ONTARIO AUTUMN SIMMENTAL CLASSIC

SATURDAY, SEPTEMBER 14, 2024 AT 1:00 PM
MAPLEHILL AUCTIONS, HANOVER, ON

One of the longest running annual Simmental sales in the entire country, OASC has a stellar lineup for its 22nd year! Annually, the sale highlights Fulblood cattle that are correct for the times, with an added feature this year being a yearling bull who has all the credentials. A mother-daughter duo that are Homo Polled and proven in every way possible, along with a set of breds that are the mama-making kind. The red factor section this year has all the goods. A prime cow calf pair, bred heifers highlighted by a Trendy that is flawless, and heifer calves ready to be a factor in your program. Also included is one of the top bull calves you'll see in the province that is ready for your appraisal. The largest section being the black factor cattle with multiple options that are as good as you'll find. From embryos that are as current and rare as you can find, to back drop quality heifer calves along with breds that have all the hard work done added with two exceptional pairs that are from the core of their respected herds. We are in good times in the cattle business, stock such as those displayed in this catalog are the kind to progress ahead. My dad and mom started and ran this sale for many years and have never missed a year since. I think this sale is in the perfect time of year in a great setting for prospective buyers to pursue some top quality stock as that was always the idea of this event when it was first planned. As always contact any of us with any interest you have. - Ben Wright

Non - Dilutor. Homo Polled.

13L is one of the most exciting young fulblood bulls to surface in sometime. His incredible dark colour, large dark feet with next to no white on his legs are just some of his attributes. Stemming from a first calf heifer, the hair coat and natural muscle 13L displays is admirable. Modest at birth with almost a 900 lb weaning, Lumber offers a total package. We love dark red cattle as Lumber is marked the same on both sides of his face with eye appeal and a pedigree that is time tested.

Selling 3/4 interest and full possession.

Consigned by Weppler Cattle Co.

2A DORA LEE'S ELSIE FF50F
 FULL FLECK FEMALE | HOMO POLLED | P1250900 | DLD 50F | JAN 24, 2018

BW: 4.5 WW: 76.7 YW: 109.7 MILK: 38.6

This cow needs no introduction, as we purchased her from the Vail's right here in the Autumn Classic Sale, and originally came out of the Dora Lee Herd. She is one homozygous polled, big, deep ribbed, lots of volume, milk, nice uddered kind of cow. Last year she had a high selling daughter sell to Clelor Simmentals, Tara, Ontario. This year Elsie 50F has another really good kind of bred heifer in the sale also selling as Lot 2B and she has just weaned off a big strapping bull calf that will make a herdsire. Elsie is a very high producing kind of Simmental Cow with some big names in her pedigree. Very easy to work with and bred back for an early January calf to our polled herdsire.

Bred to KF SH FC Liberal Exterminator 11J on March 25, 2024.
Consigned by Car-Laur Simmentals.

Car-Laur Lucky Lady 990L of course out of the Dora Lee's Elsie cow lot 2A, is a very smooth, polled, lots of rib, long bodied nice framed female. She is sired by Double Bar D Hombre 59G. Her pedigree is strong, with Hombre & Elsie in the mix that should work well. She should be a very high producing kind of cow in her years ahead, like her mom.

Bred to KF SH FC Liberal Exterminator 11J on March 14, 2024.

Kenzie is a really nice dark red polled Encore daughter. She comes from a solid cow family that we have either kept or sold the daughter from. Moderate female moves very free and really good feet setting a nice udder as well. Just an all round good heifer, the plan was to keep her around in my personal group but Ben really wanted her. Mated to Hefner and should work well, dark calf and good chance homo polled.

Bred to Anchor D Hefner 274H on March 27, 2024. Preg checked safe.

Leah will be the first Hefner daughter to sell. Nice polled yellow heifer thick and moves free, good feet, legs and udder coming along. She's moderate little more compact, very quiet but comes from a very good cow line. Grandmother Elenor has had a few daughters sell through sales rings and they all have turned out good. Bred to my new bull Macs Keystone past high seller at the Anchor D, he is a very dark pigmented bull, with lots of hip and power, so it should work out well.

