# BULL SALE

SATURDAY, FEBRUARY 9, 2019

---

2 PM • AT THE RANCH

**MT**

---

CATTLE CO. LTD.  
*Hereford & Angus*

---

D|L|M|S  
[www.dlms.ca](http://www.dlms.ca)

*Welcome...*

Our family extends a warm welcome to friends, neighbors and fellow cattlemen to our 25th Annual Bull Sale on the farm. Once again, we are selling the bulls by video with Chris Poley auctioneering and DLMS online.

We always look forward to talking about cattle and the business of producing beef as efficiently and profitably as possible. There are many varied methods and philosophies as to how to best achieve this. The one consistent thing we have found is that at the heart of every operation is a love of cows and family.

We are always thankful to our customers for giving our program a chance to work for them and for coming back year after year with solid support. 90% of our buyers are repeat customers and we truly believe this to be one of our biggest successes. We strive to be #1 on service and if there is anything that we can do to improve your experience as a customer, please don't hesitate to let us know.

In celebration of the 25th Sale Anniversary, as well as many other milestones this year, we will be having a live band at the social after the sale. Whether you are a buyer, a bidder or just come for a visit, you are important to us and we look forward to seeing you February 9th!

*We sincerely thank those who have supported our program along the way.*

*Mick & Debbie Trefiak  
Kurt & Shannon, Matthew, Ryan & Casey Trefiak  
Mark & Kristi & Kaden Laboucaine*

## **WE WELCOME YOU TO STOP TO VIEW THE CATTLE ANY TIME**

# About our Program

**O**n years like this when feed reserves are marginal, more than ever we recognize the importance of knowing there is a positive return for every dollar spent. At **MJT** we make every effort to ensure that there is value in your bull buying dollar, be it through our bull development program which ensures the most longevity possible, or our consistent emphasis on sensible birth weights to ensure live calves, minimal labour and high breed back percentages.

**Our cattle are raised with the basics in mind with a primary focus on the needs of the commercial cattleman.** Basics are what have made the Hereford and Angus breeds attractive for generations. We feel our commitment to this should help you, the rancher, produce predictable and profitable cattle using **MJT** genetics. We feel that having kept the basics of the cattle business at the forefront of our program is what has built both our herd and reputation. We won't compromise our principals to chase trends or for short term gain in our own pockets. We believe the most economically important traits for the cow/calf producer are still all about the fundamentals...fertility, longevity, structure, soundness, and fleshing ability.

**MJT** isn't in this for the short haul. We have been in the "Bull Business" for four generations and this is our 25th sale at home. The philosophy has evolved over the years and we feel that the cattle are continuing to improve and are now more consistent than ever. We believe good cattle can sell themselves and we try to offer a good selection of bulls that are affordable to the needs and budget of every rancher. We run the cow herd and the bulls like a commercial outfit, testing the do-ability, winter hardiness, fertility, udder quality and longevity under real world conditions. We know our cows can wean a respectable calf crop under almost any conditions. We strive for low input management, and our cow herd has proven it can graze nearly year round. In 2018, the mature Spring calving cow herd was fed mechanically for only 10 days. It has been our goal for a few years to only feed for a short period at calving and this year we were able to achieve something we only thought to be impossible 10 years ago.

**MJT** bulls are developed gently with their futures in mind. We expect that the bull you buy looks better on sale day than in the photo in the catalog and that he will look better the day we deliver him than the day you bought him. We just see this as normal development and will not overfeed to get them fat for the sale. We want you to be able to see what each animal has to offer under his hide, so you can pick the best fit for your cow herd. Gradual development in large pastures and big pen sizes ensures mobility, athleticism, and skeletal strength. All bulls are coming Two Year Olds; bulls that can cover more ground, breed more cows and maintain their stature better than a yearling bull.

**Bulls are fed with their futures in mind!**

**Bulls are on pasture for summer and fall grazing.**

**In winter bulls are fed haylage, a light whole oat ration and corn silage.**

**We don't use processed grain and protein supplement for sale animals.**

**All bulls must pass a breeding and soundness evaluation.**

We consciously make low use of AI breeding. Selecting a new herd bull is an intense process. We make many miles and believe that the homework on the dam, the related offspring and the actual bull himself are critical. The investment in genetics with this method is a few orders of magnitude greater than AI'ing. As we investigate and analyze each new breeding piece that we add we also find ourselves more and more looking back at our own yearling pen and cowherd to move our program forward. For 25 years we have selected for consistent birthweights, and focused on soundness and foot structure. We truly believe the females are the pillars of a herd, and our main focus is always building better females. Moving our main group to late spring calving has pushed us even further in our focus on udder quality.

