MCAULEY, MB

---

Welcome to the 2023 edition of the Queens Of The Heartland Female Sale. Once again we feel very privileged to share this group of heifers with our customers, as well as the progressive breeders who are bringing some of their very best cattle for you to view on sale day.

Every year the comment gets made that this is our best set yet, and that rings true again this year. We are extremely proud of the group we have assembled, these heifers are selected right off the top of our replacement pen.

As you flip through the simmental offering you will notice a trend, all but three, are either sired by Monument or ai'd to him. We feel this shows our respect in the job Monument has done for us. He combines calving ease with superior growth and

thickness. His first crop of bulls were very well received in our 2023 bull sale and we are highly anticipating his first daughters to calve in January.

In the fall of 2018 we purchased a herd of Angus cows from Brent and Dale Stewart of Stewart Cattle Co. and for the last 5 years we have sold angus bulls in our yearly bull sale but never before have we sold a female with the JLN tattoo. We have grown the angus cow base to a number where we are comfortable with letting a few go. Being the first angus we have offered we knew we had to step out in a big way. After much discussion we have decided to offer choice on an exciting pair of heifer calves and a pair of breds, and are following up the choice lots with a couple of exceptional bred heifers.

Another new addition to the sale this year is couple of semen packs off the National Grand Champion Simmental Bull Wheatland Dimensional 1147J.

The heifers were preg-checked at the beginning of August, which allowed our vet to give us an accurate decision on being safe to AI date or bull. The heifers are all on a full vaccination program and will have received their first shot of Scour-Guard before the sale.

We feel we have cattle here for every budget, so please join us in McAuley on December 3rd, for some hospitality and have a look at our offering.

*From the Crew at*  
**JP Cattle Co.**

JP Cattle Co. heifers will have received their first shot of Scour Guard by sale day. Some polled tests are pending.

*From our Heartland to Yours*

## FROM THE DESK AT T BAR...

Welcome to the 2023 edition of Queens of the Heartland, on December 3rd, hosted by JP Cattle Co., at the ranch, McAuley, Manitoba with guests Scissors Creek, Rocky Meadow Ranch and Ag-Land Farms.

Wow... what an outstanding offering of breeding females as they will be "queens of the pastures" wherever they go. The depth and uniformity of this lineup which are mostly homo polled are enhanced with early A.I. services... mated to sires that will give you added value in their first calf. Whether you are looking for Simmental, Sim/Angus or purebred Angus, your selections will become foundations in your program and in these exciting times in the livestock industry, you know what the first calves are worth.

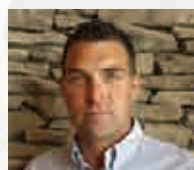

Over the past several years, the selections of sires have been very prudent and successful... at JP the Monument daughters are awesome and the other females carry the service of Monument. The folks from Scissors Creek had a very successful show at Ag-Ex and consistently offer their best. Ag-Lands offer several powerful red heifers, and the Rocky Meadows females are as uniform as raindrops. The commercial females reflect the purebreds... this is a sale one must attend if they are serious about breeding great stock with earning power.

Plan to be with us on December 3rd be it in person, online or on the phone for an exciting female sale from a great group of breeders. Feel free to contact any of the T Bar Team as they will be pleased to assist you with your selections and purchases in a confidential and professional manner.

Here's one that hurts. If the old boys had their way this one wouldn't be leaving but the younger generation says sometimes you have to do things that you don't want to do! Goldy is bred up early to the great calving ease sire 5015C and sired by Monument so look for early January calf that comes small and has explosive growth. Our loss is your gain!

# LOT

As storied of a history that the Chloe's have written already, their impact has only just begun North of the line, with the magic that makes people want to dig their heels in to own a piece of. The proof is in the pictures here with how well the Chloe X Resilient mating clicked. Resilient's maternal giant status took no hiatus here in the design of these full sisters. We feel these two females do it all right; extra rib shape, a beautifully extended front end, and a design that gives you big dreams for the future. Pick your poison between Lot 13 and 14, both have the makings to hang your hat on.

