## AT T BAR C

**It's one thing to make the big leagues, but it's another thing to make it to an all-star game.**

Not many words are needed to describe the atmosphere in the purebred livestock world when you say Agribition; the meeting place for some of the highest caliber of seedstock in the world and their equally reputable breeders. Since the inception of the All-Star Angus Sale, we truly feel confident saying that this is the most compelling offering that has been compiled. Now I get it, the phrase is the most broken of records, but trust us and flip through these pages and you will find the who's who of Angus operations with the stock to match.

The two brothers that lead off the book this year have already begun to make noise. With this just being the hum before the roar. The heifer calves come from the lead of the show strings, with one hailing from Cochrane, Alberta that is as lights out as they come. The bred females are the kind for modern times, and frozen genetics that will put you in the fast lane.

Regina on Friday night is the place to be. Join us for the electric atmosphere, phenomenal breeders, and some of the best stock the country has to offer. All of us at T Bar C know these cattle, so please feel free to call any time.

When you combine the power and dimension, the eye appeal and swagger, you will find it hard not to take note of this hairy female, she will knock your socks off. She has the quality, balance, and presence about her that is hard to put into words, she is one unique specimen. Her maternal sister by Showman was the high selling heifer in our sale 2023 going to Simon Ducharme from Quebec. With Rebel and Tiger on the maternal side of the pedigree, you can't go wrong. Ellingson Hi-Range was selected from the 2022 Ellingson Sale and was described as "One of the most interesting breeding pieces they have ever created. He should be a game changer for structure, foot quality and mobility." He has truly demonstrated his calving ease abilities both on paper and virtually, as we witnessed from our first calf crop. Topped off with very impressive weaning performance. His outcross pedigree offers mating flexibility for a large cross section of the breed. It was hard to let this gal go, but we wanted to give you a taste of the potential and confidence we have in the Hi-Range's breeding abilities. Don't miss out on this special opportunity to be in on the ground floor! **Consigned by Hamilton Farms.**

Yes it's hard to part with the great ones that years of breeding decisions have gone into. With that being said we feel that only selling the best ones benefit the seller and purchaser. Predictability is a must in our program so that's exactly what we offer here with Envious Blackbird 107L. She is stunning from one end to the other and as balanced as you can make one. She mirrors her dam in qualities such as a sleek front end, swoop bellied, wide pinned and great feet and legs. As you can see in the dams pic 107L will have a picture perfect udder as well. The dam was a \$15,000 Agribition purchase in the Power and Perfection sale and a heifer calf champion. The maternal grand dam was also a heifer calf champion purchased at Agribition by Greenwood from Michelson Land and Cattle. The sire Compass Mr. Tibbs was a \$44,000 purchase by Twisted Sister in the Angus Collection sale and has left a tremendous group of calves. His calves all display the structural correctness, hair coat and temperament that we strive to produce. 107L has already been declared Senior Heifer Calf Champion at Olds Fall Classic this year and will continue to be shown throughout the fall. Compass Envious Blackbird 107L will make her mark in the show pen as well as the donor pen in years to come. **Consigned by Compass Ranch and McGowan Farms**

Here is a female with cow power running through her veins! The Blackcap Mays need no introduction. They are noted as one of the most highly sought after cow families in the Angus breed. 187L was a pasture standout and was found by many who toured the pastures this summer. She is really balanced in her design, big topped, long bodied, deep sided and super attractive and angular in her shoulder head and neck. Her sire Badlands was a bull we selected as an outcross calving ease option and is one you will certainly see in our program in the future. His calves are the right size at birth and have excellent growth to run with many of the performance cattle out there. If you want to tie into with a proven, yet fresh outcross pedigree, Blackcap May 187L is the one. **Consigned by Hollinger Land & Cattle and Csi Angus.**

We are honoured to be a part of the prestigious Agribition All Star Sale. The heifer we chose to consign this year is the perfect breeding piece to add to any herd. Her sire, the ever popular "SAV America 8018" makes them attractive, broody, and ensures high performing offspring. "Miss America" is all of that and more. Weaning off at 743lbs, she's been an all star performer from the beginning. When you analyse this heifer in person you can't help but admire her ability to stay incredibly sound from the ground up, all whilst maintaining a high level of capacity and depth of body. Like her dam "Coleman Chloe 900," Miss America comes from a long line of very successful females backing her. The growth and power she has at this young age is nothing short of impressive. If you are looking for a female that will add maternal value to your herd look no further than "Miss America." **Consigned by Grylls Cattle Co.**