So why not just AI? When we buy a live bull and walk him with our cows we get to see all the other traits that don't show up on a photo or a stat sheet. This allows us to be the first to know if any problems arise and allows us to cull accordingly. We hear much concern with foot and leg structure in today's cattle. As far as we can tell, the surest way to verify long term structure and breeding soundness is to walk our dams and sires and be very critical of anything that might develop. As a result, 0% of **MJT** sale bulls have had their feet trimmed. On sale day the pens will be nicely bedded but we always leave some open ground so that you can assess our emphasis on foot quality for yourself.

**We don't raise show cattle, we show cattle we raise.** We have often debated about the merits of showing cattle. We worry that there are times in the industry where it becomes tempting to compromise on the fundamentals in favor of competition. However, there are also many benefits it affords. First and foremost, it helps develop our kids. The learning and opportunities that our industry provides agricultural youth in the show environment is second to none. The relationships that the kids make will last far longer than any ribbons they win. We have discovered that the enthusiasm of the younger generations can take you further than you ever thought possible. Secondly, for our own development. When we get to the shows, it's a community unlike any other....graced with so many competitive yet thoughtful, caring, strong, fun and hardworking people. The exchange of ideas about what works and what doesn't can't help but make everyone involved a better stockman. Thirdly, it allows us a great opportunity to assess multiple genetics in an efficient manner. Kurt and Mick spend a lot of time through the barns looking for both positive and negative patterns in progeny, to assist us with our own genetic selection. Last, but not least, the cattle we show are cattle from our program and getting them in show condition allows us to demonstrate the results our customers can expect from our genetics when fed on a higher plane of nutrition. It re-enforces our confidence that our genetics have enough muscle, depth of body and quality to remain relevant in today's cattle industry. We hear from many customers, that show cattle don't work for them. **We have made a commitment to showcase the genetics we raise for our commercial buyers, and will not compromise on our fundamentals.**

**MJT** cattle are sold with 100% guarantee and we strive to be #1 on service. We know sometimes things go wrong with bulls and if you have trouble we want to be the first to know.

## SCHEDULE OF EVENTS...

8:30 AM ~ Coffee and donuts  
12:30 AM ~ Lunch  
2:00 PM ~ Sale  
3:30 PM ~ Social  
5:30 PM ~ Chili Supper

## SIGHT UNSEEN PURCHASE PLAN

If you are unable to attend the sale and wish representation, please call Mick or any of the above sales staff and we will gladly assist you. For the sight unseen purchases we guarantee satisfaction upon delivery.

## DELIVERY

MJT Cattle will rebate \$150/lot if taken home within 7 days of the sale. Will deliver bulls to central points in Western Canada and will assist with trucking to Eastern Canada and USA. Bulls sold for \$3000 or less must be picked up by the buyer.

## PAYMENT OPTIONS

We recognize it has been a challenging year. Please call Mick or Kurt if you would like to make alternate payment arrangements. Our traditional payment plan is: 1/3 down on sale day and a post dated cheque for July 1st, 2019.

## US SHIPMENTS

We will arrange all health testing and export papers required for shipment. Payment for export cattle must be 50% prior to testing, and the balance will be due prior to shipping. MJT will assist in arrangements for the cattle to be shipped to central points in the US. Cost is the responsibility of the buyer.

## VIDEO AUCTION

View the catalog and Videos of ALL bulls and females online at:

[www.MJT.ca](http://www.MJT.ca) • [www.dlms.ca](http://www.dlms.ca) • [www.buyagro.ca](http://www.buyagro.ca)

This will be a video sale with no animals entering the ring. All the sale cattle will be available for viewing prior to the sale, at the sale location. **Real Time Bidding will be available via the internet for our sale.** Live audio and video allow you to bid on the animals as if you were present at the sale.

## RIGHT TO SEMEN...

MJT reserves the right to collect semen on any bull sold through this sale. The semen collection will be at MJT's expense and the buyers convenience. Any semen collected will be for MJT Cattle Company's in herd use only.

WE OFFER A SIGHT UNSEEN GUARANTEE ON DELIVERY

## 25<sup>TH</sup> ANNIVERSARY AFTER SALE PARTY

As a thank you to all of our friends and customers, please join us after the sale for an evening of fun and entertainment with The Dirt Rich Band!