**BARBARA 056K**  
**CHOICE LOT**

When the opportunity to purchase the pick of the prestigious Blair's Ag herd presented itself in Falls View 2019, we knew we had to take a run at it. A beautiful Napoleon daughter caught and held our eyes and attention in the pens of Lanigan. Barbara 621E went directly into our donor pen, and with progeny like these, you'll see why we haven't looked back. These full sisters by the Reserve National Champion Angus Bull are the kind we strive to produce; phenotypically attractive and well balanced, with an extra bunch of performance. The mating to Gable is probably as appealing as any bull known in the Angus world. The progeny here will come easy and take off.

SCHIEFELBEIN GABLE 311  
SERVICE SIRE

The sex of the calf on the ground is an irrelevant fact; if it's a descendent of our Quality 115C donor, you know it won't miss. Her combination with our Attractive 028H herd bull who now walks the Erskine pastures of LLB resulted in this beautifully made female. She checks much of the same boxes her sire does; smooth shouldered and deep sided with an attractive head and front end. Her cross to Schiefelbein Gable builds in a flawless EPD package with an outcross pedigree.

**AI'd April 9th to Schiefelbein Gable 311. Exposed to PeakDot Profound 100J May 1st- June 15th. Vet opinion safe to AI.**

To put it simply, Lot 18 combines form and function together to the highest degree. 013K displays an extra shot of the elegant maternal strength with the robust body type and easy fleshing design that Rainfall is known. Whether the result of her mating to Gable leaves you with a bull or a heifer, know that you are getting a calf sired by one of the hottest and most desired Angus AI sires in the business.

## IDELETTE

Welcome to the 2023 edition of the Queens of the Heartland Production Sale.

We, along with Greg and Allyson, are excited to be a part of this sale, with a great group of consignors. We are proud of the heifers that we have on offer this year that are from deep within our program. All the heifers except for two are either bred to our proven heifer bull MRL Rip Zone 42J or our new and exciting homo polled, hetero black heifer bull, Ter-Ron Stratton 201K. Two black purebreds in our offering are bred to SRH Hannibal 5H. All the heifers are on the Pfizer Gold vaccination program and will have had their initial Scour Bos shot by sale day. We have taken videos and they can be viewed on [www.cattlevideos.ca](http://www.cattlevideos.ca). We encourage you to stop by the farm anytime and see the heifers for yourself, the coffee is always on. We look forward to seeing you on sale day!

**MISS 77K**

Our last LER 578C daughter to sell and one that should be staying home.

A nice "cow-head", feminine front end, bold spring of rib and a great udder coming.

578C daughters make great cows and 77K looks to be much the same.

Bred to Hannibal for a January baby who is a first calf heifers dream mating.

She will grab your attention.

This our second year bringing a group of females to this sale and we are very excited on what we have to offer once again. We want to thank the JP crew as long as the other great consignors for allowing us to be a part of this great sale. We have brought 4 Tesla daughters and a granddaughter of the great 5015C bull who has caused so much excitement since seeing the impressive set of daughters that came out of the Rplus dispersal.

These heifers were all preg tested mid July safe to there early service dates so can expect late January/ Early february calves out of each of them that should fit into most purebred breeding programs. They are either carrying

service to our percentage calving ease bull Desert Storm 95J who we bought as a high seller out of Jp's Bull sale a couple springs ago and he calved very well last year, leaving a really strong crop of calves. Also we have one heifer Aied to the Hannibal bull that has bred with great success. These heifers are on a full health program and will have had there first scour guard shot prior to sale day. We are confident in the cattle backing these great heifers and will stand behind them. If you have any questions or to view heifers don't hesitate to contact us.

We look forward to seeing you December 3rd at JP's beautiful sale facility.

Here is a heifer right off the top of our replacement pen and one that is really hard to part with. She is a direct daughter of our Tesla bull that has done so well for our program. As well as being a granddaughter of the Foxy 29B cow that Brooke, Stacy and myself have flushed with great success. Add in a shot of 5015C on the dams side and you have quite a strong pedigree. You can expect an outstanding udder and a highly productive female to add to your herd.

