 YOUR BOTTOM LINE FOR THE LAST 50 YEARS

Welcome to our 2025 Bull Sale lineup.

It is an exciting time to be in the cattle business for a change. We thought prices were decent last fall but they have continued to climb at least until now. All indications are we should see this market continue for some time yet and Charolais sired calves are definitely the best way to capitalize with your market cattle as they are highly sought after by the front row buyers.

Again this year we have a very strong group of deep bodied, soggy bulls with great hair and performance that are coming to you after being fed to grow without hurting them so they last you for years to come.

We also are offering you again this year a group of purebred replacement heifers ready to breed to the bull of your choice. These are heifers that are normally retained in our herd. You are always more than welcome to come and see the lineup in their natural surroundings at home if you like. Videos will be posted a few weeks prior to the sale for you to view at home.

Come early sale day to view the animals and be our guest for lunch.

If you can't make it sale day DLMS will be available to take your bids online.

- **MIKE McAvoy**

Welcome to the McAvoy Charolais Farm Annual Bull and Female Sale on Saturday, March 22, 2025, at Saskatoon Livestock Sales, west on Highway 14, Saskatoon, Saskatchewan. As their motto describes, the McAvoy family has been producing and supplying quality Charolais seedstock for over a half century. Farmers and ranchers who have selected and used McAvoy bulls HAVE experienced the financial edge especially in the past decade... more pounds at weaning and more price per pound by the front row.

The 2025 edition offers a solid lineup of value-added sire prospects... depth in type and quality. Muscle with thickness, shape, optimum in frame size, lots of hair and testicle, bulls for all types of operations. Fresh out-cross genetic diversity and calving friendly, you will find both power and heifer bulls in the offering.

The heifers are in most cases, sisters to the bulls. In this wild market it is difficult to source top quality breeding females in the Charolais breed... McAvoy's offer you an opportunity to acquire fresh, new genetics whether you are an established breeder or just starting out. Plan to be with us on March 22nd for your Charolais needs. Feel free to stop by the farm any time prior the sale and preview the bulls and heifers or just give Mike or Dean a call to discuss their offering.

If we, at T Bar C may be of any assistance prior to or sale day, do not hesitate to call any of our team and we will be pleased to assist in a professional and confidential manner.

PEDIGREE ESTIMATES: Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH: All animals in the sale have met all necessary health requirements.