We will have a shuttle later in the evening to Wainwright and Vermilion for our guests safety and convenience.

## Directions to the Ranch...

14 miles east of **Wainwright** to Secondary Hwy. 894  
turn north 11-1/2 miles.

From **Vermilion**... go south on Hwy. 41 to Secondary Hwy. 614.  
Turn east and go approx. 13 miles to Secondary Hwy. 894.  
Turn north 2-3/4 miles.

From **Kitscoty**... go south on Secondary Road 897, cross Battle River and turn west on first road after the river Township 454.  
Go approx. 6 miles west and turn north on Secondary Hwy. 894  
(at a hog barn) and go 7-1/2 miles north.

From **Marsden, SK**... go west on Hwy. 14 and turn north on  
Secondary Hwy. 894. Go 11-1/2 miles north.

- 4) If you have bought an animal at ANY of the past 24 sales, and attend the 25th

**BRING YOUR ADDRESSED CATALOG OR FLYER TO ENTER FOR  
AN ADDITIONAL \$500 SALE CREDIT**

**ALL VIRGIN BULLS WITH NO FEET TRIMMED**

## CALVING EASE

We have several customers who take home our bulls for use on their first calvers. We made a system to help you when choosing your next heifer bull.

*This system is based on the following...*

1. BW in lbs.
2. Consistency of BW of sire
3. Consistency of BW of dam
4. Consistency of calving ease of both sire and dam.  
(eg. build of calf)

*The following is what we recommend...*

- ★ Recommended for cows only
- ★★ Recommended for cows or larger framed heifers that were not big at birth
- ★★★ Recommended for heifers

**Always keep in mind - 50% of your calf's BW relates back to his mother.**

Lincoln offspring are well marked, fully pigmented and have beautiful hair coats. His sons are heavy muscled and the daughters are feminine, fancy and perfect uddered. They have the capacity and rib that make them super mama cows! His progeny have done very well in the show ring and in the pasture for us. Lincoln is no stranger to the show ring himself. He was the Farmfair International Grand Champion Hereford bull in both 2013 and 2014. Mick judged him at Farmfair in 2013 and purchased him out of the stall from Flewellings right after. His daughters have done well for us in both in the pasture as well as the showing. MJT 495Y Cindy 105C was Champion Horned Hereford Female at Lloydminster Stockade Roundup in 2016 as a bred heifer, and again in 2017 with her calf at side. She was also Champion Senior Female at Canadian Western Agribition.

Mick found First Impression as a calf in 2015 at the Denver National Stock Show. He was a mid-April calf and at 9 months old, his natural muscling and early maturity were impressive. Seeing his mother sealed the deal for us! This pedigree is newer to Canada. First Impression's sire – Dameron First Impression – was the 2012 Denver Grand Champion Angus Bull. His progeny have been dominating shows across North America. With a loaded pedigree and the combination of calving ease and performance, MAF First Impression 4420 has the best of both worlds! With an 81 pound birth weight, early maturity and great carcass numbers, he is hard to overlook. His gentle disposition and ability for feed conversion make him a valuable herd bull in our program. His progeny have proven versatile, able to perform in our ranch program, as well as in the show ring. His daughters are foundation females in the making.

MJT ESSOTERIC CHIMES 254P

Act BW: 76 lbs.    WW: 830 lbs.    YW: 1367 lbs.

This is another Touchdown 20X son we kept for our own use. His dam is from a strong cow family going back to the first herd bull we ever owned, "Big Sky 610F." The Touchdown 20X bull stamped his progeny with style, shape and correctness.

He sired the 2018 Reserve Champion Mature Bull of Farmfair and Agribition, MJT Frontier 121D. 121 had a 74 pound birthweight and an average daily gain of 3.7 pounds, providing a great example that the progeny of 467Z are easy calving, good footed, solid structured, without compromising performance. We feed our bulls very moderately with thier futures in mind but feel that 121D is a great example of how our genetics can perform when fed on a higher plane of nutrition.

MJT TOUCH DOWN 467Z

467 Son - MJT FRONTIER 121D

MJT ELNORA 2E

Act BW: 80 lbs.    WW: 779 lbs.    YW: 1305 lbs.