**Homo Polled**

**AI Bred to JPCC Desert Storm 95J Apr. 25, 2023**

**Exposed to JPCC Desert Storm 95J Apr. 28 to May 16, 2023**

**Vet opinion favorable to AI date**

215K is another daughter of Tesla that shows the power and consistency that he continues to breed into his females. Her mother goes back to a purebred Angus I purchased from Matt Glasman in a package of females years ago and is still in my herd. She is excellent footed and a super soggy made cow that always brings in a top end calf and stays in excellent shape doing so. Expect an exciting calf coming off of Desert Storm.

### BLACK 342K

Here is a fancy blaze faced granddaughter of the 5015C bull who has bred with so much success. RMR 104F is a full sibling to the dam of lot 29 who we retained and used in our own program to add some more of the 5015C x Foxy 29B genetics. RMR 104F has left an exceptional set of daughters all having really tight udders and top-quality teat size and placement. This is a heifer we should of been retaining but we wanted to bring a top quality blaze face heifer to the sale this year so here she is.

**Exposed to JPCC Desert Storm**  
**95J Apr. 28 to May 16, 2023**  
**seen bred may 2, 2023**

JPCC FOXY MORGAN 29B  
 GRANDDAM

We are excited to be involved with this sale for the fourth straight year now as we enjoy being a part of this great group of fellow breeders.

We have been breeding Simmental cattle for over 20 years and have worked hard to build a herd of high-quality females. We believe in culling hard and only keeping the very best and you can really see the results in our cowherd today.

We are offering three bred heifers from the top of our purebred pen, as well as two pens of commercial bred heifers that would work well in any herd. We strongly feel that moderate framed, easy doing females are the only kind to have and these heifers exemplify that!

We always welcome visitors if you are in the area and have time to stop in before the sale! If not, we look forward to visiting with you on sale day. We would also like to thank all of our past buyers and bidders and JP Cattle Co. for hosting this sale.

Here is a black baldie that has a great mix of power and attractiveness that is hard to find. She is big hipped, strong middled and fancy fronted. She moves freely and is structurally correct. Her dam is a part of the 9T cow family that is known for exceptional udder quality and always raising the good ones. I believe this heifer will be very productive and should produce some great calves!

**AI'd to W2 Southside 2K on Apr 5th Exposed to Eastondale Endurance 45'22 (Angus) from April 18th to June 20th.**

Here is a heifer that commands your attention and has that overall power that is hard to duplicate. She is big hiped, deep bellied and beautifully constructed. Her dam is an awesome uddered female and is strong footed. This heifer is one of our personal favourites and is going to be hard to part with. She is definitely the type that could turn into a front pasture type of cow.

**Al'd WLB Top Tier 456G on Apr 5th Exposed to Eastondale Endurance 45'22 (Angus) from April 18th to June 20th.**

35K is really strong in her lines, patterns very well and is strong hiped. Her dam is a great cow with ideal teat size and one that always keeps birth weights in check. Her sire has put many productive females in our herd and they seem to raise the top calves each year. She looks to be setting up a great udder and her early service to Southside should be exciting.

Here is your first chance to grab ahold of semen on the 2023 National Champion Simmental Bull! Dimensional certainly fits his name. You will have to travel the country to find a bull with more frame, length and depth of body. He's an absolute beast. Dimensional is a sound moving, big nuttred bull with great herd-bull presence. His mother is a powerful cow with a great Royal Flush udder. She's the kind you want more of. If you're in search of a different pedigree and incredible performance this is your ticket. They don't make these kind of bulls very often so we have decided to offer limited semen for sale and can't wait to see the impact Dimensional 1147J makes!

CONSIGNED BY JP CATTLE CO.

# NOTES

## **DIRECTIONS:**

- 2 miles from SK border
- 2 miles from Hwy 41
- Turn North at Ja-Lyn Farms sign

# TERMS & CONDITIONS

## TERMS...

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

## BIDDING...

Each animal will sell to the highest bidder...no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

## ANNOUNCEMENTS...

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

## CERTIFICATE OF REGISTRATION...

Each animal will carry papers issued by the Canadian Simmental Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

## PEDIGREE ESTIMATES

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

## LIABILITIES...

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

## RIGHTS AND OBLIGATIONS...

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected there are not covered by the terms and conditions of this sale.