Dolly 16L, one of fanciest, eye appealing females we have raised. A heifer that catches your attention as soon as you walk into the pen. Out of one of our most powerful big bodied SAV International cows, we had decided to cross her with Northline Cool Cat in hopes to get a calf with a little more style and that's exactly what we got! 16L is pretty fronted, deep bodied, sound and correct. She has had an amazing hair coat since she was born and is already making a reputation in the show ring, winning her division at her first outing at the Olds Fall Classic in October. 16L will go on to make a beautiful show female down the road and maternally make an excellent momma cow with a beautiful udder. **Consigned by Pieschel Farms.**

There have been Angus around our place for a little bit now but we wanted the first one we sell to be extremely high quality and KAY-R Abigail 300L is just that. I got her dam out of the prestigious Brooking Angus Ranch fall female sale as a heifer calf and she has turned into the female we will build our Angus herd around. Abigail's pedigree is as maternal and time tested as you could ever want. It's hard to find Angus heifers with this much natural width and power in such a smooth, clean and correct build. I believe Abigail has a bright future ahead of her in the show ring and maybe even a brighter future in your donor pen. This is a female we probably shouldn't be selling as we are still trying to grow our cowherd. See KAY-R Abigale 300L at Farm Fair International and Canadian Western Agribition. **Consigned by KAY-R Land and Cattle.**

BW: 82 lbs. | BW: 1.7 WW: 51 YW: 93 MCE: 5.5 MILK: 25

Bardella 354L is sired by the ever-growing in popularity Hill Valley Reckoning 931. Reckoning 931G, is one of Canada's highest valued sires in recent times, produced out of the multiple time champion female Hill Valley Elbina 456, matched to none other than Young Dale Believe 46B. On the bottom side, her dam Bardella 13W is an exceptional female with high fertility proven through two high producing flushes on the year. With a further dive into pedigree, one simply can not look past any of the majestic names, such as Gumbo Gulch, XCaliber, & Tibbie, while on the bottom side Young Dale Grace, Sitz Upward, and of course Bardella, coming out of the Perrot Cattle Co. program. RFTD Bardella 354L herself is extremely eye catching in her walk and appearance, through a wide hip, & deep rib that complimented with length of spine & smooth shoulder. 354L will mature into the ideal frame size, udder shape, and body type, and sure to have longevity showcased by a clean joint and foot structure. RFTD Bardella 354L is a female we proud to have been able to produce and are equally excited to offer to other producers to add to their programs, sharing the excitement as the Reckoning females continue to showcase not only in offspring, but in the showing as well. 354L is a female that can be bred several different ways and find a spot as a core breeding piece in anyone's herd. **Consigned by Rafter D4 Cattle Co.**

An intriguing female from the Savannah cow family. Savannah 46L's grandam was purchased from the Malson family of Parma, Idaho and has been a top producer in our herd, now earning herself a spot in the donor pen. With so few of this cow family in Canada, we feel this is a rare chance to purchase some outcross genetics. On the top side, 46L's pedigree is equally as exciting. She is a direct daughter of DMM Rollin' North 62J, co owned with Miller Wilson Angus. He is an impressive individual who has been drawing a lot of attention this fall. This heifer exhibits a lot of qualities such as an excellent foot, unmatched breed character, and a great temperament. Calving ease and performance in this pedigree, this heifer weighed 778 lbs on September 18. We are proud to offer the first female from the Freeway Angus herd since it's purchase from the late Fred Noad in 2010. **Consigned by Freeway Angus.**

