2ND ANNUAL PRODUCTION SALE

Wednesday, April 3, 2019 | 1:00 PM

• HARTNEY, MB •

Welcome

Welcome to the Second Annual Strongbow Farms Production Sale. We were very pleased with the attendance and buying support of our first ever production sale and would just like to thank everyone for their support in our program. I would also like to thank all of the fellow breeders out there once again for all their help over the years and the years to come. I can't emphasize enough what a pleasure it is to work in an industry where somebody is willing to not only share their own mistakes made but their knowledge and expertise in the industry.

We are very proud of the herd of cattle we run here at Strongbow and strive each year to make it better. Our focus remains on performance and maternal traits – we do our best to keep fertility, udder quality, longevity, fleshing ability and weaning ratios a key in our herd.

The past couple years we have begun to fill a donor pen for embryo work with some remarkable females and are hoping to gain some extra strength and uniformity in our herd. We are hoping that this will allow us to continue putting our front-line females into our production sales while continuing to grow a strong herd.

We are very pleased and excited to present to you this group of bulls and females that we have raised this year. We are committed to the success of our customers and guarantee 100% satisfaction in which we stand behind.

We look forward to visiting and meeting with everyone on sale day. Please feel free to stop by anytime to view the animals on offer. If we can be of assistance in any way, please don't hesitate to contact us.

From The Desk At T Bar...

Welcome to the 2nd Annual Sale here at Strongbow Farms. We, at T Bar C, are excited about promoting this young family and the hard work they've put into their ever growing cowherd here in Hartney, Manitoba.

This year we have many half and 3/4 brothers being offered in the bull pen that has grown in numbers from a year ago. This soggy set of yearling bulls are very impressive. Many with outstanding weaning and yearling weights and also multiple heifer bull candidates that offer extreme ease of calving while not lacking any performance. The bulls have been fed with the commercial producer in mind in a large paddock for excercise and longevity. Truly a stop worth making to evaluate.

The open heifer section in the sale is very impressive. Breed enhancing genetics that are from the cutting edge of today's Angus world. Last year's group was very popular in demand and this year will be no different, so please study closely.

Devon, Heather and family are 100% devoted to agriculture and the life that comes with it. This hard working family not only has an impressive ranch and facilities, but an Angus product that is sought after. All of us at T Bar C are familiar with this operation so please don't hesitate to call with any questions regarding the offering.

See you there,

Ben Wright