When we lost our 20/20 Touchdown 20X herd sire, we picked 505Z to replace him. 505Z follows the pattern we admire of 20X! That round muscle, good feet and soundness were qualities of the old bull. 505Z's mama is out of a top cow family that never misses. Longevity, excellent milk and sound feet and leg structure. 505Z travels well. He is athletic and breeds consistent birth weights. A 76 pound birth weight and a short gestation topped up with high performance has made him a valuable sire in the MJT Herd Bull Battery. After the 2016 heifers calved, Kurts favorite was a 505 daughter with a perfect udder. 505 was injured in 2017, and these will be the last sons available.

MJT TOUCH DOWN 505Z

505 Daughter - MJTA 20D

BASIN MAX 602C  
SOUTH BORDER LADY ANN 656S

Act BW: 94 lbs.    WW: 798 lbs.    YW: 1325 lbs.

We bought Improvement as a yearling sight unseen, based on his dam and Owen's confidence in the calf. On delivery, we liked him when he walked off the trailer. We have used him on heifers successfully and the offspring are comparable to the mature cows' calves at weaning. His grandsire, HF Tiger 5T is appreciated for early gestation and calving ease. He is also designated as an Elite Sire in the CAA. Tiger 5T had many championships awarded to him in the show ring.

**EPDs BW: 3.6 WW: 60 YW: 99 Milk: 21 TM: 51**

Crossfire's pedigree is stacked with calving ease specialists. His grandsire, Titlest ranks in the top 1% of the breed for birthweight and he has proven himself no different. He is sound and athletic in his structure and has a big square foot that we look for in a herd sire, and he passes on his style and presence. His sire has been used in both the Six Mile and Hamilton Farms programs and produced high selling progeny for them.

His daughters consistently come to the top of the pen, and we can't wait for his first females to calve in 2019!

**Act BW: 84 lbs. WW: 921 lbs. YW: 1584 lbs.**

**EPDs BW: 2.7 WW: 71 YW: 120 Milk: 15 TM: 51**

BANKNOTE 4040 is currently in the top 25% in seven different categories and is in the top 1% for WW, YW, \$F and \$W, 2% for RADG.

His dam is the ideal Angus female that is impossible to fault, and she has shown her breeding potential through Banknote and his maternal sister, Rose 1019. Banknote daughters should be perfect uddered, moderate framed, easy doing, high volume and very complete made.

From the ground up, Banknote is an impressive individual that will add extra muscle, stoutness, and rib capacity in a very attractive package.

Here is a 37A son that has the length of body and muscle pattern of his sire. His mama is a perfect uddered Kodiak daughter that has put several bulls in the sale. ***This bull sells without papers.***

## Simmental Bull

When the grandsons started expressing an interest in raising a few Simmentals, Grandpa Mick was surprisingly open to the idea. His only condition was that the kids followed the same standards that he has stood by in his Angus and Hereford herds. It has been a great learning process as he worked through selections with Matthew, beginning nearly 3 years ago now. He has worked to instill in the boys the understanding that the pillar of a breeding program is in the females, with a primary focus on soundness and structure, while striving for the performance that our commercial cattleman needs. They decided that looking to Garth and Angela Ranciers herd was a great foundation starter, and purchased a group of embryo's from them in the March Madness sale in 2016. They have since added another select few Simmentals to the program, and will be keeping a flushmate to the bull on offer. Matthew and Mick recently purchased Boss Lake Miss Crocus from Boss Lake Genetics, and Casey and Ryan recently purchased another Simmental heifer from GreenValley Farms. If nothing else, we can assure you one thing, the boys have all learned from the experience, right down to Casey crawling under the heifer prospects and measuring the finger widths between teats! They take their venture seriously, and we are very proud to offer the first MJT Simmental.

"Jerry" marks the start of our Simmental program here at MJT. We believe he's a great first sampling of what our program will look like. Out of a daughter of Ranciers 37U Supreme Champion cow maternal is in his pedigree. His sire was a \$52,000 high selling bull out of the most influential cow in their herd with over 20 daughters retained in their own herd. This bull has lot's of natural muscle, length of body, and depth all packed onto a sound wide built frame. Don't pass up this opportunity on our 1st MJT Simmental Genetics! HOMO BLACK/POLLED by parentage

# Black Angus Heifers

We are offering 6 heifers right off the top of the replacement pen that we had our eye on as potential donors. All that's been held back are the boys two 4-H projects that were selected this summer and at this stage by no means are they showing more quality than what is on offer. It is really hard to let these one's go as they are bred to be great cows, but in order to build a female market we need to offer the good ones that we are confident will go on to excel for others. We understand that with the hype of the fall heifer sales over, the market at this time of year for heifers is not going to be as strong as in Nov/Dec. However, those extra few months help us ensure that the heifers that we have on offer can be developed a bit more slowly, with thier longevity in mind. It works well for us to fit it in with our Bull Sale and offers a real opportunity to buy high quality for less dollars. This will be the only occasion to buy an MJT "F" female this year.

