifying our programs consistency. We believe his sons are standout commercial bulls and his females are absolutely stunning beef cows and have garnered industry acceptance at a high caliber. A daughter, Jaymarandy Grace 4H was the selection of Beaman X6 Ranches from La Salle Colorado from the Pick of our 2020 heifers in the Premier and Guests Falls View Production Sale in December.

Another fall sale highlight was the sale of Jaymarandy Grace 901G through the Keystone Classic, again to Beaman X6 Ranches and partner Clinton Laflin from Kansas. The part we are very proud of is that both sides of her pedigree carry the Jaymarandy Livestock name.

We are growing continuously and we are growing into a global market right here at home. We want to be your commercial bull supplier and your production cow factory. We want you to invest in us, grow with us and allow us to be your program of choice. It is what we aspire to do daily.

You will see throughout the catalogue many pictures of our children. Owen is 5 and is a puzzler and really enjoys dinosaurs. Finn is 3 and enjoys every minute he can get outside on the tractor or in a cow pen. Corban is 2, and as the baby he is not fearful enough. He is often found wandering in the cow pen so we are glad our cows are curious and don't have docility issues. These guys are a handful on a daily basis and we feel blessed to be their parents. I look forward to when we can get them involved in the junior programs.

Please feel free to contact us prior to the sale for viewing of the bulls. We are having an open house with the sale, however, we will open up the pens to you any day you can make it to view. Please be our guest.

Sincerely,

*Mark and Elisabeth Angus*

## FROM THE DESK AT T BAR...

Welcome to the Jaymarandy Livestock Online Angus Bull sale, April 6 - 7, 2021 at the farm, Beausejour, Manitoba. Viewing is any day prior the sale with a horserace closeout on April 7 at 6:00 P.M. This new Angus event is penned "Grow where you are planted."

Over the past decade, Mark and Elisabeth Angus have put together an outstanding group of cows to base their program around. Several are donors headlined by the "Grace" cow family. For their premiere event, the numbers are small but the genetics elite. As you read through this catalogue, the Jaymarandy folks show you up front documentation on each bull and the influence of the mother. No doubt the "Copenhagen Smile" sons will be features and rightfully so.

What a wonderful group to choose from. Optimal in frame size, optimal in birth weight, these rugged, hairy sire prospects will fit all types of programs as they can add pounds at weaning and add the high maternal factor... you will want to retain every daughter for your herd replacements.

Plan to stop by the farm prior the sale and view the bulls and their mothers. Since Mark and Elisabeth both have off farm jobs, please call ahead for them to arrange meeting you for the tour. Feel free to give them a call anytime to discuss the bulls and those that will suit your breeding requirements.

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar team or myself, we will help you in a professional manner.

### SALE DAY PHONE NUMBERS:

Mark Angus  
Elisabeth Angus

204-281-5099  
204-230-7688

### CATTLE VIEWING:

As with any start from scratch operation, Elisabeth and I both work off farm jobs. We request that you call in advance for viewing. April 6th will serve as sale kick off and Open House with complementary food and beverages. Viewing of cattle prior to April 6-7 is available, welcomed and appreciated. With social distancing in place of course.

### DIRECTIONS:

2 miles South of Beausejour from the junction of Hwy 44 and Hwy 302 (Tim Hortons), 1/4 Mile West on Mile Rd 70N. Municipal Site 41127

### TERMS:

Terms of sale are cash or cheque. All cattle must be settled for with in seven (7) days of auction close out unless prior arrangements have been made. Cattle will not be released until satisfactory settlement has been received.

### AIR SERVICE:

Air service provided by all major carriers to Winnipeg Richardson International Airport. 45 minutes drive to Jaymarandy Livestock.

### GUARANTEE:

The sale offering is guaranteed to be fertile and reproductively sound. All bulls will sell having been semen and soundness evaluated by a representative of Beausejour Animal Hospital and sell in accordance with the terms and conditions outlined by the Canadian Angus Association.

*Beausejour Animal Hospital*

204-268-2177

### INTEREST AND POSSESSION:

Unless otherwise stated prior to sale start, Jaymarandy Livestock reserves the right to 50 units of owner's use semen on all bulls in the sale. If deemed necessary and if the semen is not collected prior to the sale Jaymarandy Livestock will collect the semen at the convenience of the new owner and at the expense of Jaymarandy Livestock.

