# LUNDAR'S 57<sup>TH</sup> ANNUAL SALE

## President's message

It is my pleasure to welcome you to our 57th Annual sale. As you may notice we have a whole new executive, familiar names but new positions. I would like to take this opportunity to thank our outgoing executives for all their hard work. We are ready to carry on the excellent tradition, and if we happen to forget something or make a rookie mistake, please give us the benefit of doubt. As we look forward to an exciting year in the cattle industry and a successful sale, I ask you to take a moment to remember some people we lost this year who are part of our history. Gordon Otto, long time director who always had a quiet word of wisdom for us young guys. Carol Lavallee, a long-time friend of our committee who was head cook at Friday night dinner for a few years. Lastly, my wife Yvonne, who was never listed as our secretary but did most of the secretarial work for the years I was secretary. Thank you, and see you sale day.  
Jack Cruise

Ossawa Rainmaker 6M is an AI calf out of the famous Basin Rainmaker bull. His dam we bought as a bred heifer from Glen Gabel's dispersal sale in Moose Jaw, SK. This is her first bull calf and she did not disappoint! She's raised two daughter for us who are working in the herd today, the quietest females and excellent mothers. Only good things to say about his dam and sisters! Along with a great pedigree behind him, he is built right! Good feet, wide hiped, round muscled and a clean front end for calving ease. Will work on heifers or cows. We are excited to offer 6M at this year's Lundar bull sale!

Here is a big-time candidate for the heifer pen with a 78lb birth weight and pushing +10 on calving ease. We have 2 full sisters in production, and they have both raised sale toppers. Herd bull in the making!

This Heavy Equipment calf could possibly qualify as a heifer bull by his pedigree. We use Heavy Equipment quite often on our heifers because of the calving ease and his consistency to produce cattle that work! It also helps that he's an "M" bull from last cycle which also proves he remains relevant in today's industry. 1M was our first calf born last year out of a Resilient first calf heifer with pic perfect udder. Strong maternal bull with stay ability and a touch of power for market value on your calves.

Marie is a soggy, big middle female. She stands on good feet and legs. Marie's dam is built the same way as herself. Her sire is our senior red herdsire.
