Wilbar

• • THE BULL EVERYONE IS TALKING ABOUT • • • •

Beretta is the bull the entire cattle world has heard about. He was the \$225,000 high seller from the record breaking Wilbar Cattle Co sale that took place just a couple of weeks ago. Noted by many in the cattle industry as the highest quality bull to hear the auctioneers voice all spring, Beretta literally covers all the bases in the red angus sector. Most importantly amongst all his traits is the foot he carries, and that is reflective of his pedigree, as his mother sports as good of feet as any roaming specimen. With his impressive 113 weaning index and phenomenal haircoat, Beretta is the bull that takes you to the next level. Premium cow family, gorgeous mother, huge bodied and travels like a cat... Make Beretta your go-to for embryo transfers or for breeding the very top cow in your herd. An influencer sure to be heard of for many years to come, take hold of the this limited time chance to use the talk of the industry in your herd. **Stored at Alta Genetics**

BW 1.3 • WW 57 • YW 97 • MILK 24

Peak Dot Pansy 14H is a capacious, deep-bodied, easy-fleshing Colossal daughter with eye-catching style and an excellent udder. We currently have 177 direct Colossal daughters registered with the Canadian Angus Association and 128 granddaughters. Colossal daughters are all stamped with a beautiful, easy-fleshing body type, excellent udder quality, ideal foot structure, and fertility—all real-world traits that affect production and profitability. Peak Dot Pansy 14H was chosen as one of the top Colossal daughters to replicate repeatedly in our embryo program. We have retained her first two daughters and plan to add many more to the herd in the future through the embryo transfer program

MUSGRAVE LADY BARBARA 545	LADY OF PEAK DOT 304X

BW 1.2 • WW 65 • YW 107 • MILK 18

Peak Dot Lady 2044H has been a favorite ever since she was a calf. She has grown into a long-bodied, deep-sided cow with a beautiful udder, massive hip, and a great look. Her Big River bull calf was a feature in our 2023 Spring Bull Sale, and we retained an excellent Brutus daughter out of her this year. The maternal side of this cow is stacked with generations of great females stemming back to Lady of Peak Dot 402U, a popular donor with 64 progeny.

••••• **A BREEDING SENSATION** •••••

This remarkable breeding sensation is the centerpiece of our black program here at U2. At our most recent bull sale, she had 20 direct sons in the sale averaging \$19,988 per head. We hand-selected her for many reasons from SAV, as we have always been big fans of the Renown-bred cattle. 7800 is just that special cow who adds deep maternal roots while creating huge body mass, exceptional feet, and daughters we are simply proud to show anyone who visits the valley. She represents a real breeding opportunity to the popular Badlands, whose dam is noted as one of the most in-demand females south of the line. A true sale highlight includes the eggs represented by Flagstone—of course, Flagstone being a full brother to Badger, whose progeny topped the recent SAV sale and is taking the Black world by storm. 7800 has just started her story here, and we feel she will propel us into the future in a big way.

•••• OFFERING THE RIGHT TO FLUSH ••••

The success story of Rosilla 117E continues to exceed all expectations, becoming a renowned name within Angus circles. Her past production record alone secures her spot as a big-league donor, with even greater potential on the horizon. There has never been a stronger demand for power and substance in Angus cattle than there is today. 117E has the unique ability to produce offspring with a modest BW while showcasing an impressive outline, unmatched body and mass, and an EPD evaluation second to none. Among her notable achievements, her recently sold daughter set a February Freeze record, commanding an impressive \$73,000. 117E is currently open and ready for embryo transfer to the sire of your choice. This opportunity also includes, for the first time, access to the notable sire Progressive, highly regarded among cattle experts and known for the exclusivity of his hard-to-obtain semen. This is an exciting breeding opportunity featuring the exceptional 117E.

Terms: Selling the right to flush, guaranteeing 6 number one embryos with an open flush to be performed at Bovigen.

No calf in sometime gathered as much attention and noise as Alpine did last year at CWA. His hair, structure, and natural muscle shape—not to mention his impressive paperwork—are just a few of his standout attributes. After fetching an impressive \$118,000 sale price, his fan base only grew, with multiple requests for semen from critical breeders. The only semen ever offered was Freeze '24 where 6 units brought a whopping \$1800 per unit. In our opinion Alpine is the next up and comer. He possesses more positive attributes than any bull we've seen in some time. Perfect hind leg, big backed, incredible softness and just damn good lookin' from every position. Early reports say calves are coming easy with loads of vigor. Add Alpine to increase your bottom line and boast seriously marketable cattle. *Look for big things this upcoming year of Alpine, a sire that will make a huge impact!*

A sale headliner no matter the time or place, 8113 has been pegged as one of 714's best efforts ever! That's a big saying but this female spells maternal Angus to a tee. Her production record is second to none, including her daughter featured on the next page of this very book—a past \$80,000 sale highlight at Sadlers. Prolific has the breed in a firm grip, siring the top cattle worldwide, with the most recent being a \$165,000 high seller at Musgrave. Donna's are always in fashion and this is the first chance to obtain genetics from this flawless female.

PE BW 2.5 • WW 57 • YW 104 • MILK 21

There are many reasons we are so high on these Ellingson Roughrider daughters. Not only are they tremendously thick made, easy fleshing, fertile cows but they also have great feet and impeccable udder quality. Peak Dot Duchess 2013G is the ideal female on our ranch for just those reasons. We currently have three daughters from her retained in our herd. This should be a very predictable mating as Legend has a very similar body type and has some of the best females in the breed in his pedigree including the world renown Erica 74A.

SITZ PRIDE 200B COLEMAN DONNA 8147

BW -2.4 • WW 59 • YW 108 • MILK 23

We strive to continuously offer a selection that can develop and boost any operations genetic artillery, by finding pieces that are not your typical song and dance and aren't commonly found on the open market. This lot exemplifies that mission, as the \$150,000 high selling Coleman Below Zero sexed female semen is, at best, extremely hard to track down, if it is available at all. Below Zero is a surefire option on heifers, with an extremely balanced number profile and exceptional phenotype. He is as maternally backed as any, with Coleman's highly stressing his dam's beautiful udder construction and overall look. The cow family lines represented on the bottom side of her pedigree are as proven as any, with Below Zero's grandam being a full sister to Coleman Donna 8146 and Coleman Donna 4203, the mother of the \$150,000 Banker. We can't tell you what to think, but investment here is just good business.

TERMS & CONDITIONS

TERMS: The terms of the sale are cash or cheque, payable at par at sale time. The right of property shall not pass until after settlement has been made; unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATIONS: Each purebred animal will carry papers issued by the appropriate breed association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH: All animals in the sale have met all necessary health requirements.

PEDIGREE ESTIMATES: Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

LIABILITIES: It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY: We will assist in arranging transportation wherever possible. Each purchase becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS: Bidders unable to participate in the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE: We strongly recommend that insurance is purchased for full value.

ERRORS: All announcements at sale time, written or oral, supersede any written material in the catalogue.