### HEALTH:

All cattle sell under functional health and are vaccinated with Covexin Plus, Bovishield Gold and Fusoguard x2 for foot rot prevention pre-breeding season. All bulls will receive pre-breeding Vitamin A, D and E boosters.

### LIABILITY:

The Angus family and Jaymarandy Livestock assumes no responsibility or liability for accident or injuries that occur on the sale premises.

### DELIVERY:

Jaymarandy Livestock will work with the new owners to get your purchase(s) to you in a timely manner. Jaymarandy will provide delivery to central points (black top access sale facilities) of Western and Eastern Canada prior to May 1 for no cost to all purchases exceeding \$4,000 per head. This will be done at our convenience. After May 1 all cost of transport will be incurred by the purchaser.

#### Transport to the USA and Western Canada provided by:

*Rainy Creek Farms of Bentley Alberta* 403-877-0799

#### Transport to the USA and Eastern and Western Canada provided by:

*H.S. Knills Transport of Paris Ontario* 519-442-3106

*\*\*All bulls picked up sale day and the following week will receive an additional \$100.00 off their sale purchases\*\**

### AMERICAN PURCHASERS:

Jaymarandy Livestock will assist with delivery into a central location in North Dakota at no transport cost. All cost health/export papers is that of the purchaser. Jaymarandy Livestock will do all necessary testing at the farm prior to transport.

### **SIGHT UNSEEN PURCHASES:**

All bulls are pictured and will have sale videos done within 45 days of the sale to provide as updated as possible visual assessment available. All bulls will also be foot scored according to the Canadian Angus Association assessment photos. With all of this provided, if you require further assistance in your assessment of the bulls and cannot make it to the farm please call Mark in advance of the sale day and we can discuss your needs. The bulls will be as we discuss them, period. (Absentee bidding)

### **ABSENTEE BIDDING:**

Despite all the technology available, some folks just don't want that type of exposure. And I don't blame those that want to stay off the grid. If you want to participate in the auction and don't utilize internet then please contact Mark or any of the sales staff and we will handle your bids with integrity. Your money will be managed as if it is yours...well...because it is yours.

### **CALVING EASE SCORE:**

- \* Cows only
- \*\* Cows and big heifers
- \*\*\* Heifers

### **DAM'S DOCILITY AT CALVING SCORE OR DDAC:**

We have developed a dam's docility at calving as we pride ourselves on breeding bulls with highly maternal pedigrees and as such expect customers would want to understand what the potential replacements will be like to deal with as cows at calving time. Personally, I will cull a cow based solely on temperament regardless of how well she produces. Our children are often in the pen with cattle and the cows had better behave or the cow will be served at McDonalds.

- 1/5 - Poor demeanour and sells with calf in the fall.
- 2/5 - Best managed in a later calving interval and best managed out of barn.
- 3/5 - Cow is respectful but calf is best managed on its own.
- 4/5 - Regular handling of calf in presence of mother but aware of her.
- 5/5 - Regular handling of calf in presence of mother with no concern.

### **FOOT SCORE:**

Canadian Angus Association has outlined a set of parameters which collectively serve as the foot guidelines. Please find this at the back of the catalogue. Please utilize this tool with caution as it does not represent movement further up the kinetic chain into the pastern and hock and hip. It also DOES NOT serve as a soundness or length of service scale. We utilize it purely as an assessment tool not a marketing tool. It is solely utilized as a representation of our animals mechanical make up for full disclosure to our customers.

## **How to Participate in a FarmGate Timed Auction**

After you are at the FarmGate Timed Auction site click the LOGIN/REGISTRATION button.

### **First time FarmGate users:**

First time users will select the REGISTER button from this page. Fill out the registration form to signup for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. (please note due to some of the text notification features the FarmGate Time Auction Site requires a new account separate account from your DLMS Live sale site)

- After you create your FarmGate account you will receive a txt message with a pin code to verify your account.
- On your first log in to FarmGate Timed auctions we recommend you go to your profile and confirm your notifications are set to YES. This allows the site to send you text and/or email notifications when you are out bid and if there is activity on your favorite lots.

### **Returning FarmGate users:**

- If you have used Farm Gate Timed auctions in the past simply enter your user name and password to continue. After you have logged in you are able to browse the timed auctions on DLMS FarmGate Timed Auctions.

