*Perfection*  
BULL SALE

THURSDAY, MARCH 7, 2019  
AT THE SPRING CREEK SIMMENTALS RANCH

*Let me begin by saying thank you to our customers from far and wide, many of you repeat buyers, and some of you young couples just starting out on your journey. Welcome to all of you and thank you for your confidence in our program and our bulls. The cattle industry is one in which we each work to reach our own individual goals, but also where we all work together to make Canadian beef the best in the world. Cultivating good relationships and mutual respect, as well as standing behind our product will go a long way toward helping each other succeed!*

*As our annual Bull Sale approaches, we are well into calving. At this point I wish to acknowledge our help: Neels and Gerrit, Allan and Ben, who help run the ranch smoothly from day to day, season to season. I still remain very hands-on with the cattle; my iPhone tells me that today I walked 15 kms before 5:00! Time to call the doctor about these old knees!*

*As I write this, I reflect on the path I have taken over the course of my life, and I can say with certainty that becoming a cattleman has been the right choice for me. As I walk through the bull pen I admire their powerful, uniform frames; thick sire prospects with lots of hair and testicle. Performance bulls built into a total package. Bulls with outstanding dams and grand dams. Selected over 45 years for disposition, calving ease and performance, as well as longevity. It's been worth every minute.*

*There is a great deal of satisfaction that comes from hearing the favorable testimonials of repeat buyers. It is also gratifying to see Spring Creek bulls and females appearing in the pedigrees of elite herds. Spring Creek Simmentals is a Century Farm; for over 125 years McCarthy cattle have roamed and grazed here. Our family has been very fortunate to call this home. Our son Sean says that he 'won the lottery of life'; he's so lucky to be a farm kid from Saskatchewan!*

*As breeders our work starts many years before your bull of choice is born, layering genetics that will result in ideal females that will produce the kind of bulls that will make a difference for you our customer at year end. Our cowherd has been selected over the years for optimal body type and size, concentrating on udder quality, soundness, fertility, and disposition.*

*As we look to the future, there is so much to look forward to and be grateful for. We've raised a fine herd and a fine family here on the ranch. Our son Dan, a Professional Engineer, has invented and patented a vertical lift pump jack. His company, IJack Technologies, Inc., is set to open their state-of-the-art 20,000 sq. ft. building north of Moosomin in February. His wife Olga is also an engineer and a photographer. They have two children. Sean has a business degree, a CFA, an MBA in finance, and is presently working on a second MBA in computer science, while working full time as a quantitative trading specialist for Enmax in Calgary, and chief data scientist at IJack. Sean's wife Simina is a partner at Burnet, Duckworth and Palmer LLP. They have one son, Jack. Our daughter Lauren has a commerce degree. She has been the Communications and Social Media Specialist for Trinidad Drilling in Calgary. She is now enjoying selling new builds for Sterling Homes. Charlie Power plays for the Stampeders. And as for my mom, Grandma Frances, also known as 'GG Grandma', well, she continues to lead by example around here, having just turned 99 in December, and living in her own house here on the farm.*

*We are pleased to once again be working with Bohrson Marketing and T Bar C. They provide an invaluable service and we really appreciate their professionalism. Feel free to contact them for any assistance you may need.*

*The sale is at the ranch, 12 miles southwest of Moosomin. Lunch will be served at noon and the sale begins at 1:00. We hope you will stay after the sale for a bit of hospitality as we always look forward to visiting with you again!*

*We are, as always – In Pursuit of Perfection!*

Geoff Anderson ..... (306) 731-7921

Matt Criddle ..... (306) 539-6934

## Sale Consultant:

Marc Boisvert ..... (819) 395-5502

## Sale Day Phones:

Brian McCarthy Cell ..... (306) 435-7527

McCarthy Residence ..... (306) 435-3590

Jon-William Verstegen ..... (306) 631-8749

Michael Verstegen ..... (306) 631-8763

## Accommodations:

Canalta Hotel ..... (877) 342-7422

Best Western ..... (306) 435 4700

Motel 6, Moosomin ..... (306) 435-3666

## Health Care:

All bulls have been on a full Pfizer health protocol. Bulls were treated with Ivermectin in Oct/18 and Jan/19.

