*Special Cattle Agent*

We would like to welcome everyone that has taken the time to show interest in our operation, we very much appreciate it.

My family had been raising Charolais cattle for over 50 years, and the thing we enjoy the most is the relationships we have made over the years and new ones we continue to make in to the future.

It has been a big year for the PCC prefix with all four Champions at Farmfair and both the Show Bull and Female of the year carrying PCC in their pedigree.

PCC Force of Nature 122J sired 5 State Fair Champions in his rookie calf crop, as well as one of the most dominant females that has shown in the USA in 2024, being a Force of Nature daughter. PCC Innovation 123J sired the 2023 \$50,000 Players Club Champion and Miss Prairie Cove 204K and Miss Prairie Cove 417M being crowned Supreme Champion Female at Farmfair International 2024.

Congratulations to everyone with the success they have had with PCC genetics, we love to see our cattle make an impact for the new owners.

We have seen a steady amount of growth in the seed stock side of the Charolais industry with many new breeders and we are sure happy to see that continue in the future.

We are very proud of the offering of cattle and genetics we have put together, I think you will find we have something to suit most any cattleman and cattle woman.

It's about having the courage to stand and fight for your life. Having the strength to go bravely in your own direction! Even if others walk away, you tread your own path!!

- Tyler

# welcome from the desk at T BAR

On the 20th of February, a new chapter in Charolais history will be written in Bashaw, Alberta at Prairie Cove's Bull and Female Sale. The Bullick family has been the source of superior seedstock, multiples of females and herd bulls, leaders in the expansion and promotion of the breed. Over the past decade, Prairie Cove have run an intense embryo program which has been overwhelmingly successful, and the results have been amazing.

Why the history? Last fall at the Canadian National Charolais show, the strongest show ever, Prairie Cove captured the Grand Champion Bull and Grand Champion Female award with flush mates... an achievement that is a first in a major show. The Grand Champion female, Miss Prairie Cove 204K, then went on to be named Supreme Champion Female over All Breeds at Farm Fair International. In addition to the champions, the donor mother, BRCHE Berkly Ann 8507 PLD ET is the mother of Bourbon, Innovation, Force of Nature and Uprising all highly successful full brothers working in programs. On February the 20th, seven full brothers to the National Champion Bull and a maternal sister to 204K sell.

8507's success overshadows the great lineup of donor females in their program... 4711B, the mother of Berkly Ann has three sons selling, Miss Prairie Cove 309A with six progeny, along with 806F and 407B. If you need more info, give Tyler a call for an update and opportunities.

These premier breeders present an outstanding offering for your selection. The bulls are powerful in performance at weaning and heading into yearlings with plenty of muscle shape, hair, testicle, quiet disposition and all have bred in maternal values of fertility with longevity. Herd bulls for breeders... yes there is a wide selection in addition to the extra age bulls for big pastures.

The female section features a maternal sister to the reigning and Supreme Champion Female along with show prospects for all age juniors. The semen and the exciting group of embryos are designed for the long haul.

Plan to be a part of Prairie Cove history, we are very familiar with the program over the generations and if we, at T Bar C may be of any assistance prior to or sale day, do not hesitate to call any of our team and we will be pleased to assist in a professional and confidential manner.

This stud would be one of my absolute favourites in the entire offering. Extremely long spined, made so nice, soft body, awesome legs and a true Herd Sire.

Berkly Ann has done so many great things for us, this set of bulls just continues to impress. In the spring time when you go to bull sales you hear guys talk about wanting that bull with more performance, more power, more punch but can still calve good and has an extraordinary mother.

PCC Trouba 406M covers all those bases, if your serious about the Charolais feedstock business you ought to be serious about adding PCC Trouba 406M, HE HITS HARD!!

The bull with all the extras, stylish, long, awesome lines and good hair. One of the first Shake the Frost calves to sell and he is a dandy. Low birth weight to a high weaning weight for a young bull. His mother is a heavy milking White Bear cow that has done a tremendous job on her first calf. Calving ease built in with this young sire that will stamp his calves with that big, square hip he has.