Bred to Anchor D Keystone 237K on April 30, 2024. Preg checked safe.

Celebrating

22 YEARS OF OASC

For the past two decades, the Ontario Autumn Simmental Classic has forged a name for itself as the place for Simmental enthusiasts to pursue reputation Simmental cattle of every colour. Founded by Carl and Laurie Wright, the early days of the OASC took place in the famed Wat-Cha sale ring, to now being in the beautiful pens of Maple Hill in Hanover. A sale such as this is allowed to operate at such a high level due to the exceptional and dedicated breeders consigning stock year to year. Whether you are a Full Blood, Fleckvieh, Black, Red, or Percentage enthusiast, rest assured that each and every year, the OASC will have what you are looking for.

A daughter of the well known STF Onyx 451W. Trendy is a full sister to Royal Affair. This exceptional red donor cow is extremely big ribbed, high capacity, that is super cool and well designed from every angle. Excellent structured and awesome footed. The first trio of Trendy Daughters to hit the open market averaged \$16,500 in Fallsview. Here's your opportunity to purchase full sib matings to the 2023 Royal Champion Simmental Bull by the well known "Cobra" or the well known "Betts" Bull that needs no introduction in the Simmental industry.

Guarantee one pregnancy per package if implanted by a certified technician.

BW: **80 LBS.** // BW: **0.3** WW: **78.8** YW: **117.7** MILK: **13.5**

Weplers Eight Ball is an elite calving ease herd bull prospect, Starting out at just an 80lb birth weight and never looking back. You could travel the country to find a calf with the mass, muscle pattern and hind quarter 168M exemplifies at such an early age. His dam was our selection from the MAF dispersal and has exceed expectations. Big bodied, ample milk with a gorgeous betts daughter we are excited to hit production next spring. Large scrotaled, big footed and ideal bone work tied together with the neat marked baldy face. 168M is quiet natured and travels with a herd bull presence and swagger. A big time opportunity to get ahead of bull sale season with Eight Ball

A very complete red daughter of John Wayne who we now have daughters in production that are raising the heaviest calves as 2 and 3 year olds. Very strong pedigree with many western programs represented and a great set of E.P.D.'S. Solid red with a white udder and chocolate lips make this heifer attractive on pasture tours. The 100C cow has produced only heifers in her productive years and her off spring are many of our red program. The black full sib to Lady Luck was purchased by Maple Lake Stock Farms out of the Falls View sale. The exciting part of this heifer is the mating to the very exclusive and outcross R+ Estevan 2162K on April 12. Checked safe. Homo polled by pedigree.

A sale feature no matter the place or time, 3007A is a recognized as one of the top superior cows in the entire breed. Her track record speaks volume as a donor female who offers outcross pedigree with numbers. Commented by Marlin as his most sacred cow, Ben has been leaning on me ever since he bought me this cow as the lead off female from that historic dispersal to sell something off her. Caliber cattle have been very well received and we feel mated to 3007A should be an automatic click.

Guarantee one pregnancy if implanted by a certified technician.

0017H has turned into a producing machine. Course her claim to fame is being the mother of the red sensation Estevan where she weaned him off at over 1000 lbs as a first calf heifer. Since then she has a daughter retained and we implanted nearly 20 embryos this spring to her. Big centered body female that is gentle natured and constantly out does herself. The matings involved here are the kind that we want to talk about when touring people through the yard. Full sibs to Estevan, outcross hard to obtain Venom eggs and also the massively made Dimensional who is the current National Champion bull.

Guarantee one progeny per package if implanted by a certified technician.

FEMALE | POLLED | BPG1474817 | DKMB 2M | JAN 14, 2024

Here's a beautifully constructed female and one that is no mistake to be bred for greatness. Turning Point Farm was committed to offer our best and we did just that. A genetic and phenotypic home run here. 2M is exactly what we have come to expect from the production power house Dusty's Soda 35H. A female that we feel will only continue to follow in the footsteps of her predecessors and be an exciting part of your cow herd. Turning Point Farm reserves the show rights until the end of the Fall 2024 show season.

