All roads point to downtown Toronto as soon as the calendar hits November. I will never forget the goosebumps I got as a kid as we came off Lakeshore Boulevard to tie the cattle out under the Gardner Expressway, looking up, and seeing the CN Tower lit up and right there.

That same feeling isn't one that just goes away, and still applies to most as the history and life changing atmosphere of the Royal Winter Fair continues to alight fire and passion across generations of purebred cattle breeders. If you have never been to the Royal, book your ticket now. The electricity in the air, the people, and the remarkable ring (that dare I say is the best in the country) and the quality of cattle will have you coming back year after year.

We at T Bar are proud to host the annual Angus sale on Saturday night. The truth of the matter is, if you don't come early and stake out your spot, you might not see the sale. It's truly one of the elite sales of the fall in terms of genetics on offer, and the time and place. I encourage you to study this book hard, and plan to participate in the most fun and upbeat atmosphere in Eastern Canada.

Please don't hesitate to reach out to any of us at T Bar C regarding any questions about the offering.

LOT **1** PICK OF THE WILBAR 2025 HEIFER CALVES

OPPORTUNITY

a good position, chance, or prospect, as for advancement or success.

Wilbar Cattle Co has been in the registered Angus seedstock business for over 60 years. 4 generations of the Willms family have developed a long-standing passion for the Angus and Red Angus breeds of cattle. You can date cow families back decades, pedigrees steeped in maternal values that have stood the test of time. When you tour through the herd, it will be very evident the emphasis they've put on multi-trait selection. Udder quality, foot structure, fleshing ability and fertility are keys to the total program. Wilbar genetics have been marketed around the globe with great success. National Champions have been campaigned at all the major shows. Whether you are in need of a future donor cow, fancy show heifer or one that could do it all... you'll find it in this set of females. The pick will come from over 100 heifer calves, both natural and ET. They will be sired by some of the leading bulls in the industry.

We are honored to be part of this prestigious sale and excited for the *opportunity* that awaits the winner of the final bid.

PICK OF THE 2024 OR 2025 HARPREY FARMS NATURAL BORN HEIFER OR BULL CALVES

It is with great excitement that for the first time ever we are offering the opportunity to come in and pick any natural born male or female calf. The year 2024 marked the actual calendar year of 50 years in the Canadian Angus Registry and we feel no better way to celebrate the occasion than this offering right here. The 2024 calf crop is one that we are very proud of with sire groups consisting of HF Alcatraz, Ellingson Big River, LVVF Tanker, SBF Assets, and Harprey Jameson. 2025 sires will feature the same sires with the bonus of the highly anticipated \$140,000 evaluated Peakdot Gatsby 135L inaugural calf crop. Over the years we have prided ourselves in being strict of foot, udder, performance and maternal quality of the cowherd. The pictures on these pages are of some of the dams we pictured this summer and of previous offerings and high sellers. We look forward to seeing you in Toronto and touring you for your selection.

CONSIGNED BY HARPREY FARMS

Here's a sweetheart of a heifer with a super disposition, that has a bunch of upside. 418 is cool made one, that starts right at the ground, she's one that moves great, bold sprung and really good looking! And stems from a cow family that has a long history at the Toronto Royal Winter Fair her Grand dam OSU Empress 3100 was very successfully shown at the Royal being the only 2 time female to be name Grand Champion Angus Female and Supreme Champion Female in both 2014 & 2015. And from there has gone on to become a huge part of our program along with several others across Canada. Her direct dam Premier Hasson Empress 714 was a feature and highlight of the Inaugural Fallview Sale, selling to Windulan Cattle Company. Here's a opportunity to add the potent Empress family to your program

When we got asked to consign this one to the Royal sale, to say I hesitated was an understatement! I absolutely LOVE this female for so many reasons I doubt I'll be able to fit them all in. Starting off on how unique her pedigree is this side of the border, her sire being the legendary GCC Gold Standard whose semen has been pulled off the market due to availability and with her being the 1st to sell in Canada makes it extremely exciting. On the bottom side she was raised by a 1st time calver sired by Coleman Triumph a bull who earning his stripes in terms of producing highly marketable and maternal driven cattle. When it comes to her phenotype, I think it's just as unique as her pedigree. She comes off with so much presence and elevation in her front 1/3 from the profile it's hard not to fall in love with the look she gives you that couples into a sweeping rib cage, wide pin set and a perfect hind leg. I know I'll regret selling this one, but I think she'll have a bright future in the show ring and pasture for her new owner.

If the new owner wishes we'd be more than happy to help in developing and campaigning her the next year on the show road. Contact myself for info on this.