### **How to Bid in a Timed Auction**

Now that you are logged in and your account phone number / email is verified you are able to bid on an upcoming sale. Simply find the lot you are interested in bidding on. After you have found the lot there are 2 options for bidding on the lot.

- Place Next Bid - to place the next bid on the item, you see the amount in the first box, you simply click the "Place Bid" button and after you review the bid and agree to the terms and conditions your bid will be placed.
- Max Bid Amount - to place a max bid you put your max bid in the second box listed as "Max Bid" on the item, and then click the "Place Bid" button and after you review the bid and agree to the terms and conditions your bid will be placed as the next bid. With the Max Bid placed the computer will then keep you as the high bidder to the max amount you have placed. This can be a great feature if you are not able to give 100% attention to the sale close out and protect your interest so you do not miss out on any lots you want to purchase. The Max Bid amount is completely confidential from the seller during the sale process.

### **Example of How the Max Bid Works**

If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer

have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest. Please note that in some cases a lot value can change very quickly if 2 max bids are placed on the same lot competing against each other.

### **Watch List Feature**

If you have items in multiple auctions or only a few from the same auction that you want to watch with out having to scroll through the entire list you can add the lots to your watchlist. On each lot you will see the "eye" button beside the bid button, by clicking this "watchlist" Icon that item is added to your personal watchlist for easy viewing of just your favorite lots in this sale or on the entire site.

### **Sale Ending / Closeout**

Most FarmGate Timed Auction sales close racehorse style with extended bidding.

### **What is Racehorse Style Close?**

Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

### **How will Extended Bidding works?**

When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

### **Bidding Close & Follow-up**

After the clock has gone to "ENDED" and no bidding has occurred for 5 min the computer will declare the sale finished. Following the close typically within 24 hours of the sale close the sale consignor will contact all winning bidders to arrange payment, transfer of pedigrees and delivery/ Pick up of your lot. Or as the winning bidding you can contact the sale consignor / sale manager to confirm payment instructions.

Please make sure that your account info is up-to-date and correct if you are the winning bidder of a lot as this is how the billing is sent to Sale manager and/or Sale consignor.

Jaymarandy NC MRV Treasury 9H is a herd bull. Although he is a joint venture by myself and some great young American cattlemen I call great friends, he was created in our program from the always consistent Jaymarandy Grace 640D. Did I mention this bull is a herd bull? He has been all along. His big, powerful Limousin recip dam gave him slightly more birth weight than his flush brothers had but she gave him some equally powerful weaning performance. Post weaning he hasn't looked back. He is the highest weaning adjust bull with the second highest yearling adjust. He has excellent feet, has hair to spare and will be the kind that increase your bottom line. Not just big middled but he has the ability to flat out convert feed into beef. He excels at what every single one of them should. Last year's high selling bull to the Shepell family from Prime Ridge Stock Farms is a full sib to Treasury. One of our resident herd sires, Jaymarandy Lights and Sirens 911G is also a flush mate to Treasury. This is as consistent as it gets.

Jaymarandy High Country is a bigger framed bull with good performance and a sub 90 pound BW. He grew well as a natural calf out of one of our donor cows, Jaymarandy Grace 640D. He is bold and correct from his head to his heels. He is full of red meat and does so in as an ideal inverted wedge as there could possibly be. If his sire was not a staple here and his maternal sib was not seeing service here he would stay a member of our arsenal. When I look for bulls to add to our program I look for them to have the rear leg set up that this one has. He is legit perfect at the ground with a soft 45 degree pastern and works his way up with a 45 degree shoulder and hock. He is muscular, long made with ideal softness and his mother and second mother are the goods. These cows are serious about the cow business. If you are in the business with a visual assessment as your starting point then start here. The bonus is his incredibly well balanced numbers. Herd bull.

Here is a really complete bull made well to the ground from another of Justamere Maximum daughters. This is her first calf and she did a wonderful job. She is ideal in size and has the perfect udder for years and years of production. We began moving our breeding into the later fall to produce more mature bulls without having to winter them twice like a two year old bull would need to be. Which brings up fertility again. Early conception is a goal here at Jaymarandy and heifers calving at 21-23 months is considered a goal achieved. Come breeding time these extra age bulls will be a minimum of 16 months old and will be plenty big to perform as herd bulls. Great West has the added power of a herd bull and has herd bull testicle development. His sire, Brooking Firebrand is also highly regarded due to his extended pedigree of championship winning Annie K females and his very own ability to sire foot quality, testicle size and females of high acceptance.