*MJT will retain the right to one flush at the buyers convenience and the sellers expense*

MJT AJ 411Z  
MJT CHIMES 514Z

**BW: 76 lbs. Oct. 9/18 WT: 701 lbs.**

This may be the most feminine and angular heifer in the offering. She has such a beautiful Angus head and a really nice extended front end. Everything is right with this heifer and sired by First Impression will be a great uddered, strong producing cow.

**BW: 78 lbs. Oct. 9/18 WT: 868 lbs.**

This heifer just keeps getting better and better and is in the running to be one of the best. She puts everything together in such a complete package...exhibits the exceptionally strong top that the First Impressions all have and then carries that extra width right down into her hind leg while still being super sweet fronted. She is going to make a great cow.

**BW: 74 lbs. Oct. 9/18 WT: 725 lbs.**

A 3/4 sister to lot 807. She's a darn good one with a real sweet build. She gives up a little overall size to her sister but is super nice through her front and if you like them really feminine she fits the bill. The first Crossfires are coming into production this year and at the time of writing on Jan 1 look like they are going to have, as we expected, outstanding udders.

*Selling on Choice Lots 822F & 825F*

Here are 2 flush sisters from one of our top cows. We are offering choice on these 2 lots as we made this mating hoping to get some outstanding replacements and we are so pleased with how it turned out. Parting with even one is hard to do but we made the commitment to offer our best for sale and we know both are going to be powerful cows with great udders that will raise you a herd bull. With their Canadian breeding they will offer an attractive outcross to many of the popular sires today.

This is a real brood cow prospect that is going to be a heck of a producer. Shae has more depth of rib and volume than any heifer calf I've seen all fall. She exhibits power all the way through and she is going to be your favorite if you like your calves to really push hard on the scale.

# Life In Pictures

# A Fall Review - A Mams Perspective

We started out the year with the conversation that perhaps we should take the year off showing. Us adults at MJT have sometimes questioned if the shows can quickly become a feeding competition that can tempt an otherwise diligent stockman to overlook some of the fundamentals. We have built both our program and our reputation on these fundamentals, structure and soundness, fertility, longevity, and the ability to lay muscle to bone on a conservative diet. However, the boy's enthusiasm has been a motivator for continuing to show. The learning opportunities are priceless. We have tried to instill in the boys that you don't change your program to follow the trends or the banners. You stick to your fundamentals and build cattle you can have confidence in.

This is Matthews Grade 12 year, and with his educational goals, we thought it would be best that he should take the 2018 fall off showing to concentrate on his studies. After all, we had a great 2017, and thought it was unlikely we could top it.

However, Matthew had a vision, a goal, and a big 'what if' for his bull, MLL 10Y Rocky 225D. The love and energy they have together is a once in a lifetime bond. An ET calf out of a home raised foundation dam, Rocky has an ability to lay muscle to bone, he is sound, and he has a good solid foot all on a moderate frame. There was no way that Matthew was not taking his bull out this show season. He was in Grade 12, and Rocky was in his last eligible year, and Matthew wanted to kick the year out together, trying their best. After much contemplation, as parents, we decided if our 17 year old wanted to spend his spare time getting up at 4 am to head to the barns for a month, we better do the best we could to support it.

My mom had always told me that if you were going to do anything, you do your very best; you don't ever step on anyone on the way up; and you get farther by pulling those around you up then you ever will by stepping over them. She instilled in us that if you live your life like that, then anything is possible. We have told our kids that, and to be honest, when Kurt and I were running out of steam and ready to rein in a little bit - Matt called us on it. So - All in, team effort, and aim high.

We were fortunate to be able to enlist a great crew to help get the fall rolling and the animals ready. Still, as adults, our goals and expectations were reasonable (we thought). We were after all taking a Hereford and a big black bull out that wasn't super showy, but represented our program well with his homegrown sire and dam. Those two and a couple of calves. We were exited about them, and the goal was for them to make friends with some customers. As for the banners, we knew the competition was pretty stiff.