HF HI COUNTRY 7L

What more could be said about the remarkable Erica 74A. Still to this day she walks around likes she's a 3-year-old with an accomplishment list longer than any other producing female noted from Canada. Her popularity continues to grow obviously and here are just a few of the reasons why. Erica 11J (daughter) was Champion Angus Female at CWA '23 and 10 days later sold for \$150,000 1/2 interest to ZWT. At that same show she also was responsible for the \$118,000 Alpine bull who topped the CWA All Star sale. Amongst others this was just a taste of what Erica 74A has been doing. Recently one IVF cycle was sold for \$40,000 US and we are proud to offer these embryos in the Elite Sale. We have searched long a hard on what sires to mate Erica to and we feel the 3 listed bulls are that and more. For the first time ever in Canada you can obtain genetics from the \$360,000 Bedrock bull who has all the bells and whistles. Also, the \$185,000 Hi Country is available and been said to be the most talked about bull in Canada in some time. And the popular Prolific who is also the sire of Bedrock whose progeny are surfacing as the breeds best. In short use Erica in your program. She's not only a breed changer, but a program enhancer.

Either one of these two could have a program built around them. This summer we had the privilege of Earley's displaying 58Y - 2K granddam - on our farm for the Canadian Angus Convention. If 2K and 210M are only ever half as good as 58Y, they will be great. 2K brings two hard to find traits to the table; depth of heel and a near perfect triangle between hips, pins and thurls. While 210M brings an elegant front end, length of body, and lots of red meat to compliment her dam.

AI bred to DUFF Real Deal 19115 on March 20 and exposed to Walkerbrae Real Deal 903K. Pregnancy favourable to AI breeding.

This star-studded beauty has been a standout all summer. Incredible mass & shape with all the right figures. Big boned, big backed, big foot and great maternal look that stems from her gorgeous dam. She is a maternal sister to the 2023 Justamere Ranches Bull Sale high seller at \$38,000 to Neilsen Land & Cattle amongst others. Look for 1M to be a performer with a great underline and udder attachment to be a front field looker for her entire life.

DAM

Your going to hear me talk about S&R Proven Queen J329 a lot. She's a cow we are quite proud to have in our battery, and it doesn't matter what she's bred to she just makes flat good ones, with 7329M being one of this years stand outs. If you like her picture you will love her in real life, she's big bodied, deep bellied, good footed, long necked and ready to run hard in the show ring. If you're unfamiliar with J329 and the success she has had south of the border, a quick google search will tell you this is a family you will want to tap into. Her phenotypic versatility, maternal strength, and elite breeding combo will have 7329M in your keeper pen and top of your flush list. This female will have you talking about the Proven Queen cow family for years to come as her story is just getting started.

Along with our partners, Blueshoe Investments, we are very excited to offer this special opportunity to flush one of the Angus females that we have been campaigning this past year, selling on choice! Incorporating either female's genetics into your program will take it to the next level!

CampbellCo 1A is an intriguing female, so bold and maternal in her body shape, dense in her bone and foot work, functional, and still ties it all together with the “look” from the profile. Which is undoubtedly why she has shined in the showing capturing Champion Senior Heifer Calf at the 2023 Royal, and Grand Champion Heifer in both the Jackpot and Junior shows at Youth Forum this year.

1A is an own daughter of the deceased Seldom Rest Sandman 6075, who is backed by Silveiras S Sis Sandy 2354, the 2013 NJAS Grand Champion Bred & Owned Female. The Sandy cow family has dominated the show industry. In production Sandy’s ability to pass down eye appeal and functionality is unparalleled. Upon further inspection Sandman’s pedigree is filled with Angus industry greats like Lutton, Lookout, First Class, and Hot Rod.

1A is a direct daughter of CampbellCo Show Cattle’s leading donor, BNWZ Queen 7477 from Nowatzke Cattle better known as Cardi B. She is a proven producer with daughters topping their sales at \$61 000, \$45 000, \$38 000, and many more! Cardi B has cemented herself in history with daughters dominating at the backdrop across North America in the Angus, Simmental, Maine, and Chi breeds. Not to mention Cardi B is a daughter of the influential Dameron First Class.

Even more alluring is CampbellCo 1A’s grand dam, the historic J&J Queen 414. She was a triple crown winner, taking Grand Champion Angus Female in Kansas City, Louisville, and Denver. 414 has been proclaimed by many as Northern Improvement’s greatest daughter. J&J Queen 414 has proven her ability to pass on her unrivalled look, quality, structural soundness, and power.

Explore the limitless potential of this genetic masterpiece, CampbellCo 1A, a female we see as a cornerstone for producing high quality cattle. Her future in breeding is perpetual, offering incredible opportunities!

Captivating, mesmerizing, and enamouring are just a few of the words used by esteemed judges from across North America to describe REIB Phyllis 336, as she secured her wins this past year. Which include Grand Champion Angus Female at CJA Showdown, Supreme Champion Animal at Spring 4Ward, Reserve Champion Jackpot Heifer at Youth Forum, 4th Overall Heifer at Empire State, and Champion Junior Heifer Calf at the 2023 Royal in Toronto.