## PHONE, MAIL, WIRE BIDS...

Bidders unable to attend the sale may phone, mail or wire their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

## DELIVERY...

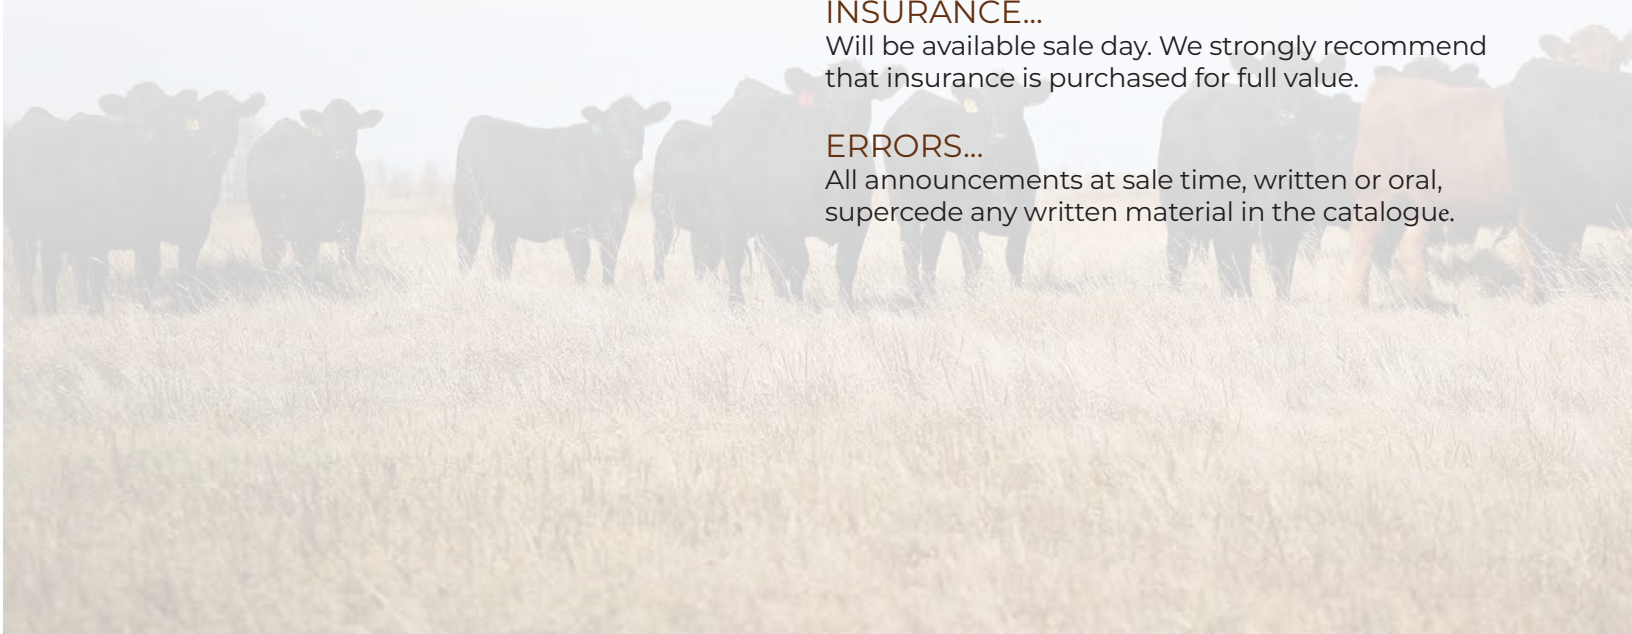

We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold.

## INSURANCE...

Will be available sale day. We strongly recommend that insurance is purchased for full value.

## ERRORS...

All announcements at sale time, written or oral, supercede any written material in the catalogue.