BW: 0.7 WW: 61 YW: 106 MCE: 4.0 MILK: 29

It's been a few years since we last offered a bred heifer up in the fall, so with that we dug deep and present to you one that we believe best represents our program in terms of what we strive for when it comes to productive females. Here's a pedigree that you can quickly assess and take out a pile of guess work. She was a member of the 2022 show string being campaigned along side her dam at stockade roundup then being displayed on her own at CWA. We really like how she has matured boosting a little extra neck, extra rib and overall mass than that of her dam, yet shaping up to have a next to perfect udder setup. This is one we feel has a long list of uses, and could be a very fresh and unique breeding piece in most herds. **AI bred to EXAR Wooden on May 15. Exposed to Ravenworth Reign 15J from May 23 to July 6. Preg checked favorable to AI breeding. Consigned by Elldem Cattle Investments**

 RED K F MISS HEATHER 97Z

BW: 91 lbs. | BW: 1.4 WW: 47 YW: 81 MCE: 6.0 MILK: 25

This attractive, complete Red Angus bred heifer from our program is on offer right here. She's sired by one of the best bulls to walk our pastures, Red Border Guard 4E – a bull who produced attractive, sound, tidy uddered functional front pasture females and several moderate birthweight, high performing individuals for our annual bull sale. 44K's dam, BWFX 31E, is a beautiful moderate female; strong topped, deep bodied with an absolutely perfect udder. 31E's first calf, BWFX 16G was the High Selling Red Angus bull of our 2020 Sale. 31E's dam, 97Z, was hand selected from the Kuntz program and we were so confident in her consistency that we purchased her first son born at Bridgeway (Heat 59C) back to breed in our program. Red Bridgeway Heather 44K led our show string to Ag Ex last fall, and will be there again after holding her own in the all breeds Championship drive at the Black Gold Classic in Virden this September. Stop by our farm anytime leading up to Agribition, or come see her in our Yard's display during the week in Regina. **Pasture exposed to Red RSL Arrow 767J from April 2 to June 5. Ultrasounded safe at 5 months on September 21.**

BW: 1.2   WW: 38   YW: 63   MCE: 8.0   MILK: 28

Mcgregor is a dark red, long bodied, stout made rascal with plenty of growth and is put together about as correctly as you can make one. So far this year he has won the Supreme Championships at Darwell Fair and Barrhead Beef Bash and was the Grand Champion Red Angus Bull at Olds Fall Classic. He is sired by Red SSS Contender 121B who is also the sire of the Granite 74H bull that has done a great job of breeding at Towaw and other top herds around the country. His dam, Copper 27W, is a direct Red Towaw Indeed 104H daughter and was a deep red beauty of a cow that really produced. She has produced sons that worked in the purebred herds of Glesbar, Rainbow Red Angus, and Towaw and had a daughter in the donor pen at Towaw as well. Mcgregor's flush sister was a \$17,000 heifer calf in the 2021 Red Roundup Sale to Kylie Willms and his full brother will be a feature service sire in the Rainbow Red Angus Dispersal Sale in December. **Consigned by Towaw Cattle Co., Triple L, Wright Livestock, and Piro Red Angus**

An opportunity for the ages here for all you Red Angus enthusiasts out there attending Agribition 2023!! From the syndicate group of 10 red breeders around the world comes a frozen gem of an embryo pkg where old has certainly met new! The sire of these embryos is a 1998 born maternal leader in the industry not only in Canada, but recognized worldwide for his tremendous daughters. Indeed 104H was a mainstay female maker for both the 6 Mile and Towaw outfits. IF you can find a few straws of his last remaining semen..... it will likely cost around a \$1000 a straw!! He was voted on last year at RRUP 50 as the most popular bull amongst breeders of all time. The dam of this lot is a gorgeous Assassin 624D dtr that has all the right parts in all the right places. She is as wedge shaped as they can be possibly made and has outstanding foot structure and udder design as anyone can desire! She herself was a RRU graduate that went from Clarke Wards place to Wraz at a pretty good dollar as a hfr calf that fall. She then was a feature lot last fall in Phil's dispersal at \$11,500 to the I F G and has been in transplant at DRI since then. Her sire was a \$77,500 high seller in cockburn's bull sale to Brylor Ranch in Alberta. He has become synonymous with producing equally as good bull calves and hfrs alike! Can you dare to dream what a couple of Daughters from this mating will look like at your house? That's a really cool dream. **Guarantee two 90-day pregnancies if implanted by a certified technician. Embryos are stored at DBK Genetics in Sturgeon County.**