**Olds Fall Classic** kicked off the season with Champion Hereford Bull and Reserve Intermediate Heifer Calf. What an amazing start to the fall! Our big black bull 121D made quite a few friends, and again we affirmed that although he wasn't going to be a banner chaser, we were proud of him, so he was going to come along the rest of the season. Then came **Lloydminster Exhibition Stockade Roundup**, a great show, and Rocky not only won his show, but made top 5! It was an amazing night!

**Farmfair** was unbelievable. We had a great Angus show. Our big home grown black bull stood second to the International bull in the Senior Bulls, and in a moment we won't soon forget, our bull calf was selected as Reserve Grand Champion Bull by Shane Kauffman, who later purchased a half interest in the calf. In the Supreme, Rocky and Matthew made top 10. To stand with our Bull among all those people that he looks up to, was a moment that he will cherish forever. The energy and support of everyone that got him there was amazing.

**Agribition;** There are no words, but I will try. We were feeling run down, everyone was sick, and I was certain I had pneumonia. Frankly, we were ready to pull the plug. We all had to dig pretty deep to get rolling. Matthew was hanging on to a goal to round out his final year with him and Rocky both doing the absolute best they could. That meant, unless someone croaked, we were headed out the door.

Matthew and Mick were honored to judge the National Gelbvieh show. Although Mick knew it meant he would miss his own show day, to have that experience together was worth it.

We had an amazing Angus show, Champion Senior Bull Calf with MJT Impressive 813F, and Reserve Mature Bull with MJT Frontier 121D, a bull that we took out to represent our program, not even thinking we would be in the hunt for a banner. We truly appreciate all the great cattle that he stood beside that day, and are humbled by his selection by Murray Andrews. The following day we headed into the Hereford show, hopeful, but tentative. It was a strong showing of Hereford Cattle To be selected by Lafrentz's as Champion Polled Hereford Bull, was again humbling. My heart was absolutely bursting. To see Matthews dream of winning a Grand Championship at CWA with Rocky come true after all the perseverance and hard work was amazing. To top it off, that made Rocky a 5 time lifetime qualifier for the RBC Supreme at CWA. To then be selected by an esteemed panel of judges in the Supreme for the top 10, was a moment we will never forget.