## Sight Unseen Purchase Program

Selecting and purchasing a bull is a very important and sometimes difficult undertaking. We would like to help you select a bull for your program. We have been working with these cattle for many years and consequently know the cow families very well. This knowledge can be very valuable when selecting a bull to accomplish the previously identified breeding goals in your program. Please give us a call well before the sale to discuss your requirements. "We guarantee full satisfaction upon delivery or you don't own them".

## Semen

We reserve the right to draw semen on any of the sale bulls for 'in herd use' at the buyer's convenience and our cost.

## Settlement, Delivery and After-Sale Options:

**Option A:** Purchasers wishing to pick up their bull on sale day will receive a \$50.00 discount per individual purchased. Settlement will be made in full unless other arrangements have been made.

**Option B:** Purchasers may choose to leave their bull(s) on our ranches. Delivery is free to all points in Manitoba, Saskatchewan, Alberta, and to the North Dakota/Canadian border. Arrangements can be made to all other destinations. All bulls are guaranteed exportable to the USA.

The annual In Pursuit Of Perfection Bull Sale is a highlight event every spring as it combines some of the most sought after genetics backed by one of the best customer care programs in the industry. Brian and family have established a herd that has proven time and time again to produce influential sires that have advanced the purebred industry and appealed to the most critical of commercial cattlemen. When we are asked which program combines maternal strength and performance, the Spring Creek herd rises to the very top as their good udder, sound structured cow herd annually raises some of the most powerful and impressive calves and often with an outcross pedigree to the industry.

The Simmental offering is always deep in quality of performance oriented bulls that are backed by their great mothers. Many of the sire groups are Spring Creek bred bulls and combine the quality of a variety of different lineage that have been so influential in this program. You can invest with confidence as they are impressive to view and large in quantity and quality to appeal to the most astute cattlemen. The Angus cow herd is equally as strong as the Simmentals, and has been developed in less time but definitely has the same udder quality, dimension, soundness and overall completeness. This pen is always strong and you will have to travel a lot of miles to find a group that combines the power with calving ease that they offer. The Verstegen family offer a group of Red Angus bulls that are always well accepted in the industry, with sheer quality backed by a herd of females originally sourced from Brian.

We are very familiar with the quality of this program and can highly recommend sourcing your next bull here and when you combine that with the industry leading customer care program, it takes all the guess work out. We recommend you be in attendance sale day but if for any reason you can't, feel free to contact us to represent your buying needs in a professional and confidential manner. Hope to see you in Moosomin for the annual IPOP on March 7!

Welcome to the 14th Annual "In Pursuit of Perfection Bull Sale", at Spring Creek Simmental Ranch, Moosomin, Saskatchewan. For decades, Spring Creek Simmental's has been a source of superior herd sires who have left their mark on the beef industry. This success has been achieved, not by chance, but years of culling and selection to suit customer demands and backed by a superior "Customer Care Program".

The 2019 edition is jam packed with herd sire opportunities... powerful, outstanding and homo polled. Whether you are looking for sons of Spark Plug, McDavid, Blue Chip, Style or Liner, the quality runs deep in all sire groups. Deep, rugged, with plenty of hair and testicles, these prospects will fit any and all types of breeding programs, whether you want, red, black or blaze. The Angus bulls, red and black, compliment this great offering; don't overlook the "Best Beef" bulls... they put the best of both all into one package!

Feel free to stop by the ranch anytime prior the sale for a preview of the bulls and their mother's. Don't hesitate to give Brian a call, he loves to visit cattle and will work with your breeding program, for a value added advantage. March 7th is opportunity day... plan to be there!

If we at T Bar C, may be of assistance prior to or sale day, don't hesitate to give me a call or any of our professional team, we will be pleased to assist you with your questions and selections.