Along with being highly acclaimed in the showing and unique in her phenotype, 336’s pedigree runs deep. A daughter of the legendary AI sire, Silveiras Style 9303 and traces back to a long list of maternal legends in the business breed. Her dam, UDE Phyllis 0223, was a \$35 000 sale highlight in The Advantage 2020 from the infamous Udell program. She was campaigned in 2021, being selected as Grand Champion Angus Heifer and later declared as Reserve Supreme Female at the coveted Indiana State Fair for Reiboldt Show Cattle. UDE Phyllis 0223 is a daughter of SCC SCH 24 Karat 838, who’s progeny have gone on to excel in production after taking the spotlight in the showing.

REIB Phyllis 336 is a granddaughter of one of the premier and leading donor dams in the Angus breed. FCF Phyllis 532 is supported by the iconic SCC Phyllis 051 cow family. FCF Phyllis 532 has produced many high sellers and champions including the \$140 000 sale topping angus heifer for Buck Creek Ranch who was later declared as the 2022 NJAS Grand Champion Owned Heifer and UDE New Heights 62/87 the 2024 Embryos on Snow sale feature commanding \$280 000 for 50% semen interest.

Not only has FCF Phyllis 532 been a force in the Angus breed but she has also been dominate in producing elite half-blood Simmental cattle producing champion bulls and females on the national level along with countless high sellers in recent years.

Dig deep here, the options are virtually endless with REIB Phyllis 336, who we believe has a huge future in the production of elite cattle!

Flush to take place in spring 2025 post calving. Lot 21A is due in January, 21B is due in March. Seller guarantees 6 embryos with a cap of 10. Every other embryo after 10 will be split between buyer and seller.

W-C

-Barbara 7H was the \$84,000 2023 AAC high selling female that has all the credentials you could ask for in an Angus donor

-Fantastic EPD chart, impeccable phenotype matched with incredible presence and soundness

-7H is as good looking on the eyes as you'll see, and you can see her spitting image in her Gable baby pictured from this year

-Hi Country & Alpine come as the 2 most popular bulls in Canada this year.

-Hi Country being the \$185,000 Hamilton high seller with outcross pedigree and huge spread from birth to YW

-Alpine was the talk of CWA and commanding \$117,500 purchase price being sired by the famous Palermo with as much thickness and hair as you'll come by in any bull and mothered by the legendary 74A

- All in all, these are serious matings to set a program apart

Ponderosa, the bull that is on the radar of the Angus World and already has begun to write his own chapter in Angus History. He started as the popular high selling bull out of the 2023 Schiefelbein Farms Bull Sale where he was regarded as the thickest Angus Bull in existence. He went on to set new records every time his semen sells and the demand and momentum continued on with Ponderosa embryos selling for \$3750 per embryo in past sales. Never before has there been a time or a push in History to get back to good functional, deep-bodied, correct cattle. Ponderosa is leading the charge with his mass, performance and fleshing ability while adding style and balance. If you are looking for that special bull to breed your best donors to or if you have a pen of outstanding replacement heifers to breed, consider Ponderosa as he will add not only quality but also add \$ value to every future mating.

Peak Dot Bambi 78G is a second generation embryo donor from the highly fertile Bambi cow family. Her dam Peak Dot Bambi 16C is listed as an Elite/Premier dam with the Canadian Angus Association and has an average weaning ratio of 110 on her last six calves. She is the dam of Peak Dot Franchise 389F owned by Perrot Cattle Co. and Canadian Sires.

Peak Dot Bambi 78G has just weaned off her 3rd consecutive outstanding calf and bred back early again, she is well on her way to making Elite Dam status herself. The Ellingson Roughrider daughters are highly thought after for their productive easy fleshing, deep sided type and ideal udder quality. Bambi 78G along with several of her maternal sisters have been retained in the Peak Dot herd as we continue to build and add to this highly productive maternally driven cow family. This planned mating to Ponderosa should result in some extremely stout progeny that are some of the freshest genetics from our program. Embryos are Canadian Qualified. **Buyer has the option to take all six embryos and we will guarantee two pregnancies.**

-She is the mom of the \$140,000 Feb Freeze high seller Gatsby and the beautiful 378k who is an up and comer at Peak Dot

-With Gable semen not available to the general public, you can make full siblings to Gatsby with this mating, which in turn will result in popular functional offspring with all the fundamentals including off the chart EPDs

-Sexed female Networth mating just might be the next big hit, we all know the females this bull has left and truly believe the body mass of 117E and maternal greatness of Networth could make this sale topping progeny very quickly

TERMS:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION:

Each animal will carry papers issued by the Canadian Angus Association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH:

All animals in the sale have met all necessary health requirements.

GUARANTEE:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION:

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may, in exceptional cases, be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY:

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE:

We strongly recommend that insurance is purchased for full value.

ERRORS:

All announcements at sale time, written or oral, supersede any written material in the catalogue.