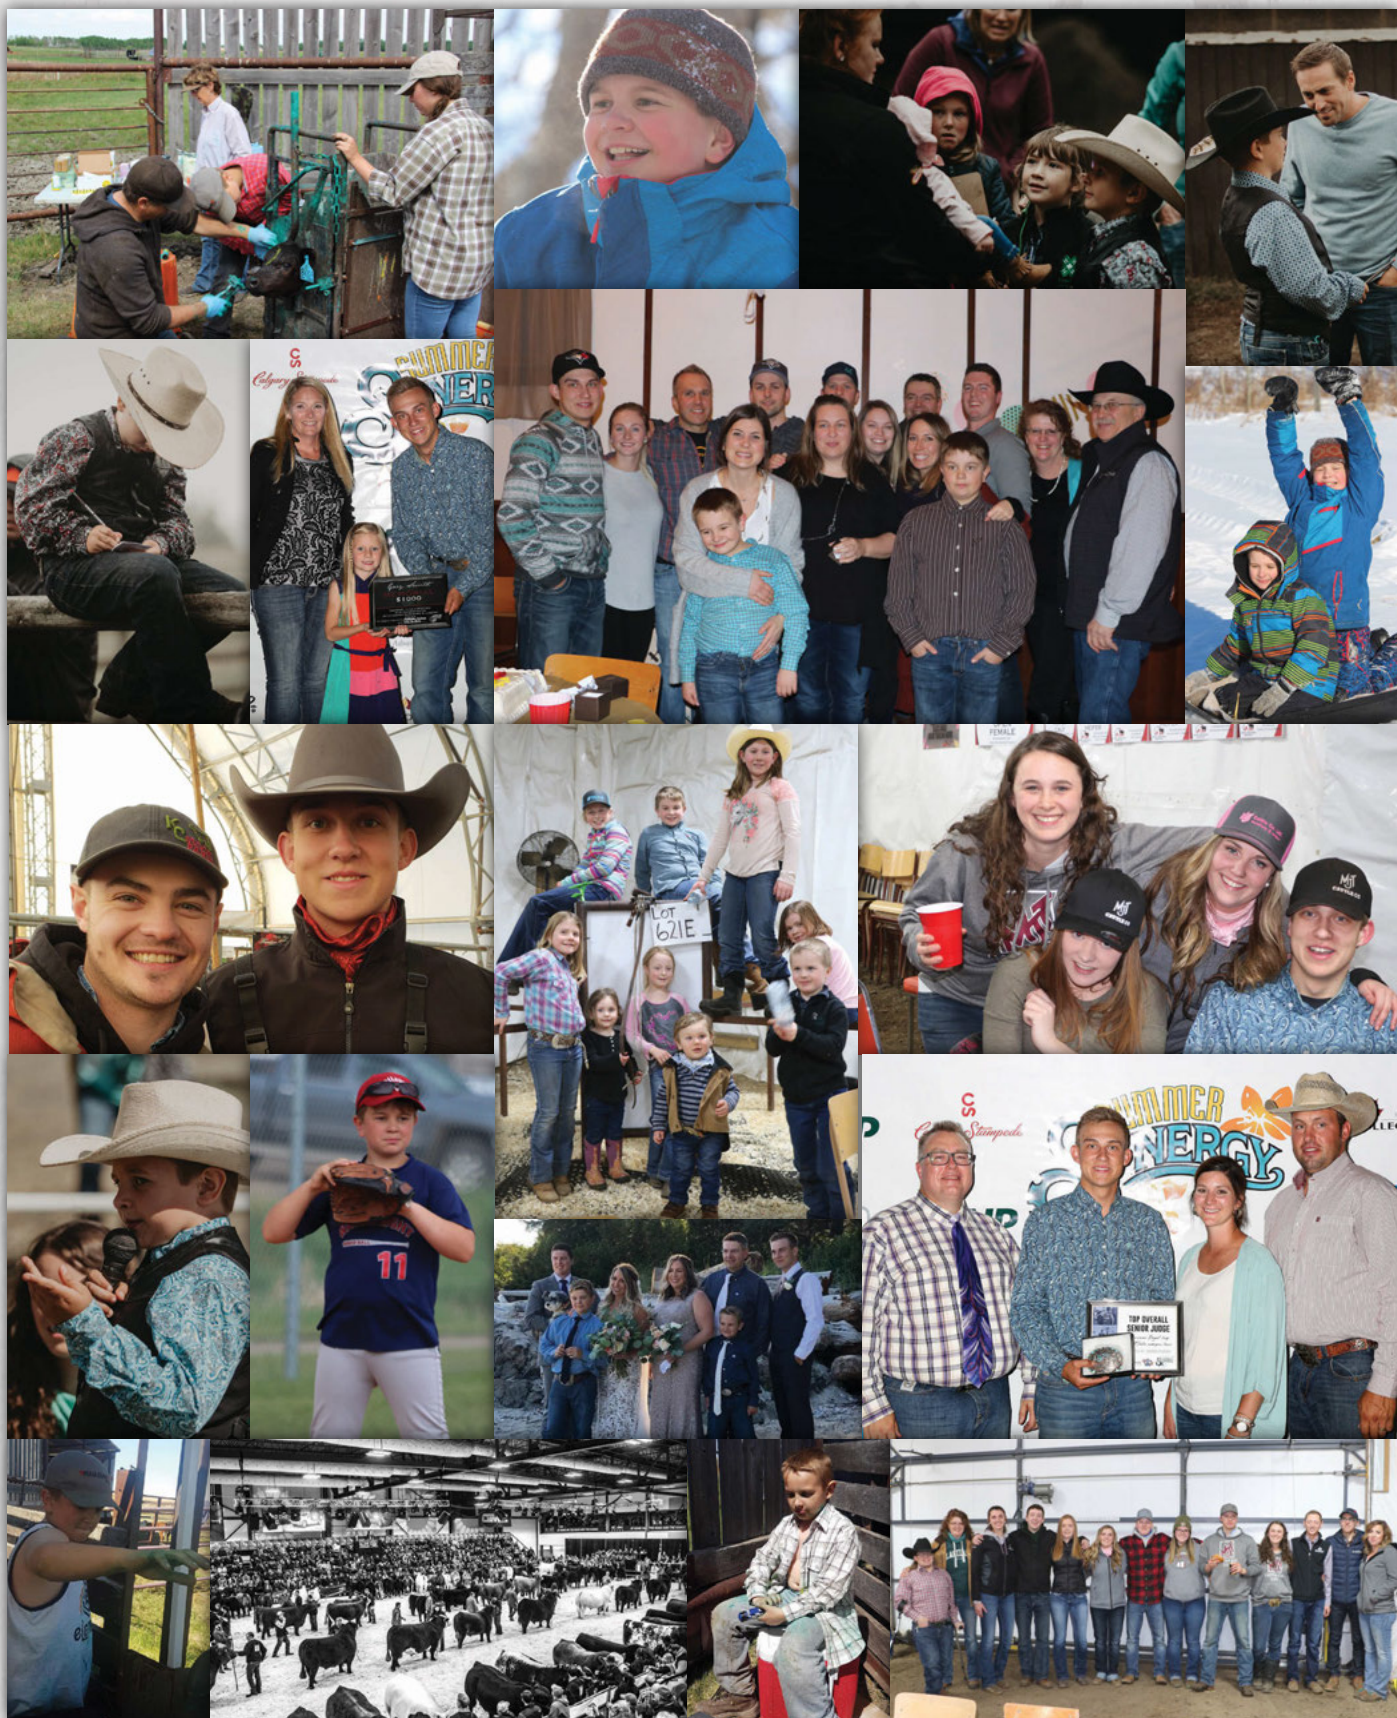

I absolutely love our show family and crew. In my opinion, they are the best there is. A group of friends that works together as a team, who have grown together these past years by building each other up and having each others backs. Mostly kids, who put their whole heart in to what they are doing. They are not fall staff, they are family. We know there is no way we could do this without them. My favorite part, is watching the show kids grow together, help each other, and pull each other along as they reach new levels. That has more value than any banner or buckle we will ever bring home. And truly, if you dug down to the heart of it, that is why this mom of three farmers hangs out for a few months of my year in a cattle barn.

*From The bottom of my heart, Thank You.*

Matthew for having faith in your bulls, and the stubbornness to push us to stick with it. Jess Verstappen for all that you did daily to help have those critters ready before and at the show. Your passion for cattle will serve this industry well. Kyle Dodgson for being Matthew's wing man and the best Plan B we could have. You have amazing talent that will take you places. Michael Commandeur, you were a key part in getting this all rolling last year. Paige Thompson and Jaymie Thompson for your wicked legs and tail balls, humor, and wit that make us laugh! Brad Tkacik and Graden Kay for your help with the extra layer of polish on our bulls. Carmen Millham, Brenda Rokosz and Sydney for everything you do to support our crew when it is go time. Blake Morton, Darcy Olesky, Alisha Minchau, Mackenzie Bertoia, Andrew Dunsmore for all your help and most importantly - humor to keep me from loosing my @#\$ when I was nervous. Jeff & Debbie Paul for being one of Matt's cheerleaders. Grant Hirsche for running Matthew through your CWA Boot camp. To all the amazing people at all of the shows - the boards, directors, volunteers, the