Consistency, fertility, longevity in production are all excellent adjectives to describe the extended maternal pedigree of Gone Rogue. His grand mother gets is done annually. His mother puts a great foot on her calves and puts them together with balance and soundness. This year she was recognized highly by producing the record high selling female in the history of the longest running Angus cow sale in Manitoba history, The Keystone Klassic. Her daughter, Jaymarandy Grace 901G sold for \$27,500 to Beaman X6 Ranches of Colorado and Clinton Laflin of Kansas. Previously she put a son into the program of long time commercial cattle supporter of ours, Sliwarsky Ranching. Gone Rogue is a double digit calving ease bull with a top 5% CED and BW EPD with a 9 for CEM. GR is a heifer pen candidate that will leave you extra pounds to sell in the fall with the bonus of style and muscle shape.

Jaymarandy Long Cut is one of those bulls that has the extras. The extra good looks, the extra presence, the extra calving ease, the extra good mother, the extra maternal industry acceptance. One look at this guy's mother and grandmother would be enough to make you want him. He's a 3/4 sib in blood to Lot 4 and his mother has done so much good for us. Described by many as "an ideal Angus cow" her, natural as can be photo, says more than a 1000 words. She is moderate framed, big bodied, clean made in her front end and has a picture perfect udder. Her daughter that was purchased by MJT Cattle Company is the epitome of an Angus cow and from first contact with Tia Schram after purchasing her Copenhagen Smile daughter in last year's sale is that she is excited to see her in production and saddened by the fact she was not able to show her this year. Two commercial sons of 85B previously sold to Joel Bartel from Roblin, MB and another to Josh Johannson from Woodlands, MB. Both of these gentlemen are good young commercial producers. There is consistency in females going into purebred programs and sons going into strong commercial programs. Buy with confidence here. Calving ease, balance and great visual presence.

What can one say about a bull calf that is two times line bred to the highest income earning cow in the entire Angus breed in the entire world? That is right, he is line bred two times to 4136 who is a \$10 million USD cow in income and has had more sons grace the pages of AI catalogues than any other. His sire, S A V Rainfall came from the record smashing valued flush of Schaff's Angus Valley and has quickly become the go to bull when its heifer breeding time and with good reason. He gets the job done on heifers and doesn't knock the performance out of them. Take Jaymarandy Rainfall for instance: 64 lb BW to 608 lbs at weaning with an outstanding leap to 1300+ lbs for yearling. This guy hit feed and he filled out his incredibly long frame in no time. His mother has a show quality udder and is a big powerful cow that I really am pleased to have purchased. She is slightly larger framed than the majority of our cows at the same age but she is made so well and is really good footed. I feel she will be a pound maker in the future. She is from the North Perth Barbara cow family that has become very well known and very well respected in the recent past for their production and visual appraisal. Beautiful cows. This bull will give you the sleep you need when calving cows.

Jaymarandy Night Sweats is a bull that is easy to fall for. Long made with ideal foot and leg structure, excellent in his skull design with optimal visual value and big herd bull testicles. His sire has made such amazing females and maintained the right kind of udders on them and will see AI service in our program in the future. He produced really nice commercial and purebred bulls and his offspring fit really well into our Lim-Flex program. He never gave up an ounce of muscle and maintained the eye appeal and maternal focus. This is another bull we would love to add to our program but we cannot utilize them all. His mother is ideal in size, with an excellent udder and is an ET daughter of the great Coleman Charlo 0256 from the Young Dale Angus program. Her flush mate has entered our own embryo program and is a strong production cow also. Look to this bull to be the one you keep every single daughter from. If they are anything like the paternal sibs and anything like the maternal pedigree they will be great. That is essentially a given.

One thing you will find if you spend enough time with us is that we make demands that the udder quality on our cows be as close to ideal as possible. We want a flat bottom with a defined rear ligament for separation and teats that are an inch and a half in length and no more than an inch in diameter at the base. It is a hard task to accomplish but it is one we work towards every single breeding season. This description is exactly what this young powerhouse's mother has for an udder. That and she is ideal in size and shape also. He is line bred Pollyanna cow family and backed by the power bull, PA Powertool. He is moderate in his stature and thick, thick, thick. Every last bit of this guy is muscle. He is big in his middle, in his rib and his rear end. He is very visually appealing too.