# In Pursuit of Perfection Customer Care Programs

## IPOP Bull Sale "Live Long Bull Warranty"

The goal of this program is again to work with our customers in sharing the risk on bulls that will not work based on factors out of their control. We also want to take more responsibility in seeing a bull through to maturity and ensuring things like feet and legs stand up. A bull purchase is a major investment not just for the future of your herd but in the expectation of a longer productive life of the animal. We also assume there is risk past year one, even though most bulls are only insured in their first year of service. We want to work with our customers through to maturity. The time your bull spends in the Winter Feeding Program will be included in this warranty. If the IPOP Bull Sale "Live Long Bull Warranty" is initiated, it will be paid out in the form of a credit towards the purchase of a bull in the subsequent year's sale. Purchaser must notify Spring Creek Simmentals, (306) 435-3590 immediately of any problems with or death of a purchased bull(s). Purchaser must employ a licensed veterinarian to treat, diagnose and/or fill out a vet form. If the animal dies, a postmortem may be required. Injury or death due to malicious, wilful or intentional acts or mistreatment by the purchaser or his employees is a fraudulent claim. In the event of mortality of a purchase bull, the seller's credit responsibility will be limited to \$20,000.00/bull or the purchase price if less. Buyers are responsible for their own mortality insurance on individual purchase prices over \$20,000.00. Our goal is to ensure customer satisfaction and to help protect your investment through to maturity. We are your partner in business!

## Breeding Season One

Bull fails/dies - Buyer receives full credit less salvage price if any

## Breeding Season Two

Bull fails/dies - Buyer receives 50% credit on purchase price less salvage value if any

## Breeding Season Three

Bull fails/dies - Buyer receives 25% credit on purchase price less salvage value if any

## Breeding Season Four

Bull fails/dies in fourth or subsequent years - No warranty available

## IPOP Volume Incentive "Go big and go home happy" Program

This simple program is designed to support our customers who need to make multiple bull purchases in one season. Our same customer may not be interested in travelling hundreds of miles to get it done. Discounts will only apply to bulls that are paid for in full on sale day. Absentee buyers will have a 30 day extension for their discount. Partnership bulls will not apply. We want to facilitate and reward your efforts!

## Purchases

2 Bulls – 3% Volume Discount	5 Bulls – 10% Volume Discount
3 Bulls – 5% Volume Discount	6 Bulls or more – 12%
4 Bulls – 8% Volume Discount	

## "New" - IPOP Repeat Customer – Loyalty Incentive Program

2% Discount on all bulls if you are a repeat customer. This will be added on top of your "Volume Discount" if you purchase multiple bulls.

*We'd like to welcome you to the 2019 edition of the In Pursuit of Perfection sale. This will be our 5th year consigning to this sale and wow what a ride it has been, in that time. From waves in cattle prices to the driest back to back years since the 1800's. It is a far stretch to say we have all seen a lot in the last few years. The one thing that ceases to amaze me is the persistent behavior we have as a whole to try and better our situations. No matter the adversity we all overcome, and are better for it. I would like to begin with a much appreciate thank you to all the previous buyers and bidders as well as everyone who has shown interest in our sales through the years. It is very humbling, and gives us the motivation to provide a better animal each and every year.*

*Our Farm is situated 15 minutes west of Moose Jaw and consists of 160 mature cows (70 Angus, 90 simmentals). We are a family farm, and everyone has their own special roles to make it work. Our cow herd is fed completely forage diet, and has never received grain as a supplement. Our cow herd is raised with the vision of having the best feet, udder, and natural fleshing in mind. We are able to accomplish this feat by culling very hard and using the best sires we can find. Along with this we retain a very prolific herd. The cattle are AI'd and/or exposed for 60 days and anything that is open is shipped in the fall.*

*We believe this our strongest and most consistent offering we have ever raised. The sire of 9 of our 10 bulls is none other than the powerful U2 Renown bull. He is known for adding a power punch but leaving a female that is desirable. We have a pen full of 1/2 and 3/4 sibs to these bulls, and trust me they are everything you want and more. Our lone Lazy MC Knockout bull may very well be the best one to date.*

*Please call anytime (306-631-8749) Jon, or (306-631-8763) Michael, if you have any additional questions.*

*Thank you,*

*TheVerstegen Family*

	8.6	3.3	88.4	129.3	9.4	68.4	24.2	98	846	1539

This is a powerhouse, weighing off test at over 1600 lbs! Check out his rib shape and muscle. The 'Blue Chip' x 'Power Play' combination really works. His dam is a big-bodied, good-muscled cow that will be a feature in our 2019 Female Sale. He has a moderate birthweight and a short gestation of 279 days. **Retaining 100 doses of semen for 'in herd use'.**

