

TANDEM T FARMS

2025

**PRIVATE TREATY
PUREBRED SIMMENTAL
BULLS FOR SALE**

Smoky Lake, Alberta

Welcome!

TANDEM T FARMS

We are incredibly grateful to our buyers for their support in our program in 2024. We are committed to sourcing both fresh and proven genetics, to provide you with the very best. We utilize natural heats to AI cows, charting the cows with the best natural fertility. We feel this is truly an exciting time to be involved in the cattle industry.

For 2025, we have 16 bulls on offer. They range from performance to calving ease style. All bulls are DNA verified and have enhanced EPD testing completed. They have all been tested for polled and color coat expression. All bulls this year are 100% HOMO POLLED.

Bull development is a top priority for us. After weaning in September, our bulls are placed in their own fall grazing paddock, while receiving Bullseye Development pellet. This approach encourages movement, promoting optimal skeletal and structural soundness, rather than keeping them confined to a dirt pen.

All bulls are vaccinated, and semen evaluated prior to delivery to their new homes.

Vaccinations included before delivery:

- Fusobacterium - Fusoguard™ (foot rot and liver abscess vaccine) two doses 60 days apart
- Lice control- Permethrin
- Boosted with Bovi-Shield® Gold FP5

We look forward to visiting with you in the bull pen!

- *The Ponich's*

Genomically enhanced EPD (GE-EPD) are considerably more accurate on young animals than standard EPD. The reason is because the genetic evaluation now has a new source of information to make genetic predictions: the animal's own genome. The genome is host to a large number of known gene locations that are associated with a quantifiable effect for performance traits.

Homo Polled / Homo Black

This guy is the best Interstate bull calf to date! He was a standout on pasture all summer, we're so impressed with him that we plan to use him in our own herd. His dam, BSCC Ranch Deva 18X, has had a near perfect record. She amazes us that she can still go out and develop a bull calf like this in her advanced years. She sports excellent feet and an utter that has maintained the test of time. Sired by the KWA Interstate 6J bull, who has tremendous calving ease and impressive growth. This combination has proven greatness all over it!

SIRE Mader Night Shift 63K

Homo Polled / Homo Black
 4M is our hot shot among the Night Shift 63K sons. He combines easy calving with exceptional growth, all while showcasing outstanding docility and eye-catching style. His half-sister sold last fall to Ashworth's Farm and Ranch for \$11,000. He's the kind of bull that commands attention in the pen.

HALF SISTER TDMT 2L

Homo Polled / Homo Black

The heaviest wean weight bull calf, coming in just shy of 1000lbs. 2M is very similar to 4M in shape, structure and style. All the Night Shift 63K progeny calved easily and had excellent growth. They top it off with a lot of hair. This guy is made to bring out the best in mature cows.

Homo Polled / Hetero Black

Here is an Estate son, who's dam is directly from the Lewis Farm Mary cow family. She's a female with tons of eye appeal exhibiting perfect feet and utter structure. She is the ideal cow size to optimize production and feed. 33M has lots of fantastic features to pass down to his daughters in the replacement heifer pen.

Homo Polled / Non-Diluter

A red Estate son that is developing tons of muscle. He is very smooth made through the front, with added length. He will be one to add pounds to his future calves.

Come for a visit!

From the town of Smoky Lake, take Highway #855 and head South. Turn East on Township Road 590. Travel approx. 1.5 miles, turn North on Range Road 172A and travel approx. ¼ mile – farm is on the East side of the range road.

Terms and Conditions

Sale Terms: All lots will be sold on a first come, first serve basis, until all lots are sold. Animals are sold in Canadian dollars. The right to the bulls will not be transferred until settlement is made. No money transfers will be made or expected until purchased lot has passed a breeding evaluation by a veterinarian.

Breeder Guarantee: All bulls are registered, unless indicated in the catalog, and papers will be transferred to new owner. All bulls are guaranteed satisfactory breeders in accordance with the Canadian Simmental Association guidelines. Notification of a problem must be made immediately. In no event will the seller be responsible for reimbursing more than the purchase price. Note that EPD's are current at the time of printing.

Liabilities: Following Semen Evaluation and once a bull is purchased, Tandem T Farms will not be liable for injury, incidents and accidents to animal purchased. We highly recommend if leaving your bull on farm, that insurance is placed on your purchased lot.

Delivery: Bulls can be delivered up to 300km at no charge, at a convenient time for both the seller and buyer. Points beyond 300km will be at cost. Bulls can remain on farm until April 1st, unless otherwise negotiated.

Semen Rights: Tandem T Farms reserves the right to collect semen on any lot for in-herd use only.

Working on the nutrition program at Tandem T Farms the last few years has been a real pleasure. Thomas and Tori pay close attention to ensuring that quality feed is supplied to their sale bulls and the cows who raise them. The bull nutrition program starts with free choice access to high quality hay. With the hay as the main component, bulls are hand fed a pelleted ration designed to maximize forage utilization, provide high quality vitamins and minerals, and promote proper physical and sexual development. Should you have any questions regarding the nutrition program at Tandem T, please reach out to me.

Best of luck on sale day!