Another Jaymarandy Freestyle son that traces back to one of the breed's greatest female makers, Leachman Right Time. His maternal grandsire is WMR Timeless 458 and he is a big powerful bull that raises big powerful calves. He presently still is placed in the top 1% of the breed for WW and YW and top 7% of REA and Carcass Wt while still being in the top 7% of heifer pregnancy. Sounds very versatile. The dam of Freestyle 14H is a big, long, and loose made cow with abundant hair and excellent feet. She is a performance oriented cow that offers power with a functional maternal crossover. Freestyle 14H has a pedigree with plenty of performance, an incredible amount of hair, depth of side and a powerful masculine front end.

The first time we have ever offered G-Man offspring in our sales and we couldn't be more happy with the two available. In fact we are so pleased he will be our go to herd bull until he heads back West to Severtson Land and Cattle. Just like his sire, Jaymarndy G-Man is deep in his profile, free and loose in his design and should be a strong fit to manage the heifer pen detail. His mother is an ideal sized Angus cow that is a very easy keeping cow that sold another of her sons to Dusty Ridge Stock Farms of Winkler, MB in our 2019 offering and a daughter now owned by Rhys Huber in Alberta which sold in last year's offering. In speaking with the Harder's it appears that they are well pleased with him. Rhys indicates the female will be a big building block for their purebred program also. 15H is a bull designed around balance whose maternal pedigree originated in the Van Dyke Angus program in Montana. If you don't know what their program is about I can tell you it is strictly operated on a 42 day calving window, is built around cow fertility and maternal make up. This would be a strong candidate for replacement females.

Wheat King is a pretty excellent way to round out a bull offering. He's the youngest one we have to sell and he is one of the best. He is long, soft made, docile, functional and has a herd bull front end and skull. He has been a pleasure to watch grow along side his mother. MF Erica came to us from a sale in Oklahoma after originating in the Marshall and Fenner program in Missouri. Again, she is a long bodied, larger framed female with a nice udder when in full lactation and is full of character and muscle. Her sire is a Denver champion that has seen extensive semen sales through Genex CRI and is one of their sexed semen bulls as his daughters are just that good. After seeing how she developed and the calf she was raising early on we utilized her for a flush cow this spring. Wheat King is another bull I would not blink before saying I would use him here in our program. Our program is smaller in size so the opportunity is yours to benefit from. He was our second highest weaning weight bull calf and was our #1 yearling weight bull and he has the EPD profile to back it up. Top 9% WW with top 15% YW and top 10% MM. He is a well rounded individual, appealing to view, is backed by a really strong first calving and now donor female and is very deserving of a long production career.

# Jaymarandy Gives Back!

*Brock Sigurdson*

## LEONARD ANGUS MEMORIAL

We started a "Give Back Program" in honour of my late father, Leonard Angus. What we started was a program where any junior that purchases from us would be put into a draw to receive one of two slots in a Kirk Steirwalt Fitting Clinic anywhere that is close and convenient for them at no cost to them. My dad found great joy in seeing his grandchildren develop in the cattle industry and went through great efforts to see that his family was able to enjoy the great experiences that the industry has available. My mother, Ruth Angus and my wife, Elisabeth and myself would like to acknowledge Brock Sigurdson of MacGregor Manitoba with one of these clinic slots in the fall of 2021.

## American Angus Association® FOOT SCORE GUIDELINES

### Foot Angle (5 is ideal)

### Claw Set (5 is ideal)

- Guidelines**
- 1** Animals must be scored prior to hoof trimming.
  - 2** When there is variation among an animal's feet, score the worst foot.
  - 3** Score yearling bulls and heifers
    - Bulls or heifers must be at least 320 days of age at scoring time
  - 4** Older females can be scored following guidelines used when collecting mature weights.  
(Note: Foot structure changes as animals age. Scores will be adjusted for age as part of the analysis. Scores should describe the animal as they are at the time of scoring, without consideration of age).
  - 5** Large groups of 18-month or 2-year-old bulls can also be submitted, if available.