This red, blaze faced chunk has been at the top of my list all year long. He ranks in the top 1% for both weaning and yearling. His 1650 lb. actual yearling weight was our heaviest. He is a 3/4 brother to the feature bull MBJ 4F. His dam was the high seller as a bred heifer at the Black Sand Dispersal. She has tremendous volume and rib shape. A maternal sister to '10F' sold at the FNL Sale to Pheasantdale Simmentals, and they went on to show her at Agribition 2018. His gestation was 283 days. **Retaining 100 doses of semen for 'in herd use'.**

	8.3	2.4	74.5	114.9	4.9	66.1	28.8	92	777	1399

This is a full brother to the \$30,000 high seller in last year's Bull Sale, selling to Rocky Meadows Ranch. Once again, this is a powerful calf with lots to offer. He had a moderate 92 lb. birthweight and came at 281 days. His EPDs are very balanced, in the top 1/3 across the board. I kept semen on his full brother, 'Tesla', whose first calf came this morning, looking good and weighing 94 lbs at 278 days. Don't overlook this guy because of his percentage status. His dam is a 'looker' and past high seller from my Female Sale, selling to Black Sand Cattle Co. Her dam is a full sister to 'Lotto' and she too was a high seller in my recent Female Sale, selling to Rocky Meadows Ranch. Owned jointly with Black Sand Cattle Co.

	5.1	4.6	89.6	135.4	4.8	73.1	28.3	100	900	1492

This performance calf has a royal pedigree, combining 'McDavid' and 'Liner 56U'. His udder genetics should be super! His dam's first calf was the high-selling Hybrid bull last year, going for \$12000 to Chad Baglolo of Carnduff, SK. He has great depth of body and will sire some super calves. His gestation was 277 days.

	6.1	3.9	79.3	117.1	3.6	66.3	26.6	98	812	1412

Lots of good pedigree here, as his dam is a maternal sister to 'Springcreek Blue Chip'. Add to that the udder quality that comes from 'McDavid' and 'Advance' and you are going to love all his daughters. **Retaining 100 doses of semen for 'in herd use'.**

EPDs	CE	BW	WW	YW	MCE	MWW	Milk	BW	Adj 205	Adj 365
	6.1	5.2	82.3	123	3.3	60.4	19.2	108	805	1447

As time goes by, I get more and more impressed with the 'McDavid' progeny. Whether I am in the bred heifer pen or the open heifer pen, it is great to see the consistency. They are broody, have lots of hair, have nice female heads and have extra depth of body and spring of rib. The bulls have hair, performance and correctness. He calves easy, partly attributable to shorter gestations. Here is a son that should continue these traits. His dam came from Rainbow River and has a nice udder. His gestation was 285 days.

'Upward 35Z' has been a dependable sire. Progeny are growthy and the daughters have nice udders. He has been used for years at Soder Glen Ranches.

This one been a favourite since birth. He always had the herd bull look. Out of a never miss Mulberry cow that has had a saleable or keeper calf every year. A maternal sib is probably the best female we have raised.

	0.4	36	61	19	37	-	-	77	681	1190

This excellent heifer bull prospect is in a pen full of performance bull, and hes hasn't missed a beat. 17F is one of the most stylish looking bulls we have raised, and is out of an excellent Eye Spy cow. To combine that pedigree with Lazy MC Knockout is nothing shy of a masterpiece. Knockout has been our main herdsire in the angus division and has left great offspring for us. His first daughters are calving and putting up an excellent udders. Reserve 100 straws of semen.

	2.6	30	42	17	32	-1.5	2.5	98	840	1280

This will be the fourth consecutive bull that 20Z has put through the sale. There is no doubt that his is her most powerful one to date. 47F is beautiful in his make up and has a herdbull presence to him. 20Z is a smaller framed cow that looks the same as she did as a bred heifer.

	2.8	41	60	23	44	0.5	3.0	95	821	1240

This is another standout Renown bull, out of arguably the fanciest Detour cow we own. She stems back to the 47T cow who has elite status in the herd. Recently we had a full sib hfr to 107F, and she looking absolutely fanatastic. If you're looking to clean udders up this is the bull for you.