 RED NCJ MINERVA 35C    RED ROYAL FREYJA 29M

PE BW: 0.5    WW: 68    YW: 126    MCE: 7.5    MILK: 38

The donor dam of this lot is probably as talked about a cow as there is going in the Red angus breed in Canada right now as there is. She was the 2018 Agribition Grand Champion female as a bred heifer and also the 2 time Farmfair Grand Champion Female as a bred and a two year old. She has had 2 natural heifer calves sell through the mighty RRup at \$14,500 and \$12,000 . She was also the dam to the all time record selling bred heifer at Red Roundup at \$40,000 (a purple hfr by Bar S Range Boss ) Freyja 29E's sire is Power Eye who has left many a good female around and sons, including Damar Trump and P T O . The sire to these eggs needs little introduction as he also makes a real deal female too! His semen sells very well when available as he is an incredible outcross sire from black heritage through Musgrave Aviator. His most famous daughter went through Red Roundup in 2019 to Kamrie Kaufman and was the one to beat in the RRup \$100,000 Jr Futurity for 3 of the 4 years This will prove to be a very good mating for the new buyer of this incredible embryo lot in the Agribition 2023 Angus sale!! **Guarantee two 90-day pregnancies if implanted by a certified technician. Embryos are stored at DBK Genetics in Sturgeon County. Consigned by On The Mark Cattle Co. and Brylor Ranch**

GREENWOOD FOUR MILE 47J

DUFF RED BLOOD 18114

In 2019 we came across a female that stopped us in our tracks, HLC Erica 561G. When she sold to her new home at Schaff's Angus Valley from Hollinger Land & Cattle & CSI Angus we came home from the sale that day & purchased our Bar E-L Erica 74A x Brooking Firebrand 6068 Embryos from Blairs.Ag Cattle Company. The Erica cow family needs no introduction in the Black Angus world and we are excited to build that legacy into our Red Angus program from a female that in her own right has paved a path. JJL Erica 63J is a female that carries loads of mass from front to back while maintaining a stark sharp front end and bold attractiveness that draw you to her. She was perfection in the show ring and will go on to produce greatness in her offspring that will satisfy both the practical base of a commercial cattleman or the toughest showing critique. Her daughter JJL Erica 11L is evidence of the type of female you can expect from these embryos. We are offering full sib embryos to her as well as three other genetic opportunities that we feel hold equal or above in potential. Embryos from all four of these matings have been successfully implanted. **Guarantee one pregnancy per package if implanted by a certified technician.**

BW: 71 lbs. WW: 760 lbs. (Sept 16) | BW: 0.2 WW: 62 YW: 115 MCE: 8.0 MILK: 26

Evening Tinge 62L is not just another female from the famous "Showman" collection. Evening Tinge has the quality, balance, presence and do ability to certainly become a front pasture female. The Evening Tinge cow family is a ranch favorite with longevity and fertility at the forefront. A maternal brother to 62L was selected by ST Sexing Technologies in our sale, gathering up \$50,000. HF Long Shot was a standout in the Carload show in Denver 2017 for Hamilton Farms and one of the most talked about bulls in the yards. Combine that with the proven attributes of the Showman progeny and you certainly have a foundation or a stepping stone to the next level. We are into our 4th calf crop of Showman offspring, and we continue to be impressed with the consistency of the calves every year and now also the daughters and their production. Here is a chance to win a top cut heifer and support the Canadian Jr. Angus Scholarship Program. **Consigned by Hamilton Farms.**

# TERMS & CONDITIONS

#### **TERMS:**

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

#### **CERTIFICATE OF REGISTRATION:**

Each animal will carry papers issued by the Canadian Angus Association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

#### **PEDIGREE ESTIMATES:**

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

#### **HEALTH:**

All animals in the sale have met all necessary health requirements.

#### **GUARANTEE:**

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

#### **PREGNANCY INFORMATION:**

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

#### **LIABILITIES:**

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

#### **DELIVERY:**

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

#### **PHONE, MAIL, WIRE BIDS:**

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

#### **INSURANCE:**

We strongly recommend that insurance is purchased for full value.

#### **ERRORS:**

All announcements at sale time, written or oral, supersede any written material in the catalogue.