FEMALE | POLLED | APPLIED FOR | PRM 3M | JAN 15, 2024

Silvertip Land & Cattle are pleased to offer the opportunity to purchase one of our best heifer calves from the keeper pen. We purchased the embryos from Alliance Simmental Farms and they did not disappoint! Shake It Off comes with lots of eye appeal, big ribbed, and has great udder development. With Boundary Sarah's great maternal line crossed with Shakedown's high yearling weight, it will make for some growthy calves in the future.

Here is a heifer out of a top end cow family. She is going to follow along in her maternal footsteps, full of red meat bone and performance. Sound from the ground up, covers ground very well and looks attractive in the process. She is quiet halter broke and would make an excellent junior project. Homo polled by parentage.

Loretta Lynn is one that is already setting up to have a nice udder. She will make a nice, honest brood cow that will be in it for the long haul with very correct hooves underneath her. One of her maternal brothers topped Ben's Spring Turn Out sale & some of Alvera's first daughters are still in their respective herds. This year we used LHF Ludicrous on our heifers; this Primetime bull carries a beautiful front end and was born moderate but wanted to grow from day one.

Pasture exposed to LHF Ludicrous 106L from April 7 to May 14, 2024. Observed bred April 25. Vet opinion safe to that service.

Consigned by Locust Hill Farms.

Lithium is more moderate in her size and pulls everything together. Probably the best udder development and teat size in the group, which comes from her dam. RPCC Glitter has just been put into our donor program this year because we think that much of her; she was 3rd overall female overall in OSA Award of Excellence (as a calf) & with limited shows in Covid year she won no less than Reserve. We have high hopes her daughter will be just as successful as a cow.

AI bred to W2 Southside 2K on March 20 with sexed female semen. Pasture exposed to LHF Ludicrous 106L from April 7 to May 14, 2024. Vet checked safe to AI service.

Our Simmental program has grown from the Emerald family creating both purebred and percentage females that have caught the attention of many. This half blood is exactly what the breed has been known for, combining maternal attributes of udder quality, ease of fleshing and performance into once exceptionally balanced package. GF Emerald 301J is as gentle as they come and was shown successfully by Peyton both as a calf as well as a cow calf pair with her first calf at side. We love the bold sprung rib and structural integrity this one brings to the sale and look forward seeing her work for years to come.

From the heart of our program and right off the top of the ET pen this stylish female checks all of the boxes. Her dam GF Emerald 301H demanded \$30,000 as a featured heifer calf and has now raised a pen full of outstanding ET calves for both Alton Century and Gilchrist Farms. This heifer was named Res Grand female at her first outing this summer and was part of the champion progeny of dam group. We love her depth of rib, attractive look, stout lower quarter and you can't miss the chrome. Emerald has consistently year after year created some pretty impressive sought after cattle, if you don't have one you maybe need to!

Special lot as you combine our total program in a nutshell. Alpha was the \$620,000 Hartman high seller who we secured the Cdn semen rights on. Alpha has that extra extension, hair, big feet and hip that make his sire Tecumseh so popular. Mated to the pillar of our sim program, 19E who doesn't miss. Course her most prestigious accomplishment is Whiskey 16J who was a past spring sale high seller to the progressive Jon Ern operation where she tore up the show road last fall. All in all, genetics that are fresh and ultimately on the cutting edge of the breed today

Due to calve February 8, 2024. Recip is a black Sim Angus cow.

TERMS:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION:

Each animal will carry papers issued by the Canadian Simmental Association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES:

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated calves that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH:

All animals in the sale have met all necessary health requirements.

GUARANTEE:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION:

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY:

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE:

We strongly recommend that insurance is purchased for full value.

ERRORS:

All announcements at sale time, written or oral, supersede any written material in the catalogue.