staff, and all those that come to see the cattle. To all the amazing mentors that invest their time in these kids. To the Judges, who were so very kind to us this year, among such strong cattle. To all the exhibitors and to the sponsors, without you, there would be no show. To Shane Kaufmann, for purchasing a share in our bull calf. To Dawn & Lee Wilson, for bringing out such an amazing bull to chase all fall, and for being willing to help us learn the ropes, even while in competition - that is true grace, and sets an amazing example for the youth coming up behind you. And thank you to Mick and Deb, who keep the farm going while we are on the road.

## **TERMS & CONDITIONS**

### **TERMS**

Payment Options: 1/3 down on sale day and a post-dated cheque for July 1, 2019. See Mick for other arrangements.

### **INSURANCE**

Insurance will be available on sale day and **we ask that all cattle left be fully insured.**

### **DISPUTES**

In cases of dispute, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

### **PURCHASER'S RISK**

Each animal becomes the risk of the purchaser as soon as sold.

### **LIABILITY**

MJT and staff accept no liability on sale day for accidents. However, all precautions will be taken to ensure safety.

### **HEALTH**

All animals will be sold in compliance with the health laws of Alberta. All sale bulls have been treated with Ivomec. All bulls are vet inspected.

### **BREEDING GUARANTEE**

All bulls are guaranteed breeders. The Standard Canadian Hereford and Canadian Angus Association guarantee applies. All bulls are semen tested and vet inspected. Under no circumstances shall MJT be responsible for more than the purchase price paid for the said animal.

### **ANNOUNCEMENTS**

Any announcements from the stand take priority over catalogued material.

***MJT has the right to collect semen at their expense and the owners convenience on any bull sold, for thier own use in-herd.***
